

# What happens when you search "Photography" on OrgSync?

---

Only a few clubs appear, and none is a photography club specifically for Tempe students.

These are three of the closest fits:

**#1**

Ascending Artists' Association

The Ascending Artists' Association is located on the Tempe campus and has some photography aspects, but is more broadly an arts club. It is not a club specifically for photography.

**#2**

Poly Photography Club

The Poly Photography is welcoming to all student photographers and almost perfectly fits the bill – except it's based in the Polytechnic campus, making it less accessible to Tempe students.

**#3**

National Press Photographers Association – ASU Chapter

This club offers a community for students specifically interested in photojournalism, but is located on the Downtown campus. Like the Poly Photography Club, it is not as accessible for Tempe students.
