Total Amount of Alternate B (Items 01 3004B through 33 1420.1B) inclusive:

\$ _____
(Amount in figures)

(Amount in words)

Total Amount of Bid: Equals total amount of Base Bid plus total amount of Alternates A and B.

\$ _____
(Amount in figures)

(Amount in words)

Determination of the lowest responsible Bidder will be accomplished in the following manner. First, bids for the Base Bid will be compared against available funds (as determined by the Owner). If available funds remain following that comparison, the Alternate Bid will be added to the Base Bid until available funds are exhausted, or all Alternate Items have been added, and the determination of the lowest responsible Bidder will be determined on that basis.

The Owner reserves the right, at any time during the progress of the work, to restore all or part of any items omitted from the initial contract award at the price(s) bid.

The Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informalities in the bidding.
