#	Question	Answer
1	Pricing for apprentice classification- We would like to ask if it is mandatory to use a price per hour for the apprentice, whether we plan to use an apprentice or not.	The apprentice rate makes up part of the bid total. Even if you do not intend to use apprentices under the contract, all bidders must bid an apprentice rate
2	In Section C, it states that we must provide a price for Section A + Section B + Section C. However, should the total in Section C instead reflect the sum of Section A + Section B? We kindly ask you to please clarify whether this interpretation is correct.	Annual Total Section A + Annual Total Section B is correct.
3	Regarding the Markup/Discount Amount, is a value of 0 acceptable?	Yes
4	What is the warranty period?	The Contractor will warrant all labor and materials for a period of one (1) year from the project completion date.
