### Addendum No. 1 to IFB 24-59

#	Question	Answer
1.	Is the Overseeding being done with a Speed/spike seeder or a Disk/slice seeder?	The Overseeding is being done with a Disc Seeder.
2.	On the overseeding line item will the price include the contractor purchasing the seed or will the City provide?	The Overseeding line item on the price form shall be the price when seed is provided by the City. In the case that seed is purchased from the vendor (when and if needed) the Overseeding line item <u>plus</u> the applicable As Needed Seed line item will be utilized.
3.	Can you please clarify exactly what you are looking for on the recent calibration of seed rates? Our calibration is done for each job depending on the desired seed rate.	This can be calibrated on site prior to seeding with Superintendent or Foreman present.
