

# CUSTOM ORDER SKETCH PAD

Use this sketch pad to draw, or mark the locations of special linings and any other feature that cannot be indicated on the order form. Please use a dark pen or pencil and clearly mark the area as legibly as possible.

Be sure to provide measurements indicating exact size and locations of requested items.

### IMPORTANT INDICATIONS FOR SILON

- 1) Do **NOT** request silon be added to more than 50% of your garment. Compression cannot be guaranteed or reliable when a garment contains that volume of silon.
- 2) We recommend zippers for garments containing silon to make the garment easier to put on and take off.

If possible, print this page and sketch your locations. Then fax the form to us. If ordering electronically, please describe locations in detail.
