DECISION: Certificate of Appropriateness
DECISION ISSUED: September 16, 2026

This decision summarizes the findings made by the Historic Preservation Commission (HPC) or their designee regarding the Local Historic District property at 23 Chester Street.

SCOPE OF WORK

- In-kind replacement of windows and doors on basement and upper story porch.
- In-kind siding replacement of cedar shingles.

DETERMINATION

Under the Somerville Historic Districts Ordinance (HDO) proposed alterations of Local Historic District (LHD) properties must conform to specific criteria set out in the *Design Guidelines*. In the instance of 23 Chester Street, the proposal meets the following criteria set out in *Design Guideline Section I, General Approach and item A: Exterior Walls & C: Windows and Doors* which read(s) as follows:

Item A: Exterior Walls

- b) Retain and repair, when necessary, replace deteriorated material which matches as closely as possible.*

Item C: Windows and Doors

- a) Retain original and later important door and window openings where they exist. Do not enlarge or reduce door and window openings for the purpose of fitting stock window sash or doors, or air conditioners.*
- b) Whenever possible, repair and retain original or later important window elements such as sash, lintels, sill, architraves, glass, shutters and other decorative elements and hardware. When replacement of materials or elements is necessary, it should be based on physical or documentary evidence. If aluminum windows must be installed, select a baked finish that matches as closely as possible the color of the existing trim. Investigate weather-stripping and storm windows with a baked enamel finish as an alternative to the replacement of historic sash.*

Due to the description of the work, the images of the doors, and materials submitted by the Applicant, and the provisions set forth in the Historic District Ordinance (HDO) and related Design Guidelines, the Applicant is granted a **Conditional Certificate of Appropriateness**.

CONDITIONS

1. The Applicant shall obtain all necessary permits for this project through the Inspectional Services Department (ISD) and must attach this Certificate to any other such permit applications.
2. This Certificate is for the above-described work only. Any changes to this proposal must be requested by submitting a new application to Citizen Serve for a Historic Alteration.
3. Approved work must commence within one year of issuance of this Certificate. If work does not commence within one year, the Applicant/Owner is required to submit an application for Historic Alteration through Citizen Serve and request that the Certificate be re-issued.
