

# PASTURED PORK

## HALF OR WHOLE PIG

Our heritage breed pigs, Tamworth and Large Black from Adirondack Heritage Hogs, are raised on our organic pasture and fed whey from our creamery, grains from the local mill, and whatever else they root up in their pasture and woods. They are excellent cultivators and help us create new patches of land for planting crops. Their diet creates truly delicious and healthy pork. We raise pigs seasonally, getting them as piglets in the spring from a local breeder. After six months of a healthy diet and active lifestyle, they are harvested in early fall.

In the fall, we are able to sell a limited number of half and whole pigs to interested customers. This is a great way to guarantee a supply of our tasty pork all year long.
