Electrical: A 115 Volt, 60 Hz., AC only, 15– or 20–amp fused, grounded electrical supply is required. It is recommended that a separate circuit serving only your wine cellar be provided. Use an outlet that cannot be turned off by a switch. Do not use an extension cord.

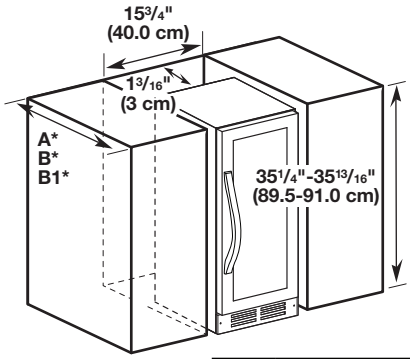

LOCATION REQUIREMENTS

- It is recommended that you do not install the wine cellar near an oven, radiator, or other heat source.
- Do not install in a location where the temperature will fall below 55°F (13°C). For best performance, do not install the wine cellar behind a cabinet door or block the base grille.

OPENING DIMENSIONS

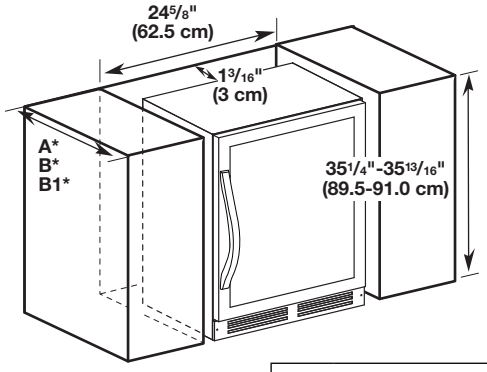

- Height dimensions are shown with the leveling legs extended to the minimum height.
  NOTE: When leveling legs are fully extended, add 5/8" (15 mm) to the height dimensions.
- If the floor of the opening is not level with the kitchen floor, shim the opening to make it level with the kitchen floor.
