Dr. Morgan has completely changed "Chilli's (mini-dashchund)" opinion of veterinarians. He had an apt. yesterday for a small growth on his face. He walked right up to the door, was friendly in the office, and wagging for both the assistant and Dr. Morgan. For the first 7 years of his life he squealed like a piglet before entering the vet's office. When the vet examine him...well for sure business down the street knew Chilli was in the office. That vet was a dear friend... I am so relieve that Chilli trusts and is comfortable with Dr.Morgan. He is a gem!

As always, from the moment I entered SFPC I felt warmly welcomed by the ever-efficient Susie, who reminded me that prescription refills were waiting. Megan RVT was equally lovely; supportive, concerned and gentle with my senior dogs (who fear going To The Vet, but MUCH less so here than anywhere else, ever). The Amazing Dr. Adrienne Oliver was thorough, gentle, and adept in her examination, ordering further diagnostics on each very reasonably and with detailed explanation of both rationale and results. Literally we would have to be “pried away” from this practice by force, as we truly love and thoroughly trust this team.

I want to thank all of you from the bottom of my heart! Thank you! My sweet Harley was sprayed by a skunk and had chemical burns on her eyes horribly! She was taken to AVS at 1:30 in the morning and treated. Because iam out of the state currently my son was responsible for her. ABS said it wAs one of the worst cases they had ever seen. My son called back the following day with questions, they were rude! unkind and unhelpful. Like shinning hero's St. Francis came to our rescue!! They made time to see Harley, changed her eye drop to liquid NOT ointment that was IMPOSSIBLE to get into Harley's eyes, gave her pain meds, a seduttive and answered countless

questions with kindness, patiences and true concern for Harley's well being. Thank you and God Bless you.

★★★★★ by Jenna Warner CC# on 2018-01-30

Dr. Harmon is the VERY best! Knowledgeable, friendly yet professional. She went on and beyond her way for our 8 week old puppy's first visit. She took the time to answer our daughter's questions and concerns and was amazing with our new member of the family. We are so grateful for St Francis Clinic, they have cared for two of our cats

and three of our dogs over the years. Several generations of our dogs and cats have been kept happy and healthy and lived beyond their life expectancy. (one of our cats lived to be 23!) The vets are all awesome and the staff is very professional and accommodating in getting us an appointment same day.

Kele hates going anywhere, she's a rescue that will always have that skittishness. But, although she'd rather stay home in a patch of sun on the carpet, the folks at St Francis can coax a certain grumpy calm from her. Nothing like the evacuation/hotel horror show last month (Kele's words). Most important though, is the great care she gets at the Clinic. Other than my son, the only person Kele allows to hold her is Dr. Morgan. High praise and trust from Kele!

I am new to St. Francis Vet and couldn't be happier. The vets and techs are all super personable and really go the extra mile. Most importantly, I feel that the vets are honest, and let me know when a medication or procedure is essential or if it is optional. And they never make you feel bad about asking for price quotes or admitting that you missed a dose or two of flea meds. Just real people that love pets.

All the staff at St. Francis are wonderful - very friendly, knowledgeable, etc. Our doctor was very nice and great with our very young puppy. She even helped us with some training tips for him. Our only complaint is that we had to wait nearly 40 minutes to be seen by even the technician let alone the doctor, and several other pets that came in after us were seen first. I imagine this was based on the doctors' particular availability, but we hope that the wait time is less next time around.

Dr. Harmon is very compassionate. You can just tell that she loves animals and she loves her job. She was so sweet and gentle with my dog, and my dog really loved her! She takes the time to listen and can relate to any issues you might be having. I am lucky that I found her! She was also amazing with my other dog who is absolutely terrified of the vet. She was able to examine him while she was petting him and he couldn't even tell he was being examined. That takes some very special skill. I am very impressed with this clinic and the entire staff! Cody and Mickey will definitely be back.

★★★★★ by Anon on 2017-08-13

I've been to this clinic in the past with another dog and have only had great experiences! When I got a new puppy of my own I was so grateful they were willing to take on a new client. During the first puppy check, overall everyone was very welcoming and willing to answer questions. My puppy seemed to feel very comfortable with the tech & vet. The 15 minutes I was expected to wait time for the charges to drop so I was able to pay after the appointment seemed out of character for this bustling clinic. I was definitely disappointed though when my pup ended up having a puppy parasite. I called and spoke to the vet. The vet was unable to answer my question and stated research would be done and I would receive a call back. I was extremely thankful since a few children had already been around my infected pup. Sorry to say, it's 5 days later and I never received a call back.

Took my kitty William here to see Dr Morgan. He was kind enough to let us in for a quick appointment the next day because Williams eye and toes were infected. Wait was minimal, maybe 2 minutes. I did notice the staff is so great at getting pets in rooms without a lengthy wait in the waiting area like some places. Overall I felt they cared about William and we went home with a treatment for Williams woes and it didn't gauge my wallet like most vets.. it's truly amazing how they care about the pets and always put pets first! Highly suggest this place to anyone!

The dog needed an immunization and flea/tick medication. I am a St. Francis fan. As with the many visits proceeding this one, St. Francis is tops--on account of the quality

people who work there, not only the vets but also the vet techs and staff. For instance, one vet tech--a woman, who has a different chic haircut every time I go and who didn't even assist us this time, was extraordinary in her interactions with a very difficult and energetic black lab puppy. Seeing her dealing so kindly and thoughtfully with that rambunctious dog, I said to myself at the time that her loving care of that puppy is just why I keep coming back here.

Dr. Oliver and the staff at St. Francis are fantastic! I have a 13 and a half year old Lab that has become very arthritic. Dr. Oliver and her staff were so helpful and understanding of my concerns. I was nervous about new medications, and they took the time to answer all my questions. I am confident that my dog is getting the best possible care. He is already moving around with much greater ease.

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Violet Coto on 2017-06-13

Just excellent! brought my cat in for a check up for an upper respiratory infection; received the most amazing care and detailed information from Dr. Morgan and the staff at St. Francis Pet Clinic (at arrival and upon leaving). I have both my pets coming here now. I truly recommend this pet clinic to all who love their pets and want to receive treatment with love and care as well when your pets are not well. They are patient and very clear at explaining exactly what you need to know. And keep in mind, no question is anywhere silly to them. They are ever so helpful so you leave understanding exactly what you need to know and what to do when caring for your pet. That's what I noticed and appreciated very much from this clinic and its staff.

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Barbara McAuliffe on 2017-06-13

I'm new to St. Francis Pet Clinic and as such still getting use to your way of doing business. I had previously been with a small office with one vet so St. Francis is a bit of a change for us. So far so good but we have not all been in to see you. I'll withhold any further opinions until all of my pets have visited you then I'll take a survey and see how they feel about your services and how you have treated them. Until then. . . . My recommendation for recommendation is a 6 for the reasons stated above. After all of the kids have visited with you then I can give you a full recommendation. Thanks again.

Fearing my dog, Marlee, might have something stuck in her ear that I was unable to see, Inwas able to get a same day appointment. Dr Harmon and her team were so great and patient with Marlee who was in a total state of panic, panting, shaking and whining. Dr Harmon allowed me to hold Marlee to help calm her down without the use of sedatives. She was able to extract a giant foxtail from deep in the ear canal. I'm so happy with Dr Harmon and the St Francis team!

★★★★★ by Jett Black- Maertz on 2017-05-21

I have always loved St Francis and we have been bringing family pets here over 30 years. However, my experience yesterday left a bad taste in my mouth and questioning whether we should change vets. The receptionist was very confused when I checked in and communicated this to me. Rather than just going about her business and solving the problem (my file had been mistakenly set to "inactive"), she thought it would be better to narrate the whole thing for me. Suggesting the possibility that I would have to reschedule, even when this turned out to not be the case. Very poor customer service interaction. The kennel assistant was odd. Odd to the point where I was uncomfortable handing my dog over to him. I have never felt uncomfortable with any St Francis staff, and am surprised they would hire someone who gave off this vibe.

Beau a Black Mouth Cur, age 7 and Chilli a mini Dachshund, age 10 both got to visit with Dr. Morgan for the first time yesterday. Beau was adopted at 5 yrs. and is usually easy with the vet. Chilli on the other hand used to squeal like a baby pig when the vet would touch him. Dr. Morgan has a very soft approach and both dogs were easy with him. Chilli even let him look in his mouth without a sound. Dr. Morgan was clear and thoughtful explaining why I needed to vaccinate them for a specific bacteria caused by drinking contaminated water. The assistants were also efficient and kind. It was an easy no stress visit.

★★★★★ by Hector Ponce on 2017-03-24

Dr. Harmon noticed Cowboy's shy demeanor and addressed it professionally and calmly to assure Cowboy a positive experience. She took him out to the waiting area to examine him and provided treats where he totally trusted her. Cowboy is a rescued Aussie Sheppard who's been through a rough patch and needs constant reassurance and wholesome care from me. I completely endorse Dr. Harmon and the staff which made Cowboy most welcome. We will return.

I have the highest regard for St. Francis Pet Clinic and Dr. Harmon. The staff is wonderful. Dr. Harmon genuinely cares about the animals she treats and is an excellent, knowledgeable vet. They have helped me keep my English Bulldog alive and healthy for the past six years, which is no small feat, since she has a life threatening disease called Canine Megaesophagus. They treat GiGi like family and she loves go go see her friends at St. Francis. What dog LOVES to go to the vet??

★★★★★ by Ari Huff on 2017-02-24

The staff were fantastic, the doctor was great. However there is no place for cats to be separated from dogs. This adds more stress to an already stressful situation. In addition, people just let their dogs go where they want so I end up with a dog shaking his slobber all over my slacks. And that is my problem. I don't go to a vet to get dog stink and slobber all over me. If I wanted that I would be a dog owner, not a cat owner. This seems to be normal for most vets in this town though. I understand dog owners make up the primary source of revenue, but a little area for cats wouldn't be that hard. Again, the staff was wonderful every step of the way and the doctor took his time and was thorough. 5 out of 5 stars for the staff and Vet. Just not the set up.

Another smooth visit with the fantastic team at St Francis pet clinic. We had a 5pm appointment and I was really late (which is totally lame). The team at St Francis was clear about the appointment time limit and then treated us with the same courteous and compassion that we always receive there. Maxwell's paw and ear are already starting to feel better!

★★★★★ by Anon on 2017-01-10

Visits to St. Francis are mostly pleasant for us, as was this visit, however, there was something that was disturbing our peaceful wait time and visit. We were shown into a room right away, which was great but we never saw the kids that were running back and forth, yelling in the waiting area. From the exam room, it sounded like they were right on top of us (I would guess two grade school age boys, old enough to know better). My poor little dog is terrified of children (I can see why.) and that combined with the fear of seeing the doctor had him coming unglued. And me, too! If I'd been in the waiting area, I would have spoken to the parent of these children, explaining that this was not the place for running and yelling. In fact, I had just spoken with a man there who was facing putting his dear dog to sleep. He deserved respect, peace and quiet. I mentioned something about the noise to the doctor when he came in but he kind of shrugged it off. Is it too much to ask of people to be quiet and respectful in the waiting area? Is this something the front office staff could handle, asking the parents to quiet their children? Perhaps this is a rare occurrence. If so, I'm sorry for being such a whiner.

Im concerned because I looked up mites on internet and mites can appear on a dog's muzzle and cause hair loss. Now Rudy is on anti biotics and I dont know if he even needs to be. An ointment called Goodwinol might have been what he needs. I don't like giving my dog meds when the cause of his symptoms is unknown. So, no, I don't feel confident right now about the treatment.

Always a GREAT experience having a vet appointment with Dr. Oliver at St. Francis. She is so caring and thorough and our dogs love her. Recommend her highly! Kelly and all the staff are very accommodating and caring as well. My only wish is that when we had an emergency with one of our dogs, St. Francis could have fit us in somehow for care instead of directing us to an vet ER facility where we had to spend almost \$1200. Whew, very hard to manage those kinds of bills.

★☆☆☆☆ by Maria Yapur on 2016-12-09

Took forever to get an apt. Told them several times I had to be a work @ a certain hour when I made the apt 4 days prior. Reminded them of that when I showed up to the apt 1 hr & 15 min prior to the time I had to be at work. No one came to talk to me about them running late until I let them know I had to leave... Then they weren't apologetic or acomodating when trying to reschedule... I personally want way better attention & service when dealing with the one I love. They are obviously too busy for the amount of patients they have. Felt like a # at a deli more than my future vet.. Went elsewhere & got taken care of properly & treated like my dog was important to them...

We were searching for a new vet clinic when a friend recommended St. Francis. I was not disappointed! The staff and veterinarian were so nice and knowledgeable! They even had hypoallergenic treats for my very allergic dog. They are also very reasonably priced! I would recommend them to anyone:)

The care my cats, and I, receive at St. Francis Pet Clinic is beyond excellent. They are compassionate, caring and very, very thorough. Dr. Harmon is the only vet I have ever had that calls daily (if necessary) to see how we are doing during an illness, after a procedure, or a change in medication. She never rushes or makes me feel as if I am taking too much time. I can not say enough good things about Dr. Harmon and her staff and their carrying on Dr. Faro's legacy. Thank you!

★★★★★ by Amy & PJ Cosentino on 2016-10-25

We have loved all of our experiences thus far with St. Francis Pet Clinic. The team is so kind and welcoming to our pup; we can tell that he has no anxiety about going to the vet, which makes us happy! The doctors always explain things very thoroughly to us, and give us our options. As first time, loving and concerned pet parents, we could easily be talked into more expensive treatments or precautionary measures. We are thankful that the staff does not take advantage of that, and instead give us all of our options & helps us make the best decisions. They help keep our boy at optimal health!

Love these guys. Dr. Morgan was so informative and helpful - took care of my precious cat Sweetpea and has wonderful bedside manner for us humans too. The front desk staff are always lovely. So glad I was referred to them a couple of years ago. Thanks for taking care of my family.

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Anon on 2016-09-20

I had a great experience. We just moved in the area from NC and this was our cat's first visit to the new vet. Our cat got out of his cardboard box in the car and I arrived

having to hold it shut. The staff was very sweet about it, I didn't have to wait long and they came over to me while I was keeping our cat in the box. They didn't pressure me to get vaccinations, which I dislike from other vet offices. The only thing I didn't like was I asked them if they could throw the box away for me because I got a new one and couldn't carry both home without a second trip. They said they would take care of it and were very nice, however, when I checked out and went to pay they charged me 4 dollars to throw it away saying it was "hazardous material". I wish they would have just told me that as I paid over 50 dollars for the visit itself and over 20 for one shot and 30 for another. The bill was already very high. I didn't like that. But all in all my experience was good.

Our visit to St Francis was great. Rosie made herself right at home in the exam room. There were 2 chairs Rosie took the one in front of the window. The wait was short to see the Vet. the Asst. was very kind and gentle taking the temp and all, cookies a plus. Dr. Morgan was very thorough, and took a good amount of time discussing Rosie and some issues she has. Very helpful. I have been taking my dogs to St Frances for over 30 years . They are the best.

It was a delight to meet Dr. Oliver. She was gentle with both of my dogs on their first visit. It turned out my Black Mouth Cur, named Beau had an ear infection and my Mini Daschund needed attention too. At my previous vet my little dog would over react when the vet even touched him. He was very comfortable with Dr. Oliver, going with her easily. We had a wonderful first visit!

Hubter's tail wags as he climbs the steps to SFPC - Hunter's vet is very caring and knowledgeable; and, just as important, he spent time telling me in detail Hunter's health issues. The staff is great and smile genuine grins as my 105lb boy sneaks around the counter to get treats. SFPC is a great place for Hunter as he ages.

★★★★★ by Adrienne Oliver *Staff* on 2016-07-01

Mr. B received the best care in the world from Doctor Oliver and her staff. Doctor Oliver has super human/cat powers that allow her to talk to our animal in ways that I can only describe as magical. Mr. B returned home with an aura of love and understanding of his purpose in life. When he wants food he seems to try to say "please" now and is less pushy. When he vomits on the floor he does it more calmly and out of the way of traffic. Before he hunts down and pounces on one our kids he meditates in the window sill signaling us of an imminent attack thus allowing us to use our safe room in time. We are so happy Doctor Oliver keeps Mr. B in such good health. I would highly recommend St. Francis Pet Clinic for top notch animal care.

★★★★★ by Ransom Bullard on 2016-06-30

I have been entrusting the lives and care of three beloved dogs to the dedicated staff at St. Francis Pet Clinic for the past 31 years. F***o became diabetic, but lived for 14 years with insulin shots from me, good food and lots of love. Then came B***i, whose life was filled with running on the beach, adventures in the woods and rides in "her" car. She was ignored by her previous owner and decided to adopt me and my comfortable California King bed! Now, there's M****e M*e who was abandoned by her owners at nine years of age! She loves living in the woods, digging deep holes to find gophers and eating an organic diet of the finestkind. Yes, we must drive all the way down the mountain to see the staff at St. Francis, but wouldn't you?

★★★☆☆ by Anon on 2016-06-19

Because the vet tech could not successfully give Loki his pills, she gave them to me to give to him at home. This just doesn't seem right to me. But I did not argue the arrangement at the time. I should have. I failed in the attempt so now the pills are wasted, he is not wormed, and I wonder if I'll have to pay twice to have done what should have been done when I was initially there. Plus, I'll have to make another trip back into SB to have it handled. By somebody. Otherwise everything was handled well and I have no other complaint.

PROS. The docs are very capable and take time to explain. The staff is caring and friendly. The wait times are usually short. You are typically able to get an appointment when needed. The office visits are reasonably priced. CONS: \$\$\$\$. If there is anything else required it will cost. It is hard to leave without paying \$300 or more. There are high prices for every injection and service. The care while very good is very conventional. They will offer conventional options but do not have experience in non-pharmaceutical choices. I don't have a lot of experience with other veterinarians in SB but when there is a need we will continue to go to St. Francis but know it will cost you.

The staff at St. Francis Pet Clinic are extremely accommodating and wonderful with our pets! We were concerned for our dog because she had an injured paw and was panting inexplicably. They were able to squeeze us in and treat her without a previous appointment. Also, because our dog is not generally fond of males, they always try to have her seen by a female whenever possible. They take great care in keeping our dog comfortable and prevent any unnecessary anxiety. We love St. Francis!!

★★★★★ by Ann Marie & Hal Kopeikin on 2016-05-31

Simply the best vet clinic around! We love our cat and so did the caring staff at St. Francis. Dr. Kelly Harmon is an amazing person and our cat immediately loved her.

Dr. Harmon also cared for our Beast---a 170 pound St. Bernard male who is a handful! Dr. Harmon is patient and professional and REALLY takes time to LISTEN to concerns. I know that St. Francis Pet Clinic is incredibly busy, but we did not feel rushed and the vet gave ample time to check out both pets thoroughly. Everyone is exceptionally nice and the vet techs are skillful...you can tell that these people love their jobs...and our pets!

We took our dog in for a skin infection and the dr. checked him for that, but also observed him well and noticed his eye problem. She was truly concerned for his overall health. She was very kind to him even though he's aggressive. You could tell she enjoys working with animals. We had a wonderful visit!

★★★★★ by Ransom Bullard on 2016-05-02

I have been counting on the folks at St, Francis Pet Clinic since 1985. Back then, I brought in my Black Lab Frodo, who was so thirsty all the time that she drank salt water at the beach! She had Diabetes, so Dr. Faoro wrote a prescription so that I could purchase insulin and a box of 100 syringes (the old days) and with one shot per day, Frodo lived for five more years. My Yellow Lab Maggie Mae, abandoned by her previous owners at age 9!. felt no fear when I brought her in for a thyroid test last week. She is a happy and very friendly dog who really enjoys barking at the other dogs in the waiting room. There is so much love and caring for the patients at St. Francis....just ask and you will get an immediate Woof ! and a friendly wag.

★★★★★ by Anon on 2016-04-09

I was happy with our visit, however, I was a little uncomfortable with the stress put on getting dental work for my cat. I felt responsible for the plaque on his teeth when really, what could I have done? I've had cats all my life and never thought once about their teeth. Cats who lived to 17 & 18 yrs old. I can't imagine trying to brush them and I sure can't afford the minimum \$500 to have them cleaned more than once. Now I am considering this expense mostly because I was made to feel neglectful. Most pet owners cannot afford such an expense and shouldn't have to feel uncomfortable about it. I brought my dog there two years ago to have his teeth cleaned to the tune of \$1000. I couldn't have paid for it. My then boyfriend did. There's just no possible way I can pay that for my cat. I'm sorry to submit a negative review of our visit but I'm being honest. On the up side, I very much like our vet and staff. Our visit was nice and my cat was very comfortable. I wouldn't take my animals to any other clinic.

★☆☆☆☆ by Kristin St. John on 2016-03-05

Worst experience in my life to have our 18 year old cat paralyzed and suffering severe pain from a rabies shot. And the worst part is the doctor never informed me of the seriousness of the vaccine or possible side effects. There was no need for this to happen and my daughter and I are devastated. Here is her facebook post today. The reason this post is called, "The Amazing Tiger," is because this is the third time I have been home for 48 hours at my cats side nursing him back to health. I cannot stand to see animals in pain. They are so helpless but also have an insane fight and will to live. Animals do not want to die. They too experience joy and love; trust me, my cats

been kicking coyote ass for 18 years just for one more day to eat tuna and bask in the sun. Tiger is our little furry, six-toed (polydactyl cat, google it) cranky ass, miracle. Coming from an abused family, to a very severe coyote attack, then a bobcat attack and now an allergic reaction to his rabies shot he got yesterday. He can't move. :(I am going to one day write a childrens story on him called, "The Amazing Tiger." But for now I am not leaving his side-Spoon fed baby food, forced shots of pain medicine and some pee on my leg is worth the fight to give this guy another day in the sun. Pray for Tiger! xx

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Jennifer Hardin on 2016-03-05

My little pup is on the shy side. While making a purchase, the girls up front helped my nervous guy feel more relaxed in the office with cookies and kisses. By the time I was ready to go, he was calm and happy . I can't say enough great things about St. Francis!

NPS: 0 1 2 3 4 5 6 7 8 9 10

★☆☆☆☆ by Anon on 2016-02-23

Very sick 14 month French Bulldog. He was sent home with an anti-biotic and bland dog food for his diarrhea and lethargic behavior. We had to rush him the next day to VCA where he was severely dehydrated, low blood sugar, extremely lethargic and put on an IV to bring him back. It was touch and go for 12 hours. He was diagnosed with Addison's. I wish Dr Morgan would have thought out of the box to other possibilities rather than jumping to giardia since it going around. St Francis has been my go to Vet but not anymore.

Outstanding across the board! Dr. Adrienne Oliver is clearly an expert and well-trained DVM who showed great compassion and skill for all four of the dogs (one very ill Rescue; three of my own) that she has seen so far. Her interactions with me have been kind, empathetic, detailed, scientifically sound, respectful of my knowledge base, and practical. Staff Melanie, Anjelica, Susie, and many others were experienced, friendly, prompt, efficient, remembered my animals, and all interacted with them as if they TRULY CARE. Have already referred a number of other clients and will continue to do so.

Fantastic! Dr. Oliver is the BEST! She is so smart and immediately correctly diagnosed an intricate knee problem in my male dog, almost upon sight. I followed her from White's Pet Hospital and have been thrilled with the change. The vet techs are knowledgeable and so friendly. I already have referred several others.

★★★★★ by Brian Wainwright on 2016-01-08

I have a 14 year-old dog / best friend, so I have definitely seen my share of veterinarians and pet clinics, and St Francis Pet Clinic is right up with the best of them. The staff is very professional, yet completely personable. I tried a few other highly rated vets around town, but didn't feel like they actually listened when I tried to explain what was going on with my buddy. At St Francis, the vets listen and I feel like they treat my old friend the way I would if I were also his vet. I'd recommend them to anyone.

★☆☆☆☆ by Anon on 2015-12-24

Came in for a shot and asked if my pet's ears could be looked at as well. Was told that a separate appt would be required for the latter. I understand appointments are part of the business. I was simply looking for a "yes/no, this is a concern that should be followed up on." As a client, my in person visits to your business are limited to once or twice a year. It's of high value to get the most from those visits, even if it is just an ancillary opinion.

NPS: N/A

I went for a second opinion on whether our dog needs surgery. Dr. Lawrence, the vet, and her assistant were easily able to handle and make friends with my wiggly, nervous dog. Dr. Lawrence was very patient with my questions, generous with her time, and offered suggestions on other options while being frank and sympathetic

about the cost. When I checked out, all the names and numbers of the referrals we discussed were given to me. I was impressed with the efficient and friendly front desk, the calm and sunny vibe of the waiting room, and the compassionate manner of Dr. Lawrence. It was such a nice experience, I decided to switch to St. Francis.

The last few appointments I had to wait beyond my scheduled time, but this time everything went as scheduled. I feel very badly about my dog, Bridgette, giving the technicians such a difficult time when trimming her nails. She's usually so good, but we typically go to a groomer where we are present, so maybe that was the missing ingredient and why she was so scared & required muzzling (I'm so embarrassed)!

Iowa had such a wonderful experience. The Staff at St. Francis Pet Clinic were so nice and friendly. They genuinely really cared about helping my dog get well also did not overcharge me. Being on a tight budget with 3 kids , they understood and helped me make good choices for my dogs care. I wanted to take the time for this server because I wanted to share just how amazing they were . I feel lucky to have found such a great Clinic. Sincerely, Michelle @ my little Westy snow star

I had a great experience with Dr. Morgan. They got me in the same day I called. Pricing is pretty standard (expensive but our babies are worth it). He really made me feel like he knew exactly what he was doing and that he cared very genuinely. My pup is back to his normal self. Thank you St Francis!

I was visiting Santa Barbara with my dog & she came down with severe allergies & needed some medication. I read the positive reviews for St. Francis Pet clinic and it was walking distance from where we were staying so I walked in and they were able to make time to see my dog & get her feeling better. Very kind staff.

I am a loyal customer to St Francis Pet Clinic. I was surprised it took 2 weeks to schedule a tech appointment, but maybe that is because you are busier than usual. But since this wasn't time critical, it didn't really matter. I did have to wait 1/2 hr for my appointment and I understood there were some emergencies that preceded mine. However, it seems like the time to process the payment could have been quicker. I think I had to wait another 15 mins to get the bill taken care of for a procedure that took less than 5 minutes!

Dr. Morgan and each staff member I interacted with demonstrated an exceptional level of compassion, understanding and professional courtesy. Despite the fact that our shelter-rescue dog is having some serious social issues with other dogs and made a scene in the waiting room, the assistants and techs were gracious and calm, and even allowed us to wait outside and talk through her file there until the doctor was ready for us. Dr. Morgan was very knowledgeable and informative about how genetic inheritance, training and physical discomfort/health issues can play into behavioral problems, and was easy to talk to about the difficult rehoming decision we are facing. This was my first visit, as we recently moved to Santa Barbara, and I would not hesitate to return with our older dog or to recommend the practice to friends.

Fantastic experience with Cooper's dental and extraction work. Prior to procedure, great communication regarding estimate from front office and great communication on what to expect during and post surgery from Dr. Oliver. I was concerned about how it would all go and was on pins and needles the day of procedure. The spot-on contact from the office and Dr. Oliver the day of and during the procedure was great. Cooper had two cracked molars extracted and was up and running the next morning. Follow up calls post surgery from the office were a nice touch and appreciated. Oh, if only we humans could recover from health/dental incidents, and without any complaints, as quickly and quietly as our canine luvs! Office is efficient and cooperative. Dr. Oliver is wonderful, as always! Thanks to Dr. Oliver and St. Francis staff for everything! Cooper concurs!

★☆☆☆☆ by Edward Macias on 2015-09-21

I took my cat in 3 weeks ago now due to her throwing up more than usual and beside the exam some blood work was done on Fri/Sat.. I was told I would be called on the following Monday with results.. I was never called.. when I called on Wed. I was pased around to three different people with each person I had repeat the history and name.. the 3rd person actual got annoyed with me because I said I had been past around to 3 different people and I was not sure what was going on and could not get one person to give me info.. so this individual told me they would call me back later with test results.. another week has gone by and still have not received a call regarding test results.. very unprofessional and sorry I paid \$300 to get exam and blood work at St Francis pet clinic will need to take my cat somewhere else now since I never heard back from them and when I called the were very rude and told me they would call me later.. still waiting for their call 3 weeks later.

The day seemed really busy in the vet office. I'm not sure what was happening behind the scenes but I felt like I checked-in and although they were 10mins late for the the appointment, which was fine, I was given a brief explanation in the reception area vs. a room. There were other dogs barking and while I was trying to pay attention and focus on the discussion I was busy trying to keep my dog inline with everything going on in the reception area. They took him back quickly and came back out and told me they would call and that was it. No ETA on when that call would come or should be expected. I realize they were probably really busy but just didn't have that sense of care that I would expect for my pet and myself as the owner.

St. Francis Pet Clinic has amazing doctors and staff. Dr. Morgon spend took his time and gave my dog a full looking over. He then clearly and full explained Hunter's hip issues and then fully explained various treatments. It was clear Dr. Morgon loves dogs through his gentle handling of Hunter. The staff were excellent, as well showing genuine interest in Hunter's care. St Francis would most certainly take his dog to these fine people. t

From the moment we entered until the second we left, I felt my dog's needs were honored. The front was busy but in order to see us in the order we entered so the front office personnel stepped around the, already being attended to, clients to greet us and check us in. Our appointment started punctually. The technician who brought us in was over the top friendly which is exactly what my skittish dog needs. I can tell my really enjoys going to the doctor.

★★★★★ by Ann Marie & Hal Kopeikin on 2015-06-16

Our St. Bernard Gatsby is a lot of dog...and St. Francis is a "lot of vet clinic!" They are the absolute best in every way...the young ladies at the desk, the vet techs, and of course, the veterinarians! Our Gatsby has his own "rules" and "ideas" and this clinic helps him to stay safe and healthy and happy..they even let him weigh in at the end (he hates to get on that scale and when a dog who weighs close to 200 pounds does NOT want to do something, he generally gets his way). St. Francis and Dr. Kelly Harmon saved our dog's life 3 years ago, quickly diagnosing a previously un-diagnosed medical condition that almost took him to an early grave--we are so grateful for Dr. Harmon for helping Gatsby regain his health and giving us extra time with our wonderful dog.

★★★★★ by Melissa Costello on 2015-06-10

I have been taking my pit mix here for a couple years now. I always receive great service, except for my last visit. I had to wait over 30 minutes and then needed to leave as I had another appointment set up that I couldn't miss, knowing it would take an additional 30 minutes for the vet to check my dog. I rescheduled and made the appointment with Dr. Oliver who was wonderful with Pumpkin, but she found a tick on her and told me they would remove it in the back while cutting her nails. When I took her home, the tick was still there. She also suggested antibiotics and pain meds for an inflamed paw, which is fine, but the paw ended up healing on its own within 2 days. I understand the doctors do this for protection and to be safe, but I choose natural over medication any day, and putting drugs inside my dog if not necessary isn't my preference. I wish that they would offer more alternative methods of healing versus medication which is very expensive. Overall, I love this place, just a few small complaints from my last visit. I always recommend it and will always return.

We had a sudden, urgent need for euthanasia for a newly acquired, elderly dog. Angel had not been seen at the clinic before. They were able to arrange an appointed time for me to come in for an exam to confirm that this was the right time. Dr. Lawrence was very thorough with the exam and her observations helped me feel confident that this was the right thing to do. She and the assistants were very kind and the procedure was gentle and caring, for Angel as well as for me. I really appreciate how they handled this situation. My eleven year old dog Princess was adopted only 9 months ago and Dr. Morgan has been very helpful with her care, which has required some very thoughtful diagnostics and prescriptions.

★★★★★ by Anon on 2015-03-22

I have been going to St Francis for decades, but I am considering looking for a new Vet in the near future. I have had some horrific medical side effects from medications they have administered and am concerned about that. Presently most the helpers have been very congenial but I have had some bad experiences with the desk help in the past - young girls seemingly only there because they want a pay check or perhaps their parents requiring them to get a job!

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Anastasia Tharp on 2015-03-16

I'm new to Santa Barbara and chose to take my 10 yr old lab to St. Francis due to their proximity to my house and a few people recommending although did hear some negative stories. My dog had an eye infection, and clearly was irritated and after about a week it was cleared up. My positive experience was the staff was friendly from the ladies at the desk to Dr. Morgan. My negative experience, is yes, they took his temperature and weight, but that was about it. In his 10 years and 4 vets from retiring to moving around, all of them felt around his body, addressed issues they noticed from either his chart or anything they had concerns about- he has a golf size cyst on his lower abdominal region and they didn't even mention whether I knew about it, had been watching it- nothing... I'm not sure why they didn't give him an overall "physical" considering his age and was bothered by it.

I just stopped in to pick up flea treatment. I believe it was Michelle who greeted me at the counter. I had promised myself I would not come in and burst into tears over the tragic loss of beloved and revered Dr. Faoro. Though I have cried about it multiple times over the past ten days or so, I could not help myself and the tears leaked out. I want you all to know, how wonderful and loved you are. This practice and Ron's care touched lives far and wide. This I know just within my own family. Your continued present, real, kind, hardworking, care of this community and our pets is such a great blessing. The grace Michelle showed, being real with me and yet still professional really helped me heal too. I wish there was something I could do for you, my family could do for you, to some how make it all a little bit better. We continue to send our love through time and space to you there at the clinic and Ron's family. We really are here holding you in this very sad time and always. Thank you for being so wonderful and making a difference. Truly. Thank you.

★★★★★ by Robert and Ann Benham on 2015-03-11

On March 9th we received a call--recorded on our recorder--not only reminding us of the next day's appointment but of the necessity of pre-paying for services. We have used St Francis since moving to Santa Barbara in July of 2013. We pay all of our bills on time. I found this call with repeated requests for prepayment to be offensive. I question the priorities of this clinic. Is it money that has driven out professionalism?

We brought in our dog Nemo yesterday, as we just had found out that his tumor had come back and he had only weeks left to live. Dr. Lawrence provided us with the most knowledgeable, compassionate and supportive end-of-life care possible in this difficult situation. She was not rushed and took all the time she and we needed to discuss and to make our puppy as comfortable as possible. Thank you for your kindness!

Gentle, caring, informative, and options for care. Thorough, but not insisting on tests to satisfy their curiosity or to prove they are right or to protect them against being wrong. Reasonable costs. My pet was not traumatized by the visit. The waiting room was not chaotic. Waiting room and examination room was very clean. The attention to my pet was respectful and affectionate. I was given full explanations of procedures for care, but did not feel like I was pressured to choose a particular one. Allowed time for me to ask questions. I trust Dr. Morgan's knowledge and understanding of veterinary medicine. Everything I want in a veterinarian.

Dr. Harmon and the staff at St. Francis is so very kind. I've moved from Santa Barbara but still come to St. Francis because she is so patient with my dogs. One of my dogs tends to bark and growl when he's nervous. She is so kind and really takes her time to let him have the best experience possible. I also I can tell that she really appreciates, likes, and respects my dog. The same is true with the kind vet who weighed my dogs before their exam with Dr. Harmon. We've never had a better vet; that's why I keep coming back to St. Francis. I trust them to give excellent care every time. That's been my experience since we've been going (2002)

★★★★★ by Mary Lewandowski on 2015-02-06

Everyone at St. Francis Pet Clinic is awesome! Our dog (a rescued pit bull mix) was in need of leg x-rays, a dental cleaning and some vaccines. She is fearful and tentative in new situations, and not usually friendly with other dogs, so any trip outside of our "safe" home is always a bit nerve-wrecking. The doctors and staff at St. Francis took extra care to accommodate her and make her feel comfortable. Since she would have to be housed for the day and sedated for this procedure, they made special arrangements with me to bring her in to the office a little later, and let me wait with her while she was being sedated. The staff were patient with her, and allowed her the time she needed to "get to know them" before coming in with the medical tools and beginning the exam. By the end of the day, my little Lucy had made many new friendships with the kind staff at St. Francis. The people there are wonderful!

I brought in Oprah and Gayle for a microchip implant and a three year rabies vaccine yesterday. . Oprah did real well butcGayle had a bad reaction and had to bring her back for medication and treatment. Dr . Morgan was great This morning Gayle was very vocal but was not vomiting and her ears were up However when Oprah smelled her she growled at Gayle why was that since they are siblings and are usually inseparable? If you have any explanation I would appreciate any feedback Thanks

Doctor Kellye Harmon is an amazing veterinarian. Through her skills and dedication she helped our little maltese live to be a very happy 15 and a half years old. Our little girl felt very safe with Dr. Harmon and was never scared to see her wonderful doctor. In fact, they had a very loving relationship. We now have a puppy maltese and are very happy to have Dr. Harmon there to help us keeping her a happy healthy pup. From the veterinarians to the staff at the front desk, St. Francis goes above and beyond for their patients. We are very appreciative and thankful for everyone at St. Francis. We would and do recommend St. Francis to anyone who needs a good, caring veterinarian for their furry companions. Open 6 days a week too! Thank you St. Francis!

★★★★★ by Beth Goodman on 2015-01-07

I had not been a client of St. Francis for many years because I did not live in Santa Barbara for six years and only recently became a pet owner again. Our two new-to-us cats, William and Cleo needed a check up. It made me happy to return to St. Francis because I had received such excellent care years ago, during a time of great sadness, when my dog of 13 years, Clover, had to be put to sleep. The kindness I received that last day with Clover has stayed with me. Returning to St. Francis for a non-urgent visit was just fine. It was a complicated day for me but it went as well as could be expected. I liked being able to use the email contact system as I initially inquired as to an appointment after hours, but I also received a follow-up phone call, during the early period of the next business day and that personal contact was again kind and caring. I was not present in the room at the time the vet examined William and Cleo (I had accidentally scheduled an important call at the same time : / but I was happy that the bill seemed within reason. I am happy to have reestablished a relationship. Sincerely, Beth

Everyone is really friendly and patient. They clearly love animals and want to help pets live happy, full lives. Plus, the office is always clean; you rarely see even animal fur anywhere! Parking is a bit of a pain, but not too bad considering they are close to downtown.

★★★★★ by Bob Townsend on 2014-10-23

A friend recommended St. Francis Pet Clinic to us, we were not disappointed. Our Faye is very happy too! Faye is a DAWG Rescue dog, who we adore and have been to three local Vets to assist in her recovery. None were as thorough, thoughtful, helpful and so loving to our dog as the St. Francis Pet Clinic's Staff, Kelly and Zineb, as well as Dr. Lynne Lawrence. Their assessment, care and explanation of the

symptoms were concise, well thought out, explained exceptionally well and had a plan for recovery. We have found a Home for our pets and they Love the St. Francis Staff, Woof :-)

My husband and I moved to Santa Barbara a couple months ago with our four-year-old cat. Two weeks ago, we adopted a kitten. It was time to find a local pet clinic. We heard from multiple people that St. Francis Pet Clinic was the place to go, and they weren't wrong. Dr. Morgan and technician Missy were easy to talk to and knowledgeable. Our kitten appointment was quick and thorough at the same time. We found our pet clinic! We'll be back soon with our four-year-old cat.

★★★★★ by Judith McCaffery on 2014-09-24

Thanks you St. Francis and Dr. Morgan for getting me and my dog Maggie in for an appointment at the last minute today! I am always so impressed with the service I receive. Dr. Morgan is wonderful, very knowledgeable, and always compassionate and caring when owners have to make tough decisions. My animals, cats and dog over the years, have also loved him! Cannot say that for a pet/vet relationship very often. Not all vets I've experienced over the years can relate well to both pets and people. Dr. Morgan does. Office staff are always super friendly, helpful and great with the followup. Thanks so much everyone! Maggie's feeling much better.

Nothing I can't expect, but the best. Every time I visit St. Francis Pet Clinic, all the personal is very pleasant, and professional, the most important thing for me is that my pets are treating as I treat them, that gives me a peace of mind. Staff is extremely patient specially with one of my dogs, every time I have a question or concern the technician will go the extra mile to have an answer or will make a note and contact me latter, but I always get back to me thank you very much, for the great service. From all of you that works at St. Francis, well done and keep up the excellent job You guys do!!!! The reason I recommend you, to my family and friends. Including coworkers.

★★★★★ by Carol Ondrey on 2014-09-04

I was very pleased with the professional service and with the friendly atmosphere. As always, in a Veterinary office, everyone there really loves animals. That makes for pleasant conversation in the waiting room. As yet, I don't know whether the treatments given to my cat will heal her. But so far, she seems happier and did eat a little bit of the special cat food I bought . That was her first meal in a week. Of course, I'd be even happier if these services were less expensive, but if the treatment cures the problem, I will consider it money well spent.

Our first visit was yesterday 08/13/14 and I am so happy with our first visit/experience I will definitely be coming back. From the minute we walked in the door until we walked out everyone was so nice. Loved Dr. Rachelle Wemmer...she is super sweet, answered all my questions and also informed me of things I wasn't aware of....and thanks to Angelica too yesterday for all her help. Very happy :)

Everyone at St Francis is so warm and caring and professional. Dr. Morgan is great with our dog, Fonz, who is a 15-year-old terrier-chihuahua mix who gets very frightened at the vet's; Dr. Morgan really understands how to handle traumatized animals, and his tenderness is always touching to behold. Thanks also to their awesome technician, Natasha, who happily bears the unpleasant task of giving Fonz a (much-needed) nail trim! We feel very fortunate to have such a competent team keeping our loved one healthy and happy.

Excellent as always! We switched our pet's care to St. Francis a few years ago from Noah's Ark after it became a VCA hospital and have NEVER regretted it. Dr. Harmon and the entire staff have been so amazing and caring for our furry family. We feel well taken care of never taken advantage of with unnecessary testing (which wasn't the case with VCA Noah's Ark). We highly recommend them to all of our friends with pets. Thank you St. Francis! The Turners

I use to drive 2 hours north to take "My Girls" to the vet. I had tried several here locally and even in Summerland, NO!!! disliked everyone of them! until I tried St. Francis. The staff and doctors at St. Francis LOVE my girls greet them with belly rubs and even kisses! The care Posie and Bella receive is SUPERB! their knowledgeable and have the latest technology to provide my girls with the very best care. I always receive follow up calls checking on them when their care needed was not a typical check up. Thank you so much for making my life easier the drive up north was getting old and costly.

What a friendly and helpful place! Kim at the desk, and Natasha, who greeted us in the exam room, and Dr. Rachelle Wemmer were all very warm and welcoming, and made us feel at home for our very first visit. They each spent time making sure all of our questions were answered and that we knew everything we needed to know before we left. We feel lucky to have found the perfect place to take our new rescue dog!

Little gyro does not enjoy going to the vet but he loves the people at st francis. Dr Wemmer and her staff have gone above and beyond to help him through surgery and his various health needs. They've done an even better job of reassuring ME that my little pal is going to be in good hands no matter the situation. I want to thank them all from the bottom of my heart for caring as much as they do. I wish i could single them out by name, as they deserve the recognition, but they know who they are. I'll never take gyro anywhere else. Thank you.

This is my second visit and I have been very happy. They are thorough and genuine. The Vet provided info about optional vaccines/treatments but didn't push them of make me feel they were necessary, just an option if I thought I was interested. Only downside was I waited for over 30min for our appt. with a hyper anxious puppy and a wiggly toddler.

I have had Dr. Morgan as my vet many years ago,I really like him. He's caring, low key, and aware. I really appreciate that he considers other viable options and doesn't just automatically push hard core medical treatments. The technician was kind, organized, and through with Devi's intake. All in all, a great experience, just as I remembered from 10 years ago. So glad Dr. Morgan is still there. Thank you!

★★★☆☆ by Joseph Foster on 2014-05-30

I called the office earlier before coming in, and a new girl answered the phone. She said that I wasn't able to do a drop in appointment like I've done often in the past, because now I have to have an annual exam first. I told her that wasn't necessary and right away she told me to go to the human society then. She had a rude tone and didn't sound like she cared at all. I've been coming here for years.

★★★☆☆ by Sherrie Anderson on 2014-05-15

Upon my arrival with Brita, I checked in and reminded one of your staff members that I would need heart worm. She laughed and I questioned what was so funny, and her reply was you don't have heart worm and should you say heart worm medication. I thought this was very unprofessional and found nothin humorous about her stupid remark. I'm 72 and having pets all my life, have never visisted a clinic that did not allow me to accopany my pet during the shot process and additonally weigh her and check her over. I will not use your clinic again and certainly would not recommend you to anyone else. sherrie anderson

★☆☆☆☆ by Lisa McDonough on 2014-05-06

I am a new customer to St. Francis pet clinic, and I'm VERY impressed about the service at the front desk; they are always cheerful and as a new client I feel that the staff are happy and competent. This makes a huge difference when looking for a new clinic to bring my beloved baby-my 11 year old Jack Russell Terrier! I used to see Dr. Greg MacDonald, who we were very attached to and he retired. I did not get the same comfortable impression with the new Vet at Dr. Greg's old Milpas location, which is near our house, but St. Francis is worth the drive! Sincerely, Lisa

Each time any one of my pets has needed quick attention, this pet hospital has gotten me in quickly and without hassle. Dr. Morgan is the vet for all of my pets and they love him and we love him! One of my dogs had cancer and Dr. Morgan and his crew were so gentle and caring. They got us through the time with the best care that was possible. Then my cat's tooth became infected and really painful. They got him in quickly and removed the infected tooth and even checked in on multiple occasions to make sure he was alright. We recently adopted a dog who had some tic bites and new tics even though we use tic medication. They helped us remove them and made sure I was better at removing them myself. I am a novice in the tic arena because my last dog never got them. I love this pet hospital and I would absolutely never go anywhere else.

★★★★★ by Kelly Pierce on 2014-04-01

Our experience was wonderful as always. From all of the ladies at the front to Dr. Morgan and his assistant, we all had a stress free and successful visit. Our cat, James, can be less than warm and fuzzy to say the least so when he needed shots I

was apprehensive of how he would react. Both his assistant and Dr. Morgan just calmly chatted me and James up while he had his temp taken and was given two shots -- I only realized the first shot was given after Dr. Morgan was already on to the second one and James never seemed to notice at all! Our chihuahua, Piper, also had another very relaxed visit which was much appreciated. Thank you everyone! Kelly Pierce

★★★★★ by Eric Powell on 2014-03-30

St. Francis is a wonderful place!!!! While on vacation in Santa Barbara (March, 2014), our Newfoundland developed a severe pain in her front shoulder. We were able to get her in right away to see Dr. Morgan and he did an excellent job. We have a long-standing relationship with our vet in our home town and were initially nervous taking our beloved family member to someone we did not know. Dr. Morgan took a great deal of time completing a very thorough physical exam. Ultimately, his expertise allowed us a piece of mind and our dog was able to enjoy the rest of her vacation relatively pain free. Thank you very, very much. Eric and Erin. We would recommend St. Francis and Dr. Morgan to our family and friends without hesitation.

★★★★★ by Jeremy Chow on 2014-03-29

We were very fortunate to have Dr. Wemmer and her vet tech, Meghan, from day 1. Our dog is perpetually at the vet due to her troublemaking shenanigans, and we're always received with warmth and a smile--though, I imagine if you pay as much as we do with dog vet bills, the reception should be like that. If it didn't cost us an arm and leg every time we went, I'm sure we'd stop by and visit more often--more often than we already do. No complaints about the service, though you should expect your appointment to actually begin 5-10 minutes after it is scheduled.

★★★★★ by Julie Lyon on 2014-03-26

The women at the front desk were very friendly and helpful. My cat didn't seem in the least bit traumatized after having had urine drawn from his bladder. When the results came back, very quickly, the doctor himself called me and left me a long, very informative voicemail message explaining the results, what they meant and what we should do now. I was very impressed. Also, my dog has a problem with his anal glands and has been needing to have them expressed every month at another veterinary hospital. I inquired about the price of this service at St. Francis and it's \$10 less so I am switching both of my pets to St. Francis now.

★★★★★ by Russ Chaffin on 2014-03-04

All of the Doctors, Techs and staff are wonderful. I had moved and switched to another Vet Clinic. The staff at the new clinic most of the time seemed rushed, and had an underlying irritability that I did not like. I returned to St. Francis where the staff is always professional, friendly, and compassionate. Recently they were dealing with an emergency that delayed my appointment. They repeatedly checked in with me during the wait, so I wasn't just sitting there wondering what was happening. TO me that is excellent customer service. While it is a fairly traditional vet practice, I very much appreciate that some of my more holistic ideas for treatment are accommodated.

As always the staff at St Francis was professional and caring. I felt like the doctor took the time to explain our options so we could make an educated decision. She followed up with test results and was available to answer questions we had several days after the treatment. It's clear what steps we need to take to get our cat feeling better.

I was concerned about my dogs first journey on a plane, and came to have her physical and ask questions about the journey. The staff were very helpful, answered all my questions and made sure I had done everything that was required by the Hawaiian authorities. I felt very reassured after my visit and would be very comfortable recommending the clinic to other pet owners..

Maureen has been especially knowledgeable and helpful. I appreciate your exchange policy. If a pet food product doesn't meet a pet's need, i.e., they don't like it or won't it it, you kindly take it back and give a refund based on the unused portion. That's so kind and generous of you, and much appreciated by all us pet owners. It keeps me coming back until we find just the right canned food or kibble that Sweetie cat likes. Grateful thanks from a grateful pet owner...

We had a great visit. I had to get Zoey her shots, when we got there we were greeted & Nick came out to tell me what was going to happen. He made friends with Zoey & then took her back & just a few minutes later brought her back, a happy dog! Nick then explained to me what signs to look for for a bad reaction & we went on our way! She was fine with no reaction!

★★★★★ by Kara Otto on 2013-11-30

Dr. Harman is awesome. She calls regularly to check on my dog and also calls the specialist vet for us, which greatly expedites and simplifies that process. She also helped us find a holistic vet to balance my dog's cancer treatment plan. I know that we are in excellent hands with Dr. Harman and the very sweet staff at St. Francis. Although my dog will probably never love going to the vet, her affective response is greatly reduced in this warm, caring environment.

My dog was in trouble, St. Francis got us into a vet right away. I arrived early as I was concerned that our dog could have a fever, and they got us in early. Turned out he had hurt his back probably from chasing birds at the beach. So once the evaluation took place they gave him a cortisone shot and some medication and within an hour he was feeling much better. next morning he was back to his old self. THANK YOU DR. MORGAN.

My wife and I found St, Francis to be a VERY caring and efficient environment in our time of stress. Pete is doing incredibly well since the surgery and we feel we've gotten our "kitten" back. Thanks to all your staff and especially Dr. Harmon, her concern and affection for Pete was very appreciated!

My boyfriend and I had a great experience at St. Francis Pet Clinic. We thought the appointment went very well with Dr. Morgan. We look forward to bringing Hazel , our first kitten, to her next appointment. And, we'd like to thank you for the picture taken at the end of our visit. It's the first picture we have the three of us together. Thanks again, Daniel, Hazel & Lea

★★★★★ by Kara Otto on 2013-09-30

The staff are really professional and friendly. They often remember you. Everyone loves animals and it shows. That's very important in a vet. Dr. Harmon listens well and thinks creatively to manage budget constraints. She also calls to check up on your pets, which provides an excellent personal touch. I feel these people love what they do and don't see it as a business. They are more like friends in the community who take excellent care of the pets and people they interact with.

NPS: 0 1 2 3 4 5 6 7 8 9 10

★★★★★ by Catherine Lafuente on 2013-09-27

Once again, the doctor was great with our cat. Our furry one received great care in a prompt and loving manner. We also were complimented on "doing out homework," as we have been working to manage our cat's weight and he has lost a pound since his last visit. This is in part due to the prescription diet that we purchase through St. Francis. Kudos!

St. Francis is a valuable resource to me, though I bring Ruby very seldom. I appreciate that you understand Bill Otto has always been her primary vet, yet you have helped me take care of her for various issues over the years. Ruby loves Dr. Morgan and the techs, and I appreciate the always courteous and efficient service. I have recommended St. Francis to several friends.

I am so happy that my friend Alex DJorgavic Referred SF to me. My experience there was wonderful. I am so relieved to have my dogs healthy and happy thanks to all the care, treatment and suggestions from Dr. Morgan. My two cavaliers and lab are no longer itchy smelly and miserable. The price of all the appts and meds was very fair and reasonable. I am very happy to have a new vet for my animals and will bring my cat in soon.

I absolutely LOVE St. Francis Pet Clinic and so does my puppy, Mo. Its like going to the dog park for him, exactly where he wants to be. No more dog that puts on the brakes seconds before you walk through the door. The vet techs provide superior service and love on my dog from the minute he arrives to the second he leaves and

he doesn't have to sit in a kennel all day when there for long periods of time. Dr. Kellye Harmon is our favorite, so sweet, knowledgeable and such an animal lover. This place could not make my dog feel any more at home. Thank you, and keep it up! Love, MO!

★★★★★ by Cathia Mahaffey on 2013-07-18

We have two working German Shephards and we were originally with another veterinarian's in Santa Barbara. To say the least, my old veterinarian made some major mistakes with our dogs. With our little girl, when we took her in to have her hips x-rayed the old Veterinarian kept marking her back legs wrong. We knew this because she had a minor leg injury. The first x-rays taken, the Veterinarian told us everything was wonderful. However when we brought up the legs being marked wrong. They took another x-ray and then the Veterinarian gives us the worst news any owner would want to hear and again they marked the legs wrong. At this point we switched to St Francis Pet Clinic in the nick of time. Turns out our little boy had to have to major surgeries, that could have been prevented. Lucky for us the Veterinarian caught the fox tail and scar tissue under his back leg. When removed it was the size of a golf ball could have been prevented. The other major surgery was a simple in grown hair and when we asked our previous Veterinarian to remove it. They would only drain it and because of this the in grown hair got worse. To say the lease our little boy ended having surgery to remove the infected hair and left him with a 4 inch scare. Both my dogs are doing great and they love going to St. Francis Pet Clinic. They love their Veterinarians and all the staff. We could not have asked for a better clinic.

★★★★★ by Andy Trask on 2013-07-17

This Vet facility is fantastic! My dog Lucky has had skin issues for years. I had taken him to my local Vet for his skin problems over the last 12 years and was prescribed prednizone which would help for a few days and right back to the same old scratching. I was told he is a lab and its normal that they have skin problems. Tell Lucky that while hes scratching himself bleeding and cant sleep because his skin bothers him that much. A co-worker recommended St. Francis and even though it is a long drive from my home I decided to give them a try. Dr. Lawrence nailed it first try, she says he has an infection, I said what? She tells me its a skin infection and shes going to prescribe antibiotics. Two days later, his coat is shiny like I hadn't seen it in years, hes not scratching, the flakes of skin you could see all over his coat were diminishing. Thats was a few months ago, hes fine as can be today, happiest I have ever seen him. Thank you Dr. Lawrence and the staff at St. Francis!!

The St. Francis staff are all amazing. My cat had surgery by Dr. Morgan and was treated for kidney failure for 10 months until we unfortunately had to euthanize him. He is a skilled and competent vet and a very empathic and compassionate man. The vet techs and front office reception staff were all so great with my cat Jenki. They worked with my budget and really cared about my cat and me. Dr. Morgan is so kind and has such a great manner in making animals and their people comfortable, even in bad situations. I have since moved out of the area but commute to SB even for routine checkups on my other animals because I wouldn't go anywhere else. I will always be indebted to St. Francis Pet Clinic

We have been taking our cat, Flower, to St Francis Pet Hospital for several months now for claw trims. She just had her first annual check up. The staff at St Francis are consistently friendly. So far we have been able to make appointments within a day or two of calling. Dr Lawrence, the vet techs and office manager are never in a rush, have been very gentle with Flower and are happy to answer questions and discuss concerns. I would recommend St Francis to my friends!

The animal technicians are so nice and kind to us when we take my golden retriever (Beau Bear) in for a visit. They are very accommodating as well and promptly relay messages to the Veterinarian in times of crisis. Dr. Morgan is very experienced and extremely knowledgeable over the medical issues that my dog has. I only trust in him Thanks St. Francis Pet Clinic for being a top notch facility !!

What an amazing office! I was greeted by friendly staff who saw that I wasn't going to be able to make it to the counter to sign in with my two large dogs. They brought me the clipboard with papers to fill out. I was seen promptly by the most amazing doctor EVER!! She was friendly and thorough and treated my dogs like they were her own! All my questions were answered and my dogs needs were completely met. I will never have to go to another veterinary hospital...I found the best!

I LOVE my pets!! and was struggling to find a local vet that felt the same passion and love for animals as I do. I wanted a vet that greeted my animals as if they were

friends. Search no more! Dr. Lynn Lawrence is AMAZING!!!! not only is she incredibly knowledgeable about English Bull dogs and their "special" needs, it is very apparently she loves my puppy too! I have called numerous times with multiple questions her staff is always friendly and willing to answer my questions, or find the answer for me if their not quite sure. I appreciate their kindness, knowledge and love for animals. Thank you!

NPS: N/A

★★★★★ by Michael & Leslie Cornish on 2013-07-08

Wonderfully supportive as always. The staff is like family and VERY caring. One of the reasons we decided on another dog after losing our previous one to cancer was to maintain our relationship, as not having the clinic as part of our routine was unacceptable. We were genuinely loved through the last six months of Belle's life and that experience will never be forgotten.

Dr. Kelley Harmon is truly the best vet I have ever known. Her expertise in caring for animals especially, my cat, who has asthma and is aging is incredible. She is very kind, super calm, and has an ability to help you and your pet through difficult times all the while making you feel like it's just a routine office visit and everything will be ok. You and your pet would be blessed to be in her expert care. The technicians and staff at St. Francis Pet Clinic are very friendly, efficient. The house their office is in takes away the clinical feeling. Great VET!! Ruth Since 2006

The vets and technicians at St. Francis do an outstanding job. We adopted Romeo from the shelter & he had kennel cough. St. Francis brought him back from the brink of death & has provided excellent care ever since. Other than standard check-ups and shots, we have also had teeth cleaning. No more bad breath and we can be assured our beloved Romeo will stay well with a healthy mouth. They are current, provide education, compassionate & skilled. We give them 5-stars!

I had ordered food for Crystal, and was told it would arrive in your office no later than the next Thursday. This NEVER happened. I was forced to go to another Vet to get the food. . This occurred at least 2 different times. I was forced to come to your office to pick it up and it was never there. This happened after I called to be sure it was. (I was told it was ready for pick up) I am no longer going to use your services.
