TYPES OF TARGETING AVAILABLE

- **CRM Data Targeting** – leverage highly qualified 1st party database to serve ads on individual devices across the internet without having that individual visit the “brand” website
- **Geo Targeting** – leverage highly qualified 1st party database to serve ads on individual devices across the internet within a specific geographic location
- **IP Address Targeting** – reach a highly qualified audience based on the location of an IP address

COST

- **Display:** \$55 cpm; \$2,500 min. (approx. 125,000 impressions)
- **Video:** \$85 cpm; \$3,500 min. (approx. 58,000 impressions)
- **IP Address Targeting:** Cost based on target data and selects
- **Geographic Targeting:** Cost based on target data and selects

WHAT IS NEEDED

Creative Guidelines

- Creatives cannot appear sideways or upside down.
- Creatives with partially black or white backgrounds must add a visible border of a contrasting color to the majority background color of the ad.
- All creatives must open a new page on click.
- Animated ads are restricted to a maximum of 15 seconds of looping, after which point they must remain static.
- Display creatives should be no more than 150KB max.
- In-banner video creatives should have no more than a 50KB max file load and a 2MB load for the secondary file.
- There is no length limit for click to start video ads, but the video should immediately go to the landing page upon completion.
- For auto-start video ads, there is a 15-second limit. Audio should not be heard unless initiated by a mouse-over; video should be backstopped by a static 300x250 image which should click through to a landing page.
- All in-banner video ads must include the play, pause, mute and unmute controls.

Display ads

- Image files: GIF, JPEG, JPG, PNG, HTML5
- Ad sizes: 160x600, 300x250, 728x90

Video ads

- Video files: .MP4, .FLV, .WEBM, .MOV, .MPG, .MPEG
- Video sizes: 1920x1080, 640x480
- Video lengths: 15 seconds, 30 seconds
