

## Item description

### Function:

MQTT is a powerful IoT protocol that has developed into a standard in many industrial automation applications. The PFC200 controller (generation 2) and the touch panel 600 support an MQTT connection by default. With "Multi Cloud Connectivity", the parallel connection of a device to two different cloud systems, IoT platforms or MQTT brokers is possible. This means that different tasks can be implemented in the appropriate cloud application. For example, device management is possible in the WAGO cloud, while specific tasks are carried out in another cloud solution, e.g. B. on IBM Watson, Amazon Web Services (AWS) or another specialized IoT platform. The data can also be split up. The critical data can go to a local MQTT broker and the less critical data to a cloud.

### Your Advantages:

- More options and flexibility
- Simple error analysis through configuration in the WBM,
- Programming in *e!COCKPIT*
- Use the advantages of two cloud solutions / IoT platforms.

Subject to changes. Please also observe the further product documentation!

WAGO Corporation  
Germantown, WI 53022  
Phone: 1-800-DIN-RAIL (346-7245) | Fax: (262) 255-6222  
Email: [info.us@wago.com](mailto:info.us@wago.com) | Web: [www.wago.us](http://www.wago.us)

Do you have any questions about our products?  
We are always happy to take your call at (262) 255-6222 or 1 800-DIN-RAIL.

**Commitment:**

The license is recorded in *e!COCKPIT* assigned to a PFC200 (Generation 2) / Edge Device / Touch Panel controller and loaded into the device together with the project. No further installation steps are required.

**Data****System requirements**

Other required software	e!COCKPIT Version: V1.7; Minimum firmware version: 17
-------------------------	---

**Delivery**

Delivery type	License certificate by email (necessary library provided via e!COCKPIT)
License type (note)	Single license allows installation on one device. One license per device is required.
Note on license type (2)	A PC with both Internet connection and e!COCKPIT may be required for license activation.

**Commercial data**

Country of origin	QU
GTIN	4055144006292
Customs tariff number	888888888888
