- TechStat Toolkit Materials
- TechStat Process Overview
- TechStat Process Deep Dive
What is TechStat?

• TechStat is a face-to-face, evidence-based accountability review of an IT investment

• TechStat results in concrete actions to address weaknesses

• TechStat reduces wasteful spending by turning around troubled programs and terminating failed programs sooner

**Activities**

- TechStat Team provides notification to the investment manager and business owner that the investment has been selected for a TechStat
- Notification should include what a TechStat is and why the investment has been chosen for a review
- Notification is provided through email with the date and time of the TechStat Meeting (to be no more than 1 month away from notifications) and the deadline for submitting relevant documentation and artifacts (to be no more than 1 week away from notification)

**Output**

- Official Notification (email or memorandum) and list of relevant documentation and artifacts

**Duration**

- 1 business day

---

**Dear Investment Manager:**

The Agency IRB requests your attendance for a TechStat review of Online Human Resources Management System (OHRMS) on March 31st, 2011. The intent of the meeting is to gain a shared understanding of the objectives of the project and understand the risks associated with continued investment.

The IRB requests to be briefed with your best understanding to date on the plan forward for the project with a focus on risk management, and future cost and schedule estimates.

We request that the project team be ready to present on the following topics:

1. Program Overview – to include overall intent/purpose and measurable goals/objectives
2. Summary and status of validated costs, activities/tasks, and milestones
3. Rationale for variance from the original goals/performance measures
   a. Describe any additional scope that may have been added including cost and schedule impact
   b. Describe stakeholder impact to delayed implementation
4. Previous corrective action plans and outcomes and forward thinking plans to prevent subsequent variances
5. Presentation of significant risks with mitigation strategies and assignment of risk owners

---

Notification email should contain the date of the TechStat and clear next steps for data submission.
## Step 2.1: Collect Investment Documentation

| **Input** | Official Notification (email or memorandum) with Checklist of appropriate documentation, GAO Reports, OIG Reports, News, and Human Intelligence |
| **TechStat Toolkit** | TechStat Guide (B) |
| **Activities** | Investment Manager reviews list of relevant documentation and artifacts, confirms currency of documentation to TechStat Team, and submits artifacts to TechStat Team |
| **Output** | Submission of current investment artifacts |
| **Duration** | 5 business days |

### Internal Evidence:
- EVM reports
- Performance reviews
- Performance management system
- IT Dashboard

### External Evidence:

**MEMORANDUM FOR:** Donald Johnson  
Project Manager  
Office of Management of Human Resources (OMHR)

**FROM:** Jane Smith  
Chief Information Officer  
Agency for Government Efficiency

**SUBJECT:** OMHR Improvement Plan Online Management of Human Resources System (OMIRS)

April 1, 2011

At a TechStat session held March 31, 2011 OCO and the IRB reviewed the OMIRS. Based on the Program’s report to OCO, OMIRS is over cost and behind schedule. As documented in the Program’s report at the meeting, the investment has had past issues with insert challenge items. While the project has a challenging road ahead, past issues can be addressed when the OMIRS executes a new strategy, breaking outcomes into 6-month deliverables, identifying a dedicated program manager.

At the TechStat session, OCO and OMIRS agreed on the importance of OMIRS taking decisive corrective action so that OMIRS will succeed. As OCO and OMIRS have discussed, the new approach will allow the OMIRS to achieve the following key outcomes, as committed to by OMIRS in its Improvement Plan:

- Module 1 full delivery: Deadline: June 12, 2011
- 100% functionality: Deadline: October 1, 2011
- 100% usage: Deadline: October 31, 2011
- Outcome 4: Deadline: March, 2012

We greatly appreciate OMIRS commitment to improving OMIRS, so that the project will become a success. My staff and I look forward to working with you, the project manager, in this endeavor in the coming months.

FOLLOW-UP: Enter and Track Action Items to Conclusion in TechStat Repository

**Input**
- Follow Up Memo

**TechStat Toolkit**
- TechStat Guide (B), Corrective Action Plan (H), Follow Up Briefing Deck (O)

**Activities**
- TechStat Team enters action items, action owners and deadlines into repository for transparent monitoring
- TechStat Team follows-up with Investment Manager to ensure action items are completed, reviews documentation as evidence that intent of corrective action item was achieved and resulted in improved performance
- TechStat Team serves as conduit between Investment Manager and CIO to resolve issues where an action item may need to be revised, deadline extended, or eliminated because it is no longer applicable

**Output**
- Updated Repository

**Duration**
- 2 hours – end of action plan
