1.1 ATHLETIC MISSION STATEMENT

Wofford College will provide high-quality educational experiences for its student-athletes through successful competition in intercollegiate athletics in the Southern Conference and intramural activities on campus, while simultaneously maintaining and enhancing the academic profile and achievements of the student-athletes, paying special attention to the needs of minorities and women, and contributing significantly to the successful marketing of the college.

1.2 PHILOSOPHY

The philosophy of the Wofford College Athletic Department is based on the belief that intercollegiate athletics are an integral part of the college’s overall educational program and contribute to the complete development of its students. We believe that we can best contribute to this development if we collectively strive to develop excellence of character in ourselves and our students. We cherish the Judeo-Christian and Civic Republican traditions from which this college emerged—particularly the virtues of justice, compassion, courage, self-control, and excellence of intellect. Because of the department’s visibility, it has a unique opportunity to be a positive influence on the lives of everyone associated with the program: student-athletes, other students, faculty, staff, alumni, and friends.

The athletic program’s top priority is its student-athletes. Proper direction and motivation will help them grow academically, athletically, socially, and spiritually. The ultimate goal is to provide each student-athlete with the tools necessary to be successful in life.

A sound athletic program should benefit the institution through its effects on students, alumni, and the institution itself. Specifically, it should help to maintain and improve the loyalty and the “esprit de corps” of the student body, aid in strengthening the pride and enthusiasm of the alumni, serve as a favorable public relations factor, and provide the generally accepted benefits to the participants.

Standards of excellence should be maintained throughout all phases of the program of intercollegiate athletics. These standards should apply to the caliber of the ability of the participants; the qualifications for admission, enrollment, and retention of students; the number and variety of intercollegiate activities sponsored and supported by the College; qualifications of the coaching staffs; the quality of equipment used; and the levels of safety and concern for the welfare of the participants.

Participation in competitive physical activity, including that offered in regular physical education courses and intramural and extramural activity should be encouraged for each student. The more competitive and talented students may find their greatest satisfaction in participation in intercollegiate competition, but all should find athletic competition and physical exercise an important part of college life.

The administration of the athletic program is the duty and responsibility of the Director of Athletics who acts as an agent of the college in seeing to it that administrative decisions reflect established policy. At the same time, the Director acts as an agent of his staff in communicating their views to the Board of Trustees and the President. The President is the campus authority responsible for integrating and implementing athletic policy matters with the policy being set by the Board of Trustees.

In regard to the coaching staff and in keeping with the educational purposes of the athletic program, each coach’s goal should be the total development of students and an observance of the letter and spirit of the rules and regulations of the NCAA. Judgments concerning hiring, promotion, or termination should be based on the ability of the coaches to carry out this function as outlined in the NCAA Manual.

1.3 FUNCTIONS OF THE DEPARTMENT OF ATHLETICS

- To operate and administer an intercollegiate athletic program for those students possessing highly specialized physical skills and interest.
- To provide free play and recreational opportunities for students, staff, families, and on a limited basis, the outside community.

1.3.1 NCAA & Southern Conference Compliance Program Oversight

The Faculty Athletics Representative (FAR) has direct oversight responsibility for the institution’s compliance program. In this capacity, the FAR routinely monitors the program and communicates with the Director of Athletics, the Director of Compliance, the College President, and the Southern Conference Office, as needed. As part of this oversight process, the FAR will periodically ask the Southern Conference Office to review the department’s compliance program.
The compliance program is also routinely evaluated for effectiveness by the Southern Association of Colleges and Schools and by the NCAA Peer Review process. In addition, the Office of the President routinely evaluates the compliance program as part of the ongoing reporting process.

1.3.2 Commitment to Compliance

Wofford College athletics is committed to compliance with both the spirit and the letter of all policies, rules, and regulations of the NCAA, the Southern Conference, and the institution. Such commitment is evident in employment letters, employee evaluations, evaluation of programs by student-athletes, and in senior exit interviews, and ongoing compliance education initiatives at all head coaches’ meetings, athletic department meetings, and student-athlete meetings.

1.3.3 Rules Education Programs

The Wofford College Athletic Department provides for ongoing educational programs to enhance department-wide compliance. These include: attendance by selected staff at national and regional compliance meetings, attendance at Southern Conference programs, two annual departmental workshops, staff meetings, and monthly head coaches’ meetings. 3.1 ACADEMICS/GENERAL RULES

3.1.1 Goals

- Select quality student-athletes for admission
- Provide the student-athlete support and encourage vigorous competition in the academic environment
- Commitment to and continued interest in the academic programs
- Enhance the image of the College and serve the community
- A GPA higher than the College average

3.1.2 Advisement

- Transition from high school to college is often one of difficulty. Whereas the great majority of student-athletes were the best of everything in high school, they soon discover that they are one of many at the college level. Accordingly, a coach must be perceptive to the likelihood of a wide variety of mood changes, and an ever-demanding confusion regarding priorities. This is especially significant in that many high school students take for granted the educational aspect of high school. The educational aspect of college very simply cannot, and will not be taken for granted. Academic growth is vital for success during the years a student-athlete will be enrolled. Coexistent with the process of education is the development of societal skills. Furthermore, career goals, measured in terms of intermediate interests, must be planned and developed as the student-athlete works toward a degree. Coaches, administrators and student-athletes are encouraged to use the office of Career Services on campus.

- In total, the interaction between coach and student-athlete must be properly maintained in order to successfully complete the educational process. It must be stressed that education is not a terminal process. Rather, the formal environment of college is merely a foundation for the continued growth in the intellectual and societal processes. A student-athlete must be constantly reminded that his or her education will continue after graduation, and for this reason, we must try to establish a firm base upon which to grow.

3.1.3 General Rules for Athletes

1. All athletes must pass a physical exam prior to the start of the season and must satisfy the insurance requirements necessary for participating in the sport.
2. Athletes must satisfy NCAA eligibility rules. You must be enrolled for 12 or more hours in the semester you are participating in and must pass 6 hours the previous full-time semester. All continuing eligibility/progress towards degree requirements must be met (see chart.)
3. Wofford College is committed to developing students who excel in both academics and athletics. Class attendance is expected. Excessive cutting of class time during the season will not be tolerated and could result in suspension or other disciplinary action. Student-athletes are responsible for notifying their professors in advance and arranging to make up missed work if missed due to regular and post-season contests. Practices, scrimmages and off-season athletic events are not valid reasons for missing classes. Attend the class and arrange with the coach to make up missed practice time.
4. Student-athletes are expected to attend every practice, on time, unless they have a class or are ill. Notify the coach prior to practice if you cannot attend. You must notify the coach or trainer if you are injured. Notify the coach and the head trainer before going to the hospital or doctor if you are injured as a result of practice, a game or any other event directly related to the athletic team. It is important to take a school insurance form with you.
5. You are responsible for school-owned equipment issued during the season and will be billed for equipment lost or damaged due to neglect. Treat all athletic facilities and equipment with care and respect.
6. Student-athletes should be encouraged to use support services (writing lab, peer tutoring, disability services, career services, etc.) offered on campus. Coaches and administrators should be familiar with these services and able to refer a student-athlete to them.
7. Participation and membership on an athletics team includes accepting the responsibility of striving hard to represent Wofford in a manner, which will cast the best reflections on the College. Remember that you are a representative of Wofford College and
your team at all times. Show a high degree of sportsmanlike conduct, and obey the rules and regulations as set forth in the Student-Athlete Handbook. Be neat, be courteous and show respect for others. Any behavior exhibiting racial, ethnic, religious or sexual harassment is prohibited. Harassment, physical or verbal abuse of any member, guest or host of the College (including officials, opposing teams, etc.); disruptive or disorderly conduct; and offensive or anti-social behavior will not be tolerated. Grievances should be reported to the Human Resource Office and campus policy will apply.

9. The use or sale of illegal drugs is prohibited. This type of behavior may result in disciplinary action and suspension or dismissal from the team and loss of grant-in-aid.

10. All student-athletes are expected to follow the coaches’ instructions regarding practice, discipline and team matters. Each student-athlete and coach has the right to appeal unfavorable decisions to the Director of Athletics, the Athletics Committee, and, ultimately, to the President of the College.

- If the Compliance Office discovers any violation of the recruiting visit policy, it should be reported immediately to the Athletics Director and all involved parties.
- Depending on the nature of the incident the Southern Conference Office, Faculty Athletics Representative and Chief Executive Officer will be notified and proper sanctions will be imposed.
- Sanctions include but are not limited to: verbal warning, letter of reprimand, suspension, forfeiture of pay, and/or dismiss.

3.4 FINANCIAL AID

Athletics scholarships are supported by the College, Terrier Club and endowed funds and may cover tuition & fees, room, board and required course-related books.

The budgetary process regarding financial aid for each sport is as follows. During the spring each head coach will meet with the athletics director in order to determine scholarship needs for the upcoming year. A final determination of the total scholarship budget for each sport in the upcoming year will then be made.

A student-athlete must meet applicable NCAA and institution regulations to be eligible for institutional financial aid. Athletic grant-in-aids may be awarded for one academic year (Fall-Interim-Spring), renewable at the option of the college each year until graduation. The grant is based on year-round participation, which includes off-season practice, continued academic eligibility, and adherence to the rules and regulations of Wofford College, the Southern Conference and the NCAA.

3.4.1 General

A student-athlete who cannot participate or complete his/her athletic eligibility due to injury as deemed by the Director of Sports Medicine may remain eligible to receive a grant in aid provided that he/she assumes and carries out reasonable duties assigned by the Coach and approved by the Director of Athletics (e.g., Coach, Manager, Trainer, Tutor, Media Relations, etc.)

In addition to a grant-in-aid agreement being terminated by virtue of a student failing to accept and perform in a reasonable fashion those duties set forth above, it may also be terminated by Wofford for one or more of the following reason:

4. If student voluntarily withdraws from participation in one or more of the sports he/she was previously participating in.
5. If found to be in violation of any of the rules and regulations described in 3.1.3.
6. If found to be in violation of any state or federal law, or if fails to cooperate fully in Department of Athletics Drug Education and Prevention Program, or if drug screening pursuant to that Program indicated unauthorized substance use or abuse under the Program. All student-athletes are furnished a copy of the Drug Education and Prevention Program and are charged with the knowledge of its contents and the obligation to cooperate in all areas of the program, including becoming signatory to the Drug Education and Prevention Program Consent Form.
7. If student fails to maintain satisfactory academic progress toward a degree or becomes academically ineligible.
8. If student otherwise acts in such a fashion as to reflect unfavorable upon Wofford or otherwise fails to abide by the terms and provisions of the Agreement.
9. If found to be in violation of team rules and expectations.

In the event this agreement is terminated, on and after the date of termination, the student will be solely responsible for all costs and expenses that otherwise would be paid by Wofford.

The student-athlete shall maintain primary medical insurance coverage for accidents and injuries arising out of the athletic program. Acceptance of a grant-in-aid by the student-athlete or his parent or guardian shall authorize the College to obtain any medical records concerning the student-athlete which the College might wish to obtain and shall also authorize the staff of the Athletic Department to receive transcript information and records in order to monitor the student-athlete's progress and athletic eligibility.

Acceptance of a grant-in-aid by the student-athlete or his parent or guardian shall constitute authority to the college to disseminate personal information such as name, weight, age, class standing, etc. for sports publicity purposes.

### 3.4.2 Procedure for Award of Financial Aid

The following steps will be taken in awarding of athletic aid.

5. Coaches will confirm the admission status of the student-athlete, or the continuing eligibility status of a current student and provide the Assistant AD for Compliance with a list of names with intended awards.
6. Assistant AD for Compliance will process the necessary forms and submit to the financial aid office.
7. The athletic scholarship form recommending an award will be mailed by the Assistant AD for Compliance with a copy forwarded to the Director of Financial Aid (or her designee.)
8. All institutional policies for awarding of financial aid will be followed and the Assistant AD for Compliance will distribute this policy to all coaches on an annual basis.

### 3.4.3 Renewal and Non-renewal Procedures

The renewal of institutional financial aid shall be made on or before July 1 prior to the academic year in which it is to be effective. The institution shall promptly notify in writing each student athlete who received an award the previous academic year and who has eligibility remaining for the ensuing academic year whether the grant has been renewed or not renewed. Notification of financial aid renewals and non-renewals must come from the institution’s regular financial aid authority and not from the institution’s department of athletics. If the institution decides not to renew or decides to reduce financial aid for the ensuing academic year, the institution shall inform the student-athlete in writing that he or she, upon request, shall be provided a hearing before the institutional agency making the award. Reduction and cancellation of aid must be within the boundaries of NCAA Bylaw 15.3.4.2. A written copy of the institution’s established policies and procedures for conducting the required hearing, including the deadline by which a student-athlete must request such a hearing shall also be provided. The institution shall have established reasonable procedures for promptly hearing such a request and shall not delegate the responsibility for conducting a non-renewal hearing to the college’s athletics department or its faculty athletics committee. The decision to renew or not renew the financial aid is left to the discretion of the institution, to be determined in accordance with its normal practices for students generally. **A COACH MAY NOT REDUCE/CANCEL THE ATHLETICS AID OF A STUDENT-ATHLETE WITHOUT APPROVAL FROM BOTH THE DIRECTOR OF ATHLETICS AND THE ASSISTANT AD FOR COMPLIANCE.**

Appeals Hearing Procedure:
10. Requests for a hearing on non-renewal of athletics aid will be made to the Director of Financial Aid.
11. The Financial Aid Director will convene and chair an Ad Hoc committee of personnel to serve as the Appeals Committee.
12. Decisions by the Appeals Committee are final.

It is permissible for an institution that has notified a student-athlete that he or she will not be provided institutional financial aid for the next academic year subsequently to award financial aid to that student-athlete.

3.6 POSSIBLE VIOLATIONS POLICY

Any staff member who becomes aware of a violation of institutional or NCAA legislation shall immediately report the information to the Assistant AD for Compliance, Faculty Athletic Representative or Director of Athletics who shall review the information as a group and promptly conduct a fact finding investigation of the matter. The fact-finding investigation will be conducted by the FAR and/or her designee. Any designee will also be a person outside the department of athletics. The Southern Conference Office will be notified in advance that such a fact-finding investigation is to begin. Advice will be solicited from the conference and help requested, as needed. In the event the established facts indicate a violation did occur, a written report will be sent to the Southern Conference and the NCAA. The Faculty Athletics Committee and Office of the President will be informed, and the department will determine appropriate disciplinary and remedial actions in accordance with institutional policy and procedures. Such action will be repeated to the Conference and the NCAA, as appropriate.

3.7 COMMITMENT TO EQUITY
3.7.1 Equity Hiring Guidelines-Females

As full-time openings or staff expansion opportunities occur, we will proactively seek to expand the pool of qualified female candidates for both coaching and administrative opportunities.

The following actions, among others, may be taken:

- Normal job advertising for full-time positions.
- Special mailing or fax to identified NCAA Division I institutions in female sport programs (i.e., if opening is in women’s basketball, mail to women’s basketball head coaches soliciting names of qualified female candidates).
- Mail or fax to selected conference commissioners the same announcement with request for distribution to various schools and contacts.
- Advertise in publications targeted to potential female applicants, if appropriate.
- Develop additional proactive strategies as appropriate.

These guidelines are designed to increase the pool of qualified female applicants. Selection and appointment will proceed through the normal process with the appointment of the candidate deemed to be best qualified.

3.7.2 Equity Hiring Guidelines-Minorities

- As full-time openings or staff expansion opportunities occur, we will proactively seek to expand the pool of qualified minority candidates for both coaching and administrative positions.

  - Special mailing or fax to identified NCAA Division I institutions in selected sport programs (i.e., if opening is in women’s basketball, mail to women’s basketball head coaches soliciting names of qualified minority candidates).
  - Mail or fax to selected conference commissioners the same announcement with request for distribution to various schools and contacts.
  - Advertise in publications geared to potential minority applicants, if appropriate.
  - Develop other proactive strategies as appropriate.

These guidelines are designed to increase the pool of qualified minority applicants. Selection and appointment will proceed through the normal process with the appointment of the candidate deemed to be best qualified.

3.7.3 Educational Programs

Educational services to assist in avoiding violations of governing legislation are encouraged to the following groups: prospective or enrolled student-athletes and their family members, athletics personnel, representatives of the College’s athletics interests and high school coaches or administrators. These programs are preventative in nature and of primary importance to the compliance program.

Ultimately, it is the responsibility of each staff member to ensure their own actions are in compliance with all governing legislation (i.e.- institutional, Southern Conference and NCAA regulations). In that regard, the following policies and procedures have been adopted:

13. An annual session is conducted to review governing legislation.
14. Staff members are personally responsible for being knowledgeable of all governing legislation including a thorough reading of the NCAA Manual (online) and the annual changes as they appear in it. Special attention should be given to the areas of playing and practice seasons, recruiting and student-athlete eligibility.
15. Attendance at staff rules seminars reviewing governing legislation are required. Notice of these meetings will be provided in advance. All staff members are required to attend a departmental meeting (normally May/June and August). In addition, head coaches will attend one additional monthly departmental meeting for head coaches only. Each of these meetings will include a compliance review conducted by the Assistant AD for Compliance. Information, updates, interpretations, etc. will be shared and discussed. All meetings are mandatory unless official business precludes attendance or unless otherwise exempted.
16. All staff members are responsible to review and conduct themselves in accordance with the most up-to-date interpretations regarding NCAA legislation as they are published or provided by the Assistant AD for Compliance. This review should include all Legislative Assistance columns, Legislative and Interpretations Committee Minutes, and revised case notices.

17. If staff members are uncertain regarding the proper interpretation or application of the governing legislation after they have conducted their own thorough review of the available materials (e.g.-NCAA Manual), they should contact the compliance office.

### 3.8 BUDGET

#### 3.8.1 General

The Director of Athletics is responsible for preparing and administrating the overall budget in concert with the Board approved budget process. This process is consistent with the process used in developing budgets for all units of the College. In all cases the department of athletics will follow prescribed institutional policies and procedures relative to the handling of expenditures of athletics. All program directors are expected to be effective budget managers and work within budget parameters established by the Wofford College Board of Trustees.

Procedures used by the department of athletics are annually reviewed by the college auditors to ensure consistency with good, standard accounting practices. The department of athletics will be annually audited as part of the College audit process to ensure that required College policies and procedures are followed and that such policies are consistent with policies and procedures of the NCAA. Annual tests will be conducted to measure performance and compliance with internal control mechanisms and College policies and procedures. The Director of Athletics will annually review results of this audit with the college Chief Financial Officer and the President of the College. The department of athletics will address any corrective action recommended by auditors as a result of this process.

#### 3.8.2 Expenditures

All expenditures must be made in accordance with the policy of the department as outlined herein. Individual program budget managers will authorize expenditures, receive invoices, sign invoices for approval, code invoices for payment and return them to the Business and Operations Manager.

#### 3.8.3 Preparation

Coaches and staff members will have an opportunity annually to advise the Director of Athletics on the funds necessary to conduct their respective programs. Every effort will be made to authorize the funds requested, provided they are justifiable, reasonable, and can be contained in the overall departmental budget. This budget request procedure will go through the Director of Athletics and the President for approval. All coaches and staff members must execute their respective programs within the funds allocated unless extraordinary reasons are available.

#### 3.8.4 Monitoring

All individuals with budgetary responsibilities will be given a copy of their respective budget and access to Banner for up-to-date budget information. Any questions that may arise regarding monthly statements should be directed to the Business and Operations Manager. It is recommended that individuals with budgetary responsibilities monitor their respective budgets on a timely basis. All areas of expense should be monitored and every purchase should be evaluated according to necessity, cost, and future budgetary expenditures and requirements.

#### 3.8.5 Control

The Director of Athletics (or his designee) has the authority to restrict or limit expenditures at any time. When budgets are near depletion, funds may be restricted in an effort to prevent the funds from running out before the fiscal year is over. All coaches and others delegated budget responsibility must plan their needs within the confines of their respective budgets. It is recommended that they plan ahead, affixing priorities to their most urgent needs.

#### 3.8.6 Conclusion

It is the policy of the College to provide the best possible equipment, supplies, and fixtures for the teams, fields, courts and offices. Furthermore, there is an expectation that any athlete and/or coach traveling as a representative of the College do so in...
the manner befitting this institution. Therefore, **no trip should ever be made unless sufficient funds are available to see that the above policy can be maintained.**

### 3.9 BUSINESS

#### 3.9.1 Team Travel and Transportation

It is the responsibility of the head coach, working with the Associate Athletic Director for Sports Programs, to make all travel plans. Advances for the trips should then be submitted prior to the season. After the trip has been taken, travel expenses are to be turned in promptly to the Business and Operations Manager. Expense mileage, receipts for food and entertainment, etc. should be noted on the expense report.

All team travel by Wofford athletic teams will be done in motor coach, rental vans with staff drivers or approved student drivers, or by other means approved by the Director of Athletics.

#### 3.9.2 Purchasing

Items purchased must be approved by the individual with budgetary responsibility before these bills will be paid. Each coach/department head is responsible for securing the best price and ordering his/her own equipment after reviewing budget and monies available. This policy includes services and merchandise. The signature of the individual approving the purchase will be accepted in the place of a formal receiving report. When budgets have been exhausted, purchase orders are not to be written. At this point your budget situation should be discussed immediately with the Director of Athletics.

#### 3.9.3 Expense Accounts and Travel Advances

The following procedures should be followed for expenses incurred related to recruiting or official College business:

1. Receipts are to be provided for the following expenditures:
   A. Transportation expenses
   B. Meals when entertaining one or more individuals. Indicate names and titles of individuals entertained as well as the purpose of the meeting and provide an itemized receipt.
   C. Any services utilized for official business
   D. Any unusual or infrequent expense item
   E. Each head coach is responsible for leaving appropriate travel information prior to departure (e.g., departure time, arrival time, name and number of hotel, etc.).

2. To advance, complete the advance form on the Business Office’s website, have it approved by the individual with responsibility for the budget to which the advance will be charged, and turn the form in to the Business and Operations Manager. Your request for an advance should be made at least two weeks prior to your needs. When you obtain an advance or incur an expense, your expense report form should be turned in to the Business and Operations Manager. **No additional advance will be made until the previous advance has been settled.**

3. When credit cards are used for gas, the expense receipts for these items should be attached to the expense report turned in to the Business and Operations Manager. Approximation of expenses is not acceptable and miscellaneous and incidental expenses should be detailed on the expense report.

- Fax- Faxes should be official college business.

3.9.7  College Mail Service

- The college mail service is to be used only for college business. Pick-up and delivery will be made twice daily - once in the morning and once in the afternoon.
- Overnight and express mail is expensive and should only be used as necessary for official college business.

3.9.8  Keys

All key requests should go through the Director of Facilities. Upon termination of employment, all keys must be returned to the Director of Facilities.

3.9.9  Office Communication

It is imperative that the Department of Athletics knows when you are out of the office for an extended amount of time for clinics, recruiting, vacations, etc. An extended amount of time is defined as longer than one day. Each employee is responsible for notifying the appropriate personnel before departure (e.g., attending convention for 3 days, recruiting for entire week, etc.).

3.10  FACILITIES AND EQUIPMENT

3.10.1  Facilities

1. The college realizes that the athletic facilities are primarily for the use of Wofford students. As a result, the priorities to be followed as a general policy are as follows:
   - Physical Education Classes
   - Intercollegiate/Varsity Sports
   - Intramurals
   - Students and Members of the College
   - Non-college Persons or Organizations

2. All requests for jobs to be done by the maintenance, custodial staff, or grounds crew must be submitted in writing to the Director of Facilities. These requests should be made at least two days in advance, earlier if possible.

3. The athletic department is responsible for the following facilities:
   - Richardson Physical Activities Building
   - Joe E. Taylor Center
   - Benjamin Johnson Arena
   - Snyder Field
   - Andrews Field House
   - Lower Playing Fields
   - Reeves Tennis Center
   - Russell C. King Field
   - Gibbs Stadium

1. Scheduling Policies and Procedures for use of the Wofford College Athletic Facilities
   - General Information:
     - Scheduling the use of space and all the athletic fields by the various groups affiliated with the College community is handled by the Director of Facilities with approval by the Director of Athletics. All facility requests must be submitted in a timely manner. Coaches who do not follow this procedure may be bumped from a planned event or practice.
3. Equipment

1. General:
   - All furniture, office equipment, and certain other properties are assigned to the various offices. Each office has the custodial and financial responsibility for such items.

2. Responsibility:
   - The Director of Athletics has been delegated the accountability for the property in the custody of this department. It will be necessary from time to time to require employees to receipt for certain items in their personal custody. It should be otherwise understood that any property assigned to an office becomes the responsibility of the occupant, even though custody receipts are not required by the Business Office.

3. Transfers and Disposition:
   - Please be reminded that no property is to be transferred from one location to another without permission of the Director of Athletics. Under no circumstances is property to be disposed of, regardless of its condition, without authority from the Director of Athletics.

4. Equipment:
   - The following policies and procedures are applicable to equipment owned by the Department of Athletics. Primary responsibility for storage, maintenance, security and inventory of athletic equipment for the Department of Athletics is vested in the Equipment Manager. It will be the responsibility of the head coach to assist the Equipment Manager in carrying out the policies and procedures applicable to athletic equipment. The Head Coach, Assistant Coach, and Equipment Manager will report directly to the Associate Director of Athletics for Business and Finance. Appointed Assistant Coach must initiate all athletic equipment purchase requests. Only appointed assistant coaches are to initiate purchases directly with vendors. Unauthorized purchases become the financial responsibility of the individual placing the order. A coach desiring equipment shall submit a requisition to the appointed assistant coach after the coach has ascertained need for equipment based upon budget, inventory and condition of current equipment. Upon determination that a need exists for purchase of the equipment, the appointed assistant coach will forward a requisition for approval by the Athletics Business Office and the Director of Athletics, only if said purchase is over budget. If the requisition is approved and funds are available for expenditure, the Athletics Business Office will request the appointed assistant coach to order equipment and issue a purchase order for the equipment. Should funds be unavailable for purchase of equipment, the Athletics Business Office will inform the appointed assistant coach, and notify the head coach that the request has been denied. All equipment is to be delivered directly to the office of the Equipment Manager. Upon receipt, the Equipment Manager will inventory the order, comparing it with accompanying delivery receipt and actual purchase order (i.e., quantity and quality). After inspection and approval of the order, the Equipment Manager will send the delivery receipt to the Athletic Business Office, and recommend payment or partial payment. The Equipment Manager, at the end of each sport’s season, will inventory all equipment. All Apparel/Equipment Inventory Information forms must be completed and copies filed with the compliance department no later than the 15th day of January following completion of athletic competition.

Issuance and Retrieval

- The student-athlete will be held financially responsible for all apparel and equipment assigned to them. In the event of lost, stolen or damaged equipment, it will be the responsibility of the student-athlete to replace the item, or to reimburse the athletic department as deemed appropriate by the Director of Athletics or Equipment Manager. If the student-athlete violates Wofford College or NCAA rules for apparel and equipment issuance and retrieval, the student-athlete may be subject to punishment by athletic department and/or NCAA.

- The Head Coach is responsible for the proper application of the apparel and equipment issuance and retrieval process. All apparel and equipment must be accounted for and reported in a timely manner to the Athletic Business Office in conjunction with the Compliance Office. If the Head Coach violates the Wofford College and/or NCAA rules for apparel and equipment issuance and retrieval, said Head Coach may be subject to punishment by athletic department and/or NCAA.

- The retrieval of athletic apparel and equipment from the student-athletes must occur no later than 15th day of January following the completion of the athletic competition (End of season, player leaves team, etc.).

Use by Outside Groups:

- We do rent our facilities to outside groups, but realistically speaking, there is very little space available. At any time, College security personnel may question those using the playing fields and would be operating within their job duties when they ask to be shown a field use permit. They also would be acting as instructed by requesting the parties to vacate the playing area if they do not have the proper permit. If an athletic facility is to be rented the outside party must contact the campus coordinator, John Blair.

- These policies have been formulated to guarantee as completely as humanly possible that individuals or groups who request time and space will have their needs met. Your cooperation will help make this goal possible.
• Athletics equipment cannot be loaned for any purpose without prior approval of the Director of Athletics.
• Student-athletes will be allowed to borrow equipment over the summer vacation period with the permission of the Assistant AD for Compliance.
• Student-athletes can be given athletics apparel only at the conclusion of that athlete's playing career. Apparel cannot be given over the summer.

3.13 PERSONNEL

3.13.1 College Policy

1. Commitment to Equity:

The Athletic Department adheres to the hiring practices consistent with college policy. Every effort is taken to conduct a proper search bearing in mind a commitment to providing an equal opportunity for each applicant. The department is particularly
sensitive to the need for proper role model selection in coaching and administrative positions. As such, the department actively seeks female/minority representation for any personnel vacancy.

2. **General Regulations:**
All personnel are subject to College regulations governing vacation and sick leave. These regulations, like those governing travel, are a part of College policy.

3. **Sexual Misconduct Policy:** Wofford College and the Department of Athletics believes all members of the college community, guests and visitors have the right to be free from all forms of sexual misconduct. All members of the campus community are expected to conduct themselves in a manner that does not infringe upon the rights of others. Sexual misconduct will not be tolerated and all employees are bound to the Sexual Misconduct Policy.

4. **Employee Benefits:** The College has strong programs of employee benefits, which include group major medical and life insurance, retirement, and other benefits. The College personnel specialist enrolls employees in these programs as they become eligible. For information regarding eligibility, coverages, etc., contact the College Business Office.

### 3.13.2 Dress Code

Appropriate professional dress code is required at all times.

### 3.13.3 Office Hours

Each employee should make an effort to establish and maintain prescribed office hours (8:30 - 5:00) for the sake and convenience of athletes, faculty, parents, administrative officers and other department members. It is realized that most staff members travel a great deal, thus interrupting a regular office hour schedule; however, when not traveling, office hours should be maintained. In all cases, the appropriate authority should know your whereabouts.

Regarding football and basketball, this responsibility is extensive and includes game notes, flip cards, statistics, food and refreshment, and post-game interviews. For non-revenue sports, the office provides and reports the results of competition.

The office has a responsibility for the Department of Athletics of compiling and maintaining historical data on athletic events in written and pictorial form, including photographs and videotapes.

The office is charged with the responsibility of handling certain special events such as when Wofford hosts any tournaments, NCAA events, etc.
3.15.2 Specifics

1. Purpose
The purpose of this department is to publicize and promote athletics at the College. Basically, the Media Relations Office accomplishes this by means of publications, weekly releases, media relations, and coordination with governing bodies such as the NCAA and Southern Conference. Within the limitations of time and manpower, the Media Relations Office attempts to provide adequate publicity for all the athletic teams at Wofford.

2. Brochures
Brochures are designed and edited with the intention of; first, increasing the visibility of each sport through the media; second, helping each coach in his/her recruiting efforts; and third, in providing pertinent information to the public. All brochures must be approved by the Director of Compliance prior to printing.

3. Programs
Due to budgetary limitations, programs are furnished only if their publication costs are paid for by advertising. The Director of Media Relations works closely with the Director of Athletics in determining the economic feasibility of providing game programs for home events.

4. Statistics
The Media Relations Office disseminates statistics on all Wofford athletic programs. Statistics crews are recruited by the SID. The Media Relations Office sends at least one staff member to each home athletic event.

5. Reporting of Events
The Media Relations Office will make every effort to staff each home event. Staffing road events is dependent on the availability of Media Relations personnel and the ability of each individual sport to pay travel expenses for the Media Relations Office representative. When on the road, if no Media Relations representative is present, the host school will call in the results to the media outlets designated by the SID immediately at the conclusion of the event.

6. Interviews
The Media Relations Office is eager to assist the media with player interviews. To help in this endeavor, it is requested that media representatives contact the Media Relations Office for all athletic interviews. The Media Relations Office will arrange all interviews at places and times convenient to both parties. If a media representative schedules an interview with an athlete through his or her coach, the coach should inform the Director of Media Relations. Cooperation from both coach and media is appreciated.

7. Student Assistance
The Media Relations Office seeks to employ student assistants. Each assistant’s duties also include general office responsibilities such as filing, answering mail requests and basic organizational needs. In the event that the Director of Media Relations is unavailable, coaches or media representatives should contact the assistant Director of Media Relations or the appropriate student assistant.

8. Liaison with Athletic Marketing Director
The Director of Media Relations works closely with Sports Marketing Director in determining general policies for the office and the production of the football game program.

9. Regular Releases
The Media Relations Office attempts to increase publicity for each sport by regularly disseminating information through use of the phone, fax, e-mail, web site, and mail. Toward this end, the SID constantly looks for interesting feature angles about Wofford teams and student-athletes. The cooperation and input of individual coaches and student-athletes is an integral part of this process.

10. Cooperation and Communication
The Media Relations Office regards regular contact and discussion with individual coaches as a necessary and invaluable aid in publicizing Wofford athletics. The SID requests that coaches make a point of consulting the respective SIDs on a regular basis as a means of keeping the office abreast of developments in each sport. Any problems should be worked out in an atmosphere of mutual cooperation.

3.15.3 Media Guidelines for Head Coaches

The Director of Media Relations has been trained in the area of sports reporting and sees it as one of the main duties in his job description. For that reason, the Director of Media Relations assumes the main responsibility in the area of reporting game or match results.

The Director of Media Relations, or his designee, will travel to all away contests involving the football and men’s basketball and women’s basketball teams. He will directly handle all results reporting for those sports.

For all other teams, the Media Relations office will handle the results even if not traveling. Upon request of visiting teams to Wofford, the SID will report results to their media.

About Sickle Cell Trait:
- Sickle cell trait is an inherited condition of the oxygen-carrying protein, hemoglobin, in the red blood cells.
- Sickle cell trait is a common condition (> three million Americans)
- Although Sickle cell trait is most predominant in African-Americans and those of Mediterranean, Middle Eastern, Indian, Caribbean, and South and Central American ancestry, persons of all races and ancestry may test positive for sickle cell trait.
- Sickle cell trait is usually benign, but during intense, sustained exercise, hypoxia (lack of oxygen) in the muscles may cause sickling of red blood cells (red blood cells changing from a normal disc shape to a crescent or “sickle” shape), which can accumulate in the bloodstream and “logjam” blood vessels, leading to collapse from the rapid breakdown of muscles starved of blood.
- Sickle cell trait can be affected by Altitude, high temperature/humidity, illness, lack of fitness, or dehydration.

Sickle Cell Trait Testing:
- The NCAA mandates that all NCAA student-athletes have knowledge of their sickle cell trait status before the student-athlete participates in any intercollegiate athletics event, including strength and conditioning sessions, practices, competitions, etc.
- Wofford College requires all incoming freshman and transfer student-athletes to present documentation of results of sickle cell testing before participating in any intercollegiate athletics event, including strength and conditioning sessions, practices, competitions, etc.
- If student-athletes test positive they will meet with our Team General Medicine Physician, Athletic Trainer, Coach, Strength Coach, and Parent (if under 18). This meeting will be for educating the student-athlete on risk and symptoms to be aware of during activity. The student-athlete will be able to continue participating in Intercollegiate Athletics but with restrictions stated in the Sickle Cell Procedures.
- Wofford College will allow a student-athlete to sign a waiver stating that they voluntarily agree to release, discharge, indemnify and hold harmless Wofford College, Spartanburg Regional Sports Medicine and its officers, employees and agents from any and all costs, liabilities, expenses, claims, demands, or causes of action on account of any loss or personal injury that might result from my non-compliance with the mandate of the NCAA and Wofford College Department of Intercollegiate Athletics.

Sickle Cell Procedure

Signs and Symptoms of a sickling athlete
- Heat cramping has a prodrome of muscle twinges; sickling has none
- The pain is different – heat-cramping pain is more excruciating
- What stops the athlete is different – heat crampers hobble to a halt with “locked-up” muscles, while sickling players slump to the ground with weak muscles.
- Physical findings are different – heat crampers writhe and yell in pain, with muscles visibly contracted and rock-hard; sicklers lie fairly still, not yelling in pain, with muscles that look and feel normal
- The response is different – sickling players caught early and treated right recover faster than players with major heat cramping

Precautions
- Build up slowly in training with paced progressions, allowing longer periods of rest and recovery between repetitions.
- Encourage participation in preseason strength and conditioning programs to enhance the preparedness of athletes for performance testing which should be sports-specific. Athletes with sickle cell trait should be excluded from participation in performance tests such as mile runs, serial sprints, etc., as several deaths have occurred from participation in this setting.
- Cessation of activity with onset of symptoms [muscle ‘cramping’, pain, swelling, weakness, tenderness; inability to "catch breath", fatigue].
- If sickle-trait athletes can set their own pace, they seem to do fine.
- All athletes should participate in a year-round, periodized strength and conditioning program that is consistent with individual needs, goals, abilities and sport-specific demands. Athletes with sickle cell trait who perform repetitive high speed sprints and/or interval training that induces high levels of lactic acid should be allowed extended recovery between repetitions since this type of conditioning poses special risk to these athletes.
- Ambient heat stress, dehydration, asthma, illness, and altitude
  a. Adjust work/rest cycles for environmental heat stress
  b. Emphasize hydration
c. Control asthma
d. No workout if an athlete with sickle trait is ill
e. Watch closely the athlete with sickle cell trait who is new to altitude. Modify training and have supplemental oxygen available for competitions
   - Educate to create an environment that encourages athletes with sickle cell trait to report any symptoms immediately; any signs or symptoms such as fatigue, difficulty breathing, leg or low back pain, or leg or low back cramping in an athlete with sickle cell trait should be assumed to be sickling.

Treatment: In the event of a sickling collapse, treat it as a medical emergency by doing the following:
1) Check vital signs.
2) Administer high-flow oxygen, 15 lpm (if available), with a non-rebreather face mask.
3) Cool the athlete, if necessary.
4) If the athlete is obtunded or as vital signs decline, call 911, attach an AED, start an IV, and get the athlete to the hospital fast.
5) Tell the doctors to expect explosive rhabdomyolysis and grave metabolic complications.

3.16.15 Concussion Policy

Definition: Concussion is defined as a complex pathophysiological process affecting the brain, induced by traumatic biomechanical forces. Several common features that incorporate clinical, pathologic, and biomechanical injury constructs that may be utilized in defining the nature of a concussive head injury include:
1. Concussion may be caused by a direct blow to the head, face, neck, or elsewhere on the body with an "impulsive" force transmitted to the head.
2. Concussion typically results in the rapid onset of short-lived impairment of neurologic function that resolves spontaneously.
3. Concussion may result in neuropathologic changes, but the acute clinical symptoms largely reflect a functional disturbance rather than a structural injury.
4. Concussion results in a graded set of clinical symptoms that may or may not involve loss of consciousness. Resolution of the clinical and cognitive symptoms typically follows a sequential course; however, it is important to note that in a small percentage of cases, postconcussive symptoms may be prolonged.
5. No abnormality on standard structural

Symptoms: If any one or more of these components is present, a concussion should be suspected
Physical Symptoms: Headache, Loss of Consciousness, Nausea, Sensitivity to Light & Noise, Fatigue, Balance Difficulty
Cognitive Symptoms: Memory Loss, Difficulty Remembering, Difficulty Concentrating, Reasoning Difficulty, "Feeling in a Fog"
Emotionality Symptoms: Irritability, Sadness, Nervousness, Sleep Disturbances

Time of Injury: Evaluation done by an Athletic Trainer or Team Physician if not available student-athlete will be removed from activity. If student athlete has a history of concussion/head injury remove from activity.
- Evaluate Symptoms
- Perform a SCAT2 evaluation
- Determine severity and re-evaluate symptoms every 5 mins
- If symptoms subside with-in 15mins with a cardiovascular stimulus student-athlete will be evaluated for return to play.
- If symptoms do not subside under normal conditions or under cardiovascular stimulus the student athlete will be removed from activity.

Sideline Return to Play: If at any time the healthcare provider questions the student-athletes state they are to be held out of activity.
- Asymptomatic after 15 minutes
- Jog down and back 5 times length of sideline (if asymptomatic continue to #3)
- 20 push-ups and 20 jump-n-jacks (if asymptomatic continue to #4)
- Sports specific movements (if asymptomatic continue to #5)
- Return to play

Post Concussion Assessment
- Determine if there is a need for a visit to the emergency room
• Talk to roommate, friend, parent, or someone responsible that will be staying with the concussed student athlete. Educate them on symptoms, dos and don’ts, and procedures to follow overnight.
• Re-evaluated and set-up Doctors appointment
• Follow Doctors orders
• Once asymptomatic for 24 hours start return to play protocol unless otherwise advised by Team Physician

Concussion Return to Play Protocol
The following has been established by Wofford College and Spartanburg Regional Sports Medicine in coordination with team physicians. The following steps will be followed for any student-athlete who has sustained a concussion and/or symptoms of a concussion. Protocol may vary depending on severity and/or past history of concussions or head injuries. This policy will stay current with the Vienna Concussion Conference and National Athletic Trainers Association Concussion Guidelines and NCAA Guidelines.

Only a team physician will be allowed to determine if an athlete can complete return to play steps when symptom free.

• No activity. Once asymptomatic for 24 hours proceed with return to play activities
• Light aerobic exercise such as walking or stationary bike. No resistance training. May proceed to next step if symptom free.
• Jogging for 5-10 minutes. Proceed to next step if symptom free.
• Sprinting, straight ahead full speed running. Proceed to next step if symptom free.
• Non-contact training drills (sport specific activities). Progressive addition of resistance training. May proceed to next step if symptom free
• Full contact training after being medically cleared by team physician. May proceed to next step if symptom free
• Return to game play.

If any post-concussion symptoms occur, the patient will drop back to the previous asymptomatic level and try to progress again after symptoms have cleared for 24 hours. In the event there have been multiple concussions suffered by the student-athlete, a longer time duration will be required to be asymptomatic before progressing to any return to play activities. In addition to being asymptomatic before beginning return to play activities, student-athlete must also be free of taking any pharmacological agents/medications that may affect or modify symptoms of concussions.

3.16.16 Prescription Drugs
Drugs prescribed for the treatment of an athletic injury will be provided to the student-athlete at no cost. In order to qualify for this benefit, student-athletes must present the original prescription to Spartanburg Regional Sports Medicine staff. A form completed by the staff member will allow the student-athlete to take the prescription to CVS pharmacy on N Pine St and incur no cost. The cost of the prescription must first be applied to the student-athletes primary insurance.

3.16.17 Return Transportation from an Off-Campus Event
Student-athletes injured during an off-campus competition that must remain after the team has departed have the right to safe return transportation to Wofford College. A Wofford Athletic Department or Spartanburg Regional Sports Medicine staff member must accompany and remain with the student-athlete during emergency treatment.

3.16.18 Exit Physicals
All Student-athletes who are graduating, transferring, or no longer continuing to participate in intercollegiate athletics will be required to complete the Exit Physical Form. Injuries that occurred during a supervised athletic event will be covered up to 3 months after exit physical or the last day of the athletes’ participation.

3.16.19 Emergency Action Plan
Emergency situations may arise at any time during in-season and out-of-season athletic participation. Expedient action must be taken in order to provide the best possible care for the sport participant or individual. The emergency action plan is designed to provide continuity of care and ensure that the appropriate care is given. Athletic injuries may occur at any time and under a variety of conditions, therefore the sports medicine staff must be prepared. Prior planning can insure appropriate care. The following involves a formulated plan that will insure adequate care, appropriate training, continuing education and maintenance of equipment. Components of the Emergency Action Plan
Emergency Plan Personnel
In an athletic setting typically the first responder to any emergency, injury or illness, is a member of the athletic training staff. Depending on the event and venue a physician may or may not be present; the type and degree of coverage may vary widely. In rare instances the first responder may be a coach or a certified strength and conditioning coach. Both should be certified in CPR.

### 3.21.3 Conclusion

Our visitors will judge our school and department in relation to the treatment they receive as our guests. We must make every effort to see that a totally favorable impression is made through our facilities and personal interest in their accommodations.

### 3.22 Risk Assessment and Reduction

There are no sure criteria for determining what negligent action is and what is not since each case stands individually on its own merit. The key to liability is the presence of negligence since those responsible for the operation of a sports program owe their participants the duty of care that is required to protect them from foreseeable harm.

#### 3.22.1 Factors That Influence Liability

- Ignorance of the law (courts rule that ignorance is no excuse)
- Ignoring the law
- Failure to act - too often we put things off until an accident occurs
- Failure to warn - one of the latest trends today is the insistence by the courts that student-athletes are warned of inherent risks in sports

#### 3.22.2 Areas of Concern

1. Supervision - 80% of all court cases in physical education and sports involve alleged negligence for the injuries that deal with some aspect of supervision. Do not leave your team unsupervised (particularly in high risk activities).
2. Personnel - In situations involving suspension or expulsion from the team, due process procedures are a must. These include the following:
   - inform the student of the reason for the dismissal
   - give the student a chance to respond
   - inform the student of your decision
   - provide an impartial hearing if the student wants one
   - report in writing your decision to the Director of Athletics
   - it is good procedure to put all communication in writing

If you plan to reduce or discontinue financial aid, put it in writing to the Director of Athletics who will forward it to the Director of Financial Aid.

3. Coaches need to maintain their distance and not use their Wofford employment as a means of getting access to the Panthers.

Possible conflicts should be brought to the Associate Athletic Director or the Director of Athletics who will work as liaisons with the Panthers, and work to resolve the conflict.

All camps will be coordinated with the College’s Director of Summer Programs and will operate according to established guidelines and NCAA rules. ### 3.26 FOOTBALL VIDEO LIFT POLICY

**Football Video Lift Policy:**

Before being used the lift operator(s), head coach and head athletics trainer are required to read the operating manual. The manual will be kept on file in the maintenance department and routine maintenance must be performed on the lift every six months. A 40-foot lift should be brought down all the way in 28mph winds and if lightening is within eight miles. This will be monitored by the lift operator, head coach and/or head athletics trainer. The lift operator may lower the lift at any time to feel safe.

### 3.27 ACTIVE SHOOTER POLICY

**Active Shooter Policy**

The department of athletics will abide by the college’s campus safety policy and will be instructed by the building captain and director of athletics (or designee).

**Active Shooter Safety Guidelines:**

The following guidelines cannot cover every possible situation that may occur. Nevertheless they serve as an awareness and training tool likely to reduce the number of injuries or death if followed as soon as a situation develops. Violent incidents, such as an active shooter, can occur on campus grounds or within close proximity of the campus with little or no warning.
active shooter is considered to be a suspect or assailant whose activity is immediately causing serious injury or death and has not been contained. Active shooter situations are dynamic in nature and demand an immediate response to the situation by the community and law enforcement to stop the shooting and prevent further harm to the community. In general, how an individual responds to an active shooter is dictated by the specific circumstances of the situation. If a person should find him/herself in an active shooter situation, they should try to remain calm—actions will influence others—should call 864.597.4911 as soon as possible. Campus Safety, along with local and state police, have adopted accepted law enforcement response procedures to contain and terminate such threats as quickly as possible. The following guidelines taken from those sources will enable employees, students and/or visitors to take appropriate actions for themselves and are intended to emerging or in progress situations. There are three main courses of action available for persons confronted by an active shooter incident. These include evacuation, sheltering in place (hiding out), and confronting/taking action against the shooter. Independent of the actions of persons occupying buildings involved, Campus Safety, the Physical Plant, the Emergency Response Team, the Office of Marketing and Communications and other departments will perform duties outlined in the Campus Safety policy.

General guidelines to remember:

1.) Remain calm;
2.) Trust your instincts;
3.) Act smart;
4.) Make good decisions;
5.) Take care of yourself;
6.) Take care of others
