Mines opening second weekend of RMAC play hosting Adams State at Stermole Stadium

THE PERFECT START
The Orediggers started its conference schedule with a perfect, 2-0 mark by way of wins over South Dakota Mines and UCCS. Friday’s win over South Dakota Mines finished with a 2-1 tally thanks to goals from Jason Zobott and Ben Overholt. Talon Stanley and Ford Edwards chipped in on the assists. Sunday ended with a 2-0 result in favor of the home team. Overholt scored again while Baptiste Debuire notched his first tally of the season. Assisting were Tristan Semelsberger and Ian Kugler. Overall, Goalkeeper Drew Johnson needed just one save to earn two wins and a shutout.

SCOUTING ADAMS STATE
Adams State travels to Golden still seeking its first win of the season. The Grizzlies have scored only one goal in four matches. That tally came at CSU-Pueblo in a 2-1, overtime loss. Otherwise, ASU has been shut out by Concordia (Ore.), Saint Martin’s and Fort Lewis. Individually, Abdoulie Danso is responsible for Adams State’s lone goal and Greyson Gilman has one assist on the year. In regards to production, Juan Pablo Segura leads all Grizzlies with his six shots, three on goal. Speaking of on-goal, Jacob Faircloth has started all four matches as ASU’s goalkeeper. His 17 saves and nine goals surrendered convert into a 2.22 goals against average and a 0.654 save percentage. Matthew Munhall serves as head coach for Adams State. He is in his first year at the helm.

URSUS ARCTOS HORRIBILIS
The Ursus Arctos Horribilis is how scientists chose to say Grizzly bear, or Grizzlies, which is also the nickname for Adams State Athletics. Those who kept up with the team last year know that the appropriate term is North American brown bear, but enough with the semantics. Did you know that North American brown bears are officially considered a threatened species? At one point, approximately 50,000 grizzled bears roamed North America, but that number has since dropped to about 1,800 bears in the lower 48 states. The creature can weigh up to 800 pounds, nearly half a ton and actually varies in color from light cream to brown or black. The distinguishing feature of the North American brown bear is a hump on its back which is a mass of muscles used for digging. These are solitary creatures that live for about 30 years in the wild and 40 years in captivity. Interestingly enough, female bears can give birth to cubs while sleeping. So there’s that.

THE OREDIGGER CLUB
SUPPORTING MINES STUDENT-ATHLETES
The Oredigger Club is the Official Booster Club of Mines Athletics, providing financial support to more than 500 student-athletes at the Colorado School of Mines. This aid assists the Athletics Department in funding equipment, apparel, game staff, hospitality events, and more. Oredigger Club membership is open to all alumni, parents, and friends of Colorado School of Mines.
