Students, faculty, and community members are fighting back to kick Koch’s underhanded influence off campus.

Charles Koch (oil magnate and promoter of climate change denial) gave over $1 million to UA’s Center for the Philosophy of Freedom and over $400,000 to UA’s Department of Political Economy and Moral Science (PEMS)!

Board Of Regents approved PEMS’ PPEL Masters program before the Faculty Senate could vote on it (against the rules).

UA students, faculty, and community members are fighting back to kick Koch’s underhanded influence off campus.

DID YOU KNOW?

Charles Koch apparently lied to the Faculty Senate, falsely claiming that Koch took back their donation, in order to get the Senate’s approval of the PPEL Masters Program.

The Freedom Center's inaugural newsletter shows intent to indoctrinate students!

UA allowed the Koch donor network to dictate the biased and one-sided content of the “Ethics & Economics of Wealth Creation” course!
