

THE INDUSTRY'S MOST ADVANCED PAYMENT PLATFORM

Our suite of innovative, secure, and powerful technologies help us deliver a best-in-class payment experience for our merchant customers.

LAYERED SOLUTIONS FOR IRONCLAD SECURITY

Our technologies work together to provide merchants and their customers with unparalleled protection against data breaches, making sure sensitive cardholder data is never exposed during (and long after) the transaction.

DELIVERING UNMATCHED RELIABILITY AND PERFORMANCE

Our secure payment platform delivers industry-leading features and capabilities that meet your customers' needs and gives you all the tools to successfully run businesses of all types and sizes.

PAYMENT TYPES

- Credit, debit, EMV, gift card, private-label card, and mobile POS
- NFC (Apple Pay, Google Pay, Samsung Pay)
- QR code ordering and payments
- Casino payment features like original credit transaction (OCT), BIN blocking, and more
- Alternative payment methods, including Trustly, Tappp, WeChat Pay, Alipay, PayPal, Venmo, and more

INTEGRATION OPTIONS

- 450+ integrations with POS/PMS providers in every industry
- Devices from Ingenico, ID TECH, PAX, Innowi, and more
- Countertop, mobile, self-service kiosk, and MO/TO device options
- In-house key injection facility (KIF)

FAST AND RELIABLE CONNECTION

- Fully redundant and geodiverse hot-hot data centers
- Adaptive Routing finds the fastest route to our data centers
- Assured Delivery prevents lost or duplicate transactions
- Offline payment capabilities in case of lost internet connection

CENTRALIZED ENTERPRISE MANAGEMENT

- Scalable for multinational and enterprise needs
- View/manage every revenue center across all locations from one screen
- Manage card-present, eCommerce, and mobile transactions together
- One call to our 24/7 in-house Support team for all your payments needs

AUDITING, ACCOUNTING, AND REPORTING

- Pre- and post-settlement transaction auditing
- 24-month rolling transaction archive
- Monitors and prevents "trusted employee" fraud
- Unlimited users at no extra cost
