2018 POINTERS HOLIDAY CAMP

Hitting session is a great way for ballplayers to hone their swing during the winter months. We introduce drills and learning cues that will facilitate understanding of the most important aspects of hitting (stance, load, stride, timing, swing path, and contact points). Campers will be instructed about things such as plate discipline, adjusting swing planes, opposite field hitting. Campers must provide their own bats and helmets for this session.

Pitching/Catching/Defense session is great for ballplayers to develop proper mechanics on the mound, behind the plate or fielding. They will be able to focus on positions and develop skills while doing high quality drills.

This camp will be held in the MAC in the Health Enhancement Center. The camp itinerary is below. If you are interested in attending the camp

Itinerary
1. 9:00 a.m. -11:00-Introductions and 2 hour session of hitting skills
