# Project Overview

# 2025 Projects: Summer St & Medford St

# Accessible Spot Relocation

📍 Tennyson St at Medford St

- The current accessible parking space is located within 20 feet of a crosswalk where clear corner markings are being proposed.
- We propose relocating this accessible space to the adjacent "Parking by Permit Only" area to ensure compliance and improve safety.

# Meter Relocation

📍 Medford St at Sycamore St

- The existing metered space on Medford St is located within a 20-foot no-parking zone which is not in compliance with parking regulations.
- To better support local businesses at the intersection of Medford St and Sycamore St, we propose relocating the meter to the next available "Parking by Permit Only" space on Sycamore St.
