1. Focus on Improvement Needs and Areas of Strength identified by the CALL system (Change the "VIEW CALL AVERAGE BASED ON" options and "VIEW BY" options).
2. Go to "View all items in this area" within any area.
    a. And/Or: go to the "Top 10/Bottom 10" tab to examine items from across the survey.
    b. Look for items with clusters of responses on either end of the spectrum (high or low).
    c. Look for responses with a more even distribution of responses (where the number of responses does not vary greatly from one response to another).
3. Consider what action steps to take to move from a common response (action) to the next level.
4. Based on the data, what leadership practices could a school or district leader prioritize in this school as most important to improve student learning?
