# NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The SMI 3Fourteen REAL Asset Allocation ETF (the "Fund") is a non-diversified series of ETF Opportunities Trust, a Delaware statutory trust (the "Trust") which was organized on March 18, 2019 and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The offering of the Fund's shares is registered under the Securities Act of 1933, as amended. The Fund commenced operations on February 26, 2025.

The Fund's investment objective is to seek total return. Total return is comprised of both income and capital appreciation.

The Fund is deemed to be an individual reporting segment and is not part of a consolidated reporting entity. The objective and strategy of the Fund is used by 3Fourteen & SMI Advisory Services, LLC (the "Advisor") to make investment decisions, and the results of the Fund's operations, as shown in its Statement of Operations and Financial Highlights, is the information utilized for the day-to-day management of the Fund. Due to the significance of oversight and its role in the Fund's management, the Advisor's portfolio manager is deemed to be the Chief Operating Decision Maker.

The following is a summary of significant accounting policies consistently followed by the Fund. The policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services – Investment Companies".

# Security Valuation

The Fund records investments at fair value. Generally, the Fund's domestic securities (including underlying ETFs which hold portfolio securities primarily listed on foreign (non-U.S.) exchanges) are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale are valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith under procedures approved by the Trust's Board of Trustees (the "Board"). Although the Board

is ultimately responsible for fair value determinations under Rule 2a-5 of the 1940 Act, the Board has delegated day-to-day responsibility for oversight of the valuation of the Fund's assets to the Advisor as the Valuation Designee pursuant to the Fund's policies and procedures. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally are valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market.

The Fund has a policy that contemplates the use of fair value pricing to determine the Net Asset Value ("NAV") per share of the Fund when market prices are unavailable as well as under special circumstances, such as: (i) if the primary market for a portfolio security suspends or limits trading or price movements of the security; and (ii) when an event occurs after the close of the exchange on which a portfolio security is principally traded, but prior to the time as of which the Fund's NAV is calculated, that is likely to have changed the value of the security.

When the Fund uses fair value pricing to determine the NAV per share of the Fund, securities will not be priced on the basis of quotations from the primary market in which they are traded, but rather may be priced by another method that the Valuation Designee believes accurately reflects fair value. Any method used will be approved by the Board and results will be monitored to evaluate accuracy. The Fund's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing.

Accounting standards establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs used to develop the measurements of fair value, which are summarized in the three broad levels listed below.

Various inputs are used in determining the value of the Fund's investments. GAAP established a three-tier hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

# Security Transactions and Income

Security transactions are accounted for on the trade date. The cost of securities sold is determined generally on specific identification basis. Realized gains and losses from security transactions are determined on the basis of identified cost for book and tax purposes. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

# **Accounting Estimates**

In preparing financial statements in conformity with GAAP, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of investment income and expenses during the reporting period. Actual results could differ from those estimates.

#### Federal Income Taxes

The Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. The Fund also intends to distribute sufficient net

investment income and net capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. Therefore, no federal income tax or excise provision is required.

Management has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken in the Fund's tax returns. The Fund has no examinations in progress and management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. Interest and penalties, if any, associated with any federal or state income tax obligations are recorded as income tax expense as incurred.

# Reclassification of Capital Accounts

GAAP requires that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. For the period ended June 30, 2025, there were no such reclassifications.

#### Dividends and Distributions

Dividends from net investment income, if any, are declared and paid at least quarterly by the Fund. The Fund distributes its net realized capital gains, if any, to shareholders annually. The Fund may also pay a special distribution at the end of a calendar year to comply with federal tax requirements. All distributions are recorded on the ex-dividend date.

#### Creation Units

The Fund issues and redeems shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of at least 25,000 shares known as "Creation Units." Purchasers of Creation Units ("Authorized Participants") will be required to pay to U.S. Bank, N.A. (the "Custodian") a fixed transaction fee ("Creation Transaction Fee") in connection with creation orders that is intended to offset the transfer and other transaction costs associated with the issuance of Creation Units. The standard Creation Transaction Fee will be the same regardless of the number of Creation Units purchased by an investor on the applicable Business Day. The Creation Transaction Fee charged by the Custodian for each creation order is \$300. Authorized Participants wishing to redeem shares will be required to pay to the Custodian a fixed transaction fee ("Redemption Transaction Fee") to offset the transfer and other transaction costs associated with the redemption of Creation Units. The standard Redemption

Transaction Fee will be the same regardless of the number of Creation Units redeemed by an investor on the applicable Business Day. The Redemption Transaction Fee charged by the Custodian for each redemption order is \$300.

Except when aggregated in Creation Units, shares are not redeemable securities. Shares of the Fund may only be purchased or redeemed by Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company ("DTC") participant and, in each case, must have executed an agreement with the Fund's principal underwriter (the "Distributor") with respect to creations and redemptions of Creation Units ("Participation Agreement"). Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase shares in the secondary market with the assistance of a broker and will be subject to customary brokerage commissions or fees. The following table discloses the Creation Unit breakdown based on the NAV as of June 30, 2025:

|   | Creation Unit<br>Shares | Transaction<br>Fee | Value     |  |
|---|-------------------------|--------------------|-----------|--|
| SMI 3Fourteen REAL Asset Allocation ETF | 25,000                  | \$300              | \$639,500 |  |

To the extent contemplated by a participant agreement, in the event an Authorized Participant has submitted a redemption request in proper form but is unable to transfer all or part of the shares comprising a Creation Unit to be redeemed to the Distributor, on behalf of the Fund, by the time as set forth in a participant agreement, the Distributor may nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible, which undertaking shall be secured by the Authorized Participant's delivery and maintenance of collateral equal to a percentage of the value of the missing shares as specified in the participant agreement. A participant agreement may permit the Fund to use such collateral to purchase the missing shares, and could subject an Authorized Participant to liability for any shortfall between the cost of the Fund acquiring such shares and the value of the collateral. Amounts are disclosed as Segregated Cash Balance from Authorized Participants for Deposit Securities and Collateral Payable upon Return of Deposit Securities on the Statement of Assets and Liabilities, when applicable.

#### Officers and Trustees Indemnification

Under the Trust's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts with its vendors and others that provide for general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund. However, based on experience, the Fund expects that risk of loss to be remote.

# Statement Regarding Basis for Approval of Investment Advisory Contract.

<u>Approval of Investment Advisory Agreements – SMI 3Fourteen Real Asset</u> Allocation ETF

At a meeting held on December 17-18, 2024 (the "Meeting"), the Board of Trustees (the "Board") of the ETF Opportunities Trust (the "Trust") considered the approval of the proposed Investment Advisory Agreement (the "SMI Advisory Agreement") between the Trust and 3Fourteen & SMI Advisory Services, LLC ("SMI," or the "Adviser" for this portion of the Minutes), and the Investment Sub-Advisory Agreement (the "SMI Sub-Advisory Agreement") between SMI and Tidal Investments, LLC ("Sub-Adviser"), with respect to the addition of the SMI 3Fourteen Real Asset Allocation ETF (the "SMI ETF"). The Board reflected on its discussions with the representatives from SMI and the Sub-Adviser earlier in the Meeting regarding the manner in which the SMI ETF is to be managed and the roles and responsibilities of SMI and the Sub-Adviser under the SMI Advisory Agreement and SMI Sub-Advisory Agreement (collectively, the "SMI Advisory Agreements").

The Trustees reviewed a memorandum from Trust Counsel ("Trust Counsel") that addressed the Trustees' duties when considering the approval of the SMI Advisory Agreements and the responses of SMI and the Sub-Adviser to requests for information from Trust Counsel on behalf of the Board. Trust Counsel noted that the responses included information on the personnel of and services to be

# Supplemental Information (unaudited)

provided by SMI and the Sub-Adviser, an expense comparison analysis for the SMI ETF and comparable ETFs, and the SMI Advisory Agreements. Trust Counsel discussed the types of information and factors that should be considered by the Board in order to make an informed decision regarding the approval of the SMI Advisory Agreements, including the following material factors: (i) the nature, extent, and quality of the services to be provided by SMI and the Sub-Adviser; (ii) the investment performance of SMI; (iii) the costs of the services to be provided and profits to be realized by SMI and the Sub-Adviser from the relationship with the SMI ETF; (iv) the extent to which economies of scale would be realized if the SMI ETF grows and whether advisory fee levels reflect those economies of scale for the benefit of its investors; and (v) possible conflicts of interest and other benefits.

In assessing these factors and reaching its decisions, the Board took into consideration information specifically prepared or presented at this Meeting. The Board requested or was provided with information and reports relevant to the approval of the SMI Advisory Agreements, including: (i) information regarding the services and support to be provided by SMI and the Sub-Adviser to the SMI ETF; (ii) presentations by management of SMI and the Sub-Adviser addressing the investment philosophy, investment strategy, personnel and operations to be utilized in managing the SMI ETF; (iii) information pertaining to the compliance structure of SMI and the Sub-Adviser; (iv) disclosure information contained in the SMI ETF's registration statements and each firm's Form ADV and/or the policies and procedures of each firm; and (v) the memorandum from Trust Counsel that summarized the fiduciary duties and responsibilities of the Board in reviewing and approving the SMI Advisory Agreements, including the material factors set forth above and the types of information included in each factor that should be considered by the Board in order to make an informed decision.

Trust Counsel reminded the Board that it also requested and received various informational materials including, without limitation: (i) documents containing information about SMI and the Sub-Adviser, including financial information, personnel and the services to be provided by SMI and the Sub-Adviser to the SMI ETF, each firm's compliance program, current legal matters, and other general information; (ii) projected expenses of the SMI ETF and comparative expense and performance information for other ETFs with strategies similar to the SMI ETF prepared by an independent third party; (iii) the anticipated effect of size on the SMI ETF's performance and expenses; and (iv) benefits anticipated to be realized by SMI and the Sub-Adviser from their relationship with the SMI ETF.

# Supplemental Information (unaudited)

The Board did not identify any particular information that was most relevant to its consideration to approve the SMI Advisory Agreements and each Trustee may have afforded different weight to the various factors. In deciding whether to approve the SMI Advisory Agreements, the Trustees considered numerous factors, including:

The nature, extent, and quality of the services to be provided by SMI and the Sub-Adviser.

In this regard, the Board considered the responsibilities of the Adviser and Tidal under the SMI Advisory Agreements. The Board reviewed the services to be provided by the Adviser and Tidal to the SMI ETF, including, without limitation, the Adviser's process for formulating investment recommendations and the processes of the Adviser and Tidal for assuring compliance with the SMI ETF's investment objectives and limitations; Tidal's processes for trade execution and broker-dealer selection for portfolio transactions; the coordination of services by the Adviser for the SMI ETF among the service providers; and the anticipated efforts of the Adviser to promote the SMI ETF and grow its assets. The Board considered: the staffing, personnel, and methods of operating of the Adviser and Tidal; the education and experience of each firm's personnel; and information provided regarding its compliance program and policies and procedures. After reviewing the foregoing and further information from the Adviser and Tidal, the Board concluded that the quality, extent, and nature of the services to be provided by the Adviser and Tidal was satisfactory and adequate for the SMI ETF.

The investment performance of SMI and the Sub-Adviser.

The Board noted that the SMI ETF had not yet commenced operations. The Trustees also considered that SMI does have recent experience managing separate accounts with strategies similar to those of the SMI ETF.

The costs of services to be provided and profits to be realized by SMI and the Sub-Adviser from the relationship with the SMI ETF.

In this regard, the Board considered the financial condition of SMI and the level of commitment to the SMI ETF by SMI and the Sub-Adviser. The Board also considered the projected assets and proposed expenses of the SMI ETF, including the nature and frequency of advisory payments. The Trustees noted the information on projected profitability provided by SMI. The Board compared the proposed unitary fee of the SMI ETF to the fees of a peer group of other

# Supplemental Information (unaudited)

ETFs selected by Broadridge using Morningstar data as being comparable to the SMI ETF in terms of the type of fund, the style of investment management, anticipated assets and the nature of the investment strategy and markets invested in, among other factors. The Trustees noted that the SMI ETF's projected gross and net expense ratio and gross and net advisory fee were above its median Morningstar category, as well as above its peer group median. The Trustees acknowledged SMI's representation that the proposed advisory fees are appropriate and competitively priced for an actively managed fund that requires unique services such as those provided by SMI. The Trustees also considered the split of the advisory fees paid to SMI versus those paid to the Sub-Adviser and the respective services provided by each to the SMI ETF. The Trustees also noted that SMI would contractually waive its management fee for the initial year of operations of the SMI ETF. After further consideration, the Board concluded that the projected profitability and fees to be paid to SMI were within an acceptable range in light of the services to be rendered by SMI.

The extent to which economies of scale would be realized as the SMI ETF grows and whether advisory fee levels reflect these economies of scale for the benefit of the SMI ETF's investors.

The Trustees considered that it was not anticipated that the SMI ETF would be of sufficient size to achieve economies of scale in the first few years of operations. The Board noted that the unitary fee structure limits the shareholders' exposure to underlying operating expense increases. The Board noted that the Adviser would consider breakpoints as the SMI ETF gained assets. The Trustees also noted that SMI would contractually waive its management fee for the initial year of operations of the SMI ETF, which would provide an immediate benefit to shareholders

#### Possible conflicts of interest and other benefits.

In evaluating the possibility for conflicts of interest, the Board considered such matters as: the experience and ability of the advisory personnel assigned to the SMI ETF; the basis of decisions to buy or sell securities for the SMI ETF; and the substance and administration of the Code of Ethics and other relevant policies of SMI and the Sub-Adviser. The Board noted that SMI and the Sub-Adviser have each represented that it does not anticipate utilizing soft dollars or commission recapture with regard to the SMI ETF. The Board also considered potential benefits for SMI and the Sub-Adviser in managing the SMI ETF. Following further consideration and discussion, the Board concluded that the standards and

# Supplemental Information (unaudited)

practices of SMI and the Sub-Adviser relating to the identification and mitigation of potential conflicts of interest, as well as the benefits to be derived by SMI and the Sub-Adviser from managing the SMI ETF were satisfactory.

After additional consideration of the factors delineated in the memorandum provided by Trust Counsel and further discussion and careful review by the Trustees, the Board determined that the compensation payable under the SMI Advisory Agreements was fair, reasonable and within a range of what could have been negotiated at arms-length in light of all the surrounding circumstances, and they approved the SMI Advisory Agreements.
