

To whom it may concern:

This application is for the demolition and removal of an existing detached accessory shed located at 18 Otis St, Somerville, MA

The structure is a small wood-framed storage shed situated in the rear yard. The shed is no longer needed for its original purpose and has reached the end of its useful life. The proposed work consists of complete demolition and removal of the shed, including its concrete slab and disposal of all demolition debris at an approved facility.

No changes are proposed to the principal dwelling or any other existing structures on the property as part of this application.

The demolition work will be performed in accordance with applicable City of Somerville requirements and safety regulations.
