Power

Lithium battery with patent-pending magnetic connector, low-voltage, and AC power options.

Design

Nano shades were created to exemplify any design, decor, or color imaginable.
Soften your room with our luxurious floor to ceiling motorized drapery.

For absolute simplicity, Veil can be deployed by a simple, swift tug on the fabric.
Completely Sealed
Keep bugs out but your AC in. With our Shyzip™ sealed enclosure you can add new space for entertainment and fun!

Safety
Built in obstruction detection stops and reverses your Zen shade preventing damage or injury.
When the absolute best connection is desired, our direct wire ecosystem is the sure choice.

For the ultimate in flexibility, choose our wireless technology built on world-wide standards.
One of the coolest things in the world is when your house works for you. Our shading systems connect with all major control systems and types such as voice command, or even astronomical clock, all which can be programmed by your authorized SI dealer.
Controls and Connectivity

Our complete eco-system ensures that no matter how you are powering your shades, we have the control option you need.
