Introduction and Background

The Somerville community has a longstanding and passionate interest in reducing GHG emissions. The City has a goal to become net-zero carbon negative by 2050. Somerville was designated a Green Community in 2011 and a Climate Leader in 2025 by the Massachusetts Department of Energy Resources. In 2021 and 2022, the City was in the top 10% of reporting cities worldwide to receive the highest rating from CDP, thanks to Somerville's commitment to climate action and transparency.

In 2018, the City released its first climate action plan and is currently in the process of updating the plan. The City has also progressed on goals laid out in the Climate Forward plan. Priority areas include buildings, environment, leadership on climate issues, mobility, and community. An overarching strategy to decarbonize the built environment and transportation sector is to electrify as many systems as possible while transitioning to 100% renewable energy generation. One of the noted related actions is assessing the feasibility of carbon neutral district energy systems.

The study would in part build on the findings of the HEET statewide feasibility study, [accessed here](#), as well as [here](#), [Somerville Kick Start report](#), and the [Electrification and Networked Geothermal Feasibility Study](#), which identified three pilot loop projects. The Somerville Networked Geothermal and Electrification Feasibility Study, which examined (1) cost effective electrification pathway towards implementing more efficient electrical distribution infrastructure, and (2) the feasibility of decarbonizing existing building thermal energy needs through a networked geothermal system in particular locations.

Ongoing, climate change-related initiatives of the Mayor's Office of Sustainability and Environment are available at www.somervillema.gov/sustainaville and www.somervillema.gov/climateforward.

Scope of Work

The City of Somerville Office of Sustainability and Environment (OSE) seeks a consultant or team of consultants to determine ideal financing, operation/maintenance, and ownership model for networked geothermal systems.

The objective of this project is to answer the following questions: From legal, technical, and financial perspectives, what ownership, financing, and operations/maintenance model(s) would be most advantageous for the City of Somerville to install networked geothermal systems? What are the tradeoffs between the different models in terms of the aforementioned criteria? Building on previous work, this study will allow the City of Somerville to understand the legal, financial, operational, and regulatory opportunities and challenges associated with a potential networked geothermal project.

The completion of this study is intended to get the city in a position to release RFP/RFQs to design, build, and operate a networked geothermal system in one more locations within the city. The City would be interested in proposals that include factors above and beyond the scope of work to achieve this goal.

Somerville seeks to understand the pros and cons on the different ownership structures and how each will influence the project's procurement and execution strategy. Potential ownership models include, but are not limited to:

- Municipal ownership
- State ownership
- Investor-owned utility ownership
- Private ownership
- A system with blended ownership by any combination of the municipality, the state, investor-owned utilities, or private entities

The selected vendor(s) should provide resources, framing, and facilitation for discussions over whether there is a need for Owner's Representation to oversee the project and how each option contributes to desired standards and objectives.

Somerville also seeks to understand financial aspects of the options, including but not limited to, funding strategies, return-on-investment, economies of scale, and timelines. The selected vendor(s) should describe the enabling legislation and any pertinent regulations for financial, ownership, and O&M decision-making.

- What federal and state tax considerations would be applicable to different ownership models.
- What types of financial model would be most advantageous for the City of Somerville consider along the spectrum of complete municipal ownership, partial municipal ownership with outsourced services, to private/utility-owned with municipal involvement.
- Operating and maintenance model options, pros and cons, cost estimates
- Permitting process and cost estimates for 1-3 sites listed in the Electrification and Networked Geothermal Feasibility Study (Central Hill + any, all, or neither of the other two sites).
- How could different ownership structures accommodate waste heat recovery infrastructure that would interact with existing City-owned or Massachusetts Water Resource Authority-owned wastewater infrastructure. Also interested in assessing willingness of this as applicable through this scope.
- Financing and investment opportunities.

Other factors that should be included:

- A brief description and citation of all applicable federal, state, and local laws and regulations.
- Risk analysis
- Cost-benefit analysis
- What key factors/questions were used to determine the financial, technical, and administrative capacity for different types of municipal business models?
- Consideration for the results of the [Climate Change Vulnerability Assessments 2017, 2024](#).

Data will be provided by the City wherever possible. Consultants are expected to request whether resources exist and if they can have access to data/materials prior to creating them on their own, such as GIS maps with census data. City staff will also support and facilitate interviews and data requests to outside entities as needed. The expectation would be for the consultants to build upon existing resources and information from the city as well as publicly available resources (e.g., [HEET](#) and [VCTN](#) (pg. 20-23)).

Deliverables

1. Two facilitated meetings with key stakeholders to inform the consultant's recommendations, or another amount as noted in the proposal.
2. Maximum 20-page memo of the findings. Each section should be concluded with a call-out box for key takeaways/recommendations, the memo should have an executive summary section and a next steps section with estimates for associated costs and timeline.
3. A Powerpoint detailing the objective, considerations, findings, recommendations, and impact. This should be succinct and ready to share with the public.
4. Resource materials for facilitated meetings and decision-making.
5. One or more facilitated meetings with external finance partners.
6. For each deliverable: Prioritize the use of images over text where able.
7. Key factors and questions considered in determining its administrative and technical capacity for complete or partial ownership of a networked geothermal system.

In the event of any conflict or inconsistency between the City's Standard Contract General Conditions and the Supplemental Conditions, the Supplemental Conditions shall prevail. In the event of any conflict or inconsistency between the provisions of the City's Standard Contract Form or these Standard Contract General Conditions and any other Contract Documents or appendices, the provisions of the City's Standard Contract Form and/or these Standard Contract General Conditions shall prevail. In the event of any conflict or inconsistency between the Contract Documents and any applicable state law, the applicable state law shall prevail.

"Vendor" shall mean the individual, corporation, partnership, or other entity which is a party to this Contract.

2. Performance; Time

The Vendor's performance shall be timely and meet or exceed industry standards for the performance required. It is understood and agreed that all specified times or periods of performance are of the essence of this Contract.

3. Acceptance of Goods or Services

Performance under this Contract shall include services rendered, obligations due, costs incurred, goods and deliverables provided and accepted by the City. The City shall have a reasonable opportunity to inspect all goods and deliverables, services performed by, and work product of the Vendor, and accept or reject same.

The Vendor shall periodically submit invoices to the City, for which compensation is due under this Contract and requesting payment for goods received or services rendered by the Vendor during the period covered by the invoice. The invoice must agree to the rates/payment schedule as indicated in this contract. The invoice shall include the following information: vendor name, vendor remit address, invoice date, invoice number, itemized listing of goods, services, labor, and expenses and indicating the total amount due. Any invoice received past the ninety (90) day date will not be paid. If this Contract is extended, invoices related to the extension period are due no later than ninety (90) days from the Extended Completion Date.

The Vendor shall furnish such information relating to the goods or services or to documentation of labor or expenses as may be requested by the City. Acceptance by the Vendor of any payment or partial payment, without any written objection by the Vendor, shall in each instance operate as a release and discharge of the City from all claims, liabilities, or other obligations relating to the performance of this Contract.

In case of an error in extension prices quoted herein, the unit price will govern (Applicable To Goods Only).

5. Release of City on Final Payment

Acceptance by the Vendor of payment from the City for final delivery of goods or rendering of services under this Contract shall be deemed to release forever the City from all claims and liabilities, except those which the Vendor notifies the City in writing within three (3) months after such payment.

6. Risk of Loss

The Vendor shall bear the risk of loss, for any cause, for any Vendor materials used for this Contract and for all goods, deliverables, and work in process, until possession, ownership, and full legal title to the goods and deliverables are transferred to and accepted by the City.

The Vendor shall pay and be exclusively responsible for all debts for labor and material contracted for by the Vendor for the rental of any appliance or equipment hired by Vendor and/or for any expense incurred on account of services to be performed or goods delivered under this Contract.

The City shall not be liable for any personal injury or death of the Vendor, its officers, employees, or agents.

7. Indemnification

The Vendor shall indemnify, defend (with counsel acceptable to City, which acceptance shall not be unreasonably withheld), and hold harmless the City of Somerville, its officers, employees, agents and representatives from and against any and all claims, suits, liabilities, losses, damages, costs or expenses (including judgments, costs, interest, attorney's fees and expert's fees) arising from or in connection with any act or omission relating in any way to the performance of this Contract by the Vendor, its agents, officers, employees, or subcontractors.

The extent of this indemnification shall not be limited by any obligation or any term or condition of any insurance policy. The obligations set forth in this paragraph shall survive the expiration or termination of this Agreement.

8. Default; Termination; Remedies

A. Events of Default

The following shall constitute events of default under this Contract: (1) The Vendor has made any material misrepresentation to the City; or (2) a judgment or decree is entered against the Vendor approving a petition for an arrangement, liquidation, dissolution or similar relief relating to bankruptcy or insolvency; or (3) the Vendor files a voluntary petition in bankruptcy or any petition or answer seeking any arrangement, liquidation or dissolution relating to bankruptcy, insolvency or other relief for debtors; or (4) the Vendor seeks or consents or acquiesces in the appointment of any trustee or receiver, or is the subject of any other proceeding under which a court assumes custody or control over the Vendor or of any of the Vendor's property; or (5) the Vendor becomes the defendant in a levy of an attachment or execution, or a debtor in an assignment for the benefit of creditors; or (6) the Vendor is involved in a winding up or dissolution of its corporate structure; or (7) any failure by the Vendor to perform any of its obligations under this Contract, including, but not limited to, the following: (i) failure to commence performance of this Contract at the time specified in this Contract due to a reason or circumstance within the Vendor's reasonable control, (ii) failure to perform this Contract with sufficient personnel and equipment or with sufficient material to ensure the completion of this Contract within the specified time due to a reason or circumstance within the Vendor's reasonable control, (iii) failure to perform this Contract in a manner reasonably satisfactory to the City, (iv) failure to promptly re-perform within reasonable time the Services or Supplies that were properly rejected by the City as erroneous or unsatisfactory, (v) discontinuance of the Services or Supplies for reasons not beyond the Vendor's reasonable control, (vi) failure to comply with a material term of this Contract, including, but not limited to, the provision of insurance and nondiscrimination; or (8) any other acts specifically and expressly stated in this Contract as constituting a basis for termination of this Contract.

B. Termination Upon Default.

In the event of a default by the Vendor, the City, acting through its Chief Procurement Officer, may, at its option, terminate this Contract immediately by written notice of termination specifying the termination date.

Notwithstanding the above, in the event of a default by the Vendor, the City, acting through its Chief Procurement Officer, may give notice in writing of a default, which notice shall set forth the nature of the default and shall set a date, by which the Vendor shall cure the default, subject to approval of the City.

If the Vendor fails to cure the default, the City, in the alternative, may make any reasonable purchase or contract to acquire goods or services in substitution for those due from Vendor. The City may deduct the cost of any substitute contract or nonperformance together with incidental and consequential damages from the Contract price and shall withhold such damages from sums due or to become due to the Vendor. If the damages sustained by the City exceeds sums due or to become due, the Vendor shall pay the difference to the City upon demand.

Upon immediate notification to the other party, neither the City nor the Vendor shall be deemed to be in default for failure or delay in performance due to Acts of God or other causes factually beyond their control and without their fault or negligence. Subcontractor failure to perform or price increases due to market fluctuations or product availability will not be deemed factually beyond the Contractor's control. The City retains all rights and remedies at law or in equity.

If the Vendor fails to cure the default within the time as may be required by the notice, the City, acting through its Chief Procurement Officer, may, at its option terminate the Contract.

The parties agree that if City erroneously or unjustifiably terminates this Contract for cause, such termination shall be deemed a termination for convenience, which shall be effective thirty (30) days after such notice of termination for cause is provided.

C. Termination For Convenience.

Notwithstanding any language to the contrary within this Contract, the City, acting through its Chief Procurement Officer, may terminate this Contract, without cause at any time, effective upon the termination date stated in the notice of termination. In the event of termination for convenience, the Vendor shall be entitled to be paid for goods delivered and accepted and services rendered and accepted prior to notice of termination at the prices stated in the Contract, subject to offset of sums due the Vendor against sums owed by the Vendor to the City. Any goods or services delivered after notification of termination but prior to the effective termination date must be approved in writing in advance by the City in order to be eligible for payment. In no event shall the Vendor be entitled to be paid for any goods or services delivered after the effective date of termination. The Vendor shall be entitled to no other compensation of any type. In no case shall a Vendor be entitled to lost profits.

D. Obligations Upon Termination.

Upon termination of this Contract with or without cause, the Vendor shall immediately, unless otherwise directed by the City: 1. cease performance upon the stated termination date; 2. surrender to the City the Vendor's work product, which is deliverable under the Contract, whatever its state of completion; and 3. return all tools, equipment, finished or unfinished documents, data, studies, reports, correspondence, drawings, plans, models, or any other items whatsoever prepared by the Vendor pursuant to this Contract, which shall become property of the City, or belonging to or supplied by the City.

E. Rights and Remedies.

The City shall have the right to: a) disallow all or any part of the Vendor's invoices not in material compliance with this Contract; b) temporarily withhold payment pending correction by the Vendor of any deficiency; c) sue for specific performance or money damages or both, including reasonable attorneys' fees and costs incurred in enforcing any Vendor obligations hereunder; d) pursue remedies under any bond provided; and e) pursue such other local, state and federal actions and remedies as may be available to the City.

Any termination shall not effect or terminate any of the rights or remedies of the City as against the Vendor then existing, or which may accrue because of any default. No remedy referred to in this subsection is intended to be exclusive, but shall be cumulative, and in addition to any other remedy referred to above or otherwise available to the City or Vendor at law or in equity. The Vendor shall not gain nor assert any right, title or interest in any product produced by the Vendor under this Contract.

9. Insurance

The Vendor shall comply with all insurance requirements set out in the Contract Documents. The Vendor shall deliver to the City new certificates of insurance at least ten (10) calendar days prior to expiration of the prior insurance and shall furnish the City with the name, business address and telephone number of the insurance agent. All alterations or additions, material or otherwise, to the terms and conditions of this Contract must be in writing and signed by the City, as set forth in the below section, and the Vendor.

13. Conditions of Enforceability Against the City

This Contract and payments hereunder are subject to the availability of an appropriation therefor. Any oral or written representations, commitments, or assurances made by any City representatives are not binding. Vendors should verify funding and contract execution prior to beginning performance.

When the amount of the City Auditor's certification of available funds is less than the face amount of the Contract, the City shall not be liable for any claims or requests for payment by Vendor which would cause total claims or payments under this Contract to exceed the amount so certified.

The City's Standard Contract Form and Standard Contract General Conditions shall supersede any conflicting verbal or written agreements or forms relating to the performance of this Contract, including contract forms, purchase orders, or invoices of the Vendor.

The City shall have no legal obligation to compensate a Vendor for performance that is outside the scope of this Contract. The City shall make no payment prior to the execution of a Contract.

18. Waiver

All duties and obligations contained in this Contract can only be waived by written agreement. Forbearance or indulgence in any form or manner by a party shall not be construed as a waiver, nor in any way limit the legal or equitable remedies available to said party.

19. Severability

In the event that any provision of this Contract shall be held to be illegal, unenforceable or void, such provision shall be severed from this Contract and the entire Contract shall not fail on account thereof, but otherwise remain in full force and effect and shall be enforced to the fullest extent permitted by law.
