TERENZONI, P.L.S. Deed Reference: Book 67684, Page 88 Assessor's Map 11, Block C, Lot 24 4 ALLEN ROAD, PEABODY, MA. 01960

2.2.64. Ground Coverage Ratio. The percentage of lot area included within the outside lines of the exterior walls of all buildings located on the lot. except garages and carports in districts RA and RB, but including the area of porches, decks, breezeways, balconies and bay windows, patios, except patios not more than six (6) inches above grade.

2.2.63. Grade, Finished. For purposes of this Ordinance, unless specifically defined elsewhere in this Ordinance, finished grade shall be the elevation of the reference plane representing the average finished ground line adjoining a building at all the exterior walls. When the finished ground level slopes away from the exterior walls, the reference plane shall be established by the lowest point within the area between the building and the lot line or, when the lot line is more than fifteen (15) feet from the building, between the building and a point fifteen (15) feet from the building. Average finished grade of a parcel with more than one (1) building located thereon shall be the average of all the individual finished grades calculated for each building located on said parcel.

2.2.66. Height of Building. The vertical distance measured from the finished grade adjoining an exterior wall of a building to the highest point of roof beams of the top story in the case of a flat roof, to the deck line of a mansard roof, and to the average height between the plate and ridge of a

2.2.58. Floor area, net. The sum area of all floors or accessible levels of a building as measured to the perimeter of the exterior faces of the walls, including enclosed porches, but excluding areas used for accessory garage purposes, basement, cellar, closet, and attic areas devoted exclusively to storage and mechanical uses accessory to the operation of the building, off-street loading facilities, malls, plazas, elevator shafts, escalators, stairways and stair landings, and those areas used for the storage, operation or maintenance of mechanical equipment such as air conditioning and heating apparatus. For reasons of convenience, eighty percent (80%) of the gross floor area may be used if this is deemed reasonable in the

2.2.59. Floor area ratio (FAR). In all zones except TOD and CCD, FAR is the ratio of the net floor area of a building to the total area of the lot it is located upon, except that portion of a structure used as an accessory use child care facility is exempted from the floor area ratio (FAR) calculation, and the allowable floor area of such a structure shall be increased by an amount equal to the floor area of the child care facility up to a maximum of ten (10) percent, provided the requirements of M.G.L. Chapter 40A, Section 3 are also met.

In TOD and CCD zones, FAR is the ratio of the gross floor area of a building, excluding the area defined as "Basement", to the total area of the lot it
