

HELLO CLUB MEMBERS,

We are offering the following course. This an amazing opportunity to add the Basic Coastal Navigation to your sailing skills and development.

BASIC COASTAL NAVIGATION STANDARD COURSE.

Course Description:

This introductory course offers basic knowledge of navigation theory and is the initial course in a comprehensive set of courses offered by Sail Canada on vessel navigation. The curriculum covers the role of the navigator and introduces the publications, aids to navigation, tools and techniques that support planning and safe passage making. The student is exposed to basic plotting and position determination methods. This course covers information key to the effective use of electronics.

Sessions complement material introduced in Sail Canada Basic Cruising and Basic Power boating courses. The concepts and skills covered will be applied in the Intermediate Cruising and Intermediate Power courses and prepares candidates for the Sail Canada Intermediate Coastal Navigation course.

The course covers information key to the effective use of electronics. Sessions complement material introduced in Sail Canada Basic Cruising and Basic Power boating courses. The concepts and skills covered will be applied in the Intermediate Cruising and Intermediate Power courses and prepares candidates for the Sail Canada Intermediate Coastal Navigation course.
