

BOSTON LOGAN INTERNATIONAL AIRPORT (BOS)

1-800-23-LOGAN | www.FlyLogan.com

Boston Logan International Airport is New England's largest transportation center, ranking 16th in the nation in passenger volume and 14th in flight movements. Logan Airport is conveniently located within the city, just 3 miles from the Thomas M. Menino Convention & Exhibition Center and 5 miles from the Hynes Convention Center. Today, the airport continues to develop and improve as it strives to provide the latest in security, technology, amenities and customer service to all its passengers.

Logan Airport has four passenger terminals, A, B, C, and E, each with its own ticketing, baggage claim, and ground transportation facilities. The terminals are connected to the central parking garage by a walkway system. To accommodate an increase in direct international flights to Boston and enhance the visitor experience, Logan Airport's international terminal (Terminal E) underwent a \$1B expansion and modernization that opened in 2023. Currently, there are 101 gates with contact jet bridges. The expansion has added four new aircraft gates, new and locally-inspired food and retail options, expanded baggage claim and ticketing areas, and more.
