Dedication

To Major John Everard Hatch who has been an inspiration to us throughout our four years of college life, the class of nineteen hundred and twenty six dedicates this, the twenty-ninth volume of the Glomerata, in token of our love for him as a man, our admiration for him as a soldier and our devotion to him as a leader.

() for eword

When the long years have erased.

Pictures of our college days,

And Time's process has effaced.

Auburn scenes, and friends, and ways,

Then refresh them; take a look.

Thru the pages of this book.

Memories of days gone by,
Pays of dances, sports, and fun,
Pays of youth, when hope ran high,
Mights of study, work well doneStudent days of 'and lang syne'
Shall these pages call to mind.

From the limbo of the past,
Back thru Recollection's gatesIn the shadows they have cast,
See anew our Auburn mates.
If these things come back to you,
We have done what we would do.

College Classes Othletics Military Teature Organizations Like a eastle parapet
High against the moonlit skies,
Outlined clear and bold in jet,
Do the Auburn towers arise
In silhouette.

Ringed about with beauty, rare,
Scenes her sons cannot forget,
Dignified beyond compare,
In a grove of oaks is set

Taught by mentors kind and wise,

Here the Tiger's sons prepare

To venture far, beneath strange skies,

And prove her claim, in labors there,

To Tlory's prize!

From out the halls where Learning holds her sway Into the pleasant sunlight of mid day . . .

From learned lips slow words of wisdom fall To students gathered in old Langdon Hall . . .

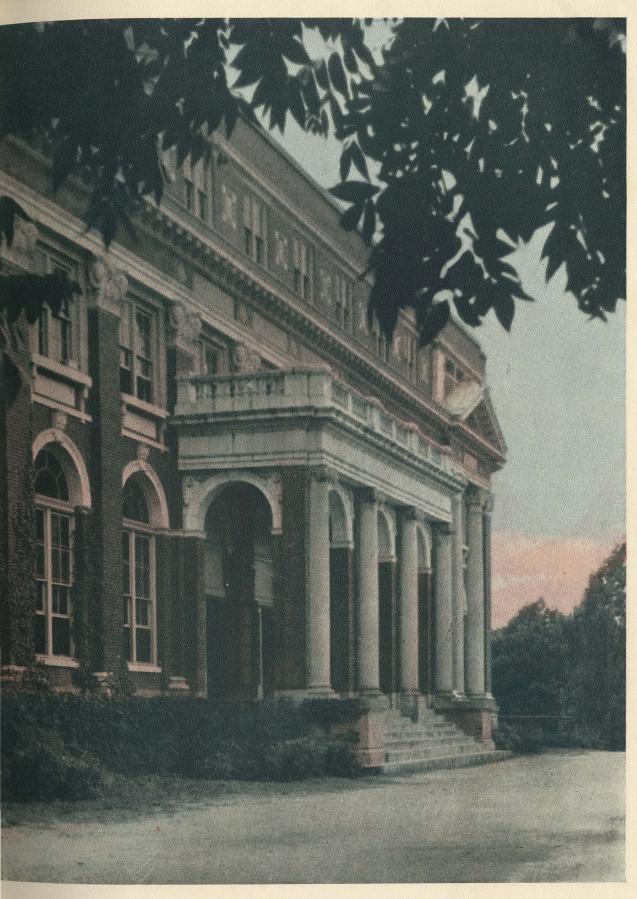

The ivy'd walls where alchemists of old Transmuted baser metals into gold.

All labors cease, as in the college tower, . Clanging, the great clock strikes the noonday hour.

Here, in the shaded, silence-ridden nooks,
The dead dust gathers on forgotten books . . .

Here, in her stately mansion on the hill, Bountiful Mother Ceres works her will.

The lazy sunlight filters through the trees
Which oft have heard the lover's fervent pleas . . .

President

Did you ever sit on his front porch or in his home and converse with him even for a few minutes? If not, it is an opportunity not to be slighted. If so, do you remember the feeling experienced on leaving? It cannot be other than a very distinct recollection of having been in the presence of a man who is full of power and personality. The mind of the man is quick, just and broad. His kind, straight-forward eyes vouch for the friendliness that he has for all and the tones of his voice unconsciously, before the words are spoken, carry the welcome of a return.

The College of Agriculture

The GLOMERATA STATE

MARION JACOB FUNCHESS
Dean

Research and educational work represent the fields into which the work of the College of Agriculture is divided. Each of these two is covered by the Departments of Agronomy, Agricultural Engineering, Animal Husbandry, Botany, Entomology, Farm Management and Horticulture. These phases are equally important, but research is probably the more interesting. Its purpose is to discover new facts and principles pertaining particularly, in this case, to agriculture, to render them practical to the average farmer, and finally, to give the matter the necessary publicity. The educational phase must supplement this by training farmers and teachers of farmers in modern methods and efficiency such as are not to be "learned on the farm."

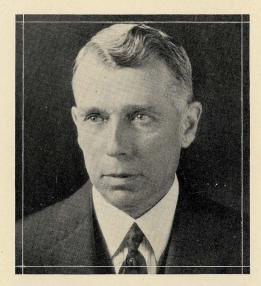

The College of Engineering and Architecture

The GLOMERATA 10

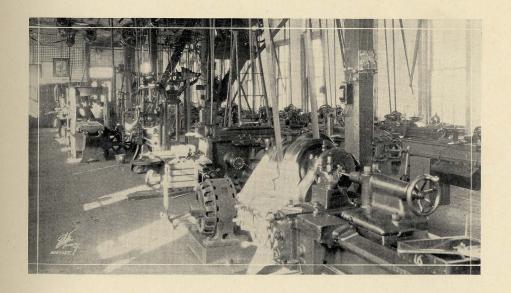

Engineering, as a science, holds opportunities undreamed of. This is true of all its phases, electrical, civil, mechanical, highway, chemical, architectural and agricultural. Each day brings new ideas and new work into each field, making the outlook broader and more interesting. Growth in the scope has meant growth and intensity in the study and increase in the numbers interested.

Historically, Auburn has the oldest college of engineering and architecture in the South and one of the oldest schools of engineering in the country. Practically, it ranks among the best. Recognition is given everywhere to an Auburn engineer for his knowledge, ability, personality, fresh life and vigor.

Graduate Studies

George Petrie
Dean

Graduate work has grown during fifty years of educational development from the unusual to the usual. Encouragement of it at Auburn through forty years has meant the filling of many chairs in Southern Colleges. Inspiration and impulse toward research in advanced work have meant valuable contributions to the store of human knowledge.

Specialized training is necessary today for the understanding of modern problems and situations. To be untrained is to be mediocre, to be partially trained is to be average, and to be specially trained is to be in a position to grow, to progress and to live. Thus the Graduate School ministers unto the needs of many.

The School of Chemistry and Pharmacy

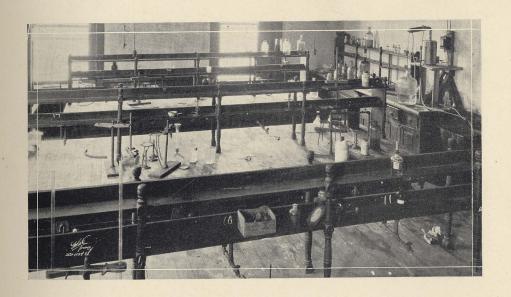

Chemistry is a science of the past and a science of the future. Alchemy and invention are based on it. Fakes in the days gone by and progress in the days to come are largely dependent on its knowledge and power. Consequently, the School of Chemistry dominates a broad field. Students of Chemical Engineering, Chemistry and Metallurgy and Pharmacy must carry forward interest and information in their generation. Instruction must cover educational research, technical and industrial branches.

The State Chemical Laboratory connected with this particular school renders efficient service to consumers through examination and analysis of miscellaneous products.

GOOTHO GLOMERATA STATED

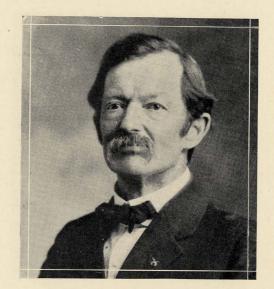

ZEBULON JUDD Dean

In 1915 the establishment of the School of Education was authorized by the Board of Trustees. Their action was timely, for it was during the same year that the legislature enacted the constitutional amendment ratified by the people in 1916, which for the first time gave the counties of the state the right to tax themselves for school support. The revenue from these taxes resulted in such improvement in the schools of the state that the new department had from the beginning a greater demand than could be met. This condition has continued due to the ever-increasing number of pupils entering the high schools each year, so that today the field is daily becoming more attractive in educational, social and financial recognition.

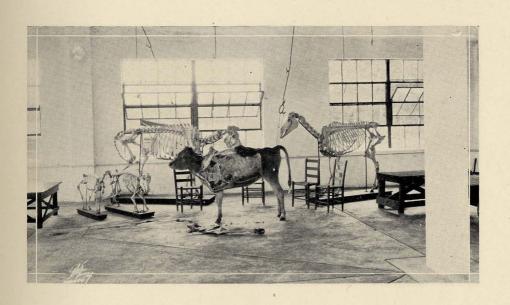

The College of Veterinary Medicine

The College of Veterinary Medicine was opened at Alabama Polytechnic Institute in 1907. For fifteen years before that time a course had been given but no degrees granted. There has been a large number of graduates since that time, most of whom are now practicing or teaching in the South. Investigations throughout the state have meant more healthful conditions for animals and a resulting cleanliness in animal products. This is especially noticeable in small local markets. Government inspection of food materials has opened up new fields for trained veterinarians and increased interest in such work.

RUPERT TAYLOR

Dean

The Alabama Polytechnic Institute began as the East Alabama Male College in 1859. Thirteen years later the school was taken over from the Methodist by the State. The Classical College thus established became the nucleus around which the present institution has been built. Various technical schools have been added but a general course still remains which offers fundamental education. An increase of new material and a relief from the old classical curriculum have brought about a liberal program in General Art and Science and Business. This has meant a steadily increasing interest amongst students in general academic work resulting in a large enrollment in the past three years.

Dean of Women

The GLOMERATA O

Auburn may be justly proud of the fact that it is the oldest co-educational institution in the South. Co-education was not encouraged, however, until a few years ago, but since that time great steps have been taken to further it.

The creation and building up of the Home Economics Department has done much toward the growth of co-education. Home-making and keeping is no longer a hit and miss proposition. It is a science, and a business, to be studied and worked out. Toward this end the Home Economics Department is working.

In this department a Degree of Bachelor of Science in Home Economics is conferred. Graduates of this Department are always in demand in High Schools and in the Extension Service.

Social Director

jose The GLOMERATA STORY

MISS ZOE DOBBS

Director

The office of Social Director is comparatively new. Four years ago there was felt the need of a concentrated arrangement, and the regularity of the social functions under college or student supervision.

The Social Director is entrusted with the supervision and direction of men's social functions and to further women students' organizations of the campus.

The result of this office has meant a better handling of situations during college festivals, more comforts for the guests and complete harmony in student affairs.

The Honor Board

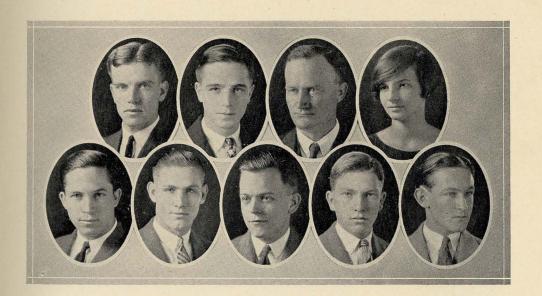

The GLOMERATA OF

The original honor system at Alabama Polytechnic Institute was established in 1910. For fifteen years it existed. At the end of that period, in the spring of 1925, the constitution was reorganized and readopted. It has been the duty and privilege of the students of 1925-26, and especially the Seniors, to make the whole a live working unit. Failure will mean the wiping out of the honor system, success the creation of a public opinion so strong that a system will hardly be necessary.

The constitution provides for a judicial body, made up of four Seniors, three Juniors, two Sophomores and one Freshman. This committee, elected by the various classes, is working diligenly at the task set for them, not sparing time, energy, friendship or personal feelings.

The GLOMERATA STATES

TERRELL EDWARD PHILLIPS

President

Student government for the men at Alabama Polytechnic Institute was established in the spring of 1924. The basis of the organization is the council composed of four Seniors, three Juniors, two Sophomores and one Freshman. This body has for two years worked laboriously, faithfully and justly to bring about conditions most agreeable to the Auburn student body and the faculty. This task, however, has proved to be a difficult one and its achievement may be seen only after many years of conscientious co-operation on the part of both groups.

MEN'S STUDENT COUNCIL

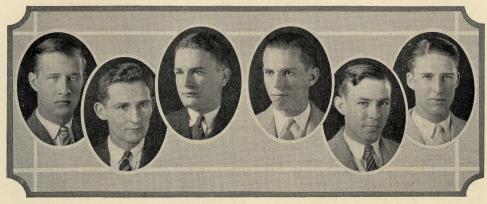

Women's Student Government

The Auburn Women's Student Government Association was organized in 1922. It was the first attempt at organization made by women students at Alabama Polytechnic Institute and has been one of the most successful. The routine work is carried on by a council chosen from the student body by the student body. The whole is under the general supervision of Miss Zoe Dobbs, the social director of the institution. It has meant, during the four years of its existence, the development of leadership and judgment amongst the girls and a union in the fellowship of work which has resulted in some lasting friendships.

The GLOMERATA

Brave Freshmen, filled with high resolves,
Lay siege to Learning's citadel.
The weary months their zeal dissolves,
And long spring days their ardors quell.

Then, with their Freshman year behind, They cheerfully renew the fray. Their stoutest armor, now, a gay And Sophomoric frame of mind.

Again, as Juniors, they return,

The prize they strive to gain in view.

And now they labor hard to learn,

Their high resolves reborn anew.

As Seniors, with the battle won,
They grasp the coveted degree,
And with wide open eyes they see
That now their work has just begun!

Class Poem

The GLOMERATA

In our dreams the old clock tower Still will mark each passing hour, And the friends we love so well, Answer to its calling bell.

They shall gather on the green Where their faces last were seen, And shall give each other greeting In the old time way of meeting.

And these visions of the past Time itself will not outlast, We shall see them through the years Mingled with our smiles and tears.

We shall see the campus grove Through the mist the fancy wove, When we walked the college ways In the dear old Auburn days. Farewell Auburn, we are grieving At the thought of all we're leaving, And we pause to linger here, Viewing scenes we hold most dear.

First, the leaders wise and kind, Who have trained our hands and mind Taught us to look up, not down, Seek the truth and not renown.

Here a spot and there a turning Set our hearts again to yearning, The gym where in some carefree day We danced the golden hours away.

The busy labs, the friendly halls, The dusty pictures on the walls, The humming shops that greet the ear Alike to every heart are dear.

Yonder bleachers in the sun Echoed to each victory won, We shall hear those ringing cheers Sweeping downward through the years.

Senior Class History

The GLOMERATA

E ARE HERE," were the words uttered by Pershing as he stood at the tomb of LaFayette. These words were portrayed on our faces one beautiful September morning four long years ago, as we entered these halls of fame, which we can now call our Alma Mater. We were

greeted with a glowing smile and a glad welcome by those who were to take us, mould us, and make us. It was that morning that we beheld a rainbow in the sky. It was our incentive then to search not for the pot of gold, but for the pot of knowledge that would open the way to real life as we journey away from the starting point.

This first year united our class with a kindred spirit so that we might travel onward toward the ultimate goal, attaining the confidence of each other as time ripened. During the year progress could be noted from every viewpoint. Through the initiative and labor of our faculty, Auburn was made an A grade college and foundations were laid for buildings which were to deck the skies two and three years later.

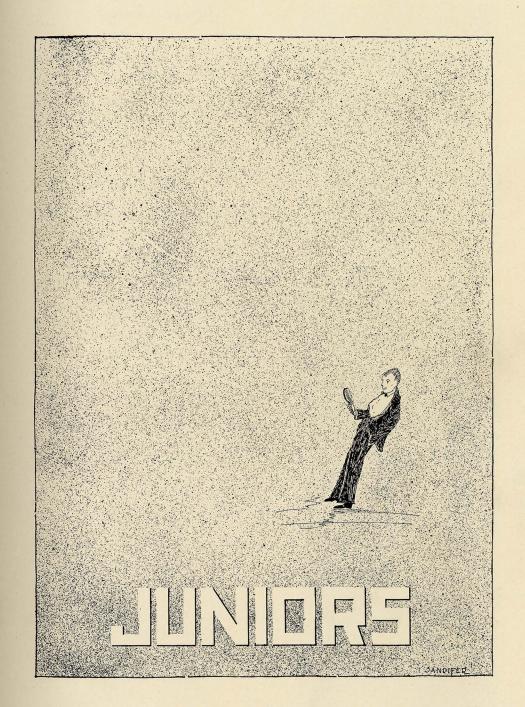

Vacation passed, and the day dawned for us to return to this institution, not as Freshmen, but on the second step of advancement. Our work this year became more impressive, for as the rate of advancement increased, a more serious attitude was manifested. We were now able to get a keener insight into the future and to see the significance and the necessity for a college education. Besides progress in our studies, the class attained prominence in athletics. Our Freshman football team made a contribution of seven to the varsity, who were to uphold Auburn's football reputation for three years. At the end of this year, the half-way mark of the race in which we were engaged, the custom of departing from each other without a celebration was broken by a banquet. Then vacation came, but the memory of our two years lingered with us.

We returned to the Plains as Juniors to begin the other half of the serious task undertaken. The strong ties of friendship for each classmate strengthened. Both tanks, we are proud to boast, have borne '26, the one cherished number of our college days.

Glory be to God that we have reached the shore safely, and now are crossing over the bridge into the field of experience. Now, as we go out of these glory-enshrined halls, we can turn a retrospective eye on four years past, and hope the future will be as pleasant, as happy, and as inspiring. We depart now from each other, but may the bonds and ties of everlasting friendship never break, and the spirit of union for a Greater Auburn never die.

Junior Class History

S THE slanting rays of the setting sun tinged the old water tank with ever-changing hues, so were the hearts of six hundred youths bathed in the golden glow of expectancy on that September afternoon in 1923.

All day long the trains had arrived at the historic old station and departed, leaving behind among the others a bewildered but curious, eager but reticent mob of humanity, out of which in due time a Freshman Class was fashioned.

This day, the process of the decomposition of our egotism was initiated, its machinery consisting of the loathed paddle.

At our first organized meeting we chose Pat Moulton to guide our destinies throughout the year, which he did with a marked degree of success.

We can never forget, nor would we, our first "All College Night." It was then that the glorious Auburn Spirit, of which we had read and heard so much, burst upon us with all the significance and beauty of its nature.

The Vigilance Committee, a recent experiment as were the "Rat Rules," left their impression upon us and our anatomies when we carelessly or boldly disregarded their mandates.

Aside from our interest in the Varsity, we had our own Rat team, which, under the guidance of Abe Robinson, succeeded in handing a severe drubbing to the youthful Jackets from Tech.

In addition to our Rat eleven, our baseball and basketball teams performed creditably; the only blemish on our athletic record was our class team's defeat at the hands of the despised Sophomores after the first game had resulted in a tie, both in score and yardage.

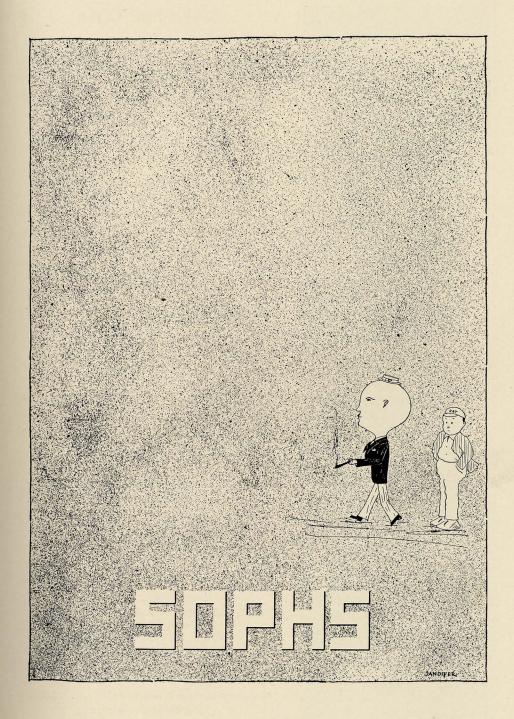

At the close of our Freshman year, we returned to our homes for a few short months before renewing acquaintances with our classmen, now as sophisticated Sophomores, to be the disciplinarians rather than the disciplined. This year, we selected Abe Robinson to lead us on the way, and this year several of our number donned the coveted "A."

Whereas our Freshman year was begun with doubtfulness and our Sophomore year with boldness, we began our Junior year with eagerness. It marked Coach Morey's taking over the reins of our athletic destiny. The first semester of this year was rendered especially memorable by the completion of the Ramsey Engineering Building, the most beautiful and best equipped of its kind in the entire country. The second semester has had a pall of gloom cast over it by the death of our friend and a true Southern gentleman, Dr. John Hodges Drake.

The rest of our history is hidden by the veil of the future. We hope that it may only be as delightful as that which has gone before.

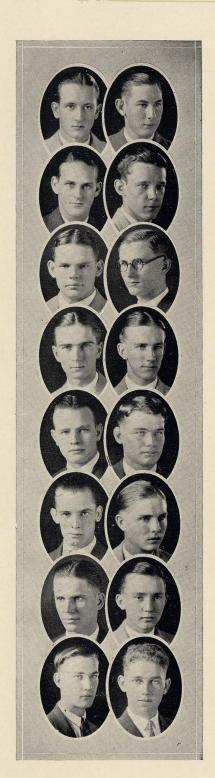

RODNEY CARTER.

freshman class history

The GLOMERATA

O, AS the harvest season approached in the year 1925, there came forth many youths and fair maidens to the halls of learning at Auburn. Yea, they came forth likened unto the locusts of the plain and they numbered twenty and twenty-five score.

While journeying there was much commotion among them, and the manner in which they walked among their fellows was likened unto a Peacock, but upon approaching Auburn they were overcome with fear and trembling. Upon lighting at the station they were greeted by scholars who had spent much time at the halls of learning. The scholars uttered strange cries which the newcomers understood not, and they also carried small pieces of timber with which they dealt out chastisement to those who had not been there before.

Upon asking the scholars the direction to taverns and other places of refreshments these boys and girls of little learning were directed hither and thither, until they were almost exhausted. After being jibed for a great length of time the ignorant ones were finally directed to places of refreshment, where they did sit long at meat.

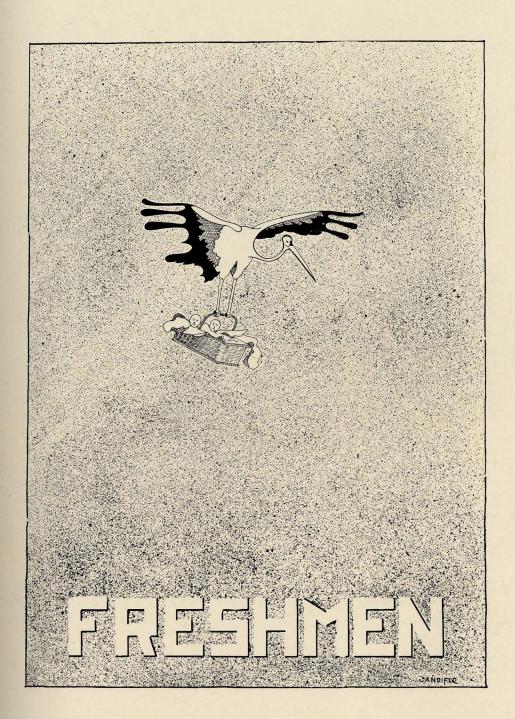

On going to the masters they were given work to do and also their purses were much lightened, as the greater part of their pence was taken from them to procure enrollment in the halls of learning. There was much grief among them when their locks were shorn, but this custom, having been handed down from heroes of old, could not be departed from. After learning the customs of the institution the ignorant ones advanced in great strides, not only did they applaud the heroes who took part in games, but they themselves showed great proficiency in the sports.

At the coming of Christmas they returned with marvelous stories, which increased in greatness at each telling. Great was the pleasure of the parents at the strides which their begats were making. Upon returning to the halls of learning they were almost overcome with fear because the masters questioned them on the substance within the texts. Some fell by the wayside, while others pushed on.

Those who were strong in heart held council and much preparation has been made to welcome the unlearned ones in the years to come. Great is the pleasure derived by the ignorant ones in looking backward at their childish acts and also into the future with its boundless possibilities.

WILLIAM W. JOHNSON.

AUBURN

Long trenches gash the earth like zig-zag scars, And charging puppets stumble, fall and die, While shell bursts plume, and liquid fire scars The cratered earth where writhing figures lie.

Machine guns stutter, and from overhead

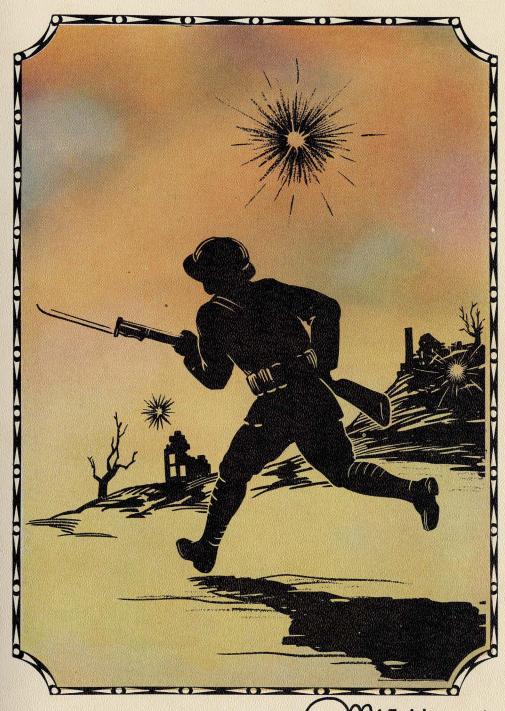

Death falls on unprotected hospitals.

Through clouds of gas, past mounds of mangled dead,

The grey tanks rumble over crumbling walls . . .

The GLOMERATA OF

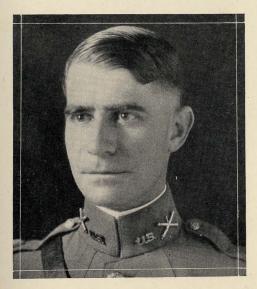

Here is a picture of the Days that Are. Where is the ancient pageantry of War?

Military

Military Science and Tactics

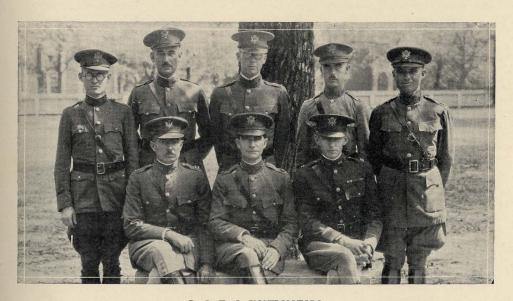

(THE RESERVE OFFICERS TRAINING CORPS)

Major John E. Hatch
Commandant

The World War, as has all previous conflicts, demonstrated the imperative need of trained officers, provided in the time of peace and not after the outbreak of war. For this reason the Reserve Officers Training Corps endeavors to promote military training in educational institutions and enable especially qualified students to earn a reserve commission.

Auburn has been singularly successful in this work, having been awarded the coveted "Distinguished College" for five consecutive years, and won the National Pistol Trophy for two years. Thus although not a military college it nevertheless ranks among the foremost military schools of the country. Too much credit cannot be given to Major Hatch and his efficient staff.

The Band

Those who have seen and heard the Auburn Band will know that it is second to none in the South. Although it is an essential of the Military organization, still many hearts have been set agog as it took the field, during the "half" of a football game and played the "Alma Mater." Be it as it may we cannot help but feel that the work of the Band and especially that of P. R. Bidez, bandmaster, and Frank Russey, drum major, has done much to gain for Auburn the title of Distinguished College.

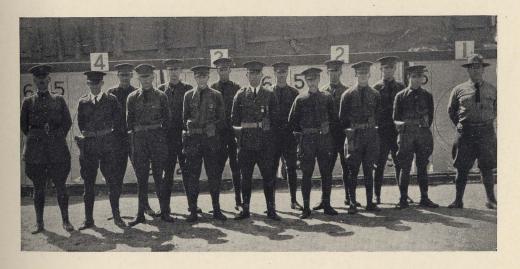

The Auburn Rifle Team

While the Auburn Rifle Team has not gained national reputation as yet, they have always shot a good score and we have great hopes for a good team this year.

The Auburn Pistol Team

Auburn has been particularly successful with her Pistol Team. They have twice won the National Pistol Trophy and once gotten second place.

The prospects look better this year than ever before so we are in hopes that Auburn will again win first place.

The Alma Mater

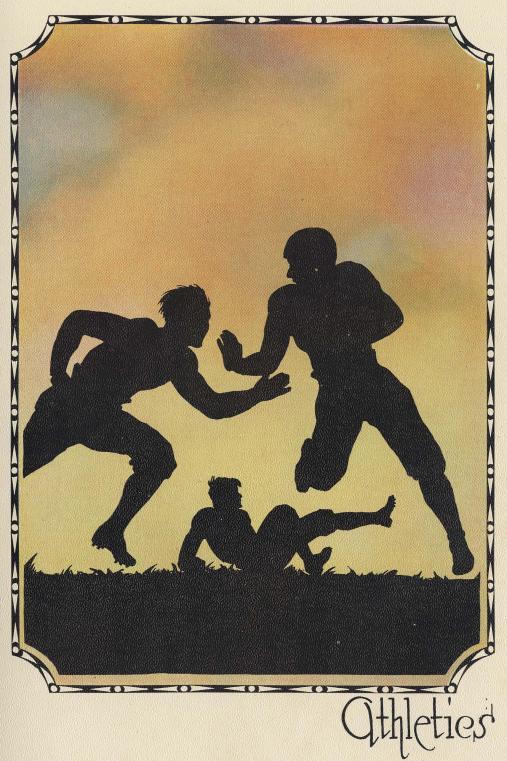

On the rolling plains of Dixie,
'Neath its sun-kissed sky,
Proudly stand, O, Alma Mater, A. P. I.
To thy name we'll sing thy praise,
From hearts that love so true,
And pledge to thee our loyalty
The ages through.

The GLOMERATA

Hail thy colors, Orange and Blue, Unfurled unto the sky. To thee, our Alma Mater, we'll be true, O, A. P. I.

Hear thy student voices swelling, Echos strong and clear, Adding laurels to thy fame Enshrined so dear. From thy hallowed walls we'll part, And bid thee sad adieu. Thy sacred trust we'll bear with us The ages through.

> God, our Father, hear our prayer, May Auburn never die. To thee, O Alma Mater, we'll be true, Our A. P. I.

The Coaching Staff

PAThe GLOMERAI

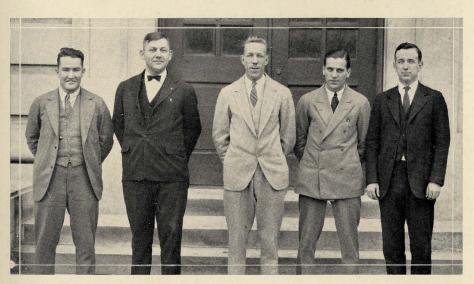

During the past few years Auburn's athletics has been at a low ebb, and it was decided that something had to be done to improve them. The country was scouted for some good coaches and finally the contracts were signed—thus bringing to Auburn a new coaching system. Auburn now boasts a coaching staff that is second to none in the South. The staff includes David Morey, head coach and director of athletics; "Mike" Papke, assistant coach; "Boozer" Pitts, line and scrub coach; Wilbur Hutsell, track coach, and "Red" Brown, Freshman coach.

The new coaching system that has been installed on the Plains is a system that has aggressiveness, speed and punch, and a team having these three fundamental elements will succeed. The prospects for Auburn with this new coaching system looks good—providing that the coaches are given ample material to work with.

The GLOMERATA OF THE STATE OF T

The Football Season, 1925

DAVID MIMMS, Football Manager

With five victories, three defeats and one tie game, the Tiger football squad finished what might be called a very successful season in view of the fact that the material was not over plentiful—especially the reserve supply. Then, too, it takes at least a season for a squad to absorb the elements of a new coaching system, but now the supporters of Auburn feel sure that the Tiger team, in the near future, will once more attain that position of Southern supremacy in football as held in the "days of old."

The opening game of the season was with Birmingham-Southern and was played in the Magic City. Auburn was victorious by the score of 25-6 after playing four quarters of straight football.

The second game found the Auburn Tigers invading the lair of the Clemson Tiger to do battle in what promised to be thrilling affair. Clemson was entertaining its alumni at its annual home-coming day, and it was an

inspired Clemson team that confronted the Plainsmen. Although throwing away various attempts to score Auburn managed to win by the score of 13-6, thus winning the first conference game.

The next week was the annual home-coming pilgrimage of the alumni and former students of Auburn. The P. J. College of the score of

of Auburn. The . P. I. Gobler journeyed from Virginia to ward off the wrath of the Tiger, but fell by the score of 19-0. The game was played before a crowd of approximately 5,000 people—the largest gathering ever to witness an Auburn game at home.

The next upset of dope occurred the next week-end, when the University of Texas trounced Auburn by the score of 33-o in Dallas, Texas. The long trip and inexperience weighed heavily against the Plainsmen, who fought with their all to hold the Texas Longhorns.

Howard was the next team to be played and truly gave the Auburn Supporters a mighty scare. A one-point margin of victory was all that the Tigers could emerge from the game with—the score being 7-6.

Tulane splashed a 13-0 victory over the Plainsmen in Crampton Bowl in a sea of mud on October 31. The score at the end of the half was 0-0, but Tulane's mighty backfield could not be denied, and in the last two periods scored their touchdowns and victory.

The second big upset of the season occurred in Columbus, Ga., when the Georgia Bulldogs ran wild and smothered Auburn by the score of 33-o. The Tigers, seemingly in a slump since the Texas trip three weeks before could do

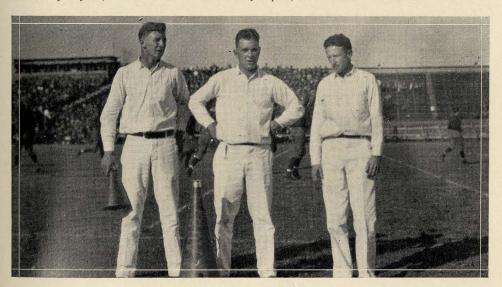

"RED" ROBERTS, Cheer Leader

Texas trip three weeks before, could do but little against the speedy and perfectly timed Georgia plays.

It was a determined Tiger team that took the field against Vandy, November 14th, in Birmingham, and after playing head up football, emerged with a 10-9 victory over the Commodores. The all around team play stood out in this game, but the victory came from the toe of Clabber Williams in the last minute of play.

The final game of the season with Tech on Thanksgiving Day was much looked forward to by the coaches, players and student body. With a week and a half rest, the Tigers took on new plays and perfected them. The physical condition of the team was announced as perfect on the eve of the big game. Eight Auburn men were to play their last game of college football, and these men as well as the others, went into the game to put their "all" against a powerful team. The mighty thrusts of Wycoff were stopped, except for a few times, and our defense and offense were at its best. The game ended in a 7-7 tie, but Auburn had earned a moral victory that will never be forgotten by those who witnessed the game. Tech's touchdown came as a result of an end run by Wycoff, while Auburn's was made by a pass, Tuxworth to Greene.

The GLOMERATA

CAPT. "RED" HARKINS

Tackle

Red Harkins, captain and tackle of the Tiger football team, led his men in every minute of play during the season with the exception of a few minutes of the Tulane game. Red is a hard fighter, a consistent player and a natural leader. He has the confidence of every member of the team and kept the Tiger team driving during the games.

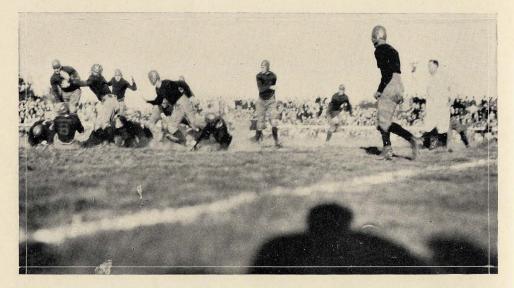

PAUL TURNER Fullback

The members of the football squad did well in electing such a man as Paul to captain the 1926 team. He has had experience along this line as he captained the Marion Institute team his last year there. He has plenty of speed and drive and his love for the game, combined with his ability, should make his last year a brilliant one.

"BULL" McFadden

Bull has been a tower of strength in the Plainsmen line for three years and his all around good play stood out in every game. It was a common occurrence to see Bull break through the opponent's line and throw them for losses. He also received numerous mentions for All-Southern guard.

The GLOMERATA

"BATCH" OLLINGER End

The Ollinger family has long been represented on Auburn's athletic teams. Batch, the most recent, has played four years of varsity football for Auburn, and has thrown many ambitious halfbacks for losses while trying to gain around his end. Auburn will sorely miss Batch next year.

"PEA" GREENE

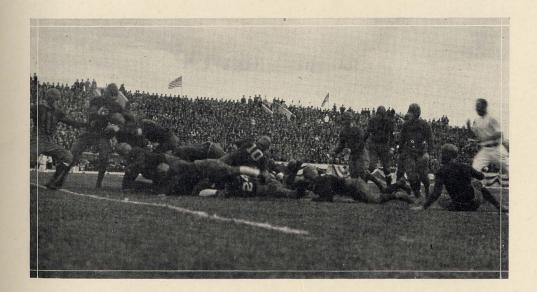

Halfback

"Pea" was Auburn's triple threat man and finished his last year of college football by covering himself with glory. Pea can pass, run and receive passes, and is a ten second man. He put the ball in position for winning the Vandy game, and was on the receiving end of the pass that tied Georgia Tech.

"Bozo" Self
Tackle

Jelly is one of those players that can always be depended on to turn in a good game. He was shifted from guard to tackle this year and showed real ability to smash up opponent's plays before they had time to get under way. Jelly has put in three good years of playing for Auburn and his berth will be hard to fill next year.

"BUCK" SPINKS
End

Buck was the outstanding star of the Tiger defense. It took two or three men to get him out of a play and many times by his fight and grit he even evaded three would-be blockers. Buck has finished a brilliant career on the gridiron and it is with deepest regret that we say good-bye to this bright star.

"CLABBER" WILLIAMS

Halfback

Clabber is the young man with the educated toe. Along with this he is a driving demon and is also a good blocker and deadly tackler. His kicking won the Vandy game and his kick for extra point tied Tech—what more could we ask from one man.

"Feny" Crane
Halfback

Although handicapped by his small statue and weight, Feny always could be depended upon to advance the ball. He was the best broken field runner the Tigers had and on numerous occasions during his career at Auburn he evaded would-be tacklers for long gains. Feny will be lost to the squad by graduation.

"SQUARE-JAW" SALTER
Fullback

Square is one of the hardest driving backs in the Southern Conference. His defensive work also stood out in every game and many times he would plug up holes made in the Tiger line. Salter was elected to be alternate captain for 1926.

Joe Market End

Joe saw much service this year at end and will probably be Coach Morey's choice to hold down one of the flanks next year. A hard tackler and steady player who loves the game best characterizes Joe's play.

"SHORTY" LONG
Guard

Shorty, playing his second year of varsity football was one of the premier Tiger linesmen. He worked well with his side partners in the line and opened large holes when the plays were called over him. We are fortunate to have Shorty back with us next year.

The GLOMERATA S

"FATS" McNeill Center

"Slow but sure"—this term fits well with the type of play used by Fats. He did not get the chance to show his ability until the last two games, but those that witnessed these two will always remember the stellar games he played. Fats is a dependable passer and knows his football.

Abe Robinson Center

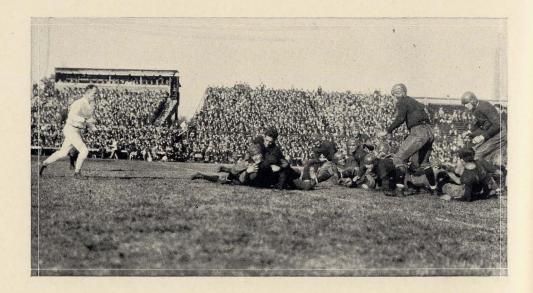

Center

Old man Hard Luck laid his hand upon Abe this year and before the season was hardly under way had disabled this player in such a way that he could not finish the season. Abe is a second Fats Lawrence, and we expect much of him in his remaining two years of football.

"Pop" PATTERSON
Center

Pop was just hitting his stride this year when an injured hand forced him to the ranks of the disabled. Like Abe he had the misfortune of breaking a bone which concluded his football career for the rest of the season. Pop is a dependable passer and his defensive play is good.

The GLOMERATA OF THE OF

Frank Tuxworth
Quarterback

Frank was used as reserve quarter during the season and served well indeed. It was he that put the final drive in the Tigers that beat Vandy. It was also Frank that came in the Tech game and tossed a pass to Greene for the tieing score. Tuxworth is a hard worker, a good passer and has the ability to drive his team.

"Runt" Granger
Halfback

Fast, elusive and a deadly tackler best sums up the play of this diminutive halfback. Well does everybody remember his playing against Georgia in Columbus. Runt fits in well with the new system of coaching and he no doubt will see much service next year.

"DIZ" PRUITT

Center

Dizzy was shifted around to different positions in order to find where he was best suited. His play from center and tackle was above the average, and from his experience this year should develop into a player of much ability.

jose The GLOMERATA DE 180

Murray Hoffman
Guard

Murray did not see much service this year, but he is expected to see much next year. Fighting his way to the top, he was graduated from the scrub team and performed well in all games that he played. The experience he received this year should help him muchly next season.

BOLTON SHOTTS Fullback

In Shotts, Auburn has a fullback that can tear a line to threads. He has speed and worlds of drive and his presence is going to be felt by opponents before he finishes his football career. He is also good at backing up the line,

"Frankie" Bogue
Quarterback

Auburn will not have any trouble finding quarterbacks next year. Bogue, who was used in that capacity for the last two games, and occasionally before that, is in the making of a brilliant quarter. He is a tireless worker and is very conscientious in his duties. We can rest assured that with Frank's dependable football ability he will be one of the bright spots of the team for the next two years.

The GLOMERATA

Doug Newsome Halfback

Doug saw quite a bit of service at halfback this year, and will put in a strong bid next year for a regular berth in the backfield. He plays a steady, driving game and although not sensational is always there with the goods. We welcome Doug back next year.

"Nappy" Hodges
Quarterback

Hodges came back to the Village this year after having left at the conclusion of his Freshman year to go to Annapolis. He started the majority of the games at quarter and ran the team like a veteran. His cool, consistent play won for him many admirers. He will be back with us next year.

"Dogface" Sheridan End

Here is another of the unfortunates that had to retire because of injuries. Dogface has worked hard on the football field and after scrubbing three years graduated to the varsity squad. We hope that he will be back with us next year.

The Scrubs

The GLOMERATA

Hard work, hard falls, and a steady grind best characterizes the life of a scrub. Very little credit is ever given to the scrub team, but the truth of the matter is that the scrubs put the fighting edge on the varsity teams. Coach Pitts was assigned the task of coaching this team, and much credit is due "Boozer" and the scrub team for preparing the varsity for the next game. To him also was the scouting of the opposing teams entrusted, and by him the scrubs were coached in the opponents' plays so that the varsity could be trained a week ahead for the plays of the opposing team. In the old days of mass plays this was not necessary as now, but at present when football has turned to fast, deceptive plays, a team must practice against the opponents' style of play so as to be ready to use the proper defense.

As a token of appreciation the "A" Club votes a silver "A" similar to the gold "A" given the varsity men. The following composed the 1926 scrubs:

BURKHALTER	CARTER	REEDER
J. RICHARDSON	Horton	McEldery
GARRETT	SNYDER	Adams
O. P. RICHARDSON	STOVES	Fox
TRAMMELL	SMITH	COPELAND
Lutz	CARTLEDGE	SLAUGHTER
McCulley	PEARCE	Powell

Rat Football

The GLOMERA

For the first time in the history of the school Auburn secures a regular Freshman coach in the personage of "Red" Brown. During the summer "Red" combed the South in an effort to bring promising material for future teams. Immediately after the opening of school the Freshies began their practices and some one hundred and twenty aspirants answered the call to action.

It was not an easy job for Coach Brown to select the best men for his rat squad, but with the assistance of Captain Cushman, Lieutenant Jones, and Doctor Suggs, the 1926 Auburn rat team was selected.

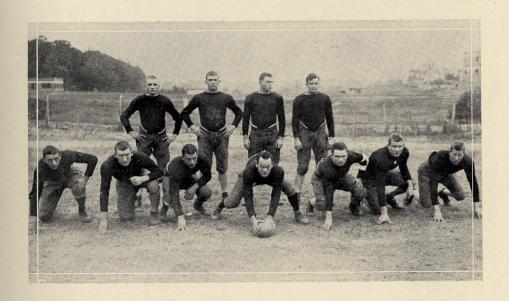

The first team that was met was Georgia. The speedy Georgia backs, however, proved too much for the Auburn cubs, and at the finish of the game the Bulldogs were on top.

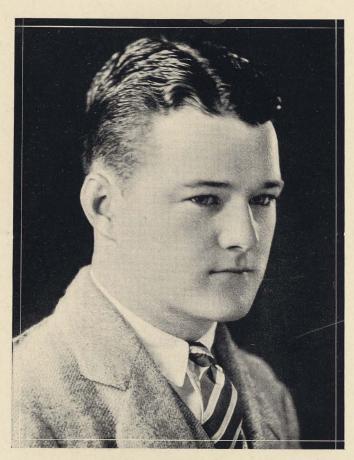

Profiting by their mistakes in the Georgia game, the rats came back and defeated Birmingham-Southern and Howard. The team showed much improvement with an assortment of plays that completely bewildered their opponents.

The final game of the season was played against the Tech Freshmen in Atlanta. The game was a fight throughout, but the Techsters emerged victorious.

The Rat squad this year was composed of:

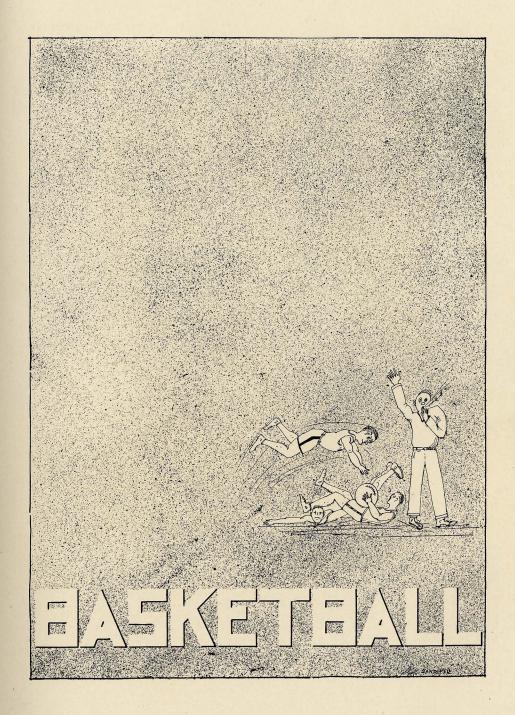

CARTER	SPANN	Mosely	DENSMORE		
TURNER	WATTWOOD	E. JAMES	McGee		
Howard	SELLERS	F. JAMES	DUBOSE		
CUNNINGHAM	INGRAM	LOGAN	McCrory

"BILL" MCKINNEY
Captain of Basketball

The GLOMERATA DE PORTO

The GLOMERATA ST

BILL McKINNEY (CAPT.) Forward

Bill has finished his third and last year on the Tiger cage team. He has been high point scorer for the past two seasons, and during that time has played every minute of every game. The Tiger captain directed the play on the floor, and by example kept the team driving and fighting.

BILL GRAY Guard

Bill is another veteran of the cage game that has played his last year. He possesses a fine knowledge of the game, and seems always to be in just the right place to break up the offense of our opponents. Auburn will have a hard time finding a man to fill his place.

George Evans Guard

Ole will be lost to the cage team by graduation. He has played two years with the Plainsmen, and his good guarding and fast thinking have saved many points from being chalked up against us. When occasionally used at forward, Ole showed world's of drive and proved to be a speedy floor man.

SAM HALL Center

Very few times during the season did Auburn lose the jump at center—to this we credit our six-foot-three center Aside from jumping, Sam followed the ball, with ability far above the average, off the opponents' backboard as as well as our own. He will be back next year and we will expect great things of him.

Review of the Basketball Season

With the return of but two regulars and three substitutes from the 1925 cage team, Coach Papke issued his first call for practice on November 15th. Those returning were Captain Bill McKinney, and Gray of last year's varsity, and Evans, Hall and Kaley of the second varsity. It is not an easy matter to rebuild a team, especially with such inexperienced material, but Coach Papke accomplished this task remarkably well.

Coach Papke brought with him to Auburn a new coaching system that should put Auburn on top in the near future. It is true that the 1926 cage season was not a brilliant success, but when one considers the inexperienced players and an entirely new style of play, then the reason is very clear. Then, too, all but three games were played away from the campus and those familiar with the game know that a team is at its best on its home floor.

(Continued on Page 161)

BUCK ELLIS Forward

Buck was the find of the season, and throughout the year he could be depended upon to carry the fight to the opponents, as well as cage his share of the points. With two more years of varsity basketball, Buck should develop into a brilliant cage star.

Pl The GLOMER

FOB JAMES
Guard

We were not able to have the services of Fob but for one month, because of his not being eligible to play till February. His defensive work was outstanding in every game, and he was given the task each game of dampening the efforts of the opponents' star performer.

"JELLEY" AKIN Guard

Guara

Jelley is one of those who came up from last year's rat team. His ability to guard his man and his work on the offense made for him a name that will not be soon forgotten. He follows the ball well off the backboard and is a good floor man.

"STREAK" SNYDER Center

Snyder is the fastest man seen on the Auburn floor in many years. By his speed he is able to be everywhere at once, and those feet of his seemingly have springs in them. He bids fair to make quite a name for himself during the next two years.

Review of the Basketball Season

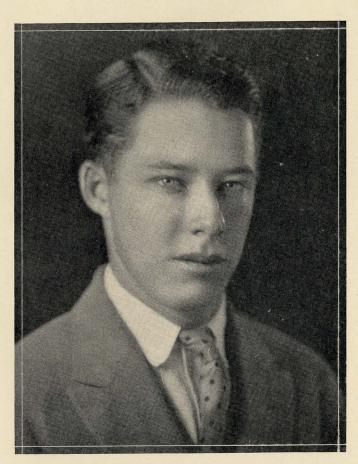

(Continued)

The season opened with the Howard Bulldogs in Birmingham and the Tigers easily defeated them 32-16. The next night Birmingham-Southern was played and defeated by a similar score.

The only conference game to be played on the campus was the next week with Georgia Tech, and after a thrilling battle, Auburn emerged victorious, 32-28. Howard was again played on the campus and easily defeated.

The Tigers again took the road and lost all the games by a narrow margin.

At the time of this writing there remain four games to be played, as well as the annual tournament in Atlanta.

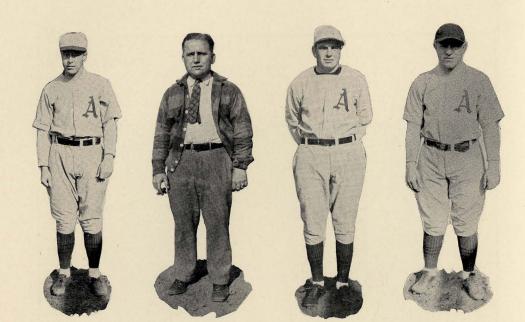

"C. O." STEWART
Captain of Baseball

The GLOMERATA OF THE STATE OF T

163

The GLOMERATA!

CECIL STEWART (Captain), Infield

C. O. is playing his last college baseball this year, but we all feel confident that he will make this his banner year. Under his guiding hand as captain, his leadership and cool playing ability, Auburn should stand well to finish with the best of the Conference teams.

Moses D. Johnson, Manager

Moses has been one of the best managers of baseball that Auburn has ever had. He has been on the job all the time whether at home or on the road, and has seen to it that the team has all the comforts and equipment that it is possible to give.

"Dogface" Sheridan, Pitcher

Here is another veteran that much is expected of this season. Sheridan has pitched three years for the Plainsmen and has an average of games won that is far above par. He will probably be assigned to pitch the most difficult games this year, because of his experience under fire.

"Bozo" SELF, Outfield

Self is the most dependable fielder that Auburn has had in many years. He has made but few errors during his stay on the team and we are looking for some nifty fielding from him this year. His work at the bat this year is improving and we are looking for some long drives this season.

Baseball Prospects

With nine letter men available and a wealth of material coming up from the 1925 Rat Team, Coach Morey sounded the first call for baseball practice Fébruary 18. At the time of this writing the practice sessions have just begun and the prospects for 1926 look very promising.

Three distinct losses will be felt this year in that "Red" Griffin, Sitz and Ed Allen will not be on hand, the first two being lost by graduation. The nine letter men that will be out to hold their places against the ambitious candidates include: Sheridan, Moulton, and Hughes, pitchers; Wallis and Captain Cecil Stewart, infielders; Market, Stein, and Self, outfielders, and Maury,

JOE WALLIS, Outfield

Joe is playing his second year with the Tiger baseball team. If history repeats itself he will turn in some neat fielding and consistent hitting which made him a big asset to the team last season.

J. P. STEEN, Outfield

Steen was used in the centerfield position last season and he is expected to hold down the garden spot again this season. He is a consistent hitter and will be with the Tigers two more years.

"LEFTY" HUGHES, Pitcher

Lefty will see much service as pitcher this year, but while he is not working in the box Coach Morey will probably use him in the outfield. He is one of the best hitters on the team and will probably finish the year with a high batting average.

WALTER HITCHCOCK, Infielder

Hitch came up to the Varsity squad from the Rat squad of last year. He will in all probability hold down the hot corner in the coming campaign. Hitch has had much experience playing ball and should develop into the South's best before finishing his college career.

catcher. To fill the gaps left by graduation or failure to run to college will be fifteen or more likely looking recruits from last year's rat team. This list includes: Potter, Hardwick, and Wood, pitchers; F. James, catcher; E. James, Hodges, Ellis, Newsome, Sankey, Hitchcock, and Gilchrist, infielders; Maury, Harrison, and Akin, outfielders.

The Tiger schedule this year includes the strongest and most representative teams in the South, and by winning the most of them Auburn will have to play consistent ball—but there is little glory in winning games from a weak schedule. It is not an easy task for a coach to step in his first year and put out a winning club, but with the material on hand and our confidence in Coach Morey, the Tiger supporters feel sure that Auburn will have a banner year.

DICK MAURY, Utility

Dick has played the outfield, infield, and has seen service as catcher during his career at Auburn. He has done well in all these positions, but Coach Mooney will probably use him in the outfield or as a catcher this year. Dick's hitting is timely and his work in the field is above the average.

"Fob" JAMES, Infield

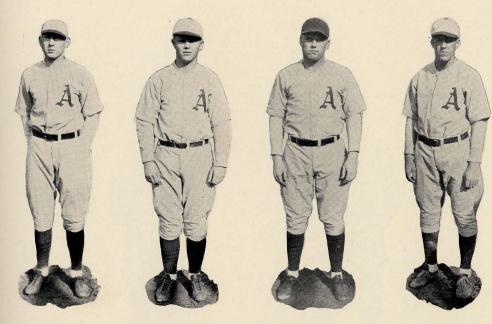

Fob held down the Keystone corner for the Rat team last season, and has had sufficient experience to make him a promising candidate for the Varsity. He is a left-hander and covers first base with the ease of acquired experience and hard work.

EBB JAMES, Catcher

Auburn will not have any difficulty in the next three years with the catching department as Ebb will hold that position down with ease. He was catcher on the Rat team last season and should step right in and make a second Gibson.

 $Bea\ Sankey\ is\ Auburn's\ best\ bet\ for\ the\ shortstop\ position\ this\ season.\ He\ is\ fast\ and\ handles\ the\ ball\ with\ much\ ability.\ His\ speed\ in\ fielding\ and\ accurate\ throwing\ will\ help\ the\ Morey\ Machine\ muchly,\ and\ his\ timely\ hitting\ will\ be\ a\ constant\ threat.$

"JELBY" AKIN, Outfield

Akin shows promise of developing into a Ty Cobb of College Baseball. He has real baseball ability and steps into a pitched ball at bat with a healthy swing. His base running, hitting and fielding ability, already above the average, should develop under good coaching, and we expect much of him in the next three years.

"Doode" HARDWICK, Pitcher

"Doode" came up from the Freshman squad, where he showed up extremely well. He has a nice assortment of curves and a hard fast ball. A little more experience and Doode will be one of the best pitchers in college baseball.

"PAT" MOULTON, Pitcher

Pat adds a great deal of strength to the pitching staff this year. He has the speed and assortment of curves to retire the best of the batters of the enemy.

"Buck" Ellis, Outfielder
"Buck" seems to be the find of the season. He is a splendid fielder and a good batter. This, coupled with his natural ability, should make him one of the outstanding men of the season.

The GLOMERATA

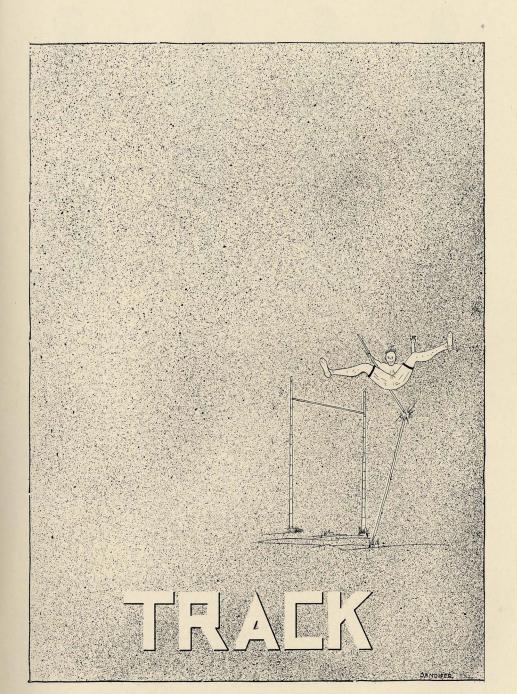

"NURMI" NELSON, Captain Track Hundred, Two-Twenty and the Relay Team

Captain Nelson has had two valuable years of experience in Southern Competition and this, his third and final year, should be his most outstanding of the three. This is saying a lot, as during the past two years Nelson has defeated most of the best sprinters in the Southland.

"SHORTY" MORROW, Captain Cross-Country One and Two Miles

Short but fast best characterizes Morrow's appearance when he is circling the cinder path. He holds the Auburn record for this event and the scorer can be almost sure that he can chalk up a first place when Shorty starts at the sound of the pistol from the starter.

AUBURN

"PEA" GREENE

Hundred, Two-Twenty, Hurdles, and Broad Jump

Pea has all the qualifications that go to make a good track man. He broke the tape first on several occasions last year in the sprints and as a sideline beat most of his opponents in the broad jump. He has taken up the hurdles this year and it looks as though he is going to push Baskin for first place in that event.

"WEEMIE" BASKIN

Hurdles, Shot and the Discus

Weemie has the distinction of holding the southern record in hurdling. He is to put in his second year of track work this year and should be one of the outstanding tracksters of the South. He led the Tigers last year in points scored and bids fair to repeat again this year.

SNYDER

Hundred, and Two-Twenty

Snyder is the most promising man for the sprints Auburn has ever had. He is a streak of greased lightning and he will have all the veteran sprinters working hard to keep pace with him. With three years under the guiding hand of Coach Hutsell he should be the best sprinter in the South.

BARNEY BROUGHTON

Two Hundred Twenty, and One Hundred Yards

Broughton is probably one of the fastest moving men out for track this year. He has a take-off and travels through the hundred-yard dash in about ten and one-fifth seconds. He sho make the squad easily as well as the relay team that should be the best Auburn ever turned out, He has a fast ids. He should

Track Prospects

A wealth of material will be in hand this year for Coach Hutsell to pick his team from, and also good material for development. Captain "Nurmi" Nelson, Green, and Snyder will in all probability take care of all the sprints and will probably make up Auburn's speedy relay team. Baskin and Joe Young will ably hold down the high and low hurdles—Baskin being the holder of the Southern record. Then Green will do the broad jumping and if his past performances continue he will stick with the best of them. The Morrow brothers will win their share of the points in the mile and two-mile runs as well as taking a shot at the longer distances. The weights, javelin and discus throwing will be taken care of by Baskin and the new successful candidates. The pole vaulting and high jump aspirants will battle for, as the letter men in that branch have returned to school.

Auburn's track team is slated to meet the keenest competition this season that the tracksters have ever undertaken. There will be dual meets with Tech and Georgia-both of which should prove mighty interesting. Then the S. I. C. meet in Chapel Hill, N. C., where all conference teams will be invited, should be a fitting test for every branch of the team. Auburn has also entered the A. A. U. District Meet in Birmingham, and the Tech relays. We will also send our relay team and our hurdler to the Penn Relays-where they will meet national competition.

The GLOME

LOUIE TAMPLIN Four Hundred and Forty Yards

Here is another aspirant for the coveted "A" who has a world of speed and endurance. Louie will be out for his first time this year, but should easily make himself a place on the track squad if his high school and Freshman records stand for anything.

CLIFF MORROW

Mile and Half Mile Run

Here is another of the Morrow family that is making Auburn track team the pride of the school. He has an easy stride which combined with his speed is hard for an opponent to even keep up with, much less pass him.

"SPIDER" MEADOWS Pole Vault and High Jump

This young man'is working hard and earnestly under the guiding hand of Coach Hutsell and shows promise of developing into a good trackster. He will have a difficult time filling the shoes of Marquis and Locke of last year's team, but all we say is give him time.

C. C. Belcher

Two Miles and Cross Country

Belcher selects the long distances as his hobby. He is a hard worker and is always in the pink of condition. Belcher has not made the coveted "A" as yet, but with his experience and ability he should break the tape in his event many times this season.

Girl of an hundred thousand charms,
Girl with the figure trim,
Girl with the slender, shapely arms,
And hands so white and slim.
You, with the glamour of your kind,
Can set aflame the staidest mind!

Girl with the laugh so clear and gay,
Girl with the roguish eyes,
Girl of the glorious Today,
Both innocent and wise.
Here in the texture of this page
You shall endure for an age!

March 3, 1926.

Mr. Charles Snook, Editor, 1926 Glomerata. Auburn, Ala.

My dear Mr. Snook:

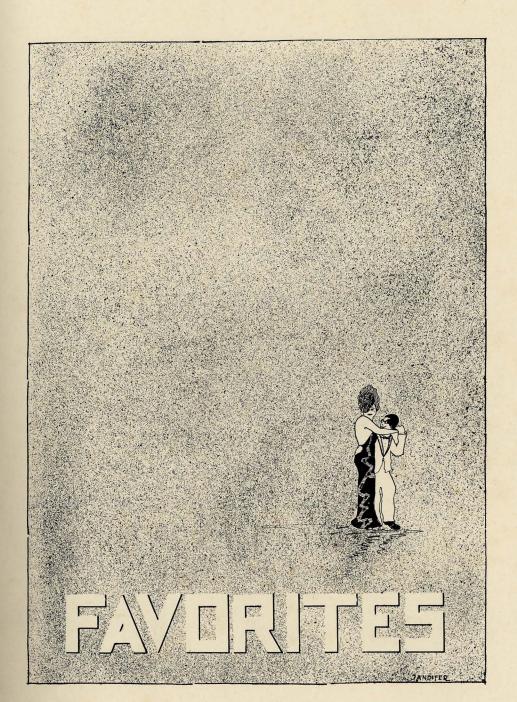

Herewith please find the photographs marked in the number as I judge them - as it is only photographically speaking - as I do not know their colorings, complexion, or many of the things that might be quite more to their credit personally than by picturization.

With best wishes,

Sincerely yours.

The GLOMERATA OF THE STATE OF T

I met the most different girl the other day; In fact, she's quite unusual.

She does not smoke or chew or cuss, Or rouge or powder or drive a "bus."

She does not dance or care for beaus, Or dinner parties, cards and shows.

She wears long dresses, and low heel shoes, Craves not silk "undies" or bootleg booze.

Be that as it may, she's cute and sweet.

Everyone loves her, she's so petite.

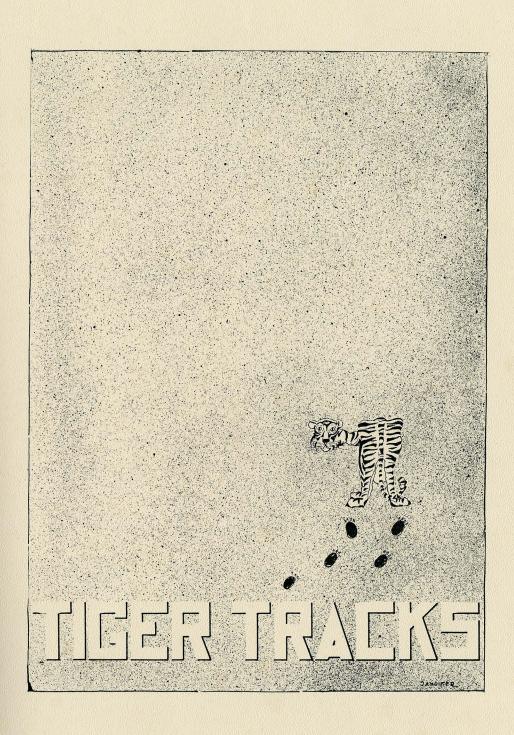

She has admirers by the score,

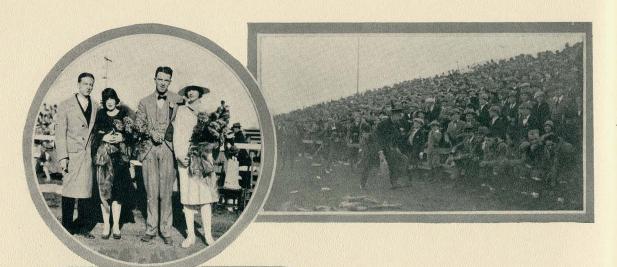

And when you know her you love her more.

But don't get expectant and excited, mister;

She's only Mary Jane's baby sister.

The GLOMERATA

The college year starts with registration, and flies on through the football season, with the mass meetings, games and parades.

A few snaps of the student body in action.

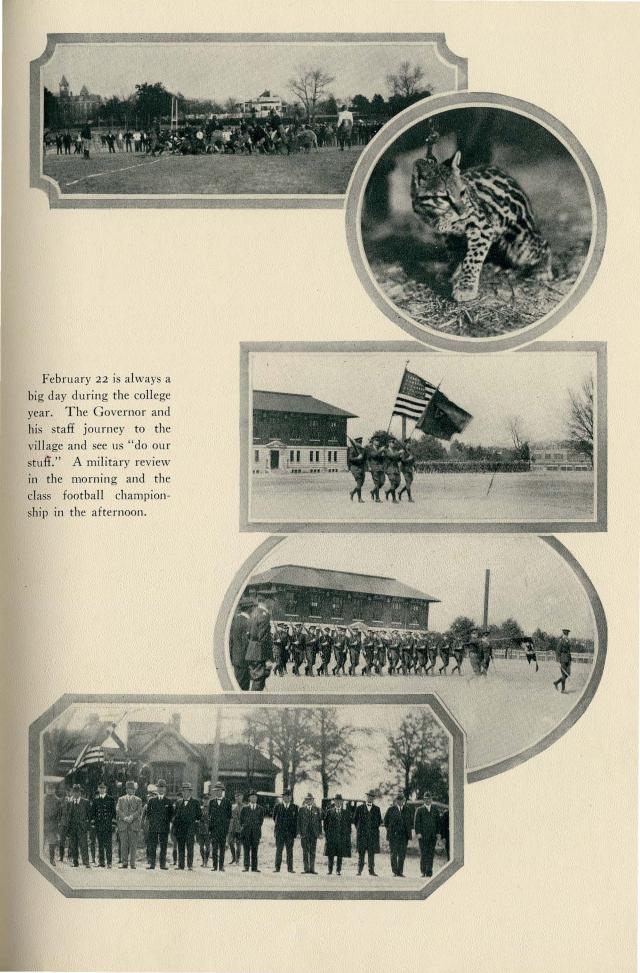

Home-coming meant a great deal this year. It marked the opening of the Ramsey Engineering Hall. The new Engineering Hall is the most complete of its kind in the South. In the afternoon, distinguished visitors and alumni, and the student body watched the Tigers down the V. P. I. Gobblers.

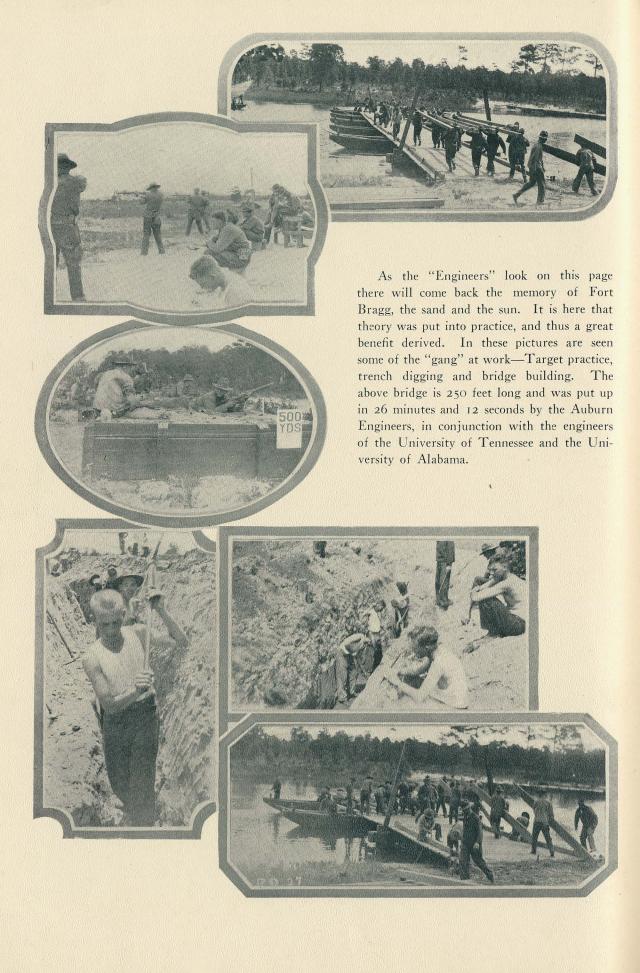

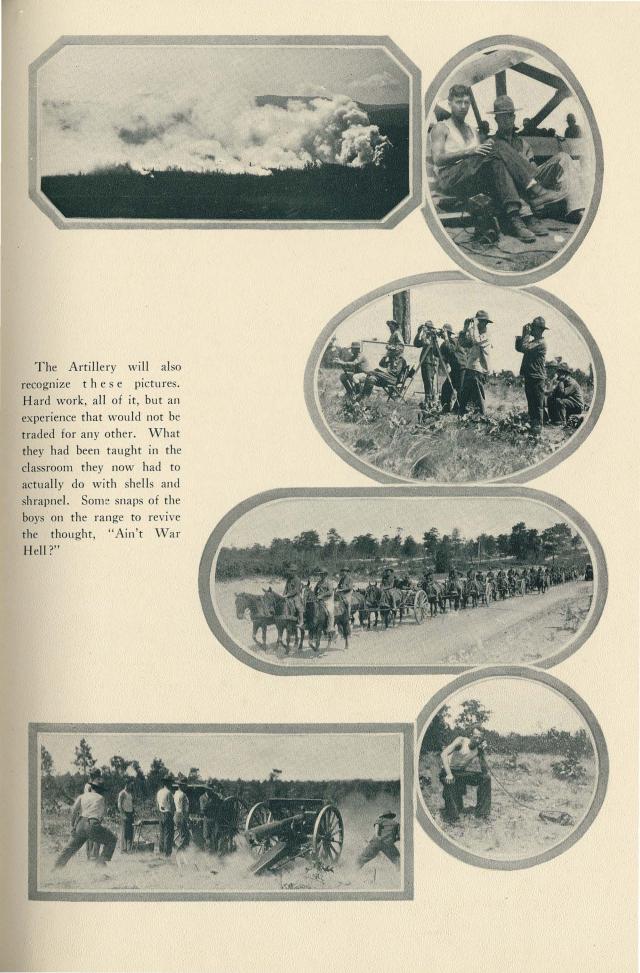

This is the prologue to the spicy wit

That seasons this conglomerated hash
And adds a 'soupcon,' shall we say a 'dash'?
A 'taste'? of humor to the rest of it.
For in this weary world through which we flit
Is all too much of stolid balderdash,
Of serious and everydayish trash,
Which needs a joke to liven it a bit.

And yet we venture this one last forecast:

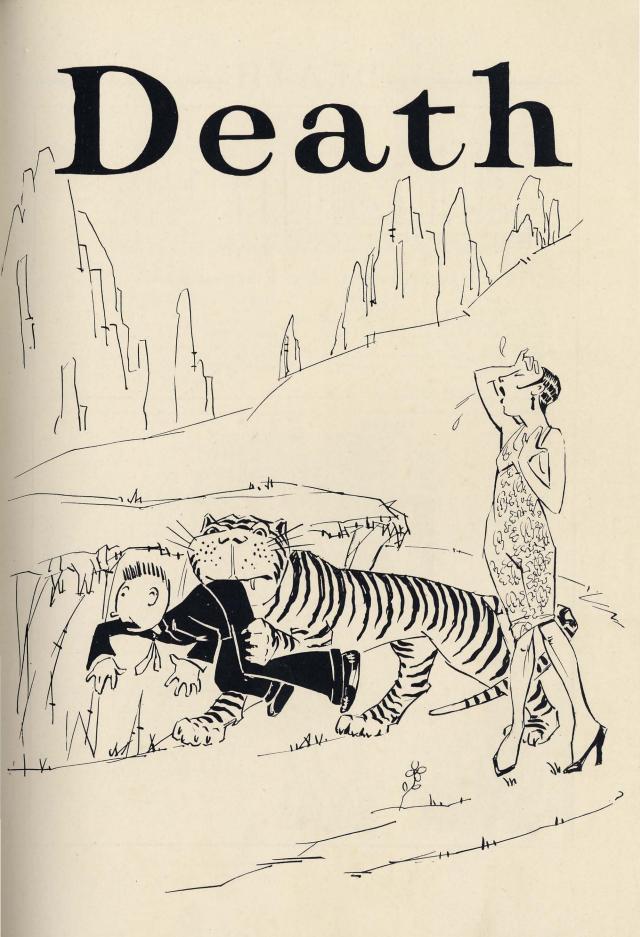

(And herein lies the great eternal jest!)

That some time in the future, at long last,

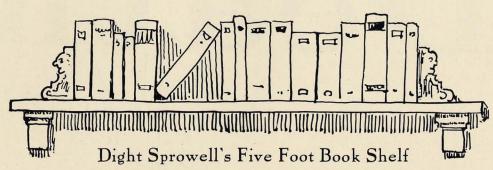

When you compare these pages with the rest,

That chronicle the time obscured past,

This section will not seem the funniest!

That's the insidious thing about halitosis (unpleasant breath). You yourself rarely know when you have it. And even your closest friends will not tell you.

My Fraternity Brothers

They have blind-dated me with oil cans, worn my shirts more than I have, used my toothpaste, broken my razor, read my letters, ruined my golf clubs, borrowed money and never paid it back, gone to sleep in my bed

when they got drunk, paddled me when a pledge, and the only reason that I am sticking around is that I am curious to know what in the hell they are going to do next.

I Don't

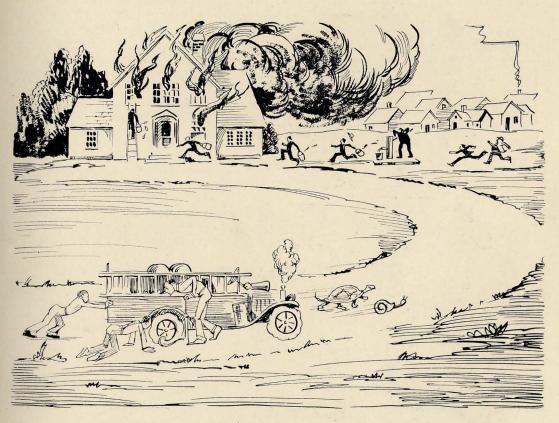

Now when I came to college, So as there to get some knowledge, My parents warned me not to chew or smoke, I don't.

They told me it was wrong to wink At pretty girls, Or ever think about intoxicating drink, I don't. They told me to flirt was very wrong, And only bad men crave wine, women and song,

I don't.

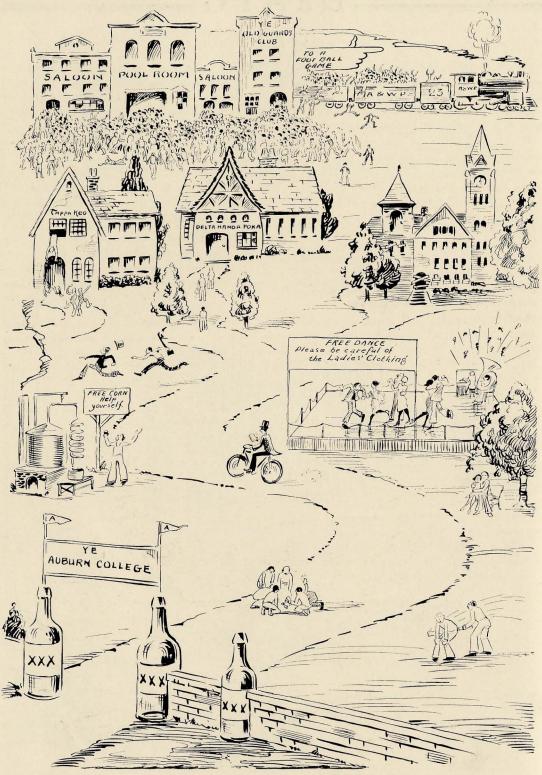

I've never hugged or kissed a girl, Not one; So you see I don't know how it's done.

You may think I don't have my fun, I don't, I don't, I don't.

Death Wants to Know

Why the Co-Eds call Stacey the boy with the velvet kiss.

Whose Pi. K. A. pin Allie Hughes is struttin'.

If the Lamps will put out any loving? Well, we could not say, but they might if they were lit.

Why the S. P. E.'s have gone to pledging niggers. We noticed several going around with pledge pins on.

For the sake of economy why don't the college turn out the lights in Ag-Hollow.

The Artillery wants to know who said this was a one-horse town.

Death wants to suggest that every girl who comes to Auburn be twins, so as to keep down so much sorority dissention.

Where the picture show orchestra is between 7 and 7:56 P. M.

Why the bootleggers look so happy three times a year.

What hot women were over at the Tau Kappa Phi House the other night to burn a hole in the lounge. About this Radio Party in the woods that "Square Jaw" and "Ben Turpin" pulled.

What class it was, where someone accidentally tapped on the desk during examinations and the next day the whole class resigned.

Why every professor in Auburn thinks his subject is the only one the student has to study.

If the students will still have to make convocation when Garrett and Holmes buy it.

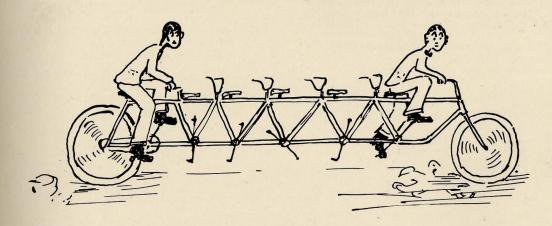

Why "Ounce" Lovelace always counts off 1, 2, and 3 at drill.

If the Scotch Dean Petrie had in him the other day at his lecture was whiskey or blood.

Why the faculty closed down on the Masquerade dances this summer.

How Mr. Ling of the College of Agriculture always manages to get more than he pays for.

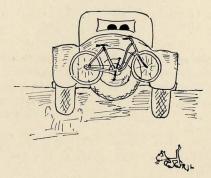

Why Ounce Lovelace was chosen to settle the dispute between two Co-Eds as to the size of their legs. Well, we might suggest that it is because he carries a lot of weight in those parts.

WE DID NOT THINK THAT THEY WOULD ALL WALK BACK

A THOUGHTFUL GIRL

This joke was censored, but if you will see the editor he will be glad to tell it to you.

(With tenderness and expression in the voice). They were sitting in a garden of roses. She looked up into his eyes and said, "Blaa-a."

Frog in the Pool: "Juga-Rum, Juga-Rum, Juga-Rum."

Stewd on the Bank: "Ssh! Don't make so much fuss about it."

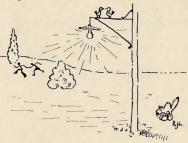

Have you ever stopped to think what an important thing a shoulderstrap is. Well, it is the only thing that keeps an attraction from becoming a sensation.

It is rumored that Auburn will close down when Joe Market finishes college. That does not mean that the High School students will have to rush through with their high school days because they will have plenty of time.

Alabama Student: "Good morning, Good Morning, Good Morning."

Auburn Student: "Howdy, by Gawd."

I am such a gentleman that every time I start dreaming about my roommate's girl I wake up.

THE LIGHT THAT NEVER FAILS

Once there was a little girl out playing in the yard and as her mother noticed some soldiers coming down the street, she called to the little girl to come into the house. The girl replied: "Mother, those are not soldiers, those are Auburn boys." "Come in this house at once, daughter, and bring the cow with you," the mother cried.

"That girl looks familiar to me, I

wonder who she is."

Jest: "Yes, I have seen her somewhere myself, I wish that I could see her face."

Heard at the dances: "Who is that blond over there?"

"Blond? Oh, do you mean that girl with that flower on her knee."

Pean Detrie: "History always repeats itself."

"Po" Moulton: "Funny it never repeats itself to me on exams."

Hot: "Have you gotten a hair cut?" Shot: "No, I just washed it and it drew up."

EAT 'EM UP TIGERS

Egg: "George, why did you turn the wheel loose?"

Nogg: "I just wanted to see if I had a flat tire."

Egg: "Oh, you mean thing."

Mary: "Elsie smokes incessantly, does she not?"

Widow: "Well, she ought to, she is hot enough."

> 'Tis a tale of Jimmy McGuire, Who ran across the street With his pants on fire. He went to the doctor, And fainted with fright, When the doctor said, His end was in sight.

Here lies the remains of Johnathan Bliss, He let go the wheel while getting a kiss.

Kough: "How is it that you can carry on your love affair with the doctor's wife, and not let the doctor find it out?"

Tecks: "Well, an apple a day keeps the doctor away."

Memorable Days at Auburn

Year 1—Bennie Ross becomes connected with the college.

Year 2-Burton's Book Store established.

1492—First Co-Ed arrived and registered (I've forgotten her color.)

1600-Dean Petrie began loosing his hair.

1700—Doc Carey missed a kick and broke his leg.

1800—First student found sober at a dance.
(Was shot at sun-rise.)

1900—Auburn students purchased a box car to make a football trip in.

1919—Someone used the word prohibition—wonder what it's all about.

1926—Some of us hope to graduate.

Here Is How It Happened

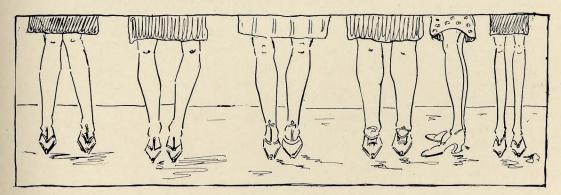

A prominent man on the campus is still wondering whether or not it was his Frat Pin that saved him the other night.

In going down the main street the other night he was accosted and told to put up his hands and fork over.

He pulled out his money, his watch, his cigarette case, and lastly took off his Fraternity Pin.

The bandit gave one glance at his pin, extracted a cigarette from the case, and handed everything that had been taken back.

"Thanks, old man, I just wanted a cigarette."

The 1926 Glomerata

In presenting this, the 1926 Glomerata, to you, we wish to thank the Class of 1926 for the honor of editing and managing its yearbook.

We have ever been conscious of the responsibility that the Senior Class has entrusted to us. We have worked hard and served the class and school to the limit of our strength and resources.

The Staff has worked with a three fold purpose this year: To put out a book that the Class of '26 will be proud of; to stay within our budget; and to put the book out on time.

We have finished our work. The rest is left to others. May they not fail us.

The Plainsman

The Plainsman Staff this year succeeded in increasing the size of the paper from six to seven columns, and with an increase in length, made the paper resemble regular newspaper style. The increase in size made it possible to publish five thousand more words of news matter each week.

Thirty issues will have been published at the close of the scholastic year, a new high record in issues published, the highest number in previous years having been thirty-two. Of the issues published, a high school rotogravure featuring the college buildings and campus scenes, with a description of each department in the college, was published and placed in every high school in the state.

This was the first year that the Plainsman has been published in Auburn. The innovation making it possible for the staff to have more time for each issue and publish news stories that broke a few hours before the paper came off the press. Another accomplishment of the staff was the getting out of a football extra after the V. P. I. game with a full account of the game fifteen minutes after the last whistle blew.

The Alabama Farmer

The Alabama Farmer is a monthly magazine published by the Agricultural Club of the Alabama Polytechnic Institute. It is under the supervision of a Board of Control, which is elected by the club. Every person in any official capacity with this publication is a student of agriculture, and these students have complete charge of publishing this paper, which includes circulation, advertising and editing.

The purpose of this magazine is to maintain a close contact with every phase of student life, especially with those activities connected with agriculture. It also attempts to give valuable information to the farmers, county agents and Smith-Hughes teachers over the state of Alabama.

The Auburn Engineer

The newest of Auburn's publications was first conceived in the minds of W. A. Garrett and G. F. Holmes, both Seniors in electrical engineering. They saw the field for such an enterprise open, and put the matter up to the societies, and the result, you have seen. To put the infant on a sound basis was the first job, and the hardest job before the managers. Along in the fall and winter the staff was built up and the field broadened to better carry on what the founders had begun. With the first and hardest year behind them, the new staff is looking toward the year 1926-27 as the year in which they can better exemplify the spirit of the Auburn Engineer in the service of Alabama and the Auburn campus.

"To the Men"

ON The GLOMERATA

I've taken my fun where I found it,
I've tricked college sheiks in my time;
I've had my pickin' o' sweethearts,
And most of the lot was prime.
The first was an Alpha Gam trat man,
I call him my sweet cherubim;
But he got lit one night, and of me he lost sight,
And I learned about frat men from him.

The next was a Phi Delt from Auburn,
Tall, good-looking and blond,
Who came to a dance at Montgomery,
And of me he became very fond.
He had a line like a cable,
And, oh, how I took it in!
But a girlie I met said she was his pet,
And I learned about kidders from him.

The next was a Kappa Sig nccker—
A devil at parking he were.
He liked me because I was speedy,
The kind of girl men prefer.
One night when we went a-sparkin'.
With the headlights and tail lights turned dim,
I gave him a whack, so I had to walk back,
And I learned about neckers from him.

The next was a K. A. Beau Brummel—
The worst leaking oilcan I know,
His would be old-fashioned politeness
Was nothing but put on and show.
He never took me out to dinner,
My chances for movies were slim.
He was so blame tight—but, oh how polite!
And I learned about tightwads from him.

The next was a Sigma Nu caveman—
Straight from the mountains he came.
Rushed for his dough and his moonshine,
A new hand and green at the game.
Thank God for necking insurance,
Though I'm not old-fashioned and prim!
I couldn't do such, for I can't risk that much,
And I learned about cavemen from him.

One of the S. A. E. thousand
Flopped for me right at the start.
He gave me his pin in five minutes,
And vowed we never should part.
Hart, Shaffner and Marx were his tailors—
Neat, natty, nobby and prim.
I thought he was best till I found him a pest,
And I learned about dumbbells from him.

The next was a Pi K A tricker—
He had me right under his thumb;
He floored me with flowery language,
Which soon became boring and dumb.
The dates that he broke almost killed me,
But now I am cured and grim.
I'm not sorry that he broke every vow,
Because I learned about trickers from him.

The next was a Theta Chi slicker—
A nut full of nonsonse and prunes.
Heaven, to him, was a dance hall,
Where angels played snappy jazz tunes.
He snook a mean leg to perfection,
In a dark corner of the gym.
No brains in his head—past the neck he was dead—
And I learned about Thetas from him.

A Sigma Phi drunk was the next one—
He loved his corn and his gin.
I told him the next time to be sober,
And never get hopped again.
For a week he was just like a deacon,
Then he got filled to the brim.
I loved him so well but his path let to Hell,
And I learned about drunkards from him,

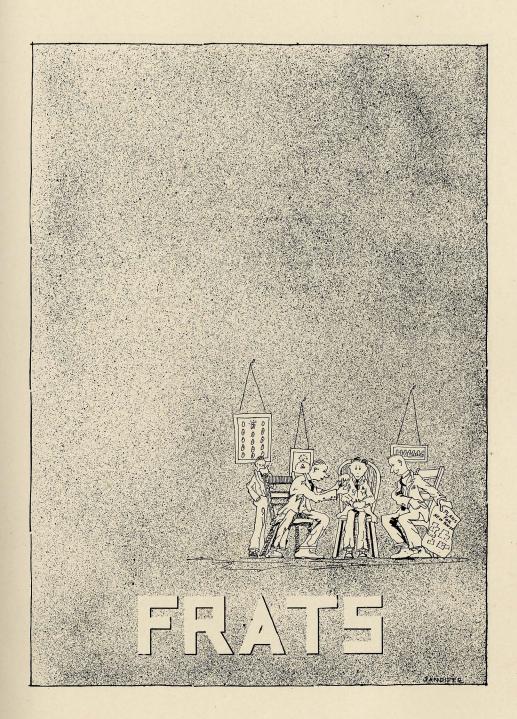

The next was a Lambda Chi roughneck—
Who won my approving regard;
His clothes were made of "A" letters
For at football and baseball he starred.
But when we were alone in the parlor
He lost all his pep and his vim.
He had plenty of weight, but just couldn't rate,
And I learned about roughnecks from him.

The next was an S. P. E. bluffer— His big house at Chee-Haw is found. He brags of his dates and his necking, For he aspires to be a tea hound. At first I found him amusing, For he gratified my every whim; But beneath his veneer he's a plain engineer, And I learned about bluffers from him.

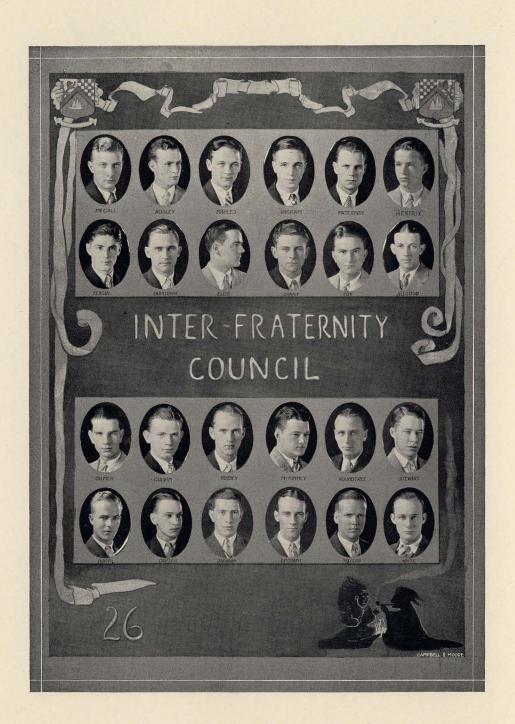

The next was a Delta Sig student—
He knew all about Horace and Tyre.
He quoted from Shakespeare and Einstein
Each evening we sat by the fire.
He wouldn't take me to "Sally."
No dances, no movies for him.
I got wise to myself—now he's on the shelf—
For I learned about students from him.

An A T O hick fell flat for me—
His manners were awful I'll say.
He tried to act like a town guy.
But his clothes contained pieces of hay.
Yet somehow he won my affection,
The way he lied to me was a sin.
I believed what he said, then he dropped me like
lead,
And I learned about liars from him.

My last love was just a good fellow—
No frat pin gleamed on his chost,
He loved me despite my filrations,
And I found him of all them the best.
And so, in the beautiful June-time,
The church with flowers they'll trim;
For I'll walk by his side—just a shy, blushing
bride—
And I'll learn about husbands from him.

Pan-Hellenic Rules for Rushing

VON The GLOMERATA

HE Pan-Hellenic Council shall meet the first week of college to decide the dates and time of rushing season, definite bid day and the time of regular meeting.

Preferential bidding shall be used by all sororities in the Pan-Hellenic Council.

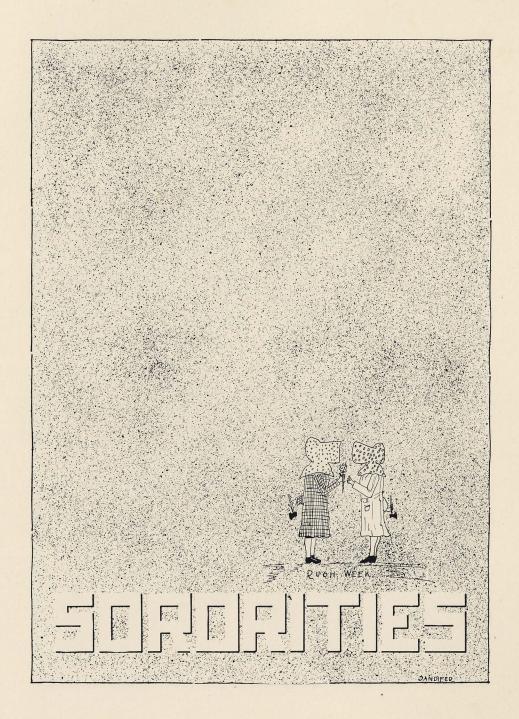

There shall be two weeks closed rushing followed by two weeks of open rushing that shall be followed immediately by a definite bid day.

Closed rushing is limited to drug store. No parties are to be given; no mention of sororities can be made to rushee during this period.

Open rushing gives freedom to sororities to act as they wish.

A non-interested party shall be selected by the council to have charge of the preferential bidding.

Now Voten De Zook was a leader and student, Who came to make of himself an improvement, While Zebulon Skeebee gave not a damn, How or which way the world ever ran.

As for organizations and honors, De Zook had a score, And his pins and keys increased more and more; While Zeb never had any gold gleam on his breast, No pins or keys hung over his chest.

Now De Zook is roundshouldered, broken and sore, Because of the weight of the pins that he wore; While Zeb is as straight as a poker, and gaining in wealth, Because he carried no weights to break down his health. The GLOMERATA OF

The purpose of this society is set forth in the following preamble to the constitution:

HEREAS: Feeling the need of some organization in the Senior Class of this institution, which, wholly independent of the social and other relations, shall seek to gather together the most prominent and influential men of the class and to the institution, this society is organized."

Ten men are selected from the Junior Class in May of each year by the retiring members, and these men compose the active membership during the following year. To wear the Spade is a goal which all underclassmen may seek as the highest honor an Auburn man may obtain.

Now, Oswald, DeHorace, Van Reggie O'Kame, Studied at night and all day just the same. He never went out and ran round with the boys, Or knew cards of women or wine and its joys.

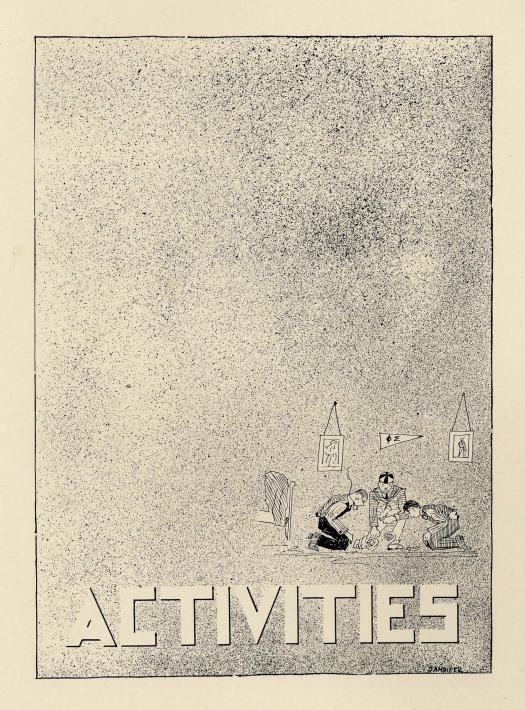

The GLOMERATA STATE

On the other hand, James All Round Guy, Studied but little, just so he got by. He never got tired of meeting the boys, And dancing and "bulling" and girls were his joys.

Everyone talked of the success O'Kame would be, As his report cards were joys for his professors to see, While All Round Guy could not boast of fine marks, But went right along making friends by his larks.

But by life's little happenings, we shall see How the thing did really turn out to be. All Round Guy with friends by the score, Gains in wealth and happiness each day more and more.

While O'Kame's career seems like a sad song, For he has neither friends or "bull" to help him along. He is the clerk of this Guy of whom we have spoken before, And never, will never be any more. The GLOMERATA OF THE STATE OF T

Now Van Vlect DeSquinto Abner Von Ladle Had learned to talk while still in his cradle, And everyone thought a great speaker he'll be, And some day be a credit to the "land of the free."

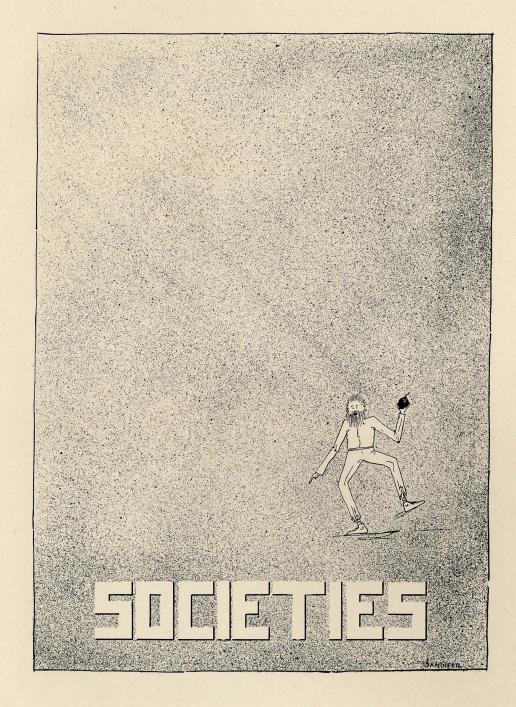

While Xum F. Goof was so slow with his talking, So bashful and conscious, he was positively shocking. And no one held any hopes that he'd ever win, Any place that talking would ere get him in.

Now both came to Auburn thus to gain knowledge, For each thought, "What chance have I less I go to college?" They studied hard from their books and absorbed the profs' lectures. And fought long and hard with mathematical conjectures.

Now Abner was content to remain to himself, And just be a "stude of the books on the shelf." While Xum figured life must need variety, So he straightway joined a literary society.

Now Abner could speak just the same as ever, And as for learning how more—well, he just never. But Xum with the experience learned at the literary society, Could speak and discourse with the greatest variety.

Now Xum is the head of a great business firm, And all he must do is to talk clever and stern. While Abner works long and hard everyday that it blows, Because he cannot convince people of that which he knows. The GLOMERATA OF THE STATE OF T
