Future of Flight Aviation Center & Boeing Tour-

Located approximately 25 miles north of Seattle, The Future of Flight Aviation Center & Boeing Tour is the only public tour of a commercial jet assembly plant in North America.

Explore the interactive exhibits and displays in our 28,000-square-foot Aviation Center Gallery; then go behind the scenes for a 90-minute tour of the Boeing plant where you can watch 747s, 777s, or 787s being assembled right before your eyes.

In addition to the great exhibits, you can also visit the **Future of Flight Store** where you can pick up your color keepsake of the jet you designed in the Future of Flight Aviation Center Gallery, as well as exclusive Future of Flight merchandise and essential travel gear.

Forget everything you've ever thought about airplane food. The **Café at the Future of Flight** offers a wide range of tasty and healthy menu items, including snacks, beverages, sandwiches, soups and salads.
