b) ☐ using the results of a survey that, to the extent possible, protects the identity of families of private school students, and allowing such survey results to be extrapolated if complete actual data are unavailable;

c) ☐ applying the low-income percentage of each participating public school attendance area, determined pursuant to this section, to the number of private school children who reside in that school attendance area; or

d) ☐ using an equated measure of low income correlated with the measure of low income used to count public school children.

3. Calculated total number of low-income students in the LEA (A.1 + A.2)

4. Total current year Title I, Part A allocation

5. Transfer in from Title II, Part A
