

# HAPPY MOTHER'S DAY

May 12, 2019

Dear Mother,

A mother is someone who really cares about their children with all their heart. When something goes wrong among her children it is felt deeply. This special care constraints to be how God feels toward His only begotten son. There is a pain within those tender eyes Mother looks deep and feels the hurt we go through.

Mary, the mother of our Lord Jesus Christ felt such pain as she watched her son hang on a cruel cross bleeding for our transgression. Every strike wounded His body, with feelings beyond our human understanding. Yet it was a special price for all His creation.

Mary kept some of the things Jesus spoke deep within her heart. Mothers will keep secrets of children, as a mother, can count on those memories, that will always rest with us until we get to heaven.

Each mother reading this should be comforted knowing you've made an impression of a lifetime, you are hurt, you are loved; you understand, and usually you won't say a word. You are great! You are always wanted beyond emotion! what a woman, a great mother only God could make!

**Yours in**

**Living for Christ,**
