

Meadow Haven Farm
invites you to... **MEET YOUR EGGS**
FROM THE GROUND UP

OUR FARM FRESH EGGS ARE BETTER THAN STORE-BOUGHT. HERE'S WHY:

Our eggs are only days old when you buy them, as opposed to weeks old from the store. That's because we think fresh is better, and we want you to experience the **freshest, tastiest** egg possible.

Did you know that our eggs have more Vitamins A, E, and D than store-bought? Also, our eggs are higher in cancer-fighting beta carotenes and Omega 3s, and of course, our chickens are **antibiotic-free!**

Our eggs have the **highest "5 EGG" rating** according to Cornucopia.org's Organic Egg Scorecard. That means our chickens are raised in "exemplary" conditions, making us... **"BEYOND ORGANIC"!**

OUR PASTURE RAISED CHICKENS HAVE ACCESS TO OUTSIDE YEAR-ROUND!

OUR CHICKEN FEED IS

Rich in minerals and organic matter; made from **Organically Certified** feed that is mixed on our farm (no pesticides, herbicides, fungicides, or chemical human-made fertilizers; we use the built-in soil fertility and rich sources of added nutrients through animal manures; and we apply extra calcium in natural mined forms, along with approved trace mineral amendments.
