

FAQs - Adobe Reader® & PDF (Apple iOS & Android)

Adobe Reader (formerly Acrobat Reader) is a free software application available across all leading desktop and mobile operating systems. Reader is the trusted standard for reliably viewing, printing and annotating PDF documents (all Sequoia CPE study materials are PDF). If you do not have Reader installed on your computing device already, download the latest version here: <http://get.adobe.com/reader/>

How to save a PDF on Apple iOS and Android Devices:

Adobe Reader is available for free download in the iTunes App Store for use on iOS devices, including iPad, iPhone and iPod touch, and in Google Play for use on Android devices. The iBooks application for iOS devices can also view and save PDF files.

- Step 1: Install Adobe Reader or iBooks (iOS only).
- Step 2: Tap the Download Course Materials button on your My Account page to open the PDF file in your web browser (Safari, Chrome, etc.)
- Step 3: Tap the PDF file to reveal the opening options and choose Open in Adobe Reader or Open in iBooks.

To quickly find and open a previously downloaded PDF, simply open Adobe Reader or iBooks and tap the PDF file you would like to view.
