| PRODUCT SUMMARY  |                     |  |  |  |  |  |
|--|---------------------|--|--|--|--|--|
| V <sub>DS</sub> (V)  | 12                  |  |  |  |  |  |
| $R_{DS(on)}$ max. ( $\Omega$ ) at $V_{GS} = 4.5 \text{ V}$ | 0.34                |  |  |  |  |  |
| $R_{DS(on)}$ max. ( $\Omega$ ) at $V_{GS} = 2.5 \text{ V}$ | 0.4                 |  |  |  |  |  |
| $R_{DS(on)}$ max. ( $\Omega$ ) at $V_{GS} = 1.8 \text{ V}$ | 0.55                |  |  |  |  |  |
| $R_{DS(on)}$ max. ( $\Omega$ ) at $V_{GS} = 1.5 \text{ V}$ | 1.2                 |  |  |  |  |  |
| $R_{DS(on)}$ max. ( $\Omega$ ) at $V_{GS} = 1.2 \text{ V}$ | 2.5                 |  |  |  |  |  |
| Q <sub>g</sub> typ. (nC)                                   | 0.47                |  |  |  |  |  |
| I <sub>D</sub> (A)   | 0.5 <sup>a, f</sup> |  |  |  |  |  |
| Configuration  | Single              |  |  |  |  |  |

#### **FEATURES**

- TrenchFET® power MOSFET
- Ultra small 0.8 mm x 0.6 mm outline
- Ultra thin 0.4 mm max. height
- Typical ESD protection 1500 V (HBM)
- 1.2 V rated R<sub>DS(ON)</sub>
- 100% Ra tested
- · Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

#### **APPLICATIONS**

- · Load switch
- · High speed switching
- DC/DC converters
- · Battery-operated and mobile devices

COMPLIANT HALOGEN FREE

| Maximum junction-to-ambient a, d | t ≤ 5 s | R <sub>thJA</sub> | 80      | 100     | °C/W |  |  |
| Maximum junction-to-ambient b, e | t ≤ 5 s | R <sub>thJA</sub> | 265     | 335     | G/VV |  |  |

#### Notes

- a. Surface mounted on 1" x 1" FR4 board with full copper, t=5 s. b. Surface mounted on 1" x 1" FR4 board with minimum copper, t=5 s.
- c. Refer to IPC / JEDEC® (J-STD-020), no manual or hand soldering.
- d. Maximum under steady state conditions is 135 °C/W.
- Maximum under steady state conditions is 400 °C/W.
- Package limited.

#### Notes

- a. Pulse test; pulse width  $\leq 300~\mu s,$  duty cycle  $\leq 2~\%.$
- b. Guaranteed by design, not subject to production testing.
- c. Surface mounted on 1" x 1" FR4 board with full copper, t = 5 s.

Stresses beyond those listed under "Absolute Maximum Ratings" may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated in the operational sections of the specifications is not implied. Exposure to absolute maximum rating conditions for extended periods may affect device reliability.

#### Note

a. The power dissipation P<sub>D</sub> is based on T<sub>J</sub> max. = 25 °C, using junction-to-ambient thermal resistance, and is more useful in settling the upper dissipation limit for cases where additional heatsinking is used. It is used to determine the current rating, when this rating falls below the package limit.

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
