## **Addendum No. 2 to IFB 24-56**

**Dear Bid Holders,**

Following are the questions received, and answers provided for IFB 24-56 Removal and Disposal of Street Sweeping Debris:

**Q1.** How many total tons of Street Sweeping debris were disposed of during the period from June 2021 through the end of 2023 for the City of Somerville?

**A1.** 5,590.03 tons.

**Q2.** Can you provide the names and locations of the disposal sites where this Street Sweeping debris was dumped during the same time period?

**A2.** Lynch Construction Disposal Site in Wilmington has closed therefore it needs to be transported to Nashua, NH to an alternate Lynch Site.

**Q3.** Are sweepings to be loaded into the contractor's trucks/trailers by Somerville DPW personnel using Somerville DPW equipment?

**A3.** The Somerville DPW will determine if a machine and operator are required on an as needed basis. In some instances, Somerville will provide a machine and operator. The vendor needs to provide its own machine and operator (see pricing sheet for machine and operator in bid) when requested by the Somerville DPW.

End of Addendum.
