Zinnia, Red Scarlet		Gorgeous, deep scarlet, high-quality blooms make this a great cut flower!

BIENNIAL FLOWERS	Extra	Latin Names
Hollyhock, Single Pink	Self seeds	Long bloom period; cotton candy pink flowers attract hummingbirds and butterflies.

PERENNIAL FLOWERS	Extra	Latin Names	Notes
Bay Magnolia	Native	<i>Magnolia virginiana</i>	Shrubby tree with oblong-lanceolate shaped shiny green foliage contrasts with the cup-shaped, sweetly fragrant, creamy-white, waxy 2-3 in flowers; cone-like fruits with bright red seeds in fall; 15-20 ft (60 ft in the South!)
Bee Balm, Red	Native	<i>Monarda didyma</i>	Striking rich red fluted spider-like blossoms; aromatic foliage; found in prairies; use tea for headaches, indigestion, colds; attracts butterflies, bees and hummingbirds (2-4 ft); deer resistant.
Black Cohosh	Native	<i>Actaea racemosa</i>	Impressive, tall candle-like white flowers atop a large bush-like plant are perfect in a shade or border garden; host plant and/or nectar source for the Spring Azure butterfly; medicinal uses include treatment of snakebite and lung inflammations (4-6 ft)
Black-eyed Susan, Chim Chiminee		<i>Rudbeckia hirta</i>	Unique, quilled petals in shades of yellow, milk chocolate, bronze, and gold make for great borders and cut flowers (2-2.5 ft)
Blue Vervain	Native	<i>Verbena hastata</i>	Terminal spikes of bristly blue-violet flowers; roots and leaves used as tonic for the nervous system, working on the liver and lungs (5-6 ft)
Boneset	Native	<i>Eupatorium perfoliatum</i>	Pure white flowers grow atop plants that stand out in late summer; originally believed to assist the setting and healing of bones (3-4 ft)
Brown-eyed Susan	Native & Self seeds	<i>Rudbeckia triloba</i>	Tiny profuse yellow flowers with chocolate-brown centers stand out in a late summer garden (2-5 ft)
Butterfly Weed (it's a type of Milkweed)	Native	<i>Asclepias tuberosa</i>	Flat-topped clusters of bright orange flowers loved by beneficials (1-2 ft)

Columbine, Eastern	Native & Self seeds	<i>Aquilegia canadensis</i>	Dove shaped deep pink and yellow flower (1-2 ft)
Coneflower, Purple	Native	<i>Echinacea purpurea</i>	Gorgeous lavender petals circle rusty orange eye (2-5 ft)
Coreopsis, Dyer's	Native	<i>Coreopsis tinctoria</i>	Deep mahogany bloom used as a natural dye (2-3 ft)
Coreopsis, Early Sunrise (Lance leaf)	Native	<i>Coreopsis grandiflora</i>	Golden daisy-like blooms that are incredibly hardy and a must have in any native flower garden! (2-3 ft)
Culver's Root	Native	<i>Veronicastrum virginicum</i>	Upright, unbranched plant with candelabra-style, densely packed, white flowers with a slight purplish hue, with dark green foliage (5 ft)
Goldenrod, Showy	Native	<i>Solidago rigida</i>	Sprays of bright yellow flowers atop tall spikes (1-5 ft)
Great Blue Lobelia	Native	<i>Lobelia siphilitica</i>	Tubular lavender blue flowers alternate w/leaves (2-3 ft)
Joe Pye Weed	Native & Self seeds	<i>Eupatorium maculatum</i>	Tall, strong stems boast a similar color as the dusty-rose colored flowers; magnet for many species of butterflies; spreads widely so choose location wisely (6 ft)
Milkweed, Common	Native	<i>Asclepias syriaca</i>	Fragrant pale-pink flower clusters; drought tolerant; loved by beneficials but is the primary food source for Monarch Butterfly larva (3-4 ft)
Milkweed, Swamp Rose	Native	<i>Asclepias incarnata</i>	Umbrella shaped fragrant deep-rose pink flowers; also, a major food source for Monarch Butterfly larva (4-6 ft)
Mint, Dotted	Native	<i>Monarda punctata</i>	Distinct yellow and lavender bracts surround the true flowers; aromatic; great source of nectar for beneficials (1-2 ft)
New England Aster	Native & Self seeds	<i>Symphotrichum novae-angliae</i>	Late bloomer with blooms ranging from purple to pink with orange-yellow centers; fall food source for many beneficial insects (5ft)
New York Ironweed	Native	<i>Vernonia noveboracensis</i>	Large branched clusters of violet purple flowers (5-8 ft)
Red Cardinal Flower	Native	<i>Lobelia cardinalis</i>	Flaming red tubular flowers sit atop a tall spike (1-4ft)
Viola, Helen Mount	Self seeds	<i>Viola odorata</i>	The true Johnny-Jump-Up with 1-2" tricolor flowers in purple, yellow, and white; edible sweet flowers with slight wintergreen flavor.
Yarrow, Summer Pastels Mix	Native	<i>Achillea millefolium</i>	Beautiful mix of flat-topped pastel colors; beneficial insects love it (2-4 ft)

ANNUAL FRUIT	Extra	Notes
Cantaloupe		Super sweet melon perfectly sized for individual enjoyment; disease resistant.
Watermelon, Golden		Smaller; dark salmon colored flesh and a rind that turns golden when ripe.
Watermelon, Sugar Baby		The #1 icebox sized melon; 6-10 lbs.; great for our climate; sweet deep red flesh.

PERENNIAL FRUIT	Extra	Notes
Black Chokecherry	Native	Large shrub provides habitat for wildlife; great landscape variety with deep roots that prevent soil erosion, or can be used as a windbreak; multi-use medicinal plant.
Blackberry, Thornless		Early summer bearing; semi-erect canes produce big sweet berries; this year's stock is from a local farmer.
Blueberry		Sweet and succulent fruits packed with vitamins and minerals; major health benefits; can be tricky to establish if proper levels of acidity are not maintained in the soil.
Cornelian Cherry (Dogwood)		Provides habitat for wildlife; low-maintenance, partially self-fruitful; pest and disease resistant; three-season tree with yellow flowers.
Cranberry, Highbush		Provides habitat for wildlife; more flavorful fruit than other varieties; medicinal.
Elderberry, Seedling	Native	Clusters of creamy white flowers; excellent multi-purpose medicinal plant and loved by wildlife!
English Hawthorn		Shrub-like, thorny, low-branching, dense tree with shiny dark green foliage and small white flowers; "haws" aka fruit used for medicinal teas, tinctures, and syrups; leaves, buds, flowers, and seed also have health benefits.
Golden Raspberry		Everbearing, delicious sunshine-colored fruit with unique flavor; cold hardy and heat tolerant.
Hardy Fig, Olympian		Hardy tree; large purple fruits with dark pink-red interiors
Hardy Fig, Violette de Bordeaux		Hardy dwarf tree; deep purple fruits with dark red interiors. Can be grown in a large pot!

Ninebark	Native	Three-season deciduous shrub (5-8 ft) with white flower clusters; exfoliating bark makes it a great ornamental. Excellent habitat for wildlife
Paw Paw Seedlings	Native	Native tree with a banana like custard fruit, you need to have 2 for pollination
Plum Seedlings		These are beach plums and we can grow them even though we don't live at the beach; low maintenance; you need 2 to enjoy fruit; the "Nana" is a dwarf variety and the "ECOS" is a hardy classic beach plum
Red Raspberry, Everbearing		Hardy productive canes with sweet, deep red berries
Rhubarb, Victoria		Lovely green stalks blushed with pink; delicious tart flavor
Rosa Rugosa		Vigorous shrub that requires careful maintenance; sweetly scented dark pink to white blooms; sizeable rose hips; considerable resistance to rose rust and black spot; medicinal uses.
Strawberry, Everbearing		Pale pink flowers; several harvests; good for strawberry pots.

VEGETABLES	Frost	Notes
Arugula	Hardy	Cool season crop; harvest frequently for constant supply; mustard-like flavor.
Beans, Green (Bush)	Tender	Classic garden green beans on a compact bush-type plant.
Beans, Haricot Vert (Bush)	Tender	Very productive slim and tender bush green beans; classic French "filet" bean
Beans, Lima (Bush)	Tender	Plants have dense foliage, are heat and drought tolerant; 4 in. pods with greenish-white seeds that have a nut-like flavor.
Beans, Purple Romano (Bush)	Tender	Healthy, robust plants with deep violet stems, lilac blossoms, and shining royal purple 5 in. pods; grow up to 2 ft; pods great for eating fresh or cooking.
Beans, Rattlesnake Pole	Tender	Sweeter than most beans with gorgeous purple streaks on each pod, we love that we can harvest foot-long beans that are still tender and delicious.
Beans, Red Swan (Bush)	Tender	Lovely rose-colored bush beans that are superb for fresh eating.
Beans, Romano Pole	Tender	Classic wide, flat green beans that vine and climb to 6 ft; perfect for teepee trellises; violet flowers attract butterflies and hummingbirds; luscious and abundant 8" long green romano pods stay crisp and tender.
Beans, Yellow Wax (Bush)	Tender	Old fashioned yellow bush bean that is great in salads and pickled.
Broccoli	Hardy	Compact heat tolerant variety; harvest side-shoots after head; leave left over flower heads for beneficial insects.
Brussels Sprouts	Hardy	May need a little TLC, but so worth it- especially after a frost.
Cabbage, Caraflex	Hardy	Pointed mini cabbage; super uniform, small heads have great wrapper leaves and tender, crunchy inner leaves with sweet, mild cabbage flavor.
Cabbage, Golden Acres	Hardy	Classic large green heads great for slaws, krauts and more.
Cabbage, Red Express	Hardy	Stunning large purple heads that can be used just like green cabbage.
Cabbage, Famosa Savoy	Hardy	Deep blue-green 2-4 lb. heads with yellow tinted interior; tender leaves with good flavor; intermediate resistance to Downey mildew.
Cauliflower	Hardy	Uniform cold tolerant self wrapping creamy heads.
Chard, Rainbow	Hardy	Outstanding color! Bright pinks, yellows, reds, and more (LIMITED- early spring)
Chicory, Red Dandelion	Hardy	Not a true dandelion; jagged-cut leaves with reddish-maroon rib, bitter flavor with strong pepper finish, like other varieties of chicory.
Claytonia, Miner's Lettuce	Hardy	Sweet tasting leaves you can cut-and-come again (up to three harvests).
Collards, Green	Hardy	Compact plant with delicious classic stewing greens.
Collards, Ole Timey Blue	Hardy	Hails from Alabama; some folks use it to make a dish like sauerkraut; blue-green leaves and purple stems/veins; very good eating qualities.
Corn, Strawberry Popcorn	Tender	Small two-inch, strawberry-shaped ears are great for popping, or decorating in the fall! Plants reach 5-6 ft tall with 2-4 ears per stalk.
Corn, Sweet	Tender	Sugary enhanced bicolored sweet corn; perfect fresh or cooked; buttery!!
Cress, Wrinkled Crinkled	Hardy	Peppery salad green with curly, parley-like leaves and radish-like flavor.
Cucumber, Lemon *	Tender	Round lemon-yellow fruits with delicate flavor and delicious crunch; easy to grow, and great in containers.
Cucumber, Mex. Sour Gherkin *	Tender	Tiny tart cukes that look like watermelons- kids love 'em!
Cucumber, Persian	Tender	No need to peel or seed these; harvest at 6"; wonderful for cucumber salad.
Cucumber, Pickling *	Tender	Classic cukes for refrigerator pickles, canning or fresh use.
Cucumber, Silver Slicer	Tender	Long 7-8" cukes with a creamy-white tender skin, crisp and non-bitter; heavy setting plant resists powdery mildew and produces into September.
Cucumber, Slicing	Tender	Classic cuke with sweet flesh and a snappy crunch.

Kale, Beedy's Camden	Hardy	Gorgeous large flat ruffled leaves, versatile in the kitchen; heirloom.
Kale, Curly Green	Hardy	Classic "curly" green leaves.
Kale, Lacinato	Hardy	Dark green leaves also known as Dinosaur Kale or Italian Kale.
Kale, Portuguese	Hardy	Bit more heat tolerant than other kales; large, flat, rounded leaves with white veins; more succulent and cabbage-like flavor than other kales; enjoy the fleshy stems or petioles as well; exciting addition to an already illustrious group!
Kale, Rainbow Lacinato	Hardy	Beautiful purple stems and a lighter green leaf than Lacinato.
Kale, Red Russian	Hardy	Flat oak leaf shaped leaves with a pretty purple stem.
Kale, White Russian	Hardy	Lovely ruffled oak shaped leaves and a delicate white stem.
Leeks	Hardy	Cold hardy; grow in a bunch or separate for bigger stems.
Lettuce, Blushed Butter Oaks	Hardy	Speckled compact oakleaf butterhead with sweet tender green and blushed pink leaves, with a buttery taste; better-than-average frost tolerance.
Lettuce, Cinnamon Oak	Hardy	Speckled compact red oakleaf with tight-blanching heart, 10 inches across; resistance to tip burn.
Lettuce, Green Deer Tongue	Hardy	Heirloom leaf lettuce with thick green pointed leaves emerging from a compact center; rich nutty flavor that doesn't turn bitter.
Lettuce, Australian Yellow	Hardy	Neon yellow-green ruffled leaf lettuce with a sweet crunch.
Lettuce, Jadeite	Hardy	Small romaine -style with lime green leaves and blanched yellow hearts; intermediate resistance to downy mildew.
Lettuce, Jester	Hardy	Crisp-head , juicy with flashy red speckles on semi-savoyed leaves and crisped margins like a Jester's attire; slow bolting in any season; can be harvested at open head stage or as a semi-tight pink-hearted blanched head.
Lettuce, Merlox Red Oak	Hardy	Deep maroon oakleaf with a hint of green in the centers; minimal bitterness; very winter hardy, resistant to downy mildew golden sheen.
Lettuce, Specialty Mix	Hardy	Beautiful mix of sweet tender leaves perfect for baby greens.
Lettuce, Spicy Mesclun Mix	Hardy	Eye-catching mix of spicy greens that add a kick to your salad.
Mache	Hardy	The hardiest green we sell! Delicate and tender with a sweet and nutty taste.
Mizuna	Hardy	Mild spicy mustard green with a feathery edge.
Mizuna, Red	Hardy	Gorgeous red veining on this eye-catching mustard green.
Okra, Red Burgundy	Semi-Hardy	Stunning ornamental and culinary delight; harvest pods at 4 inches for optimal flavor.
Onion, Red	Hardy	Beautiful red onions that are our go-to fresh eating onion; can be grown in bunches or single, full-sized bulbs.
Onion, Yellow	Hardy	Large yellow onion with thick skins, great keeper.
Pac Choi, Green	Hardy	Dark green, succulent leaves suitable for summer and fall crops.
Pac Choi, Purple	Hardy	Purple leaf tops contrast with green veins and stems; quick growers, best harvested as baby-leaf greens.
Peas, Shelling	Hardy	Vines grow to 28 inches; often double-borne pods with 8-11 peas each.
Peas, Snap	Hardy	Short vines that need no support.
Peas, Snow	Hardy	Tall vines that can grow up to 6'.
Purslane, Golden	Tender	Round, thick oval leaves with fresh, tangy flavor; packed with Omega 3s.
Radicchio, Palla Rossa	Hardy	Produces well-wrapped, dense magenta heads, but with some color variations; can be used as cut-and-come-again or harvested as a head in the fall.
Scallions	Hardy	Cold hardy slender white and green scallions.
Shallots	Hardy	Classic red French shallots.
Sorrel, French	Hardy	Tart lemony salad green; puree for soup; excellent with fish.
Summer Squash, Cocozelle (Zucchini)	Tender	Productive, tasty Italian variety with a bush growth habit and attractively striped fruits like Costata; slightly nutty flavor.
Summer Squash, Costata Romanesco (Zucchini)	Tender	Gorgeous sweet and nutty Italian striped zucchini; grows like a beast!
Summer Squash, Green Dunja (Zucchini)	Tender	The classic; stuff the flowers with goat cheese and sauté for a delicate snack.
Summer Squash, Ronde de Nice (Zucchini)	Tender	Bush type with small round-shaped mottled zucchini; great for stuffing.
Summer Squash, Yellowfin (Yellow Zucchini)	Tender	Excellent summer squash, flavor is superior to most other yellow squash.
Summer Squash, Y-Star Patty Pan	Tender	Bright yellow fruit with green stars on blossom end; harvested small they are sweet and tender; open plant habit with minimal spines.

Tatsoi	Hardy	Quick, hardy, cut-and-come-again green; spoon-shaped thick dark green leaves form compact rosettes with mild brassica flavor; many culinary uses.
Winter Squash, Jack O' Lantern	Tender	Perfect pumpkin for carving with the kids!
Winter Squash, Musque de Provence	Tender	Fairytale pumpkin ; thick, deep, orange, moderately sweet flesh; long storage.
