Ambient Light Rejecting

Black Diamond Film has unmatched ambient light rejection, creating contrast levels in ideal places like retail and in-window displays, exhibits, and trade shows.

Simple Application

With a permanent pressure sensitive adhesive and release liner, application is similar to applying window tint, making installation very easy and pain free.

Frame

- Material ships unframed
- Frames, glass or acrylic surfaces are not included

Size

Max Width: 1,176" (29870mm)

Max Height: 60" (1524mm)

Installation | Adjustment

- We recommend installation be completed by a professional window tint specialist
- We do not sell or advise on glass mounting methods
- Material ships rolled on a 2" core and is attached with pressure sensitive adhesive liner
