

Instructor Assessment

School

Classes

To the best of your knowledge, do you feel that your students have met the goals listed at the beginning of each module that you used?

Did you use the entire curriculum in your course? If you used selected modules, which ones did you use, and why did you select them?

In your professional opinion, how could the curriculum be improved, in terms of content, format, activities, etc.?

Will you be using this curriculum again? Why or why not?
