In-The-Water – 3 Backward Rolls	
Mud Monster (Full Body Cover)	
Watermelon Polo	
Polar Bear Swim	
Polar Bear Swim – Every Day	

Other Badges: Individuals can provide suggestions for new badges or revisions of existing badges.

Placement Tips:

- You can accommodate more badges on an armband by splitting the tape in half.
- Orient the end you want to be visible away from the armband and upside-down.
- Place opposite end under the arm band.
- Secure end of tape to body of tape and then wrap the long end of the tape.

Frequently-Created Badges: For events requiring many badges, such as basic swim badge, watermelon polo, and polar bear swim, is optimum to make them ahead. They can be stored on the back of the plastic guides or other plastic surfaces.

Number of Badge Dispensers: It is ideal if there are 2 people to dispense badges on the first 2 days of camp, when the dock is first opened (first shift). The 2<sup>nd</sup> later shift and days later in the week can generally be handled by one person.

Equipment Needed at Boat Dock: The Boat Dock Kit.

Suggested: A hat and sunscreen.

Equipment Needed at Swim Dock: A towel (to dry arms and bands prior to application of tape), a chair (standing or stooping for several hours does not work well), the Swim Dock Kit.

Other Optional Personal Equipment at Swim Dock: Generally, the person dispensing swim badges is under the sun canopy, so a hat and sunscreen are only necessary if you intend to spend part of your time out in the sun. A swimsuit is also necessary only if you intend to swim.
