know Auburn, and loved by all who know him.

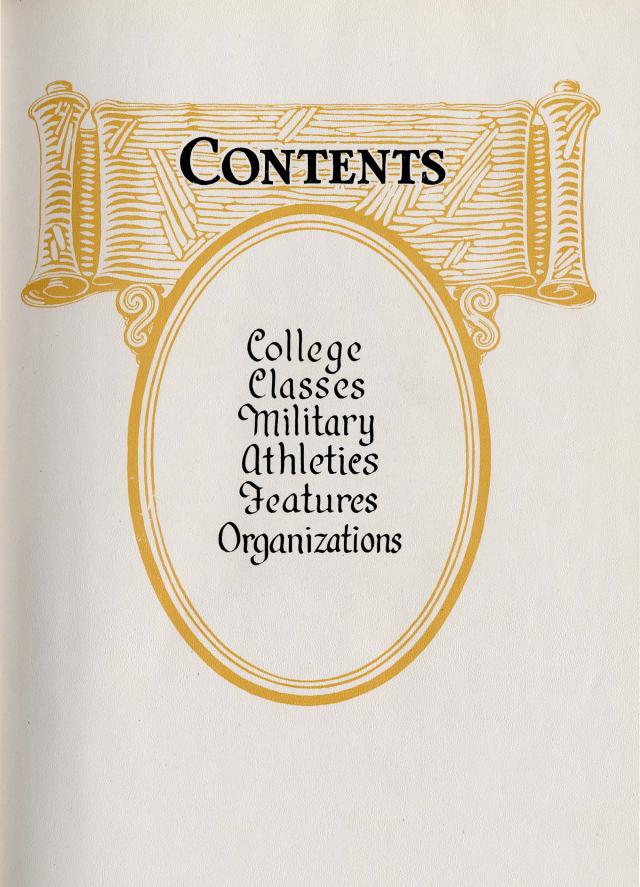

Mr. Homer Wright

0.8 42.9

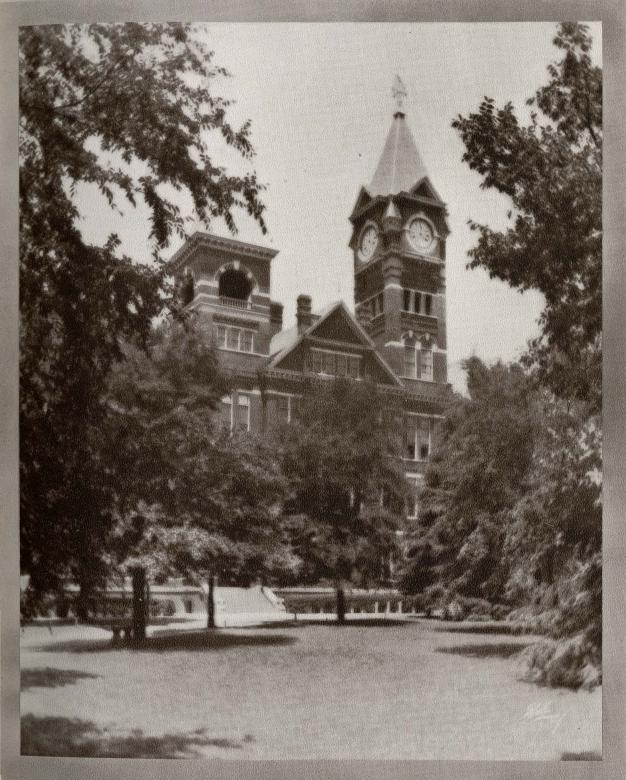

In years to come, if you have grown somewhat serious with the cares and responsibilities of life, if the memory of your college days has been dulled by the swift passage of events, and in a mo-ment of ease you should glance through these pages again, and if they should refresh the sainted memories of your college life at Auburn, memories of hours of play, tinged with moments of work, and if you should in spirit, live over again your life here, then our work will not have been in vain.

DR. SPRIGHT DOWELL

President

If president means leader, director, friend, counselor and advisor, then Dr. Dowell is truly president of Auburn. His hours are never so full that he cannot offer advice and encouragement to those in need, and his mind never so absorbed that he cannot speak the cheerful "Good morning" that typifies the spirit of Auburn. Strength of character and purpose is written in every line of his face, and his eyes bespeak his love and loyalty to the position he fills so well.

Under his administration, Auburn has known extraordinary growth and progress in faculty and buildings, as well as in total enrollment each year.

This, combined with a wonderful personality, a generous heart and a just mind has won for him the sincerest love and respect of all Auburn.

Graduate work has grown steadily in the past fifty years of educational development. Encouragement of this work at Auburn has meant the filling of many chairs in Southern colleges. The inspiration toward research in advanced work has meant valuable contributions to the store of human knowledge.

To understand the modern problems and situations, the mind must be specially trained and

it is to the trained mind that we must look for future progress.

The Graduate work is under the direct supervision of the Dean of Graduate Studies but in co-operation with the deans of the various Colleges of the institution. The graduate work is modeled after that of other outstanding colleges of the South and East, holding ever as its desire to send men into the world better prepared and better trained to solve the problems of life.

The Chemistry Department of Alabama Polytechnic Institute offers courses leading to degrees in Chefical Engineering and in Metallurgy. No other profession, perhaps, offers a brighter promise to achieve things yet undreamed of than Chemistry. Invention and Science await the chemist to discover some new substance or make some new composition that they may take this and move forward in their fields.

The State Chemical Laboratory, located at Auburn, is rendering efficient service to the manufacturers and consumers of Alabama and at the same time giving the students in this course a

view of Chemistry in its practical application.

JOHN JENKINS WILMORE

The College of Engineering and Architecture

This Department embodies all phases of Engineering. Civil, Mechanical, Electrical, Highway and Chemical link together to make the field more interesting. Each new idea and each new invention of one phase calls for an answering idea and invention from the others. In this spirit of competition, engineering grows and ever opens a wider and more promising outlook to those who enter her fields.

This College of Engineering and Architecture is one of the oldest of like colleges in the country and is the oldest in the South. Since its establishment it has advanced in great strides under the guidance of efficient men, until now the engineer who goes out from Auburn never finds himself lacking.

From all parts of the world students come to fit themselves for this profession and return again to be recognized for the knowledge they have gained and the ability they possess.

The Veterinary College of the Alabama Polytechnic Institute was opened in 1907 and was the first of its kind to be established in the South. For fifteen years prior to this time Auburn had maintained a Department of Veterinary Science but no degrees had been granted.

There is a great demand for qualified veterinarians in the prevention and eradication of the diseases of animals throughout the country.

Veterinary medical graduates of the Alabama Polytechnic Institute are eligible for livestock sanitary service in all states and cities.

This Department offers the regular four-year course in Veterinary Medicine and a combined six-year course leading to the degrees of Bachelor of Science and Doctor of Veterinary Medicine.

School of Education

Professors

S. L. CHESNUTT
Professor of Agricultural Education

B. R. SHOWALTER Professor of Education

E. L. Morphet Professor of Education

The establishment of the School of Education was authorized by the Board of Trustees in 1915. The following year, 1916, the Legislature enacted the constitutional amendment which was ratified by the people, giving the right to tax themselves for school support. The revenue from these taxes caused such a great growth in the schools of our State that from the first, Auburn's new department found a greater demand than it could satisfy.

During the following years, the number of students enrolling in the High Schools of Alabama was more than doubled. Thus the field for teachers is a wide one and each day grows more

attractive in financial recognition.

The College of Agriculture is divided into two phases, Research and Educational. These are represented by the departments of Agronomy, Agricultural Engineering, Animal Husbandry, Botany, Etomology, Farm Management, and Horticulture.

The success of Agriculture depends primarily on the Research Department. The particular duty of this department is to discover new facts and principles that will aid in the success of the farm and to put these in a form that they will be of use to the average farmer.

The Educational Department, though secondary, is none the less important. It is secondary only in that it teaches the information discovered by the Research Department. Thus, both combine to make more efficient farmers of the South and to make agriculture a greater success.

Me GLOMERATA

L. N. DUNCAN

Director

Extension Service

The Extension Service of the Alabama Polytechnic Institute is ranked by national authorities as among the very best. Through this service the Alabama Polytechnic Institute is reaching out and serving the people of Alabama by helping farmers, farm women, farm boys and girls to improve their practices, to get a better vision of agriculture and life, and to improve agriculture by co-operative methods.

The Alabama plan of extension work has become known nationally and leaders in other states are following the example set by Alabama. The outstanding leader in this Alabama plan, which has meant so much to Auburn, and to the State of Alabama, is Prof. L. N. Duncan, who is director of the Extension Service of the Alabama Polytechnic Institute.

As a student, Mr. Duncan came to Auburn from Franklin County in the Fall of 1896. He entered the Freshman class and pursued his work until he graduated in 1900. With the exception of a few years spent in teaching in district agricultural schools, he has been connected with the Alabama Polytechnic Institute since graduation. In 1907 he received his M.S. degree from Auburn. He was a summer school student one Summer at the University of Tennessee and another at the University of Illinois.

From 1905 to 1909 he was instructor in research work in agriculture at Auburn. In the Fall of 1909 he entered extension work in Alabama. That year he was placed in charge of boys' club work when it was introduced into Alabama. As the work grew his field of service extended. In 1911 club work for farm women and girls was started by him. He continued in charge of club work for girls and boys and farm women until July, 1920, when he was promoted to his present position as director of all extension work in agriculture and home economics in Alabama. The Extension Service workers are listed on page 215.

Auburn began her history as the East Alabama Male College in 1859. Thirteen years after this date this College was taken over from the Methodists by the State and around this as a nucleus, the present institution was built.

Other technical schools have been added, but a general course still remains which offers the fundamentals of education. It gives instructions in courses leading to its own degree as well as instructions co-ordinating with the work of the technical schools.

New subjects have been added as need was seen and the old classical curriculum emphasized less. In this way the student in the General Course is to choose his work to cover the phases in which his interest lies. Because of this more liberal offering, interest in academic work reawakened and the enrollment of this department increases each year.

Distinguished College seven consecutive times; Auburn is justly proud of the record her R. O. T. C. Unit has made.

The first two years of R. O. T. C. training are compulsory to those who pass the necessary government physical examination. The last two years are optional. Full college credit is given for R. O. T. C. work and students are urged in every way to follow the training on through the third and fourth years of advanced work.

The Freshman and Sophomore years deal primarily with the drill and fundamental duties of the soldier. The Junior and Senior years embrace the duties of officers, problems of firing, and the command of units. Six weeks of summer work at a government camp must be successfully completed before commissions are granted to the cadets.

AGNES ELLEN HARRIS
Dean of Women

Home Economics Department

Assistant Professors
Miss H. Thompson Miss Dana Gatchell

Co-education in the South had its origin at Auburn in 1892. Until a few years ago it was not encouraged; since that time great steps have been taken to further it. Co-education has now come to be considered as the most feasible, simple, and efficient method of administration. The creation of the Department of Home Economics has done much to bring co-education into popular favor.

Students in this Department are prepared for the following professions: Home Making, Home Economics Research, Teaching Home Economics, Home Demonstration Work and others.

The Degree of Bachelor of Science in Home Economics is conferred on students graduating from this department. There is always a demand in the high schools of Alabama and in the Extension Service for graduates in Home Economics.

Me GLOMERATA

Roy DIMMITT Director

Student Activities

The Division of Student Activities deals exclusively with the general business of the student body. It includes the administration of all activities of the students, especially where funds or fees are collected by the college in behalf of the students. It comprehends the administration of the religious life, athletics, and the various publications of the student body.

This office was formerly supervised by faculty chairmen but due to increased work, the Board of Trustees saw fit to bring the many activities of the student body under one concentrated management. For this reason the Division of Student Activities was organized.

ZOE DOBBS, Social Director

Social Activities

The office of Social Director is comparatively new. Five years ago there was felt the need of a concentrated arrangement and the regularity of the social functions under college or student supervision.

The Social Director is entrusted with the supervision and direction of men's social functions and to further women students' organizations of the campus.

The result of this office has meant a better handling of the situations during college festivals, more comforts for the guests and complete harmony in student affairs.

Me GLOMERATA

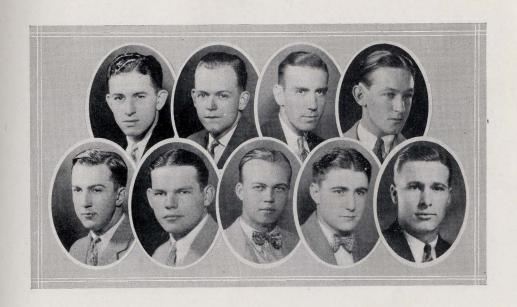

The Honor Board

In 1910 the original Honor System at Alabama Polytechnic Institute was established. It existed for fifteen years, but in 1925 the constitution was revised and the new constitution adopted by the Executive Council and the student body of Auburn. It then became the personal duty of every man of Auburn to make this newly established system a success. Failure would mean the wiping out of the Honor System and the tearing down of tradition itself. Success will mean the creation of an atmosphere of fair dealing and personal honor that goes to make men.

The constitution calls for four Seniors, three Juniors, two Sophomores, and one Freshman to form its judicial body. These men are elected by popular vote from all classes and it is their duty to lead their classmates toward the success of the Honor System.

J. M. EDWARDS, President

Me GLOMERATA III

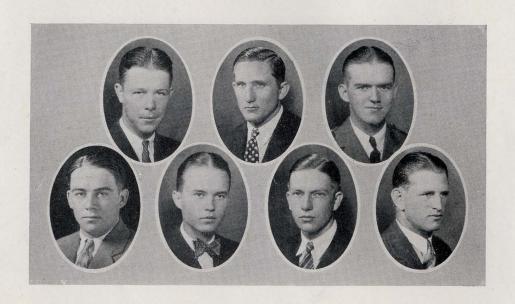

J. E. ROBINSON, President

Men's Student Council

The Men's Student Government at Alabama Polytechnic Institute was founded in 1924. The purpose of the Student Council is to enforce all college rules and to deal with infractions of all regulations. They are backed in their judgments and actions by the Executive Council of Auburn, composed of Directors and Deans of the faculty.

The Student Council is composed of four Seniors, three Juniors, two Sophomores, and one Freshman, elected by their respective classes. The task set before these men is a hard one, though each year brings them closer to their goal of conditions to satisfy the faculty and the student body. To every man of the Council goes no little praise for his effort to disregard personal feelings, to be just in his decisions, and to hold always the good of Auburn first.

Me GLOMERATA

Women's Student Government

Student Government of women at Alabama Polytechnic Institute was established in 1922.

Its judicial body consists of students elected by popular vote to the office and it is under the general supervision of Miss Zoe Dobbs, Social Director.

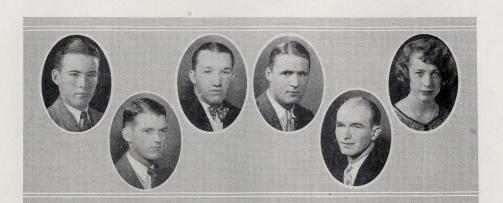

Women's Student Government has been highly successful since its first creation. It has helped to establish almost ideal conditions between the students and the faculty and has no doubt been instrumental in the growth of co-education at Auburn. It has caused a development of leadership, initiative, and judgment among the women students that nothing else could have caused and has served to teach that duty comes even before friendship.

Regret

These are the things that never were, Would God they had come true! Day dreams rare of one so fair, Dreams, my dear, of you.

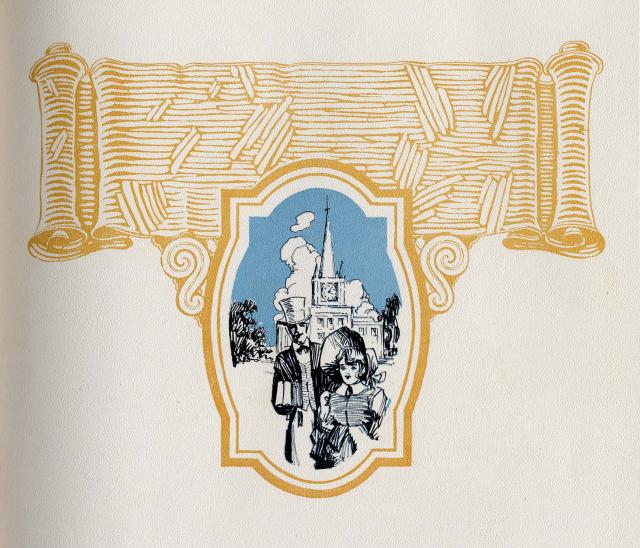

These are the things that cannot be,

Things that you'll never know,

In the misty light of the summer night,

Visions that come and go.

For the things that aren't and never were,
The dreams of an idle soul,
In part may be reality,
But never can be whole!

CLASSES

SENIORS

Senior Class Poem

Auburn, our hope for ages past,
Give us thy strength and blessings in the battle of life.
We pledge to thee our devotion and loyal support
To the kind mother—Alma Mater of men.

When inspiration holds her torch aloft

To guide our footsteps toward the distant shore,
The wreaths of smoke in phosphorescence soft

Spell Auburn to the children that she bore.

We leave the scenes made dearer by our love,

How soon will come the bitter pangs of loss.

The sheltered paths to knowledge which we rove,

Soon to be overgrown with memory's moss.

Under the purple shadow of her past
We still may dwell serenely and secure;
Abounding faith in Alma Mater cast
And impregnable defense is sure.

Time, like an ever onward sweeping stream,
Bears all its sons to glory and renown;
They go, Letheward, as to a dream,
To cities where prosperities abound.

Vast opportunities throng from these walls,
A challenge thrown to those who seek for fame;
Returning, honors and rewards enthrall,
To carry high the sacred Auburn name.

Senior Class History

EING A MALE OF THE SPECIES, the after-dinner hour finds me seated in my easy chair in front of a roaring fire. My good pipe is burning to my satisfaction, and I am thinking of the events of the last four years. The desire is strong within me to chronicle these events, so that the Class of '27 may in the future sit as I am sitting now, with the picture of those memorable years of our college career before them.

We arrived in "Sweet Auburn" September 3, 1923, green but eager to learn. This latter process was promptly undertaken by the upperclassmen—via the paddle! There were six hundred of us, and we immediately began organizing into a class. "Pat" Moulton was elected president, and under his guidance we assisted in putting in student government. The Senior Class of '24 decided the thing we needed most to begin our college career in the right way was a set of "rat rules." These rules were duly installed, and we gave our utmost co-operation by breaking as many as possible. It was at the first "pep" meeting that we learned about the "Glory of Dear Old Auburn." That was the lesson which remained with us throughout the year, and which we carried in our hearts during the summer vacation.

September, 1924, found us again within the "classic walls of our Alma Mater." This time as "ultra chesty" sophomores, we sought to impress the "Froshes" with our superiority and dignity. At the first class meeting, Abe Robinson, a promising football man, was elected president. This year marked our first opportunity to show what we had in an athletic way. We had five varsity football men—Robinson, Haggood, Long, English and Baskin. In addition to this we provided four varsity basketball men—Long, Hall, Cummings and Kaley. We were justly proud of the Knights of the Orange "A", and spent our summer talking to the home folks about our athletic achievements. The monopoly that athletics took of our conversation brought down on our heads many lectures, and we were ready to return as upperclassmen with an eye for the curriculum.

Now our interest turns to our junior year. We were back again with Abe Robinson still at our head. "King David" Morey was selected to succeed "Boozer" Pitts as head of the coaching staff. We had a very successful football season and we, as juniors, were proud of our contribution to the making of the team. It was this year that the Ramsey Engineering Building was completed and our opportunities for work were greatly augmented by its addition. At this time the whole campus was made sad by the death of Dr. John Hodges Drake, the beloved college physician. He had spent his entire life in administering to the students at Auburn, and his passing left a vacancy in our hearts which cannot be filled.

It has been said that "all things good come to those who wait." I might change that to more nearly fit the circumstances and say that "all things good come to those who wait and work." It is by that route that we have arrived at our last and senior year. Many of our members have distinguished themselves along their respective lines of endeavor. Paul Turner was elected captain of the football team, and with him, Salter, Long, Market, Baskin, Robinson and Pruitt held regular berths on the varsity squads.

So, as we go out into the world let us not forget our old Class of '27. Let us keep the memory of our best four years always fresh in our hearts and minds, and carry on for the glory of our Alma Mater.

R. D. YARBROUGH.

Class Historian.

Junior Class History

HEN SCHOOL OPENED in September, 1924, a large group of green boys entered the "Loviest Village of the Plains" for the first time. This marked the beginning of the Class of '28, of which nothing had been thought of in the past, but of which much would be heard of in the future. However, on this day the minds of these "Rats" were not occupied with thought of organization or class glory, but were filled with wanderings and misgivings of what life within Auburn held for them.

Immediately we acquainted ourselves with the habits of the Auburn student body. We were not long in learning more of the wonderful "Auburn Spirit."

This year was full of events for us, and high around these stood athletics. Our class furnished men for all branches of sports and some of our mates made enviable records. Our scholarship was not left out, although it was hard at times to keep it up. We had our beatings and the "Rat Rules," both of which we are proud.

The time came for class elections, and William "Pop" Paterson was chosen to lead us through the hardships of our freshman year. As an organization our class prospered and finally came to the commencement when we were no longer "Rats." Thus, our first milestone was passed, and all were glad to have stayed in the race.

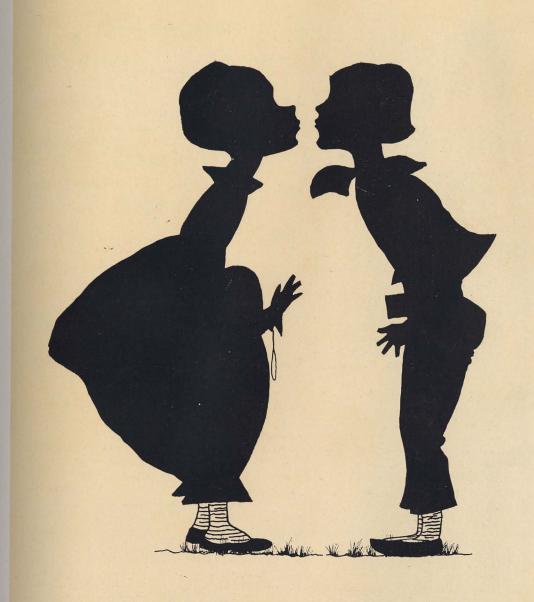

Our next year found the class back at the post but minus the services of many who had fallen by the wayside for various reasons. As usual we thought we were rulers of our newcomers, but we soon found that the authorities had a course mapped out for us, and we were determined that we should follow it. We do not say we were the best sophomore class, but we were not as bad as the worst. We had our fun, raised our hell, and did most all the things a sophomore class is supposed to do. We paid our penalty for our childishness, however, and emerged from the chaos of a trying year a wiser group of men.

This year found our class represented in every line of athletics by men such as Snyder, Paterson, Ellis, Tuxworth, Shotts, Burns, Sankey and others equally as good. These men were among the first to receive training from our new and congenial coach, David B. Morey. Although we did not have winning teams in all branches as we hoped, these men never failed to show the fighting spirit of Auburn.

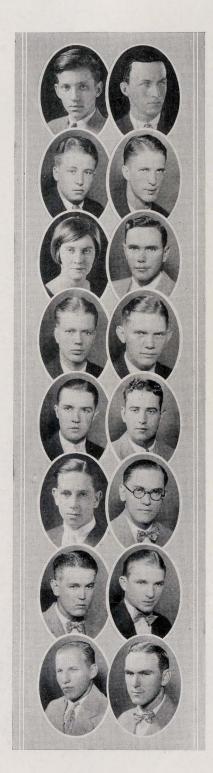

We saw the completion of another unit of "Greater Auburn," the Erskine Ramsey Engineering Hall. We hope that we will be able to see the "Greater Auburn" movement carried further before we finish.

With the life of a sophomore ended, we have finally reached the more serious life of a junior. As juniors we are about to ender upon the last lap of the race. Next year those who persist will reach the goal. It is with sorrow and joy that we behold our glimpses of the future, for the years at our Alma Mater are surrounded by tender memories. We have made our mistakes and we regret them. We have won our honors and are grateful. This much we pledge: As we have endeavored in the past to uphold the glorious traditions of Auburn, so in the larger race in life we will remember and bring not shame but distinction upon the school we love.

Sophomore Class History

O THE INHABITANTS of the Orient and most of our good old U. S. A., September 3, 1925, may be of no unusual importance, but to the five hundred youths who, for the first time, stepped off the train in Auburn, it is a day paramount in their memory. To us it was a day of adventure, as we heard full well the "ways and means" of the upperclassmen. We had vivid mental pictures of painful, torturing and embarrassing events of the freshman year, but few were the feet that did not support a firm-set jaw as we marched up for a once-over of the campus.

Some of the new arrivals were disappointed with the surroundings, but that was soon displaced by a full measure of the Auburn Spirit at the first pep meeting. All went well during the year, the class distributing much, both in the classroom and in athletics. Coach Morey was able to select several valuable men from the class for the varsity squad, and the future for the class looks very good in basketball, baseball, and track.

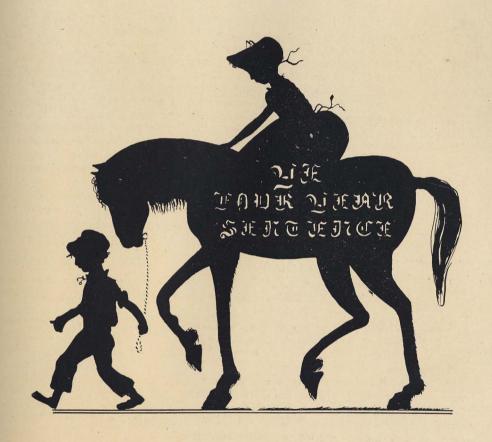

Three months of vacation's pleasures at home made it no easy matter to return, but September, 1926, found the Class of '29 very much in evidence on the campus of the Village of the Plains. But there was one thing more than any other which was deeply implanted in our hearts during the nine months of our "Rat" days, and that was the "True Auburn Spirit," the true spirit which, when implanted in your soul makes you an Auburn man always and at all times.

Let us forget about the making of class history for three months, since our minds were elsewhere, and then come back to the collection of our history for our sophomore year.

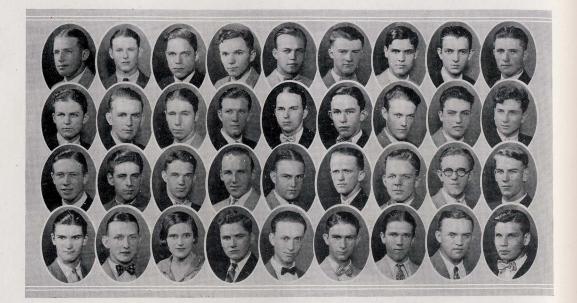

Proud, I should say we were when we reached the distinction of being a sophomore. Our "Rat" days had passed, and we felt doubly large when we were able to call on "Rats" to wait on us. But very soon we say that the proud importance we had was not the conception of our upperclassmen.

During our three months' absence from Auburn quite a change had taken place. Upon our arrival in September, 1925, we were very much discouraged by the suffocation caused by the dusty streets of Auburn. On our return we were surprised to see that these dusty streets had been replaced by beautifully paved ones. We also noticed the growing of Auburn by the erection of several new commercial buildings. But that monument by which we may recall our "Rat" days, and one which we are very proud to have been among the first occupants, is the new "Ramsay Engineering Building."

We have come to the end of the history at this time. As to the future, we will let Father Time handle that dope, but for the Class of '29, we will venture to predict that on the incline of progress there will be found far more climbers than coasters.

Freshman Class History

EPTEMBER 8, 1926, was the Red Letter Day of the Class of '30. On this day we arrived in Auburn, the Loveliest Village of the Plains. There were hundreds of us who were, for the first time, entering into college life. Of course we were green. The upperclassmen were quick to take advantage of this and unloaded many of their jokes on us. They carried the process of humiliation still further by calling us "scum of the earth," and as many other lowly names as their limited vocabulary permitted. Such were the conditions we were subjected to.

The next few days were spent in getting acquainted with our work and with the "Rat Rules." Soon we had learned what they meant, but we thought a better name for them would be "Rat Boards." It is said that there is an exception to every rule, and that the exception easily becomes this rule. Of course we are willing to admit that an abstract idea may be explained by the use of a concrete illustration, but we are not willing to admit that such a strenuous application of the illustration was necessary in our case.

Hardly had we taken in all of this valuable information before we began to feel that something ominous was in the air. Everywhere there was an uneasiness and tension and, being new to the "Tiger City," we could not discover what it was about. Then it burst forth all over town in "War Eagle" and "Give 'em hell, Auburn!" We did not have to be told what this was; it could mean only one thing—football!

Now we were all gathered in a group and taken to Drake Field to be given the Auburn Spirit. Don't get excited; it was not out of a bottle, but it was quite as powerful, and we were soon yelling our lungs out for that ole Auburn team. We were told the best way to show our loyalty was by supporting our team at every game.

Some of us, who were prosperous, rode to the games on the train with the dignified (?) upperclassmen; those of us who were lucky caught rides through the country. The rest of us had only one resort. Freight trains still ran through town, and bright and early on the morning of the game we were at the place where the game was to be played and ready to back our team. The football season ended with a creditable score for Auburn, and it is unnecessary for us to say that we Rata take most of the credit to ourselves.

The next event of our college life was the All-College Hike, sponsored by the Y. M. C. A. This was a very sad time for us, because it was on this occasion that the sophomores and the freshmen had their annual tug-of-war, and the sophomores succeeded in dragging us through the creek. We left that afternoon with revenge in our hearts for the freshmen next year.

The Christmas holidays now arrived, and we threw our books to the four winds and hastily packed our trunks, leaving half of our wearing apparel, for we were thinking only of the few hours before we would see our best girls. The holidays passed quickly, and we came back to work with new determination to succeed.

The Rat football team was something which only the freshmen could lay claim to and feel proud of, because it was composed entirely of what some people had called "The Scum of the Earth." These men wear the highly prized '30, and if some of the old men don't watch out, their places on the team will be mighty hard to hold.

The Class of '30 can lift up its head and say, "We did not come to Auburn to write history; we came here to make history."

The Alma Mater

On the rolling plains of Dixie,

'Neath its sun-kissed sky,

Proudly stand, O Alma Mater, A. P. I.

To thy name we'll sing thy praise,

From hearts that love so true,

And pledge to thee our loyalty

The ages through.

Hail thy colors, Orange and Blue,
Unfurled into the sky;
To thee, our Alma Mater, we'll be true,
O, A. P. I.

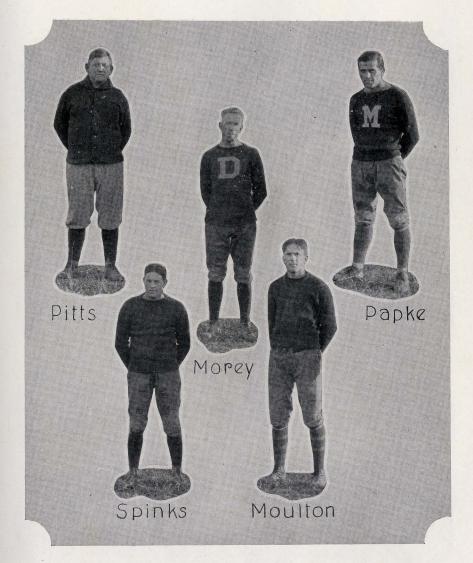

Hear thy student voices swelling,
Echos strong and clear;
Adding laurels to thy fame
Enshrined so dear.
From thy hallowed walls we'll part,
And bid thee sad adieu.
Thy sacred trust we'll bear with us
The ages through.

God, our Father, hear our prayer,
May Auburn never die.
To thee, O Alma Mater, we'll be true,
Our A. P. I.

ATHLETICS

The Coaches

Auburn is well blessed with coaches, especially with football coaches. It has been truthfully said that Auburn possesses one of the greatest football coaching staffs in the entire South.

King Dave Morey, head coach of football and baseball, is also director of athletics. He commands the respect and admiration of the whole student body, and we are looking forward to a championship football machine next fall as well as a powerful diamond aggregation this spring.

King Dave is ably assisted by his right-hand man, Mike Papke, who is head coach of basketball, and who in his second year turned out one of the greatest quintets to ever represent Auburn. Buck Spinks and Slick Moulton, probably the two greatest ends ever developed at Auburn, and Boozer Pitts, Auburn's all-time All-Southern center, complete the varsity coaching staff.

Coaches Spinks and Moulton spend most of their time imparting knowledge to wing artists, while Coach Boozer directs the play of the Scrubs.

Coach Hutsell, Auburn's track and cross-country coach, will show the Southern conference a thing or two this year, as he did last year. Coach Brown, at the head of the freshman squad, is an able tutor for the rodents, as is shown by the results of the season,

Our Cheer Leaders

We take pride in the fact that the famous Auburn spirit known and established throughout the country still reigns supreme in the loveliest village of the Plains.

We attribute the school patriotism, the support of the athletic team, in short, the functioning of the "Auburn spirit," to our competent cheer leader, Red Roberts, and his cohorts.

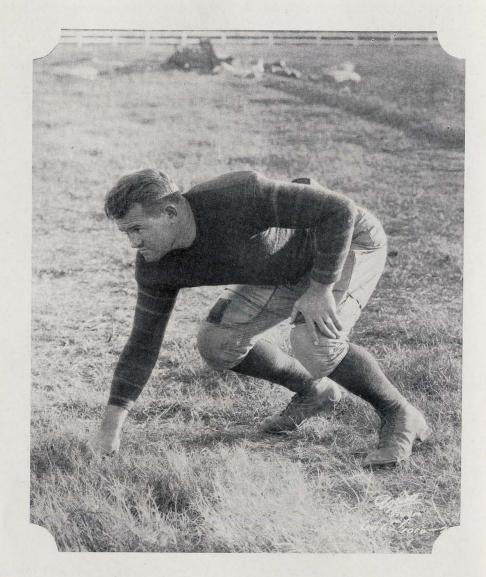

Red, a student in electrical engineering, has found time enough to instill into the oncoming freshmen the essence of the traditional Auburn spirit unto like none other in the world.

He it was, with his able assistants, Bud Baxter and Dooley Gilchrist, who in the crucial moments of some athletic encounter, led the mighty student body, inspiring Auburn's sons to go forth in battle, to fight as only invincible Auburn Tigers can.

He has passed on to greater fields, but in passing has left behind with us the memory of one of the most successful of Auburn's cheer leaders.

FOTBALL

Captain P. S. "Seacow" Turner

"Seacow," after undergoing preliminary schooling in football at Anniston High and Marion Military Institute, came to us in the fall of 1923.

He made rapid strides of progression on the Freshman Club, and was regarded as a good prospect for a varsity back for the following fall.

Enjoying good training during the intervening summer, he came back in good physical shape and realized a good season at the fullback position. His second year was even better than his first, and he soon developed into a "human battering ram," literally tearing the opposition's forward wall into threads.

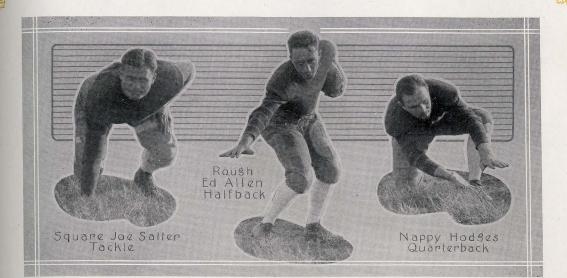

into threads.

He was elected to captain the '26-'27 football squad, and this he did in an admirable way, despite the fact that his actual playing time was somewhat marked by the brevity of time. From the beginning of the season injuries greatly hampered his play, but despite this handicap, he gave a good account of himself in all of the games in which he participated. Then, too, it sometimes became necessary, when speed was the main requisite, for this 210-pound giant to give way to a speedier man, but this feat he likewise accomplished in an amiable manner, thus keeping the harmony of the club intact.

He was a fine leader and will be greatly missed when the thud of the pigskin is again heard next fall.

next fall.

Football Review

AUBURN 15; CHATTANOOGA 6

The Auburn Plainsmen in their opening game with the Chattanooga Moccasins found a stubborn opponent, one that yielded to defeat only after a late rally by the Tigers in the fourth quarter. The teams were about evenly matched during the first half, with the Tigers having the edge in ground gaining.

However, with two minutes before the end of the first half, Auburn in over-anxiousness to score, tossed the oval to a Chattanooga back, who dashed the remaining distance for a touchdown. They failed to kick goal and the half ended-Auburn o, Chattanooga 6.

The third quarter was listless, since the Plainsmen offense was not functioning.

Late in the fourth quarter the Auburnites awoke from their snoozing, and using good general-

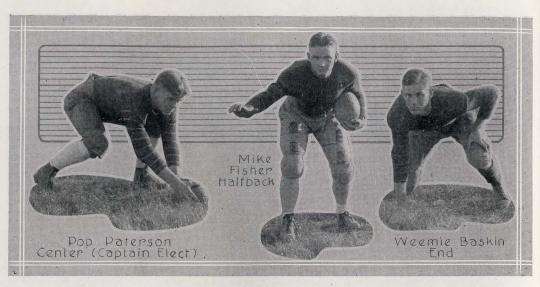

ship, shoved the ball across for a touchdown. Moulton failed to kick goal.

Now sensing victory they received the ball from the kickoff and rushed it to the thirty-yard line, where Moulton booted a dropkick. Chattanooga then received, and trying desperately to score, threw the ball into the waiting arms of the captain-elect, Pop Paterson, who raced the necessary twenty-five yards for a second touchdown,

Moulton failed to kick goal, and the game ended.

AUBURN 47; CLEMSON O

A rejuvenated grid team met the Clemson Tigers on Drake field in the annual home-coming event.

Not a single man was in the line-up which faced the Chattanoogans a week previous.

During the first quarter the teams were of about equal rating, with both electing to punt frequently. It was a pleasing sight to watch the whole Auburn line cover punts so neatly and to watch the fierce tackling of the diminutive James twins.

watch the fierce tackling of the diminutive James twins.

During the close of the quarter Coach Morey sent in a new team, which set to work immediately, and employing dazgling off tackle smashes, promptly scored two touchdowns.

mediately, and employing dazzling off tackle smashes, promptly scored two touchdowns.

Then another team was turned loose, who likewise made a touchdown. Then the half ended,

with the Plainsmen holding a three-touchdown margin.

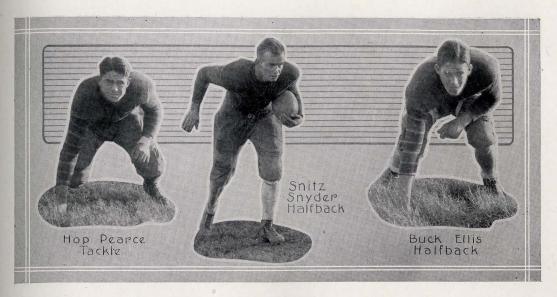

Opening the second half with a crushing exhibition of straight football, along with a few timely forward passes, the unstoppable Plainsmen soon shoved another one across. Tom Shotts then responded with a neat drop kick, having gotten his eye on the uprights. In quick succession three more touchdowns were added, bringing the total score to Auburn 47, Clemson o.

M % GLOMERATA

AUBURN 33; HOWARD 14

Eight thousand Birmingham fans were gathered at Rickwood Park to witness the Tiger-Bulldog fracas, and eight thousand fans went home with the satisfaction that little Howard was still Howard, and Auburn was still Auburn.

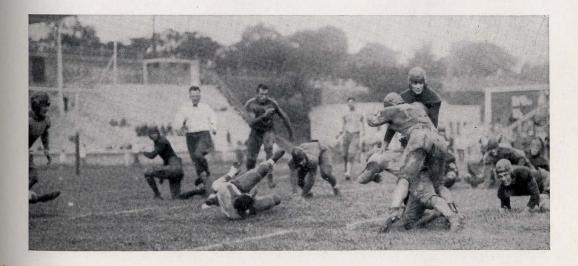

The Plainsmen, doped to lose by a good margin, entered the battle full of confidence and made a touchdown during the first few minutes of play. It was then that the Tigers let up, and Billy Bancroft and his cohorts started the fireworks by making two touchdowns and kicking both goals, before the dazed Tigers awakened.

Thus the half ended: Auburn 6, Howard 14.

With the score 14 to 6, the Tigers fought back furiously and succeeded in crossing all of the white lines immediately after the second half began. Then with Snyder and Fisher alternatively carry the ball, and employing one of the flashiest attacks ever seen in the history of football, the Tigers clawed, gnawed and hit for an inevitable victory.

Bancroft, the mainstay of the Bulldogs, was hopeless against the vicious hard tackling of the Tiger linesmen; reeling and groggy, he retired from the game late in the fourth quarter.

Hence the game ended, and Howard was again hung to the sour apple tree.

AUBURN O; L. S. U. 10

Fresh from the Howard melee, the Tigers moved on to Crampton Bowl in Montgomery, where they clashed with Mike Donahue's Louisiana State Tigers.

The Plainsmen were doped to win by a comfortable margin, but it was just another one of those games when one team was not mentally right.

The L. S. U. clan, using Donahue's famous line divide plays, completely baffled the Tigers for a while, during which time they piled up ten points, a touchdown and a field goal.

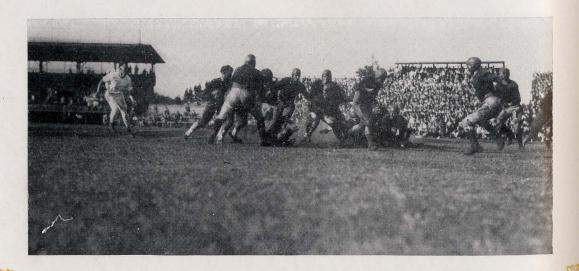

The Plainsmen flashed one or two brilliant attacks and carried the ball to the four-yard line before the half ended.

At the beginning of the second half the Plainsmen flashed a good aerial and line attack, and should have won in the quarter, but fate decided in favor of L. S. U.

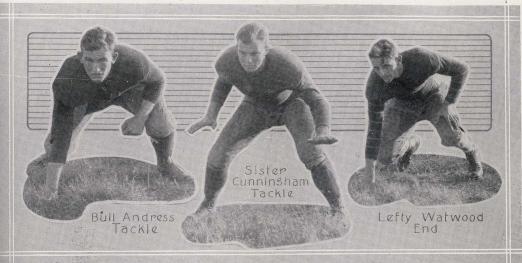

and should have won in the quarter, but fate decided in favor of L. S. U.

In the fourth quarter the Auburnites played brilliantly at times, but could never master sufficient punch to carry the ball over. In this period they carried the ball by steady marching over the goal line, but Tom Shotts fumbled and this chance was thrown away.

Again, near the end of the game, the ball was carried to the one-yard line, but Capt. Paul Turner failed to make first down by one inch, so the ball went over.

AUBURN 2; TULANE O

On October 23, Auburn was host to the Tulane Greenies in the dedication of their new bowl, Battered, bruised and disheartened by their defeat at the hands of the L. S. U. Tigers, the Plainsmen entrained for the Crescent City, determined to make amends.

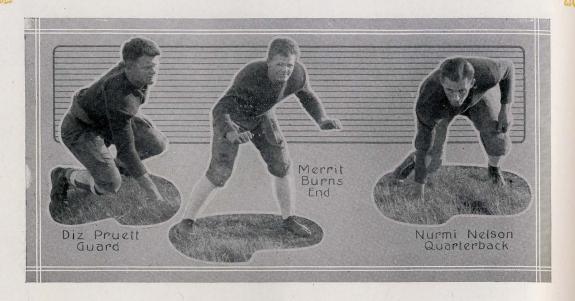

The Greenies presented a big heavy line, and a fleet of fast backs.

However, the Tigers from the Plains were not to be denied a victory, so they fought as only Auburn Tigers can fight.

The first half ended o to o, the two teams battling about on equal terms offensively, but with Auburn leading defensively. Merrit Burns at left end was the main cog of the Tiger defense. He was invincible on all end run and off tackle smashes, and hardly a substantial gain was made around his end.

In the third quarter the Tigers started a march but were halted on the Greenies' thirty-yard line. On the next play, Pop Paterson, Nick Carter and Hop Pearce crashed through the Greenies' forward wall and blocked Morgan's punt. The punt rolled behind the goal line, and Pearce recovered, giving Auburn two points and a victory. Snyder and Fisher again carried the ball to the Greenies' goal line as the game ended.

AUBURN 9; SEWANEE O

The purple clad Tiger came down from his mountain lair on October 30 to do battle with the Auburn Tigers in Crampton Bowl. This same Mountain Tiger had a week previous held the

Southern conference and national champions, Alabama, to their lowest score, 2 to o.

It was a fierce battle, with the Auburn linesmen playing superb ball and stopping every effort of the giant Sewanee back, Helvey. Soon after the game got under way the outcome was quite obvious.

The Plainsmen soon scored on a beautiful forward pass, Moulton to Snyder, after being held

for downs on Sewanee's one-yard line.

The enraged fighting Tigers came back again, and after failing again to make the necessary yardage, lost the ball deep in Sewanee territory. On the next play, on a bad pass from center, a Sewanee back was thrown behind his own goal line, which gave the Plainsmen two points more. This ended the scoring for the day.

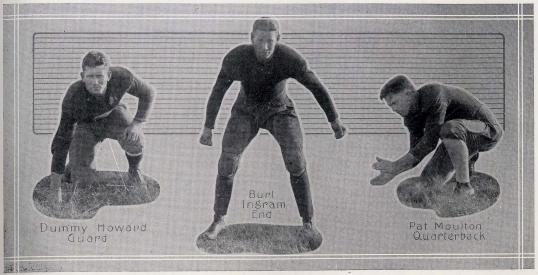

The Morey clan, which was considered the under dog, outrushed and outplayed the moun-

tain inhabitants in every department of the game.

The features of the game were the invincible playing of the whole Auburn line, and the superb punting of Pat Moulton.

AUBURN 6; GEORGIA 16

The Tiger spirit of fight was never more in evidence than on this day at Columbus, Ga., when Auburn was defeated to the tune of 16 to 6.

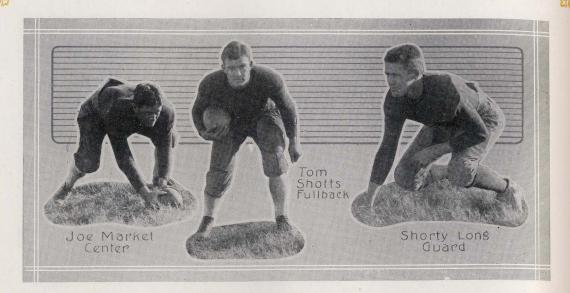

Outplayed, but never outfought, the Tiger warriors would not bow to the superiority of the Georgia Bulldog eleven until the final whistle announced the close of the game.

The Bulldogs plowed through the Tiger line for substantial gains. They scored a two pointer in the first quarter when Moulton was downed behind the goal

line while attempting to punt. Again in the second quarter they scored on a beautiful pass from Morton to Sherlock. Georgia retained the ball throughout most of the game.

The inability of the Tigers to pierce the Bulldog's line for first downs forced them to kick out of danger time after time. Late in the fourth quarter, after working the ball deep into the Bulldog's territory, Nappy Hodges flung a pass to Mike Fisher, who crossed the goal line, the first time that we had scored on Georgia in four years. Though the Tigers were off form, we felt that we had made progress, especially for a sophomore team.

AUBURN 3; MARQUETTE 19

The Golden Avalanche of Marquette University came down from Milwaukee to furnish the Tigers with their only intersectional game of the season.

Bringing such stars as Leary, O'Keefe and Crane, they boasted a powerful eleven.

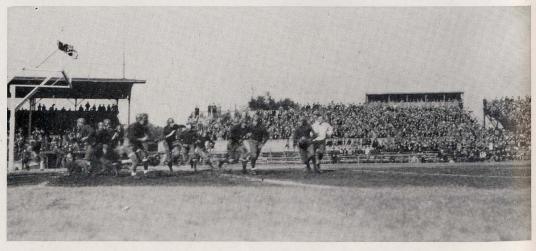

Receiving the ball on the kickoff, they flashed a brilliant line attack which brought neat gains. However, the Tiger warriors, playing fine defensive ball, halted them on the three-yard line.

From this time on till the last six minutes of play it was Auburn's game. The Tigers registered their lone tally in the initial period with a dropkick by Pat Moulton.

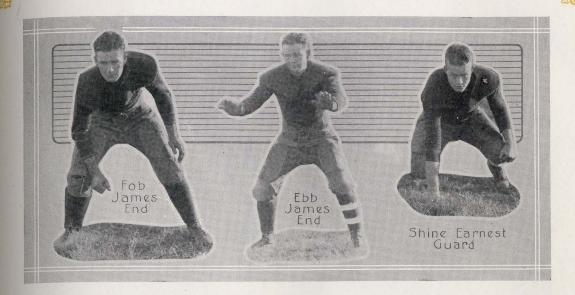

Many times the Plainsmen carried the ball deep into Marquette's grounds, only to be repelled. Nick Carter played a wonderful defensive game, once breaking through and blocking a punt, and again blocking a placement kick.

With only a few minutes to play, the Tigers, after carrying the ball to the twenty-yard line, lost it on downs. Leary, giant Marquette back, standing on his goal line, passed to O'Keefe for seven yards, who, rising from the ground where he was supposedly stopped by the Tigers, galloped seventy-six yards for a touchdown.

The Plainsmen, then trying desperately to stave off defeat, twice passed into the hands of Marquette backs, both of which resulted in touchdowns. It was a heart-breaking game to lose, and we feel had our young team had more experience, that it would have been a different tale.

AUBURN 7; GEORGIA TECH 20

In a drizzle of rain, a vast throng packed the bleachers on Grant Field to witness the annual Turkey Day classic between the Tigers and the Yellow Jackets.

The game, in actual facts, reads like fiction. It was the same old story of the team that

comes back.

The Tigers realized an early lead when Nurmi Nelson, the fleet-footed little quarterback, dashed off fifty-seven yards on the opening kick-off. The confident Tigers then proceeded to make a touchdown without losing the ball when Mike Fisher squirmed through the left side of the line.

During the second quarter the Yellow Jackets made one or two drives, but these proved futile, since the Auburn line was playing good ball in the pinches.

Just as the half ended, Ingram caught a long pass, and in his attempt to rise from the ground, fumbled the ball on Tech's 20-yard line.

On the next play Reed sprinted eighty yards for a touchdown, but the attempt at goal was missed.

It was truly an inspired Tech team that faced the Tigers in the second half. Playing head up football, they were able to push across two more touchdowns, which incidentally gave them the largest score made against the Tigers in several years.

THE SPONSORS

Along with the pictures of the sponsors as shown in this section, is likewise a picture of Auburn all-time sponsors, Mrs. Dave Morey and Mrs. John Pitts, of whom we are justly proud.

These two faithful ones not only followed the Tigers to the field of battle on the week-ends, but daily slipped by the closed gates of Drake Field to watch and encourage them in their daily preparations. Hurray for our sponsors!

THE MANAGEMENT

In the role of management we have little "Bunk" Vaughn, Opelika's own. "Bunk," though small in stature, is large in heart and ideas.

During the football campaign he was

During the football campaign he was a tireless worker, and an ample provider for the club's needs or, as King Dave expresses it, he was "It."

Assisting "Bunk" and serving in the capacity of official trainer we have "Goat" Smith, the "Sumpter Demon," and Sewlyn Turner from the jungles of Mobile. These two were of inexpressible value to the club in grooming pressible value to the club in grooming the horses, nursing the sprains, and keeping the men in playing shape.

The Scrubs

To the victor belongs the spoils, but to the lowly scrubs goes the honor of getting the varsity into playing condition.

Hard knocks, sprains, and bruises, no compensation, perpetual scrimmages, but no games, no

trips,—such is the life of the scrub. Without the scrub, there could be no varsity team.

He it is who weekly learns the oppositions' plays and daily practices them against the varsity. He it is who has to humbly take the offerings of the varsity while he is striving ever to attain the degree of a finished player.

Coach Boozer Pitts, who is stationed at the helm of the scrubs, has said that the scrub pack of this year was the most aggressive, the fastest learners, and the most willing bunch that he

had ever dealt with.

The co-operation between the scrubs and the varsity has been perfect, and we are prone to feel as if such practices are continued that we are due to have a more impressive season next year.

Truly, to the victor belongs the spoils, but to the scrub pack goes the glory of shaping the victor.

Freshman Football

In his second year at Auburn, Coach Red Brown has under his tutelage probably the greatest array of freshman material ever to come to the Plains.

After the regular workout got under way, Coach Brown, with his assistant, "Pea" Greene,

was soon able to pick out the most promising of the 115 Rats in the daily sessions.

After the selections of the first, second, and third teams, strenuous practices were held, with

the lowly frosh often facing the varsity.

In their first game the dauntless freshmen smothered the Marion Institute Cadets to the tune of 42 to o. Next they moved on to Birmingham, too confident, which resulted in a tie with the Howard freshmen at Rockwood Park.

Then the squad entrained for Crampton Bowl in Montgomery, where, after a hectic battle,

the Tiger Cubs emerged the victors over the Oglethorpe freshmen.

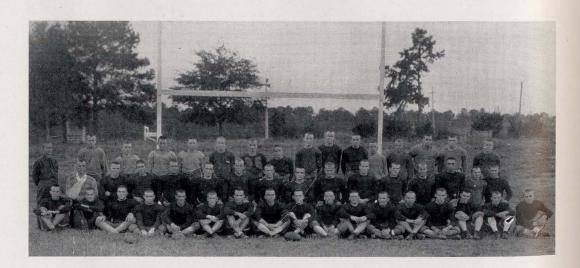

The Rats again hit the road for sunny Florida, where the University of Florida 'Gators

were able to master them after a heart-breaking struggle.

The last game of the season was with the old enemy, the Georgia Bulldogs, in Athens. The game was fascinating, hard, and beautifully played, but the Cubs were again the losers, 7 to o. Quite a few of these candidates are expected to be elevated to the varsity ere the season gets under way next fall.

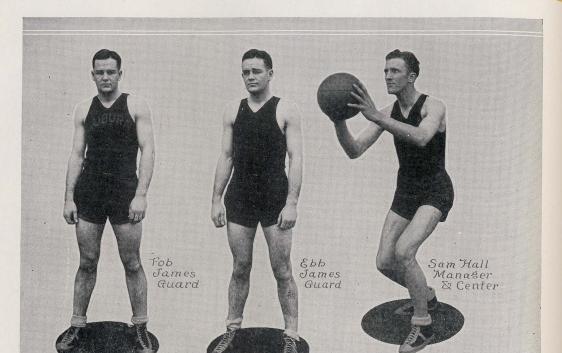

The freshman roster includes Clark, Crawford, Long brothers, Ward, Haggard brothers, Cosper, Callahan, Shannon, Robinson, Rouse, Spence, Stoutenborough, Albright, Coleman, and

Lively.

BASKET-BALL

The Basketball Season

In his second year at Auburn, Coach Mike Papke turned out the greatest quintet that ever donned the orange and blue colors. With the lure of the pigskin passed on and the Thanksgiving festivity over, Coach Mike sounded the call for the initial practice of the varsity club.

The regular varsity men answering this call were: Captain Buck Ellis, Fob James, Sam Hall, and Jelly Akin. Along with these came Ebb James, the other half of the James twins, who was out last year with a bum shoulder; Bud Slaughter, Sheik Kaley, last year reserves, and about fifteen aspirants from last year's frosh team.

From this promising group, the elimination process was begun until just before the Christmas holidays the squad was reduced to twelve men, which number was maintained throughout the season. Upon the resumption of the scholastic work after the Yuletide session, and with only four days' practice, the club entrained for Atlanta, where they met the Tech Yellow Jackets.

The Techsters remained in training during the holidays, having played

four days' practice, the club entrained for Atlanta, where they met the Tech Yellow Jackets.

The Techsters remained in training during the holidays, having played some twelve games, but the Tigers matched them goal for goal, but were beaten 22 to 20, after a five-minute over period.

The Tiger clan returned home and on the two following days met the powerful Miss. A. & M. aggregation, last year's runners-up in the S. C. tournament. The first game was a hard, fast, and thrilling game, with A. & M. holding a 34 to 31 verdict. In the next game the Papkemen hit their real stride and took the Aggies in tow by a safe margin. Hence they broke into the win column where they remained, scoring impressive victories for eleven consecutive games.

The notable feat about this accomplishment was the fact that the Orange and Blue dribblers won six of these contests in seven successive days. Added to this, they traveled down to New Orleans, meeting Tulane in a series of two games, then returning to the Plains in a similar series, playing Clemson the two following nights and then hopping off for Gainesville, Florida, to engage the University of Florida Alligators.

After a week's rest, activities were resumed with their ancient rival the Sewanee Tigers, whose scalp was likewise taken. Then came the Yellow Jackets from Tech, who faced an invincible bunch of Tigers who were out for revenge.

Despite the timely playing of Hearn, giant Tech center, the Jackets were turned back by an impressive score. The Papkemen next hit the road for a week, traveling through Tennessee, meeting University of Tennessee, University of Chattanooga, Vanderbilt University, and Sewanee.

The Basketball Season

This invasion, from a standpoint of games won, was disastrous to the Auburnites, since three of these contests were dropped.

It is interesting to note, however, that the longest margin of victory registered against the Tiger quintet was only five points. In the third game of this series the Tigers, after having twice tasted defeat in two nights, traveled to Nashville, where Vanderbilt, later winner of the S. C. tournament, turned the tables, 35 to 31.

After a four days' rest the Tigers again hit the road for the S. C. tournament in Atlanta. The team was in the worst physical shape of the season. Ebb James' leg, injured in the Clemson football game in September, and which greatly hampered his play all season, was perpetually getting worse all the time, and seemed to reach the climax during the Tennessee trip. This injury, coupled with Captain Buck Ellis' sprained hand, put the club on an erratic fighting edge. In the first tournament game the fighting V. P. I. Gobblers were downed, after a thrilling game.

In the second game the Tarheels of N. C. turned the Tigers back after the Papkemen had fought them on even terms for the first half of the game.

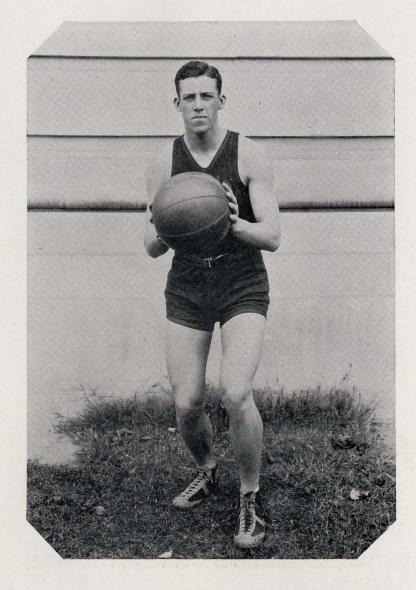

Though we failed to win the tournament, the team, with the exception

Though we failed to win the tournament, the team, with the exception of Hall and Slaughter, reserves, remains intact, so next year Coach Mike Papke and his dribbling cohorts will bear watching in the S. C. race for supremacy

CAPTAIN G. J. "BUCK" ELLIS

"Buck," in his second year on the basketball squad, captained the greatest club which has represented Auburn in many moons.

"Buck," before entering Auburn, was a member of the Purple Tornado of Simpson, which made such an enviable record while under the tutelage of George Reynolds. Entering Auburn in '24, he was a main cog in the freshman machine, playing the position of guard. The next year he was a competent running mate for Captain Bill McKinney at a forward position, distinguishing himself in all of the Tiger games as a fine defensive as well as an elusive floor man.

He is a three-letter man, participating in football and baseball as well as basketball. Last year he was given the Porter Trophy Cup in recognition for the best all-round athlete in school. He has shown a wonderful spirit of leadership, his policies are sanctioned by his teammates, and the spirit and harmony of the club has been especially good throughout the season.

Great things are expected of him next year when Coach Mike Papke gathers his cage men in hand for the race toward the S. C. title,

BASEBALL

Me GLOMERATA

Baseball Prospects

Despite the fact that the powerful diamond aggregation developed by Coach "King Dave" Morey last year will be somewhat disorganized by the men who have passed on into the realms of life, followers of the Tiger are well satisfied with the manner in which the present team is whiffing into condition.

Last year the orange and blue artists had one of the greatest clubs in the South, and this bunch, minus the service of Captain Geechie Stewart, Dogface Sheridan, and Dude Hardwick, again assembled on our new baseball field when Coach Morey issued orders for the first practice.

The letter men who have answered the initial summons to hold their places against the other ambitious aspirants include: Allen, who was not in school last year, Sankey, Hitchcock, and Fob James, infielders; Akin, Ellis, and Captain Joe Wallis, outfield; Ebb James, catcher; Moulton, Hughes, Wood, and Potter, pitchers. Added to the number we have Grant, pitcher, who has been out with a bad arm for two seasons; Gantt, Maury, Newsome, Gilchrist, and Hendricks, members of last year's Eskimo team.

From last year's frosh roster we have: Wright, catcher; McGee, pitcher; White, outfield, and Smith, infielder, which appear to be the most promising of the flock.

The schedule this year, comprising some twenty-seven games, twenty-one of which are conference, is a very representative one, and includes the strongest teams of this section.

Baseball Prospects

The management of the club lies solely in the capable hands of Cap Carter. He has co-operated to the fullest extent with Coaches Morey and Moulton and has contributed his share of maual labor toward shaping the new diamond. The supporters of the Orange and Blue feel confident that the club will be well provided for during the coming campaign, both in equipment and genuine amusement.

Head Coach Morey is being assisted by Coaches Slick Moulton and Mike Papke. Daily batting session, sliding practice, base running, and general conditioning are now under way, and the student body is looking forward to the 29th of March, when the Moreymen clash with the Birmingham barons. Ere this eventful day rolls around the biggest one of the problems concerning the club is to get a good array of pitchers into condition. The absent mighty arm of Dogface Sheridan, the main cog in last year's pitching staff, will be sorely missed during the coming engagements.

However, Coach Moulton, former Auburn and Hattiesburg hurler, is spending no little time daily imparting his knowledge to the would-be hurlers, and we are positive that if this portion of the gear comes through that the Moreymen artists are headed toward an even greater season than that of last year.

CAPTAIN J. L. "JOE" WALLIS

"Joe," hailing from Talladega, entered the Freshman Class of '27. He was one of Coach Newell's mainstays in his frosh diamond aggregation, playing the position of first base. He had a good season, playing in every game of the schedule, and finishing the season with a neat fielding record and a hefty swatting average.

In the following year he served in the capacity of first baseman for Coach Ned Coles' sophomore club, where he enjoyed a good season despite the poor showing of the team at large.

In the summer he played summer baseball with the Auburn team, playing with the city of Opelika, later going to Sylacauga, where he finished the summer with the nice batting average

Opelika, later going to Sylacauga, where he finished the summer with the nice batting average of .320.

The following year he was moved out to the outer garden by Coach Morey, where he delivered the goods, chasing 'em and swatting 'em, having a batting average of .300

Last summer he performed with the strong Tate, Ga., team, playing first base and hitting the pill for the neat average of .340.

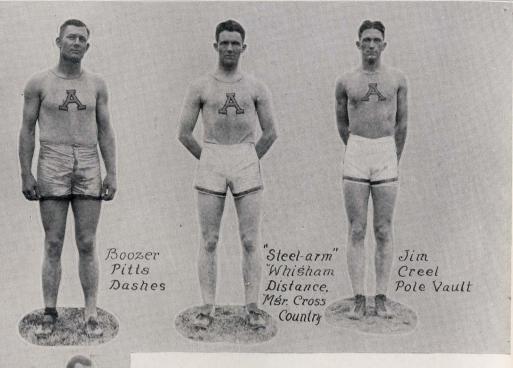

He has now returned to school to pilot a team which, under its second year under King Dave Morey's leadership, is planning heavily on copping the S. C. title.

He possesses wonderful qualities of leadership, his combat principles are maintained by his teammates, and the Tiger student body believes that in his last year he is not only going to have his best year, but also captain of the outstanding team of the Southern Conference as a titular contender.

TRACK

Sprints

Track Prospects

On March 1, despite the untimely offerings of the weather, a large horde of cinder path aspirants assembled in the Alumni Gym in response to Coach Wilbur Hutsell's summons. According to the report of the first official meeting, a great wealth of material is available, which, if properly trained under the supervision of Coach Hutsell, will whip into a team equal to that of last season.

trained under the supervision of Coach Hutsell, will whip into a team equal to that of last season.

Captaining the track team is Wemmie Baskin, the premier hurdler of the South, who likewise participates in the broad jump, the shotput, and the discus throw. Other letter men who were present for the conditioning work were Snyder, Tamplin, Collum, Sitz, Morrow, and White.

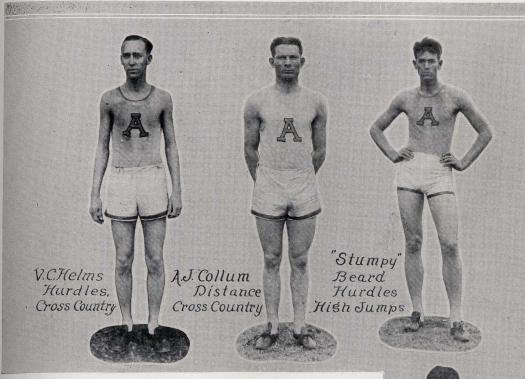

The most likely contenders for the sprints are Snyder, Broughton, Tamplin, and Pitts. In the half mile we have Collum and Duncan, in the mile, Collum and Helms, and in the two mile, Morrow, Whigham, and Walters. Baskin, present holder of the Southern record in the 120 high hurdles, along with Beard and Hines, compose the members trying for this position. In the low hurdles Captain Baskin is to be assisted by Bear and Kirkwood. Beard, Hines, Anderson, and Captain Baskin appear as the best prospects for the high jump and Snyder, Tuxworth, and Beard for the broad jump. The pole-vaulting position is being pursued by Meadows and Creel. In the weights we are well fortified, having such men as Captain Baskin, Carter, White, Turner, Pearce, and Pruett.

The 1927 schedule is not as yet complete, but Coach Hutsell's harriers will probably meet the University of Georgia, Georgia Tech, and Tulane University in dual meets, and later attend the S. C. meet, Tech relays, and the annual A. A. U. meet.

Last year in the first track meet of the season the Auburn cinder artists romped home to victory over the Georgia Tech track men, 69 to 43. The Tigers emerged first in seven of the fourteen events and tied the Jackets in another. Weemle Baskin, the Carrollton lad, was the high point man, collecting a total of 21 points in five events. "Snitz" Snyder had little difficulty in capturing the 220, and "Pea" Greene established a new Auburn record in the broad jump, hurling himself over 21 feet and 9 inches of terra firma.

In the second dual meet, which featured the annual May Day program, the Auburn cinder path artists won over the Georgia Bulldog track men by a scor

Track Prospects

In the Tech relays the Plainsmen took four first places in sixteen events. Greene won the broad jump and along with it the Trimm loving cup. Snyder won the 220, and Baskin, after showing his heels to Guthrie of Ohio State, had the misfortune to trip over the last hurdle. This contact was sufficient to throw the Carrollton lad off his stride, allowing Guthrie to win by a six-inch margin.

The relay team took second place, being nosed out by the fast University of Indiana quartet. However, the Auburnites clipped the distance off in 1-31-8, which gave the Southern institutions a new record to shoot at. At the Drake relays held in Des Moines, Iowa, and in which were entered the greatest cinder artists of the country, the name of Auburn was raised to the top list by the superb work of Baskin, Greene, and Nelson. Baskin splashed his way down a muddy lane to capture third place in the 120-yard high hurdles over a field of brilliant performers.

Snyder sneed demon of the Plains finished fourth in the century an

Baskin splashed his way down a muddy lane to capture third place in the 120-yard high hurdles over a field of brilliant performers.

Snyder, speed demon of the Plains, finished fourth in the century, an event in which the world's record was shattered. The relay team took third place, nosing out Nebraska, which team had on the previous Saturday broken the world's record, and also finished ahead of the Indiana team, which had defeated them in the Tech relays. It is interesting to note that Auburn, with only four men, brought away six medals, while many of the teams having a team composed of fifteen and twenty men did not receive a single one. The men composing the relay team were Baskin, Nelson, Snyder, and Greene.

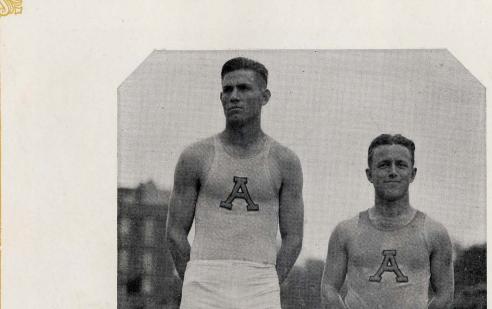

In the S. C. meet at Chapel Hill, the Plainsmen took fifth place with Baskin setting a new Southern record in the 120 high hurdle, clipping it off in 15 flat. Snyder got first in the 220, nosing out Cummings of Virginia, who had previously nosed him out in the 100.

In the Southeastern A. A. U. meet in the Magic City, Auburn was the winner, with a total of 47 points. Snyder led the record breaking for the day, setting new marks in the 100 and the 220 dashes. He clipped the 100 dash off in 9.9, and the 220 in 21.7 seconds.

Baskin, besides setting a new mark in the 120 high hurdle, was the individual star of the day, placing in five events and gathering a total of 17 points as high point man for the evening. His time in the 120 high hurdles was 14.6 seconds. Thus the curtain fell on the '26 program.

Though it is as yet a bit early, supporters of the Hutsell artists are expecting as good a season as last year and to maintain our record of having not lost a dual meet in six years.

CAPTAIN W. O. "WEEMIE" BASKIN

Weemie, the Carrolton lad, is the greatest cinder path artist Auburn has ever turned out, and one of the most outstanding which the South will turn out for some time to come.

Weemie, who does his tracking under the careful guidance of Coach Hutsell, excels in the hurdles, and holds the Southern and Southeastern record in the 120 high hurdles.

Not being content with his work in the hurdles, he also takes part in the shotput, the high jump, the javelin throw and the discus throw.

He is a track team within himself, last year in the Georgia dual meet placing in all the six events entered, thereby collecting twenty-six points. He was also high point man in the Southeastern A. A. U. last year held in Birmingham.

In his last lap we are predicting a still more successful year, and his many admirers are confident that he will be on the 1928 Olympic.

Big hearted, a sturdy trainer, a graceful athlete and a true gentleman, such is Weemie Baskin, the premier hurdler of the South.

CAPTAIN W. L. "SHORTY" MORROW

"Shorty," the most outstanding of the three Morrow brothers, again captain of the cross-country

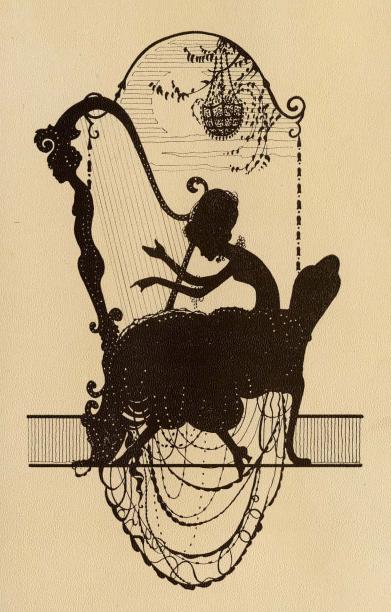

team.

Though small in stature, this diminutive distance man is one of the most faithful of Coach
Hutsell's artists.

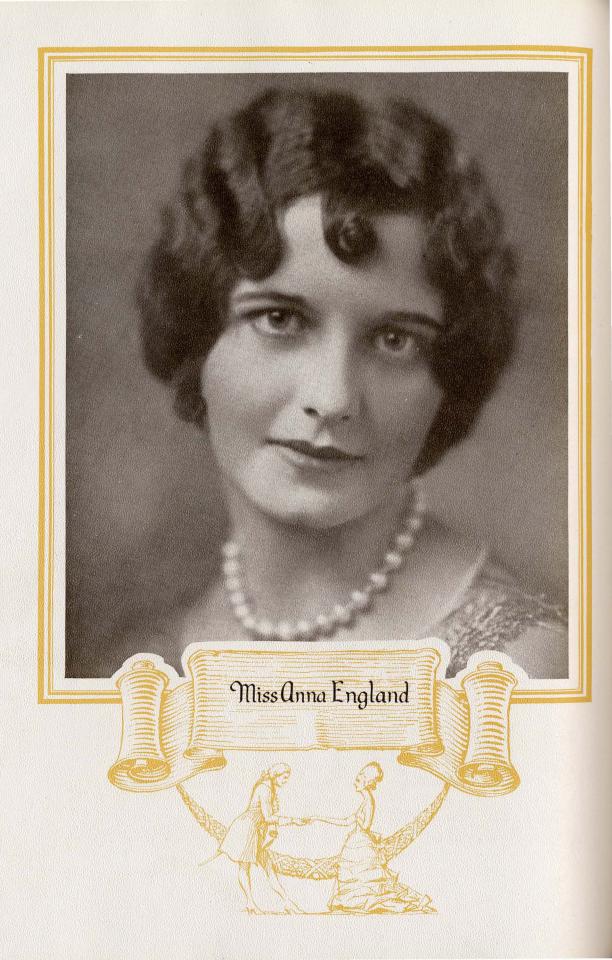

Besides his activities on the cross-country team, he is also on the track team, taking part in the le and two-mile events. He is holder of the Auburn record in the two-mile. Great things are expected of Shorty and his short but sturdy legs when the season gets under way. mile and

There are strange things done
By the South's red sun,
But the strangest you ever saw,
Are the tricks and pranks
Of the college cranks,
Recorded in the camera's maw.

TIGER TRACKS

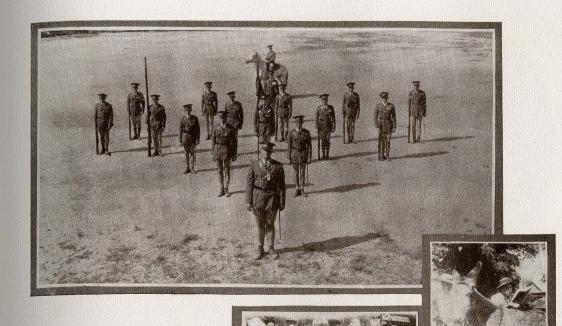

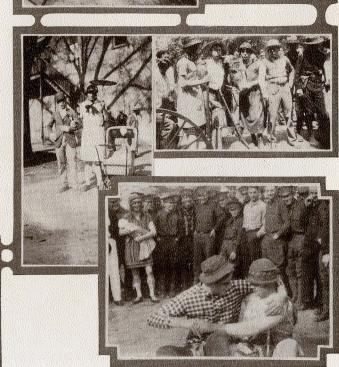

Initiations

The Scabbard and Blade initiates take the form of a freak army. Marching through town with too much uniform above and not enough below, they present quite a spectacle.

Auburn would not be the same Auburn if it were not for these free entertainments taking place just when "spring fever" is at its worst (or best).

Summer Camp

Days spent in the artillery camp are not the best that have been experienced in our four years at Auburn. A long hike and a week of firing on the range, preceded by many long days of preparation, consumed most of our training period. Of course, all was not work. Fayetteville has many inhabitants of the fairer sex, and we Auburn trainees were received as we had hoped we would be.

Summer Camp

The R. O. T. C. Engineers of Auburn, with those of the University of Alabama and the University of Tennessee, were happy when six weeks of camp life had become a part of the past. Looking back, it was one of the best experiences of college days. Training consisted of the rifle range, pistol range, trenching, biking bridging and may we also

of the best experiences of college days. Training consisted of the rifle range, pistol range, trenching, hiking, bridging, and, may we also add, K. P. The 250-ft, heavy pontoon bridge was put up in 22 minutes and 17 seconds, beating the record established at the previous camp by 4 minutes and setting a new record for the Post.

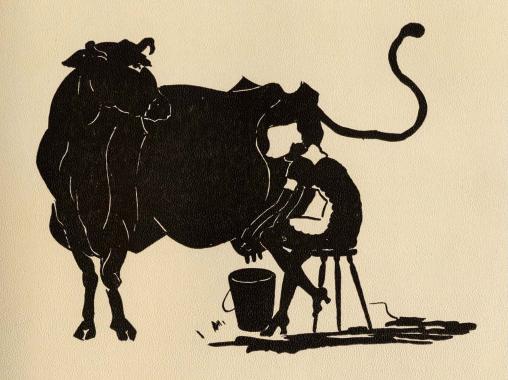

Go forth in the dawn,

Leave cares and woes behind;

See the pictures God has drawn,

Auburn's beauties you will find.

Loveliest Village of the Plains,
Nature's chosen, is endowed
With Nature's lovely strains
From Grass Carpet to Covering Cloud.

EXTENSION

Extension Service

Alabama Polytechnic Institute Auburn

The Alabama Extension Service is one of the three divisions of the Alabama Polytechnic Institute. Extension Service workers are members of the faculty and staff of the Alabama Polytechnic Institute. Their work is supported by federal, state and county appropriations. Through this service Auburn is reaching out and serving the people of Alabama.

There are two big divisions of the work. One is that with the farmers and farm boys, and the other is that with the farm women and girls. The purposes is to improve practices on the farms and in the farm homes.

Recently radio has become a big feature of the service. Station WAPI was bought and installed, and is being operated by the extension service. Through the air it mirrors Auburn as a service institution for all the people of Alabama.

Although the primary object is to develop a more prosperous agricultural and a better rural life, the public profits by this work because agriculture is the big basic business, and whatever helps it automatically helps every other business.

Extension workers, men and women, in Alabama are experts. Most of them were trained at Auburn. The county agents, men and women, are trained leaders and able representatives of the Alabama Polytechnic Institute, where most of them were educated.

Sea-Weary

In the moonlit bow of the "Unicorn,"
A-crashing south to the frozen Horn
Where the passage westward lies;
And shining bright as the dew in moss,
White gold refined, without the dross,
There looms the splendid Southern Cross
Ahead in the starry skies.

The throb of the ship as the engines beat,
The wash as the bow and biliows meet
And the waters cleave apart;
The rattle and booms in the monsoon gale,
The glimpse of a distant silver sail
As the white-topped waves erase our trail,
Are music to my heart.

But I've sailed the seas in calm and squall,
And the roving life begins to pall—
I'm tired of steam and sail.
So it's me for the towns and cities of men,
And I'll stay a while and work, and then
Pull out when I feel the urge again,
On the ever-changing trail!

The 1927 Glomerata

LEDBETTER

Published by the Senior Class VOLUME XXX.

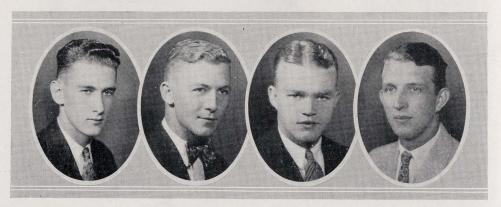

In presenting this, the thirtieth volume of the Glomerata, to the student body, we take this opportunity to state that we have endeavored to represent all departments of the college and all divisions of student activities in as thorough a manner as possible. Particular note has been given the Administration Section, feeling that this is one of the most important sections of the book. We hope that we have prepared this book in a manner that is worthy of the trust that the Senior Class has bestowed upon us, and may we express our appreciation to the Senior Class for the privilege that it has given us in editing and managing the publication.

Our appreciation is also due the student body and the faculty for its co-operation

and for the unhesitancy in which they granted our many requests.

MARSH

We are also grateful to the many students, although not acting in an official capacity on the staff, who have worked with us for many an hour and have caused this book to be presented to you at this time.

The Plainsman

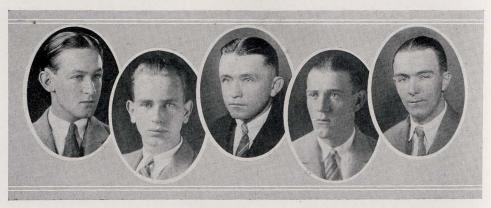

The success of this year's Plainsman is due largely to the efficiency of the staff which the editor was fortunate in collecting and holding throughout the session. The paper has rapidly evoluted from its former bulletin-like appearance to the present finished product of journalistic efforts, and in size is comparable to any weekly published by a Southern college.

efforts, and in size is comparable to any weekly published by a Southern college.

Thirty-two issues will have been published at the close of the scholastic year, a new high record in college newspaper endeavor. Of the issues published, a unique rotogravure edition containing various campus scenes, together with cuts of the main buildings and a description of each department of the college, was published and placed in every high school in the state.

With the appearance of the first cartoon on its front page, the Plainsman immediately sprang into prominence as the first college news sheet to print work of this nature. Another accomplishment of note was the publishing of a football extra after the Clemson game, which was ready for delivery three minutes after the final whistle had blown out on Drake Field.

A peculiar distinction is due the Plainsman in that the New York Times reprinted an editorial prepared by the editor, the second occasion of that daily using a college editorial in the history of the paper.

The Alabama Farmer

The Alabama Farmer is a monthly magazine published by the Agricultural Club of the Alabama Polytechnic Institute. It is under the supervision of a Board of Control, two Seniors and two Juniors, who are elected by the club. Every person connected in any official capacity with this publication is a student of agriculture, and these students have complete charge of this publication, which includes editing, advertising and circulation.

The circulation of this magazine includes students of the Alabama Polytechnic Institute, progressive farmers, county high schools of the state, Smith-Hughes agricultural teachers, farm and home demonstration agents of the state, faculty and members of the state extension force of the Alabama Polytechnic Institute, and alumni throughout the South and nation.

The Auburn Engineer

The Auburn Engineer has just finished its second year of existence. The year was marked by an increase in interest shown by the students in the publication, as well as a broadening of its scope. The size was slightly increased and the usefulness of the publication magnified by the addition of new department, prominent among which was the addition of a strong alumni page.

The Engineer staff has profited greatly by the suggestions that come from the exchanges that come into our hands. Not only in style but also in scope of the publication. The junior assistants were given a chance to put out the magazine, the editorial department being turned over to them almost entirely for the month.

The year was also featured by the increased number of outside advertisers who saw the benefits to be obtained from advertising in the first engineering publication in the South. We wish for as successful a year next year as we had this year, and to appeal especially to the alumni for their support.

Retrospection

Sunrise and morning star,

And one who pinches me;

And may there be no hundred cops

When my eyes once more can see.

My dear brothers are sound asleep,

Too full to yell or moan;

Something draws from out the boundless deep,

And my mouth is full of foam.

Four Roses and Kentucky Belle,
And after that the dark!
My head is swelled, my tongue is dry,
From last night's little lark.

From out our jug of rye and corn
My fraters and I drank deep;
There's one more snort within the jar,
Sleep, dear brothers, sleep.

Me GLOMERATA M

There's a frat for this and a frat for that,
But I'm speaking now of the honor frat.
You get in them by various ways,
Such as making good grades or being in plays.
There's one for the leaders in social affairs,
And after elections others pick theirs.
So if you are anxious to make some of these
Just go ahead and do as you please
And soon your watch chain will sag with keys—
(If you're lucky.)

HONORARY

Spades

The purpose of this society is set forth in the following preamble of the constitution:

"Whereas: Feeling the need of some organization in the Senior Class of this institution, which, wholly independent of the social and other relations, shall seek to gather together the most prominent and influential men of the class and to the institution, this society is organized."

Ten men are selected from the Junior Class in May of each year by the retiring members, and these ten men compose the active membership during the following year. To wear the Spade is a goal which all underclassmen may seek as the highest honor an Auburn man may obtain.

Scarabs

Ten men are chosen annually from the Senior Class to represent Scarabs, and, like similar honor organizations, scholarship is taken into account, but this is not considered to the extent as are capability, leadership, general prominence and popularity. Only through this channel is it believed possible to combine the efforts of the ten most representative members of the Senior Class.

Rho Chi

Rho Chi is a national organization founded at the University of Michigan for the purpose of promoting the advancement of pharmaceutical sciences, and a higher degree of excellence in the practice of pharmaceutical pursuits. Members are chosen from the Junior and Senior classes who have proficiency in the science of pharmacy and allied sciences. Such selections are made upon the recommendation of the head of the pharmacy faculty.

Kappa Delta Sigma

Kappa Delta Sigma is an honorary fraternity composed of those deeply interested in the art of radio communication. Students of electrical engineering are eligible after their first year, provided they have shown a marked ability in this field. It was founded to more closely bind together these students and to advance the art as a whole.

The Blue Key

The object of the national Blue Key honor fraternity as set forth in the constitution is:

To study, discuss, and strive to further the best interest of the Alabama Polytechnic Institute; to promote the spirit of fraternalism among students of the Alabama Polytechnic Institute; to foster intercollegiate relationship and develop a national collegiate spirit by placing the stamp of approval on all college leaders, which will make it possible to recognize them wherever they may be found.

To learn to speak is the society's aim

To master self and to play the game,

To express noble thoughts and high ideals

Without germinant gestures and fancy's frills.

One excellent purpose runs through them all; Never a man does it fail to enthrall. To learn to refute and forestall balking When the sweet little thing begins his talking.

One has need, then, of a clear, steady mind, A voice not gruff, but gentle and kind, Reflecting thought and strength of will To debate at length before paying the bill.

So all fathers urge their sons to ponder, Four years in college they must not squander. On theories, philosophy, and personal caprice, But in the art of arguing to obtain practice.

HUMOR

If all the students in the 'Lec Engineering department were laid end to end, wouldn't they look funny?

Waugh: "I proposed to Eugenia by mail." Sam: "Did she accept?" Waugh: "Yeah, but she was so dumb that

she married the postman."

"Got a letter from Bill at Howard today, and he says he doesn't drink there any more.' "Quit drinking, eh?"

"Yeah, at Howard. He was sent home."

Nelms (in 'Lec lab.): "Catch hold of them wires."

Vaughn: "I've got 'em, what now?"

Nelms: "Feel anything?"

Vaughn: "No."

Nelms: "Well, don't touch the other one, it carries twenty-two hundred volts,"

Walker: "My father's in the coal business." Red: "Oh, What branch?" Walker: "He collects the ashes."

"What time do you think I got home last night?"

"Three-thirty."

"Your wife tells you everything."

There sure was some hot necking when Uncle Amos got too near the gas with his celluloid collar on.

"Why does Driver chase the co-ed that owns the big car?"

"Dunno. Six appeal, I suppose."

Him: "Let's park here—the road is so rough."

Her: "It doesn't macadam."

With Apology to Service and the Co-eds

There are strange things done after the set of sun By the men who moil for neck;
The Auburn trails have their secret tales
That would leave you a human wreck;
The Southern nights have seen queer sights,
But the queerest they ever did view
Was the night I climbed a ladder
At the corner of the zoo.

I do not know how long below I wrestled with grisly fear,
But the stars came out and they danced about
Ere I climbed that ladder there;
I was sick in the head, but I stoutly said,
"I'll take a look inside.
I guess I'm cooked, but it's time I looked . . .;"
Then I opened the window wide.

And there sat Inez looking nice and sweet,
And just a-sittin' there;
She looked nice and I looked twice, and
"Please pull the shade," she said here.
"It's fine in here, but I greatly fear you'll
Come to some great harm."
I pulled the shade and I turned my head, then
Inez was in my arms.

There are strange things done after the set of sun,
By the men who moil for neck;
The Auburn trails have their secret tales
That would leave you a human wreck;
The Southern nights have seen queer sights,
But the queerest they ever did view
Was the night I climbed a ladder
At the corner of the zoo.

Barney Makes His Bow to Opelika

Mr. DeBeck, let it be known that the "Whiffenpoof" thoroughly appreciates this.

CHATTANOOGA

ABOUT 4:00 P.M.

THE MAYOR PLANS BIG RECEPTION IN HONOR OF THE FIRST AND ONLY HORSE TO SWIM THE ENGLISH CHANNEL

HUNDREDS OF PROMINENT CITIZENS WAIT AT THE DEPOT ALL NIGHT IN ORDER TO GET A GLIMPSE OF THE CELEBRATED HORSE

THE CRACK SPARK PLUG TRAIN ARRIVES

AT

OPELIKA. ALABAMA

ON

Lieut. Higgins (on the range): "Fire at will."

Don McK.: "Will who?"

"Say, Revel, I saw some of your people over in Opelika the other day."

"How do you know that they were my people?"

"One of them tried to bum a cigarette from me."

It seems that the Senior Architects are very fond of kidney medicine. We can now call him Dr. King Edward.

Twinkle, twinkle, little star,
How I wonder where you are.
1 if by land, 2 if by water,
Don't shoot, mister,
I'll marry your daughter.
—Exchange.

Auburn Types

Here's to little chubby "Ounce,"
Just like rubber he would bounce;
He weighs almost a ton,
But my, how he could run
When the cops on him would trounce.

Here's to "Cannonball" Purser,
That mean old 44 nurser.
He's the sheriff's delight
And the bootleggers' fright.
Is "Spright" or "Cannonball" the worser?

And here's our old honest "Abe,"
Our champion football babe.
As a real vote getter,
You'll find no better.
Rave on, girlies, rave.

Here's to pretty "Bill" New,
With hair of a brownish hue.
His lips have a quiver,
Which make the girls shiver,
And they say, "I don't care if I do."

Here's to chic little Allie,
'Round whom all the boys rally.
With dresses so tasteful,
And limbs so graceful,
Ain't two gun a wicked ole sally?

Here's to masterful Royce,
The ladies just simply rejoice.
He's the prize delegate,
Without a debate,
And the Seniors' unanimous choice.

Code of Etiquette for Auburn Collegians

A Revised Edition of "How to Gain Popularity in Six Weeks,"
by that Well-Known Authority and WorldRenowned Author, G. Smith.

IN THE CLASSROOM

Always address the professor by his first name. Such familiarity invariably draws the prof's attention and gives you an everlasting boot. If possible, it is best to use one of his favorite nicknames, such as Stumpy, Bennie, Windy, Bulldog, Zebulon and Facts.

Always be neat in your attire. Students should never appear shirtless or bare-footed even on the warmest days. It is never permissible to come to class in the B. V. D.'s.

Egg and gravy stains should always be removed from the chin, as it is common to brag about your meals.

If the student desires to take a nap during class he should retire to the back of the room, at the same time trying to conceal himself behind the largest student. A sleeping student gives the Prof. the impression that he is carrying on a dry lecture. This should always be avoided. Snoring should never be resorted to, as it attracts the attention of the Prof. and is considered poor taste in the best circles.

ON THE CAMPUS

Always greet your fellow students. Such expressions as "Hello, gentlemen," or "Good morning" should be used. Never use the common expressions "Hi," or "Hello, fellows." Such expressions are degrading to the institution.

In addressing co-eds or ladies, arrange your face with its sweetest smile and swing the hat from the head in true colonial fashion. Such expressions as "Good morning, Miss Dobbs," or "Good afternoon, Miss Russell," may be well used, but "Delighted to see you" is much preferred. Such expressions warm the heart immediately and in most cases lead to a conversation.

AT THE PROM

The young man's head should be held very erect, and he should always strive to uphold the slogan, "I can hold mine."

In greeting a stag the expression "Brace up old man" should always be used, as this goes over big.

When breaking, do not ask the gentleman to unhand the lady as you would like to dance a dashing step with her. Merely tap him thrice upon the shoulder (kicking is obsolete). If he fails to respond, grab him roughly, thereby letting the young lady know that you generally get what you go after.

Always have a clever little remark for the lady, such as, "Well, I see where I'll have to put out for another shine," or even better, "Who is this Miss Fantastic everybody's tripping?" Such remarks always put the lady in high spirits and make you the talk of the dance.

Should the young lady be one whom you've evaded all night, dash up quickly and say, "Where have you been hiding all night?" This makes your girl think that you've been conducting a vain search for her, and at the same time advances you in her favor.

AT THE BANQUET

When dinner is served, rush in ahead of the rest of the guests, whispering to the host or hostess that you're so hungry you could eat a bear. This brings forth the most sedate smile and makes you the hit of the occasion.

In drinking soup, try to make a low gurgling noise. This assures your hostess that you are very fond of her soup.

While drinking coffee from the saucer be careful that none runs down upon the vest, as coffee stains are very unsightly and hard to remove.

Before eating meat always ask the servant if it is strictly fresh. This lets everyone know that you are accustomed only to the best of food.

If cutting meat and it accidentally slips off of the plate, reach for it quickly, making some quaint remark such as, "Is this rabbit?" This shows that you are not embarrassed in the least.

In reaching for something, never allow your sleeve to dangle in your neighbor's plate. This is very annoying.

IN THE FRAT HOUSE

Upon entering the Frat House, greet your brothers with a lusty "Hello, old ugly mugs."

If a visitor is present, never make personal remarks to his face. His father might be wealthy and you may wish to pledge him at a later date.

Always keep the roommate well supplied with cigarettes, stationery, soap, razor blades, towels, etc. He will always remember your kindness and will not think that you're stingy.

If you wish to study and you have any books, take them out to the coal shed. In this way you will not interfere with the bull parties or other activities of your brothers.

"How to Join a Fraternity"

BY J. A. MCDANIEL

One of the best of the season. book of notable content. Profane, illiterate and vulgar. An author of no mean ability. The following are topics of various chapters:

1. If they say, "Come back any time," do so; 3 a.m. is a good time for example. It makes you stand out as original. This will make the brothers remember you better when balloting.

2. Never admit your unsophistication by wiping your feet before you enter the house. Cuss fluently. Chew by all means and spit in the ash tray or in the corner of the room. When upstairs roll on the beds carelessly. Fraternity men love to see these things by a man of the world.

3. Always remember to be humorous. Slime the old men. If one of the brothers gets serious, laugh at him. He is trying to be funny. Just poke him in the ribs and say, "Boy, Howdy."

4. Tell them about the bids you have received. It makes them think you are valuable. If you are not sure as to which you should join, list your requirements and publish in the Plainsman. Patiently await results.

LIGGETT & MYERS TOBACCO CO. \$0.03 net

SUGGESTIONS FOR A CODE OF RULES TO MAKE OUR PRESENT HONOR SYSTEM WORK

- (1) Students will be marched to the examinations in single file and halted at the classroom door, where they will be searched for little bits of information written on the backspot of envelopes and concealed on the person.
- (2) Each student will be submitted to a psychological test by "Osmosis" to determine if he has any idea of cheating.
- (3) Classrooms will be decorated with mottoes such as "Honesty is the best policy," "Think before you cheat," and "'I got mine before we had an Honor System' P.P.P."
 - (4) Each student will be required to wear horse blinders.
- (5) Students will sit two seats apart, with professors standing in each interval. Professors will be armed with a black-jack and a bottle of arnica to be administered if one of the students is found cheating.
- (6) Additional professors on the outside will watch through peepholes in the walls.
- (7) Highly tuned dictaphones will be attached to each desk to catch the slightest whisper.
- (8) When the student has finished the exam, a lie detector will be brought out and he will be asked if he has cheated.
- (9) In grading the papers the professor will discount 10 per cent from the grade on the possibility that the student has cheated.

THE BLOW
THAT
MOST KILLED FATHER

WHEN IN COLUMBUS

Bring Your Appetite to

The
CRICKET

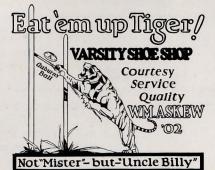

"A Good Place to Dine"

It's the soles of people I keep in view, For I'm a Doctor of Boot and Shoe. I serve the living and not the dead, With the best of leather, wax, nails and thread. I can sew on a sole or nail it fast And do a good job and make it last. There is nothing snide about what I do, Doubt not my statement, my work proves it

I can give you a lift, too, in this life,
Not only you, but your family and wife.
A great many patients at my door rap,
Worn out and run down and needing a tap.
Though I don't use quinine and castor ol,
I cure all sick shoes with thread, nails and
Viscol.

If taken in time, before there's a hole, Viscol prolongs the life of your soul.

EASTMAN KODAKS AND SUPPLIES and NUNNALLY'S FINE CANDIES

AUBURN, ALABAMA

GRADS AND UNDERGRADS

As equally well prepared to serve the man who would meet the new world of business endeavor with confidence in his appearance, as to dress you in the dynamic styles that have the preference at the big schools. Make our store your headquarters in Birmingham.

PHONE 57

"Say, Albright, you are so dirty I can tell how old you are by the rings in the bath tub."

"Tain't nothing, Campbell, you are so lazy you come home staggerin' so as your fraternity brothers will think you are drunk and put you to bed."

Our idea of a soft job is to count the number of freshmen awake in Convocation on Tuesday. Some Elec' would like to have this job.
