

Hi, my name is -----.

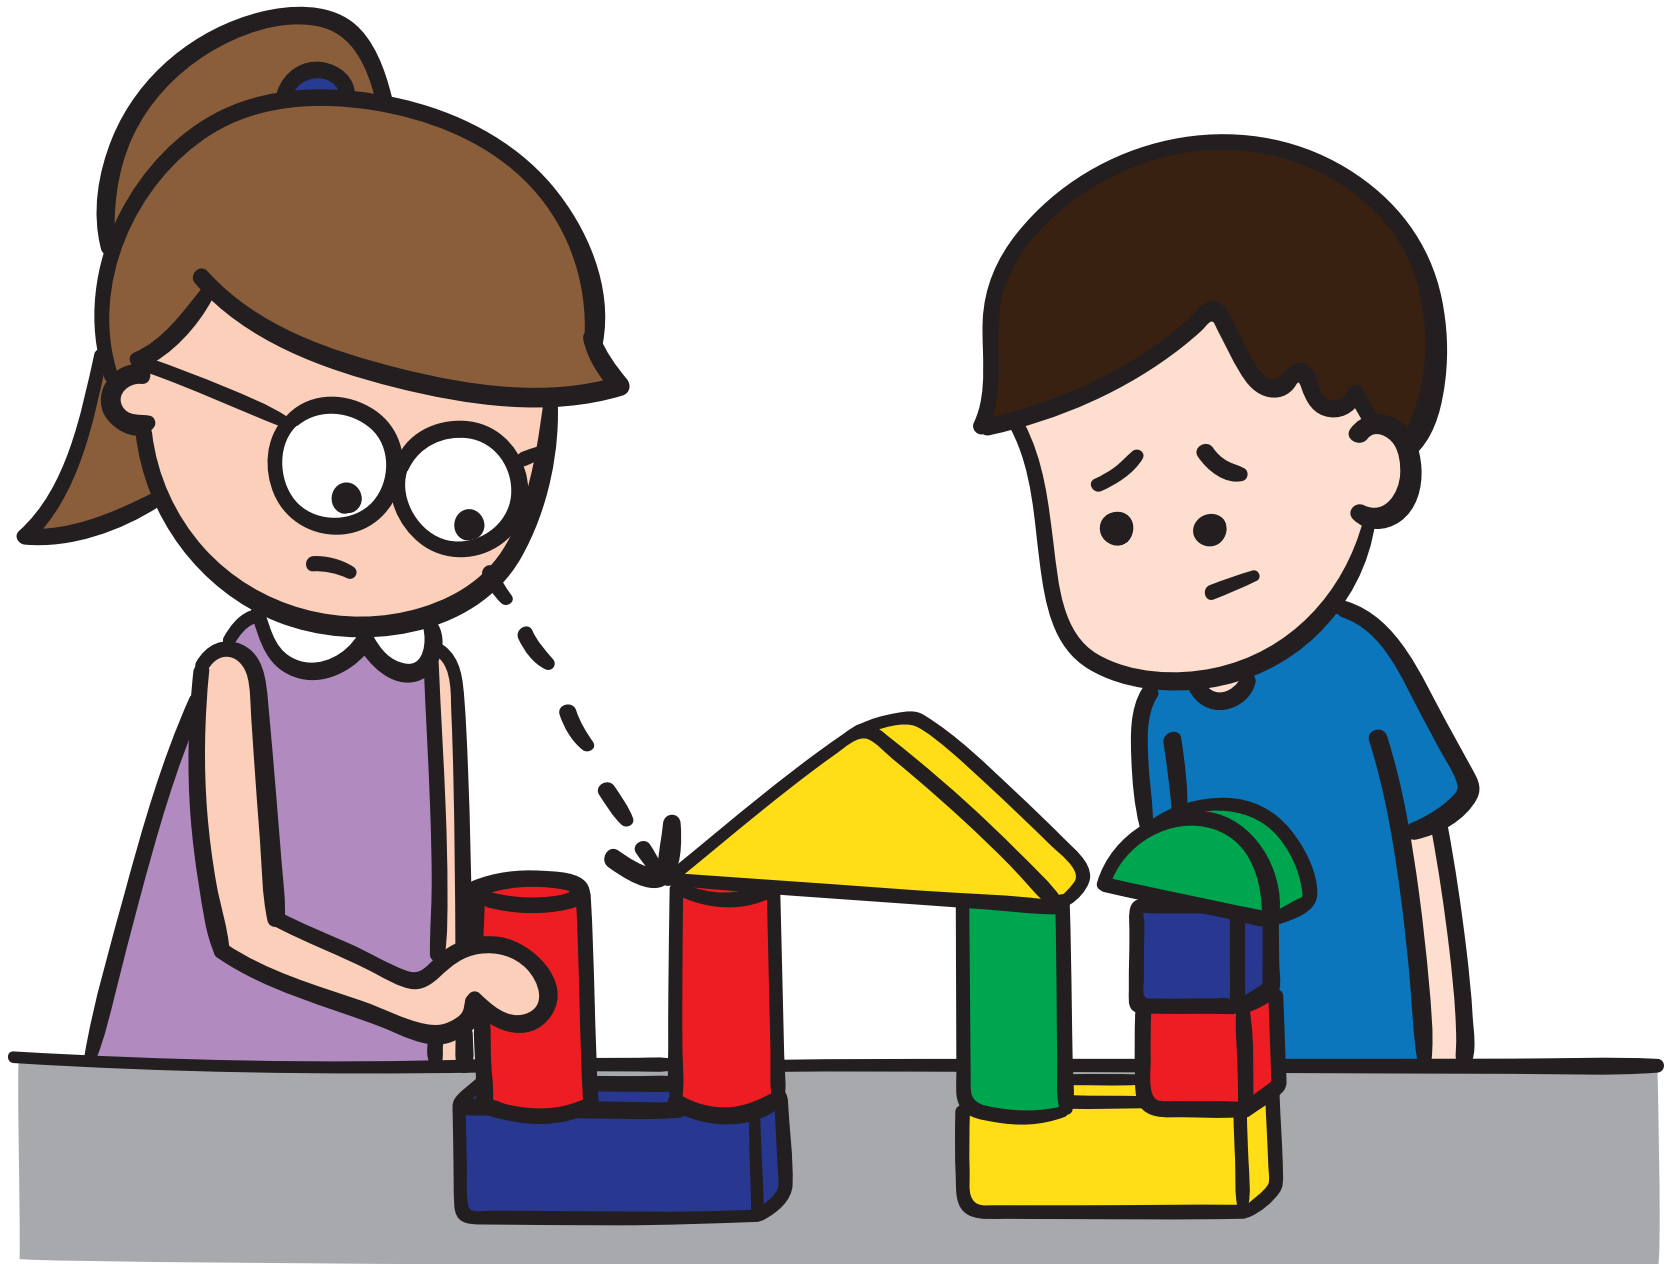

I like talking and playing with my friends! It's a lot of fun and makes me feel happy!

When I want to start talking or playing with my friends,
I need to make sure I'm looking at their eyes.

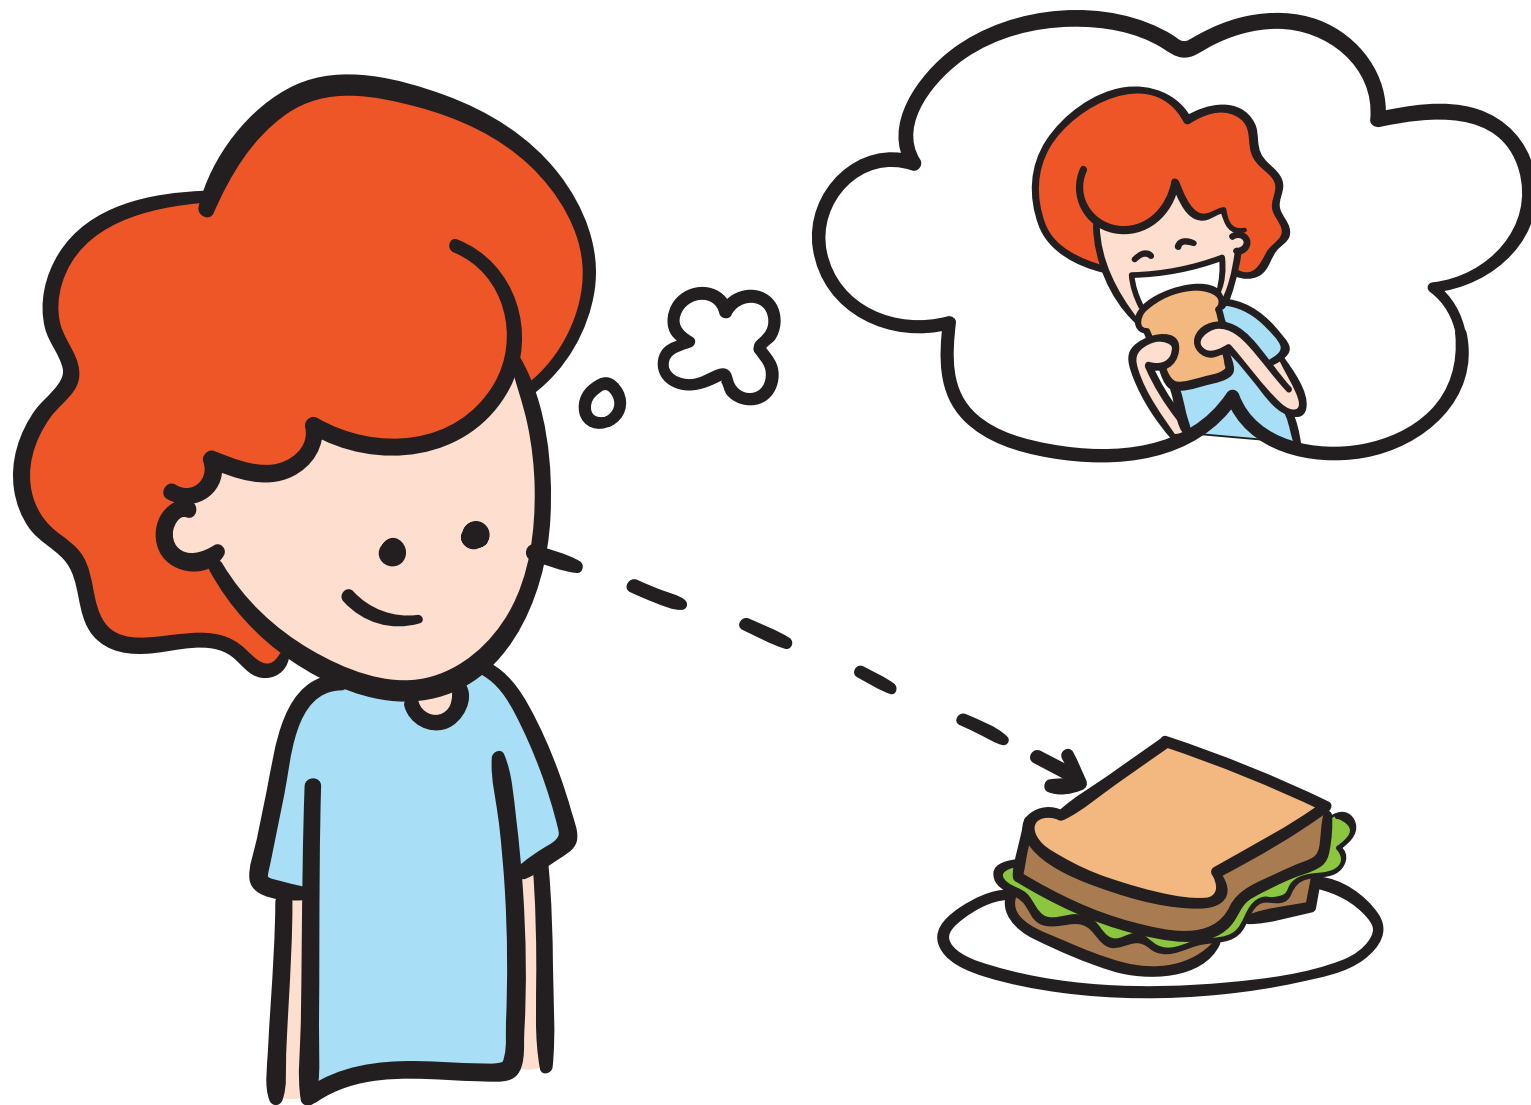

This is called eye contact.

When I don't use eye contact, my friends might not know
I want to keep talking or playing with them.

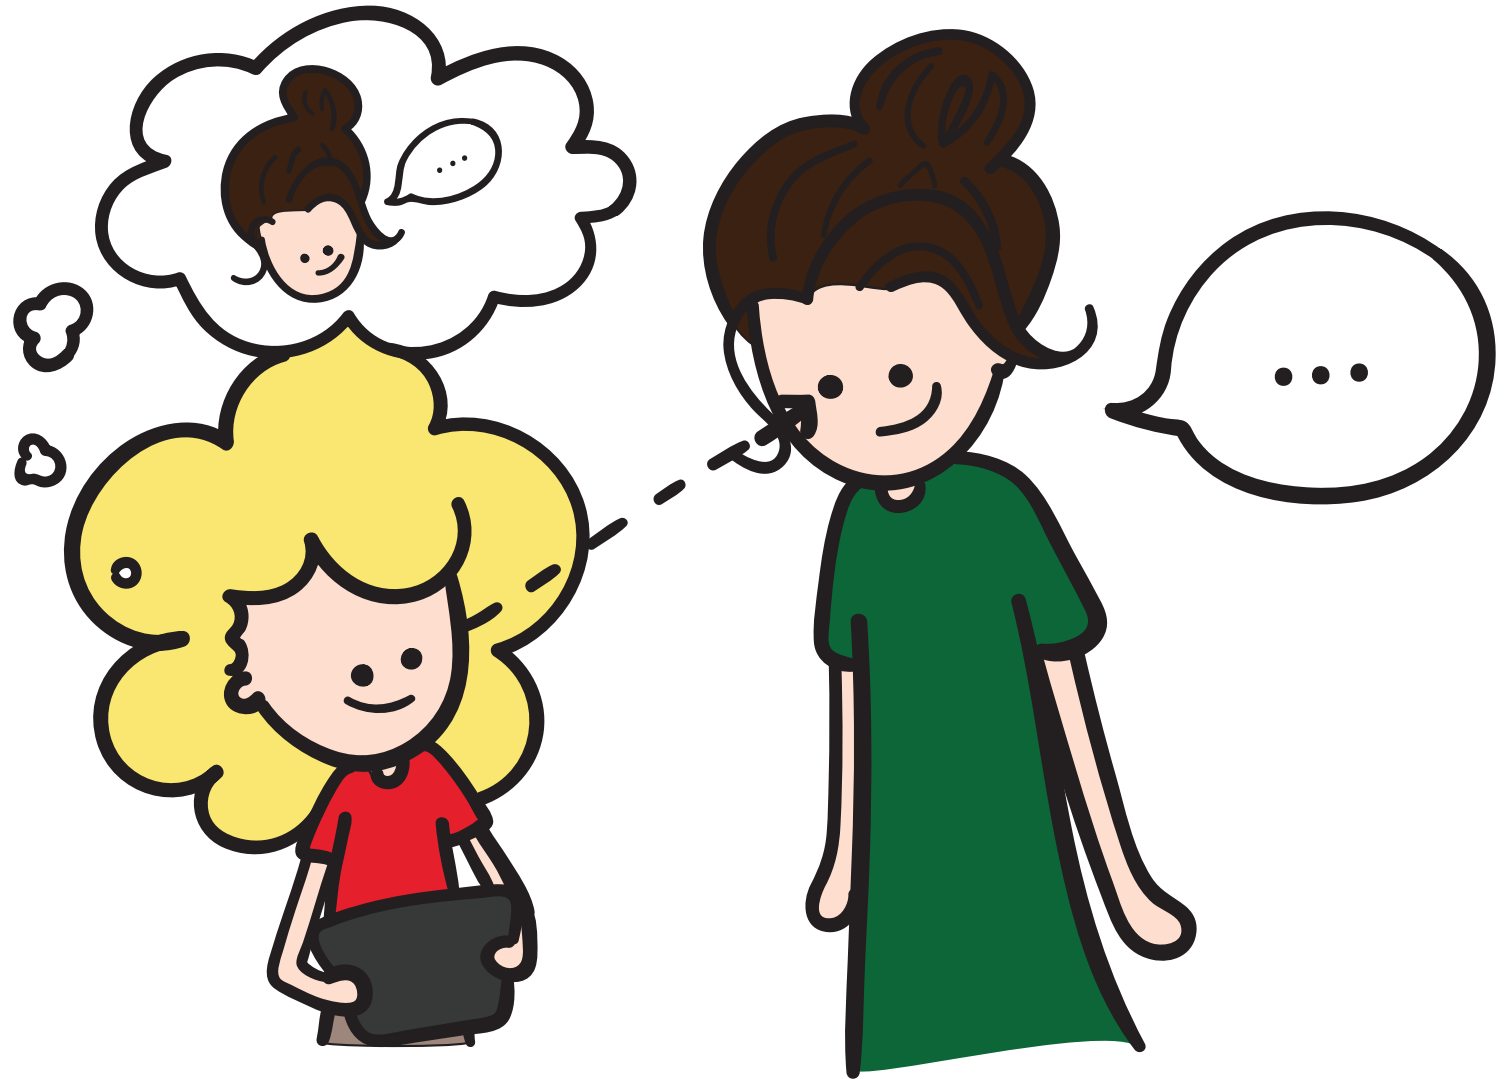

When people talk to me, I need to use eye contact too.

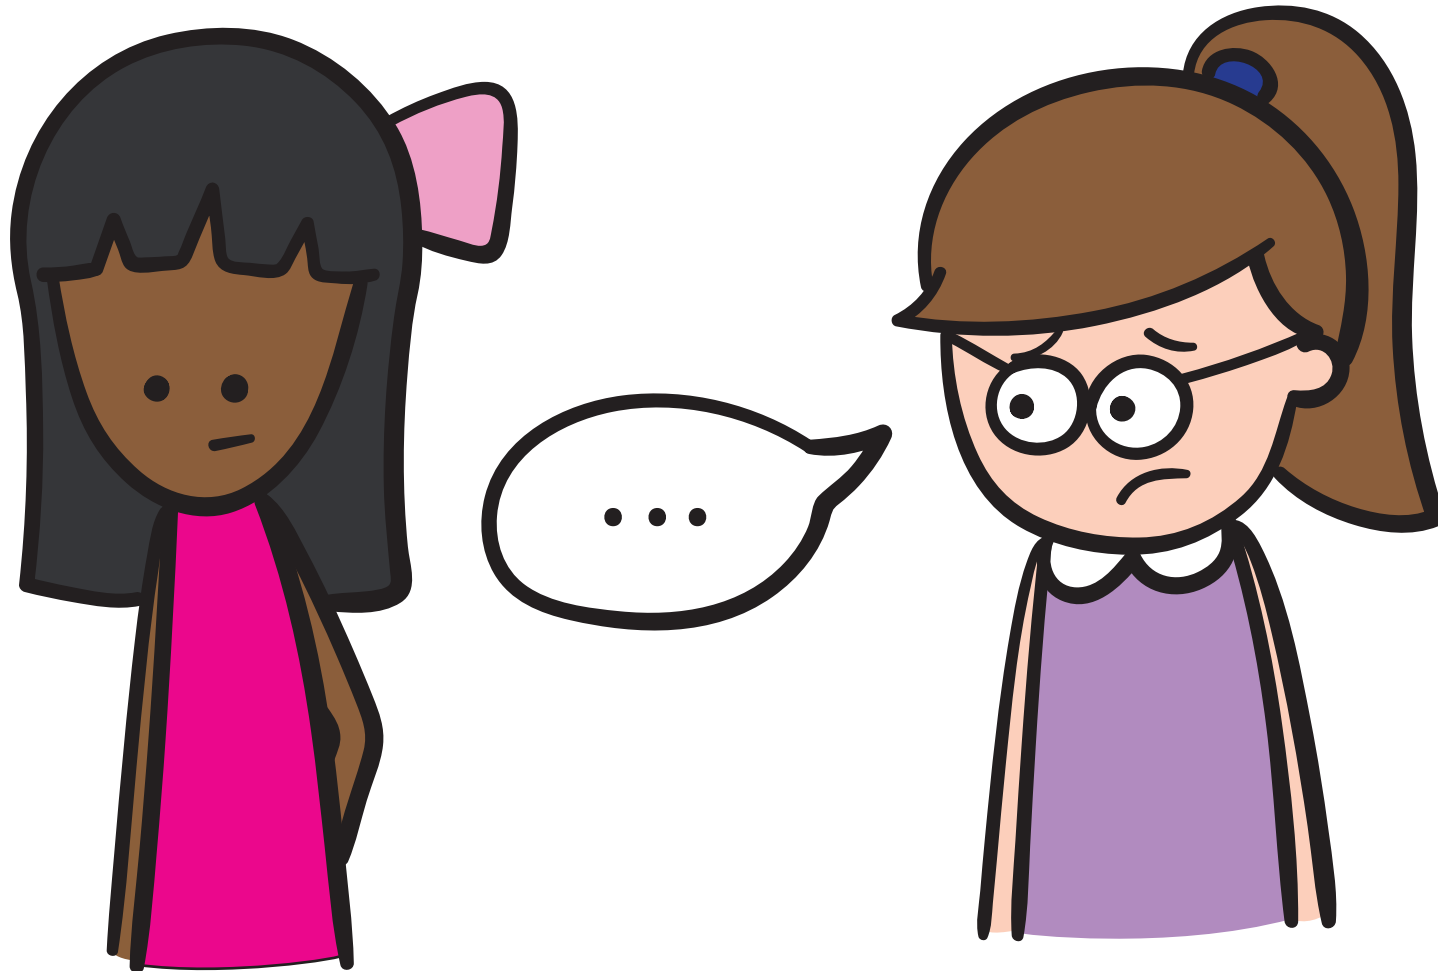

That's because looking at things with our eyes tells others what we're thinking about.

Good eye contact shows people that I'm paying attention to them and what they're saying.

When people talk to me, I should be thinking about what they're saying and giving good eye contact.

When I don't give people eye contact when they're talking to me, they might think I'm not listening.

That could hurt their feelings.

Now I know how to use eye contact!
