

Albany Post Game remarks

Coach Abrahamson-Henderson opening statement

That was fantastic, great game, it was stressful. Down stretch we need to get the ball in Ebone's hands even if she is not scoring, and she had a partner in crime this game, Megan. I am so proud of these girls, what they have done this year, 19-0 in the conference that is impossible to do anywhere in the country. It is so much fun to coach them.

Ebone Henry on the game

We did great, in the beginning we locked hands and said we need to stay together even if thing go wrong and we did that. We stayed calm, we have been doing that all season long. I like to get to the basket and I knew they won't let me do that, so I knew I had to do anything I can defensively. Like coach said before the game, defense is going to win us this championship. I still cannot believe we went undefeated. This is crazy.

Megan Craig on the last few shots and getting an award for the most outstanding player

I just wanted to score, luckily it fell on my lap, and I just wanted to put it through the hoop. Nothing else really mattered.

I think this is a team award. They got me this award, I wouldn't be here if I didn't get those assists from our point guards, from Eb. It is really a team award, I was just lucky to play well today and I am glad people are seeing my improvement and everyone is a huge support to me. I just want to help my team as much as I can.

Lindsey Lowrie on coach Abe

She is tough, it can be really stressful but it is all worth it. We work on our mental toughness in practice a lot and in games like tonight we need that. I wouldn't have it any other way.

Coach Abe's closing statement

My seniors are amazing, we worked so hard for this. You have no idea how hard it is to do what these ladies have done. Julie, Ebone, Keyana and Lindsey are real leaders and I love coaching them. Tonight was a great fight, we can't wait to see who we are playing against.

Our girls know how it is, they played NCAA last year and this year we are even better. We have amazing freshmen, we have experienced seniors and Megan knows what to expect as well. We are going to be underdogs and we like playing as underdogs. We are going to be ready for whichever team we face.

Hartford Post Game remarks

Coach Rizzotti's opening statement

First of all I want to congratulate Albany, not just for the win today but for the whole season. Very few coaches have experienced the undefeated and we all know how hard it is to follow through until the end. I am just very disappointed for my seniors. I feel like they played so hard today, we certainly did not lose today because we weren't tough enough. I am really proud how they played and our whole season and it is just hard that they don't get to celebrate another America East Championship.

Nikkia Smith on Megan Craig and first game against Albany

She definitely has a few inches on all of us out on the court. She played amazing, we knew she is going to get a lot of rebounds and a lot of shots but we tried to stop her as hard as we could. We knew we are better than the last time we played them. Last time hard and we knew what to expect so we were ready.

Ruthanne Doherty on lack of luck

I am so proud of my team, we were aggressive and tough but they were a little tougher and more aggressive. We executed a lot, but they just scored those shots when it mattered. We were just unlucky.

Coach Rizzotti's closing statement

We were ready focused on stopping Ebone Henry, not letting her score as much. Like Ruthanne said, we were unlucky. They had everyone ready, and they were lucky with those last few bounces. But we can never expect luck, we need to work for it, and we worked hard.

I just want to say I hope this is not our last game. I really want that invitation so I can see my seniors on the court again. They are finally playing how I wanted them to play all year long. So I hope our season is not over.
