

Item description

Preparing machines and systems for faster startup: e!COCKPIT the new engineering software shortens development time for automation projects while impressing with a modern and clearly laid out user interface. At the software's core is CODESYS V3, which provides the simple and versatile creation of applications.

Ensuring a project's long-term viability through sustainable cost savings hinges on a user's ability to quickly adapt to new software that offers a high degree of reusability. This sharpens your competitive edge by reducing your time to market.

WAGO set out to fulfill these exact requirements by developing its own engineering software: e!COCKPIT. This integrated development environment supports every automation task from hardware configuration, programming, simulation and visualization up to commissioning — all in one software package.

Use the programming tool to cover all important automation bases while simultaneously engineering particularly complex projects quickly and easily.

Configuration and Parameterization

The integrated e!COCKPIT configurators provide modern operating tools and workspaces, such as:

- Graphical network topology: Complex dependencies between network participants and their current states are easily and intuitively accessed.
- Drag & Drop: Simplifies interaction with devices.
- Copy & Paste: Individual devices or whole network branches can be duplicated quickly.
- Batch processing: Parameter values are set simultaneously for several devices.

Programming

e!COCKPIT offers multiple software development options:

- IEC 61131-3 PLC programming languages: Structured Text (ST), Ladder Diagram (LD), Function Block Diagram (FBD), Instruction List (IL), Sequential Function Chart (SFC), Continuous Function Chart (CFC)
- For flexibility, all programming languages can be combined with one another.
- Created programs can be easily debugged on the engineering PC via simulation.
- New paradigms such as object-oriented programming are included.

Visualization

Advanced user interfaces for operating and monitoring machines are standard. Today, HMI-based design is a critical factor that influences the purchase of an entire automation line. e!COCKPIT employs Drag & Drop to streamline the design of modern user interfaces. The integrated visualization editor provides:

- Access to IEC program variables.
- Closed simulation of HMI and PLC program on the engineering PC.
- Guaranteed language independence via Unicode character set.
- Current standards such as HTML 5 or CSS.

Diagnostics

Being acutely aware of the automation network's current status is an absolute must for the rapid detection and elimination of errors — be it during development in the office or directly on the machine during commissioning.

e!COCKPIT provides comprehensive diagnostic capabilities:

- Individual views always display the controllers' status information, for example, both graphically and in tabular form.
- To keep project on time, error messages are transmitted directly and clearly.
- The structured wiring test function systematically identifies wiring errors.

Note:

Data

System requirements

Supported operating systems	Windows 7 (32- and 64-bit) Windows 8 Windows 8.1 (32- and 64-bit) Windows 10
Processor	Core2Duo
RAM memory	4 GB
Hard disk storage	min. 9.77 GB
Graphics resolution	1,366 x 768 px

Software data

Supported devices	Controllers based on CODESYS 3;; I/O modules (750/753)
Supported fieldbuses	CANopen, MODBUS TCP/UDP, MODBUS RTU, PROFIBUS
Supported device descriptions	DTP, EDS, GSD
Connectivity	TCP, USB, OPC, CODESYS network variables, CODESYS DataServer
Programming languages per IEC 61131-3	ST, LD, FBD, IL, FC, CFC
Import/export formats	CODESYS 3 project files (*.project)

Delivery

License type	Multi-user license
Delivery type	Installation file (download)
License type note	Multi-user license: Can be installed up to the number specified
License type note (2)	Internet connection may be required for license activation.

Commercial data

Country of origin	QU
GTIN	4055143327305
Customs Tariff No.	88888888888

Compatible products

General accessories

	Item no.: 750-923 Configuration cable; USB connector; Length: 2.5 m	750-923
	Item no.: 750-923/000-001 Configuration cable; USB connector; Length: 5 m	750-923 /000-001

software

Tutorial

Retrieve data from a meter using the M-Bus module 753-649	1.0 Sep 8, 2017	mp4 130.1 MB	Download
---	--------------------	-----------------	----------

In this video we are demonstrating how to read an electricity M-Bus meter by using the M-Bus module 753-649 in e!COCKPIT. Contents: 0:22 Set up the hardware configuration; 0:43 Insert WagoAppM_Bus library; 1:01 Add the master function block; 1:40 Add the meter function block; 2:14 Create a timer; 3:03 Convert units; 3:59 Start the program; e!COCKPIT version used: 1.3.1.4; Controller used: 750-8202 (FW10)

Store process data using the WagoAppDatalogger	1.0 Aug 15, 2017	mp4 123.2 MB	Download
--	---------------------	-----------------	----------

In this video we are demonstrating how to store process data on the Controller using e!COCKPIT and the WagoAppDatalogger library. Contents: 0:21 Add WagoAppDatalogger library; 0:47 Insert datalogger function block; 1:38 Set up configuration parameters; 2:33 Initialize channels; 3:12 Optional: Add visualisation; 3:44 Start datalogger; e!COCKPIT version used: 1.3.1.4; Controller used: 750-8100 (FW10)

Use Frames for Visualisation Templates in e!COCKPIT	1.0 Oct 9, 2017	mp4 151.3 MB	Download
---	--------------------	-----------------	----------

In this video we are demonstrating how to create a template visualization and use it in frames. Content: 0:22 – Create Visualization; 1:01 – Define the Interface; 2:11 – Creating Variables in the Program; 2:41 – Insert Frames; 3:43 – Optional: Switch Frames

Application Notes

Application Note e!COCKPIT

eCOCKPIT application note WagoAppKNX This quick start guide outlines the necessary steps for creating an application with the KNX/EIB/TP1 module.	V 1.0.0 Jan 23, 2018	zip 1.7 MB	Download
eCOCKPIT application note WagoAppBuilding This application note describes the use of the WagoAppBuilding library using sun protection macros.	V 1.0.0 Jan 23, 2018	zip 3.4 MB	Download
e!COCKPIT application note WagoAppControlSuite This application note describes the WagoAppControlSuite.library . It provides basic function blocks for control engineering applications.	V 1.0.0 Mar 16, 2018	zip 1.0 MB	Download
eCOCKPIT application note installation MySQL-Server This Application Note explains how a MySQL-Server can be set up and used on a PFC 200. The Application shows how measurement values of the 3-Phase Power Measurement Module can be written into a database.	V 1.0.0 Jan 23, 2018	zip 4.2 MB	Download
e!COCKPIT application note WagoSolHKW The Application Note explains how communication between the WAGO-I/O-SYSTEM and an HKW electronic weather forecast station (compact) can be established.	V 1.0.0 Jan 23, 2018	zip 747.8 kB	Download
eCOCKPIT application note WagoAppM_Bus This application note describes how connecting energy meters via the M-Bus Master Module to the WAGO-I/O-SYSTEM 750 can be established. In addition, the application note also describes the function and export of the included sample project that can be used to read M-Bus meters.	V 1.0.1 Jan 23, 2018	zip 2.3 MB	Download
eCOCKPIT application note WagoAppScheduler This application note describes different applications of the WagoAppScheduler library.	V 1.0.0 Jan 23, 2018	zip 1.1 MB	Download
eCOCKPIT application note WagoAppSMI This application note describes the basic procedure for connecting and controlling SMI drives (Standard Motor Interface) with the WAGO SMI Master Module (753-163x).	V 1.0.0 Jan 23, 2018	zip 1.4 MB	Download
e!COCKPIT application note HVAC macros WAGO provides system macros for HVAC applications that are based on WagoAppBuilding_HVAC library	V 1.0.0.5 Feb 6, 2019	zip 21.2 MB	Download
e!COCKPIT application note WagoAppDALI This application note describes the WAGO DALI Configurator, the integration of the DALI visualization for configuring ECG's and the implementation in an e!COCKPIT application.	V 1.0.0 Jan 23, 2017	zip 2.5 MB	Download
eCOCKPIT application note WagoSolElsner This application note describes how communication can be set up between the WAGO I/O System and the ELSNER P03/3 weather station with a Modbus interface.	V 1.0.0 Jan 23, 2018	zip 677.1 kB	Download
eCOCKPIT application note WagoAppDatalogger	V 1.0.0	zip	Download

This application note describes the use of the WagoAppDatalogger. Up to 160 analog or digital signals can be recorded.

1.6 MB

eCOCKPIT application note WagoAppDMX	V 1.0.1	zip	Download
This application note describes how a DMX master for DMX device control can be performed via 750-652 serial interface.	Mar 16, 2018	1.5 MB	

eCOCKPIT application note WagoAppMP_Bus	V 1.0.0	zip	Download
This Application Note explains how a WAGO fieldbus controller sets up communication to the MP-bus actuators via the MP-bus master module (750-643).	Jan 23, 2018	983.4 kB	

e!COCKPIT Anwendungshinweis: Wago Cloud IO-Connector	V 1.0.1	zip	Download
The "WAGO Cloud-I/O-Connector" application automatically identifies the process image on the local bus and creates a tag configuration for the communication with the WAGO cloud. The application is transferred to a PFC (750-8207) via SD card as an executable image. The application is parameterized via Web visualization.	Apr 20, 2018	74.8 MB	

e!COCKPIT application note WagoAppWeatherForecast	V 1.0.0	zip	Download
This application note describes the WagoAppWeatherForecast.library. It provides access to the meteorological services OpenWeatherMap, World Weather Online and Apixu.	Mar 16, 2018	940.8 kB	

eCOCKPIT application note WagoAppEnOcean	V 1.0.0	zip	Download
This application note describes how communication between the WAGO I/O-SYSTEM and different EnOcean wireless sensors can be implemented using the WagoAppEnOcean library.	Jan 23, 2018	1.1 MB	

e!COCKPIT Anwendungshinweis ToPass	V 1.0.0.1	zip	Download
The TO-PASS® application (750-8207) makes it possible to send error messages via SMS and transfer the process data to an Internet portal via HTTP (e.g., www.to-pass.com).	Apr 20, 2018	79.7 MB	

e!COCKPIT application note Mobotix	V1.0.0	zip	Download
This application note describes how communication between the WAGO I/O System and a Mobotix IP video camera with PoE+ (Power over Ethernet) (TCP/IP) interface is realized.		3.0 MB
