## Addendum No. 2 to IFB 24-56

Dear Bid Holders,

Following are the questions received, and answers provided for IFB 24-56 Removal and Disposal of Street Sweeping Debris:

**Q1.** How many total tons of Street Sweeping debris were disposed of during the period from June 2021 through the end of 2023 for the City of Somerville?

**A1.** 5,590.03 tons.

**Q2.** Can you provide the names and locations of the disposal sites where this Street Sweeping debris was dumped during the same time period?

**A2.** Lynch Construction Disposal Site in Wilmington has closed therefore it needs to be transported to Nashua, NH to an alternate Lynch Site.

**Q3.** Are sweepings to be loaded into the contractor's trucks/trailers by Somerville DPW personnel using Somerville DPW equipment?

**A3.** The Somerville DPW will determine if a machine and operator are required on an as needed basis. In some instances, Somerville will provide a machine and operator. The vendor needs to provide its own machine and operator (see pricing sheet for machine and operator in bid) when requested by the Somerville DPW.

**Q4.** What is short ton mean? Thanks

**A4.** Long or Metric Ton = 2,240 pounds  
Short Ton = 2,000 pounds

End of Addendum.
