

The Reflective Model

Empowered by What You See

The Reflective Model is a professional tool that activates teacher's thinking to answer many questions in education today. In our learning programs, we use video reflective practices as a learning- centered approach to professional development. Through open designed workshops, educators understand the What, Why, and How of reflection and the right way to implement the process.

WORDS TO BUILD TRUST

QUESTIONS TO ASK YOURSELF

Is this a High Expectation Environment?

An environment where every child is engaged in rigorous yet attainable learning

Is this an Equitable Learning Environment?

An environment that provides differentiated learning opportunities for all students

Is this an Active Learning Environment?

An environment that engages students with opportunities to discuss learning and make connections to real-life experiences,

Let's start here...

Innovate

EMPOWERED BY WHAT YOU SEE...

Describe how your lesson planning is facilitating your delivery.

What are your strengths in this lesson?

What are your weaknesses in this lesson?

Integrate

EMPOWERED BY WHAT YOU THINK...

Choose one that will help you summarize this lesson. Talk more, talk less, or bring the topic to life.

Collaborate

EMPOWERED BY WHAT YOU DO...

What new idea do you have?

What would you change?
