

Jiggle Flan El Album

Calle and Eliel

NEW YORK CITY June 21, 2016 – BUTS INC has just announced that Puerto Rican reggaeton sensation Calle and Eliel have just released their much anticipated album Jiggle Flan El Album today on iTunes.

Born and raised in Puerto Rico, Calle and Eliel have secured musical stardom for more than 15 years in which they've sold millions of albums and have performed in cities like Miami, New York, and Veracruz. The iconic duo's first album was released under the name "Flan de Queso". This album shook the Americas turning them into classics of Latin music overnight. Since then their singles "Choco Flan", "Flan de Coco" and "Los Tigres Comen Flan" have topped the charts and won the coveted Reggaeton award "the golden thong" three times. "Los Tigres Comen Flan", according to Eliel, addresses the injustices of those that have flan and those that do not.

After BUTS INC cashed their .90 cents via AdSense from their viral YouTube video, Spanish class, they decided to invest it into the music business and sponsor Calle and Eliel's new album. Irene's Puerto Rican street smarts and Emma Ramos' spiked bra from Spanish Class closed the deal.
