

Untiedt's Vegetable Farm, Inc.

2020 CSA Member Agreement

Becoming a Part of Our Farm:

Community Supported Agriculture (CSA) is a relationship between our farm and you as our customer. Rather than simply purchasing produce from our vegetable stands, our customers become "members" of our CSA farm and receive a portion of our farm's harvest.

Our CSA runs for 17 weeks, from mid-June to October. Members are responsible for picking up their shares from their designated pickup sites each week. We provide our members with the best of what's in season. Varieties and quantities may vary throughout the season, but we grow over 50 different crops to include throughout the CSA growing season. Sometimes Family shares will receive products that Mini-shares do not.

Our Growing Practices:

At Untiedt's we have made a commitment to grow NO GMO fruits or vegetables. We are not a 100% organic farm, rather we are committed to growing the highest quality produce in a natural and sustainable way.

Sharing in the Risks and Rewards of the Farm:

We promise to do our best to provide you with a bountiful share each week. The quantity of produce, however, may vary from week to week due to extreme weather, insects, or other production factors despite our best efforts. By joining our CSA, you are agreeing to share the risk of crop failure with us and other members. In the unlikely event of a crop failure, we compensate for the failed crops by filling your share with other crops grown on the farm that are ready for harvest at that time. At Untiedt's, we incorporate risk management into our crop production to ensure we can supply our CSA members with a variety of crops throughout the entire season.

At Untiedt's, we value each and every CSA member. Our priority is to honor the commitment to fill shares each and every week. In addition to our CSA, our farm also sells to a variety of other outlets. Please note that we make sure to honor our commitment to our shareholders prior to supplying other locations with produce.

At times our retail locations will carry products such as berries, while the shares will not have any. Certain points throughout the season, it is impossible to ship berries due to high temperatures. We must pick berries every day to keep invasive pests from damaging the entire crop, limiting the amount for the CSA. We do however set aside certain weeks throughout the summer and fall to solely pick berries for CSA members.

Each growing season is different, therefore altering the product graph slightly. Weather is out of our control, but we work diligently to ensure that we provide a variety of produce for all of our CSA members.

Communicating With Us:

The best way to communicate with us is via email or phone. Please email Colleen at Colleen@untiedtswegrowforyou.com or call our office at 763-658-4672. Please contact us with any news of the following:
