

Ultimate Phonics Reading Fluency Test

This test allows you to quickly check reading fluency and phonic decoding skill for students of all ages. It consists of a one page word list and three pages of sentences, all written with words that follow the standard phonics sounds and rules of English. Good readers will be able to read this test with few or no issues.

Weak phonics skills are the root of many reading problems. Students *must* be fluent and accurate decoders or they will *never* achieve good reading comprehension. Students who have trouble reading this test will become much better readers by using a complete, systematic phonics program such as [Ultimate Phonics](#).

Instructions

- ✓ There are two versions of the test included. Give the Student Copy to the student and keep the other copy for yourself, to record the results.
- ✓ Listen to the student read the word list and sentences out loud and in order. While they read, follow along and make notes on your copy:
 - **Circle any words they read incorrectly or skip.**
 - **Underline any words they read very slowly and laboriously. If they take longer than three seconds to sound out a word, that is too slow.**
- ✓ Pay close attention to the way they read, especially the way they handle unfamiliar words they haven't memorized. The most common issues are:
 - Guessing at words, usually by substituting a different word starting with the same letter and with similar length.
 - Skipping words or adding words that aren't there.
 - Sounding out words accurately, but slowly and laboriously.All of these are fluency problems that cause poor reading comprehension.
- ✓ After the student finishes the test, on each page count the total number of circled words (incorrect words) and underlined words (slowly sounded out words). Write the count at the bottom of the page. Read the notes at the bottom of each page to interpret the results.
- ✓ If it becomes clear to you that the student is making too many mistakes or is simply unable to read the test, you may stop at any time.

NUMBER OF WORDS CIRCLED _____ **UNDERLINED** _____ **TOTAL** _____

Phonics Patterns: Consonants, consonant blends, short vowels

Notes: These words are at a beginning level of reading from a phonics standpoint. The student only needs to know the sounds of the consonants and short vowels to read these words.

A student who misreads and/or slowly reads more than 10 of these words is lacking beginning phonics skills. If the student is in 1st grade or higher, remedial action is recommended.

Student: _____ Age: ____ Grade: ____ Date: _____

Grades 1 - 2 : Basic Phonics Decoding Ability

Have the student read the sentences aloud from his copy. As you listen, **circle a word on your copy when the student does not read the word accurately, and underline a word when the student reads the word accurately but very slowly (more than 3 seconds)**. Enter the number of circled and underlined words below.
