

BUILDING BASE, PARTIAL PERSPECTIVE

BUILDING MID-SECTION, PARTIAL PERSPECTIVE

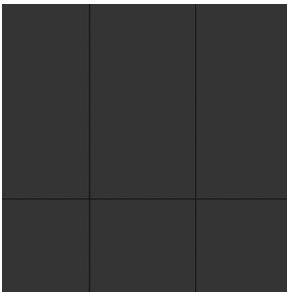

BUILDING TOP, PARTIAL PERSPECTIVE

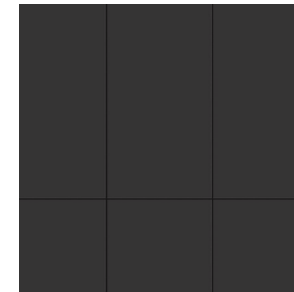

Metal panel cladding along bottom two levels with no weave, dark gray color, creates identifiable 'base' to building.

Potential signage locations shown dotted. Signage flush with building facade, repeating muted color scheme.

Metal panel cladding, dark gray thick bands separate each floor, with the added effect of concealing the structure. The panels alternate with glazing and also form louvers across the facade for solar protection.

Metal panel cladding, dark gray color, applied to penultimate spandrel in weave pattern. Accentuates top of building.

Same metal cladding used as screening around mechanical penthouse. Penthouse is set back from the facade line.
