WZF57R16F

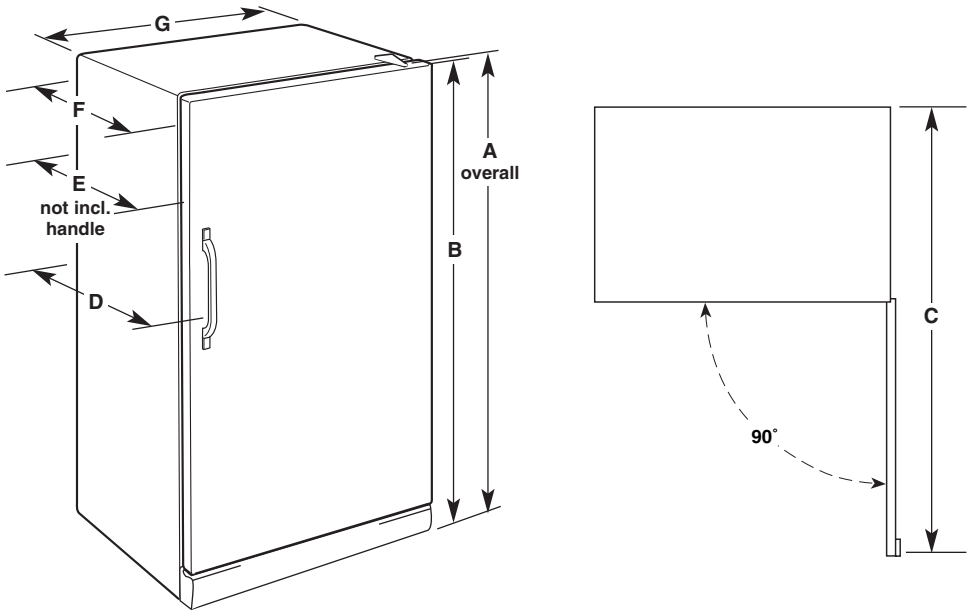

Recommended grounding method
A 115 Volt, 60 Hz., AC only, 15- or 20-amp fused, grounded electrical supply is required. It is recommended that a separate circuit serving only your freezer be provided. Use an outlet that cannot be turned off by a switch. Do not use an extension cord.

NOTE: Before performing any type of installation, cleaning, or removing a light bulb, turn the control (Thermostat, Refrigerator or Freezer Control depending on the model) to OFF and then disconnect the refrigerator from the electrical source. When you are finished, reconnect the refrigerator to the electrical source and reset the control (Thermostat, Refrigerator or Freezer Control depending on the model) to the desired setting. See “Using the Controls.”

Water Pressure
A cold water supply with water pressure of between 30 and 120 psi (207 to 827 kPa) is required to operate the water dispenser and ice maker.

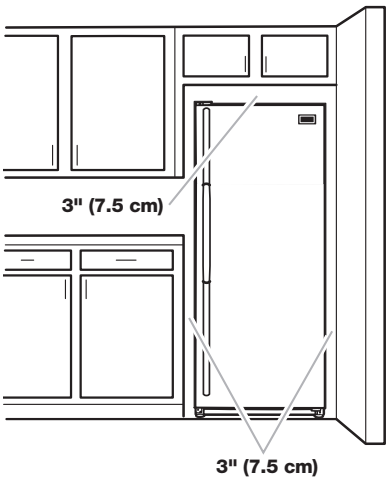

Reverse Osmosis Water Supply
The pressure of the water supply coming out of a reverse osmosis system going to the water inlet valve of the freezer needs to be between 30 and 120 psi (207 and 827 kPa).

PRODUCT DIMENSIONS

Model Number	Door Swing	Model Size	Height - Overall “A”	Height - Top of Cabinet “B”	Depth - Door Open 90° “C”	Depth - With Handles “D”	Depth - Without Handles “E”	Depth - Cabinet Only “F”	Width - Cabinet “G”

LOCATION REQUIREMENTS

Ventilation and Clearance

- Allow at least 3" (7.5 cm) of air space at the top and on both sides of the freezer. Allow at least 1" (2.54 cm) between back of cabinet and the wall.
- If you are installing your refrigerator next to a fixed wall, leave extra space on the hinge side so the door can open wider.
- Keep flammable materials and vapors, such as gasolline, away from freezer.
- Do not cover the freezer with items such as blankets, sheets, tablecloths, etc. This reduces air circulation.

Temperature
Your freezer operates most efficiently when located in an area where the temperature will not fall below 40°F (5°C). Place your freezer in a location where the temperature will not fall below this recommended temperature.

Because Whirlpool Corporation policy includes a continuous commitment to improve our products, we reserve the right to change materials and specifications without notice.
