New Electric Vehicle Charging Stations Regulation Requests

**Item #3** – Request to change parking regulations to allow the installation of four new Electric Vehicle (EV) Charging Stations at the Mt. Vernon parking lot, Oliver St, and the Foss Park Parking Lot.

- a) Request to convert the third and fourth meters in the Mt. Vernon parking lot to electric vehicle charging only spaces served by a dual-port Level II EV charging station. The meters will remain active but will be restricted for use by actively charging electric vehicles only.
- b) Request to convert two resident permit parking spaces on the south side of Oliver Street, closest to the intersection with Knowlton Street, to electric vehicle charging only spaces served by a dual-port Level II EV charging station. These spaces will be restricted for use by actively charging electric vehicles only, with a permit required, 3-hour limit.
- c) Request to convert the four westernmost spaces in the Foss Park parking lot to electric vehicle charging only spaces served by two dual-port Level III Fast EV charging stations. These spaces will be restricted for use by actively charging electric vehicles only, 3-hour limit.
